Overlay and Special District Information:

"AHOD"

All surrounding properties carry the "AHOD" Airport Hazard Overlay District, due to their proximity to an airport or approach path. The "AHOD" does not restrict permitted uses, but can require additional review of construction plans by both the Development Services Department and the Federal Aviation Administration.

“NCD-5”

The Beacon Hill Neighborhood Conservation District (NCD-5) is an overlay zoning district that contains design guidelines for rehabilitation of existing residential and commercial development. Property owners, together with the Department of Planning and Community Development staff, develop the design guidelines. These guidelines can address building materials, height, size, massing, signage, sidewalk location, etc. A

zoning review is performed by the Zoning Section of the Development Services Department.

ISSUE:

None.

ALTERNATIVES:

Denial of the requested zoning change would result in the subject properties retaining the present base zoning district designation of “R-6,” which allows single-family dwellings (detached) with a minimum lot size of 6,000 square feet and a minimum lot width of 50 feet, as well as foster family home, and public/private schools.

FISCAL IMPACT:

None.

Proximity to Regional Center/Premium Transit Corridor

The subject property is within ½ a mile of the Midtown Regional Center.

RECOMMENDATION:

Staff Analysis and Recommendation: Staff and Zoning Commission (9-0) recommend Approval.

Criteria for Review: According to Section 35-421, zoning amendments shall be based on the approval criteria below.

1. Consistency:

The property is located within the Midtown Neighborhoods Plan, and is currently designated as “Medium Density Residential” in the future land use component of the plan. The requested “R-6” base zoning district is consistent with the future land use designation.

2. Adverse Impacts on Neighboring Lands:

Staff finds no evidence of likely adverse impacts on neighboring lands in relation to this zoning change request. Surrounding properties consist of single-family and multi-family development. The rezoning for six (6) residential units is consistent with the area and is a moderate request when compared with the adjacent “MF-33.”

3. Suitability as Presently Zoned:

The current “R-6” Residential Single-Family is an appropriate zoning for the property and surrounding area. The proposed “IDZ” allows for single-family development at a slightly higher density. It is also a suitable density for a property located along Blanco Road.

4. Health, Safety and Welfare:

Staff has not found indication of likely adverse effects on the public health, safety, or welfare.

5. Public Policy:

The rezoning request does not appear to conflict with the land use goals and strategies of the Midtown Neighborhoods Plan.

Goals:

- Objective 2.2: Housing Character Maintain the historic character of the neighborhoods’ housing while building on the increased demand for area homes to attract reinvestment by new families.
- Objective 2.3: Home Improvement and Maintenance Improve the condition, appearance and maintenance of the neighborhoods’ housing and yards.
- Objective 2.1: Neighborhood Appearance/ Streetscape/Landscape Preserve and enhance the neighborhood character and pedestrian-friendly environment.

The proposed rezoning meets the following criteria:

- The applicant’s request the Master Plan’s Policy for Neighborhoods - Policy 1a, because it rezones vacant or underutilized property in and around neighborhoods to encourage redevelopment that is compatible in use and intensity with the existing neighborhood.
- The applicant’s request the Master Plan’s Policy for Neighborhoods - Policy 1d, because it promotes conversion or adaptive reuse of vacant or underutilized commercial buildings to provide affordable infill housing.
- The applicant’s request the Master Plan’s Policy for Neighborhoods - Policy 4a, because it preserves and revitalizes housing and promotes targeted infill housing in neighborhoods, particularly older neighborhoods located inside Loop 410.
- The applicant’s request the Master Plan’s Policy for Urban Design - Policy 1d, because it develops criteria and procedures for infill development which will enhance the character of neighborhoods.

6. Size of Tract:

The subject property is 0.310, which would adequately support low and medium density residential uses.

7. Other Factors:

Infill Development Zone (IDZ) provides flexible standards for developments. IDZ is to encourage and facilitate development on vacant, bypassed lands, or the redevelopment of underutilized buildings or structures, within existing built-up areas. IDZ may be approved as either a base zoning district or an overlay zoning district. Standards required in an IDZ district shall apply to either IDZ base zoning or the IDZ overlay district except where otherwise specifically stated. Typically IDZ gives flexibility to parking requirements, lots sizes, and setbacks.

- The applicant’s request meets the Master Plan’s Policy for Growth Management - Policy 1g, because it makes physical improvements on an inner city property encouraging redevelopment and infill development.
- The applicant’s request the Master Plan’s Policy for Neighborhoods - Policy 2b, because it creates mixed-use

districts.

- The applicant's request the Master Plan's Policy for Urban Design - Policy 1d, because it develops criteria and procedures for infill development which will enhance the character of neighborhoods.
- The applicant's request the Master Plan's Policy for Urban Design - Policy 4b, because it incentivizes property to encourage development in underutilized urban areas.
