

MEMORANDUM OF UNDERSTANDING

This Preliminary Memorandum of Understanding (“Memorandum”) is entered into as of the 1st day of October, 2016, by and among the U.S. Housing and Urban Development (HUD) TX-500 Homeless San Antonio/Bexar County Continuum of Care Collaborative Applicant: South Alamo Regional Alliance for the Homeless (SARAH), City of San Antonio Department of Human Services (DHS) and City of San Antonio Police Department (SAPD).

1. Purpose of Memorandum.

SARAH is comprised of 17 local member agencies, including four officers (President, Vice President, Secretary and Treasurer) dedicated to providing services to those that are homeless or at risk of homelessness, with the goal of reducing the number of people living on the streets and shelters in San Antonio/Bexar County. Funding from the City of San Antonio will assist SARAH in accomplishing the administrative functions required by HUD to maintain and increase long-term HUD funding levels.

The purpose of this Memorandum is to pursue a HUD Continuum of Care (CoC) Notice of Funding Availability Planning Grant Application (“Planning Grant”), which would provide funding for a one year planning process (the “Planning Period”) to create a structured Housing First Service Plan utilizing SARAH administration and coordination along with Corporation for Supportive Housing (CSH) consulting services. City of San Antonio will allow SARAH to utilize cash match in the form of contract award and in-kind match in the form of staff salaries to draw down on the funding and which will provide SARAH the stability to move forward as an organization.

Contracted cash match and staff salaries in-kind match will include completed assessment review of homeless shelters and housing services support offering collaborative partner housing

placement recommendations based on current collaborative partner available housing inventory bed stock. As required by the Planning Grant under the CoC Program, this Memorandum describes:

- (i) Each Party's commitment to the project's vision, theory of change, and theory of action, and to the alignment of each Party's existing activities with those of the proposed SARA CoC Housing First Service Plan;
- (ii) Each Party's financial and programmatic commitments; and
- (iii) The governance structure of SARA CoC, including how the Board of Directors is representative of the geographic area proposed to be served, and how residents of the geographic area would have an active role in the organization's decision-making.

2. Project Background.

Funding from the City of San Antonio will allow SARA to contract with CSH to complete an assessment of current homeless shelter and housing services, make recommendations on what the mix of shelter/housing should look like, and strategies to help us get there. Special emphasis will be placed on increasing Permanent Supportive Housing opportunities for those individuals that may not be able live independently.

Representatives from each of the Parties convene at a series of monthly and strategic planning meetings to discuss approaches for a more effective and efficient integration of housing, length of stay, supportive services, and sustainability to reduce homeless recidivism, and reinvestment initiatives in San Antonio's inner-city communities. After recognizing the extensive partnership initiatives already in place, the Parties chose to first focus this collaboration on San Antonio's homeless veterans located at downtown local shelters, or at Haven for Hope Campus. Between

January 2015 and August 2016, 1,509 veterans have been housed or are in process of being housed. The goal now is to target chronic individuals, families and youth for rapid housing placement based on a service plan utilizing collaborative partner agency resources. Despite these challenges, the Parties see great potential in making improved housing outcomes the centerpiece for the homeless in our community.

3. Vision, Theory of Change, and Theory of Action of SARAH

SARAH enjoys a close working relationship with CSH staff and has been working with them on Coordinated Entry, the Mayor's Challenge to end Veteran Homelessness and several other projects. This contract management agreement will be a natural extension of current projects to assist in developing a system that will end homelessness in San Antonio/Bexar County.

The Parties' vision for the CoC Homeless Service Plan is a stable, safe, and economically vibrant community full of sustainable, high achieving homeless individuals and families who will maintain housing through case management, supportive services, employment assistance and self-sufficiency. The goal is to create trainings through capacity building, project specific technical assistance to supportive housing project partners, development of project planning guidance, and identifying financial support resources to jumpstart supportive housing production. Our theory of change posits that the most effective way to break the cycle of poverty and neighborhood decline is to focus primarily and intensely on programmatic awareness and community support, by providing homeless individuals and families with an unbroken continuum of wraparound services from the streets to permanent housing. Our theory of action is to engage each of the Parties, along with the collaborative partner agencies (and the community) during the Planning Period to objectively quantify the community's needs and assets, and propose a plan for the implementation of a continuum of opportunities and services

that will result in improved educational outcomes and support high barrier homeless needs. We expect to eliminate homelessness, thereby stabilizing the community and ultimately creating an opportunity for reinvestment and neighborhood transformation.

4. Financial Commitments.

A. Cash Match. DHS has given preliminary approval for **\$50,000** in City General Funds to be used as matching funds for the SARAH Contract Administration. City of San Antonio Department of Human Services Contract services = **\$48,000** and **\$2,000** in Operational support. This amount represents the full amount of the CSH contract to map the homeless services system and identify any gaps in services and housing. Furthermore, DHS has given a preliminary approval for **\$25,000** in City General Funds to be used as matching funds for SARAH Administrative Operations, pending award by City Council.

These funds are to be used to leverage the community impact work being conducted by the SARAH in coordination with CSH.

B. In Kind Contributions.

Coordinated Entry Grant: City of San Antonio Department of Human Services salary and benefits committed = **\$25,000**. This amount represents the activities the Homeless Veteran Coordinator spends on CoC related activities such as veteran program planning for Coordinated Entry. These activities include the Veterans Working Group meetings, research and reporting on the Homeless Veteran project, meetings with CoC and CoC partner agencies in planning meetings such as the Coordinated Entry Committee, other related CoC Coordinated Entry support activities. HUD may require the City to provide payroll and/or time tracking to support the in kind contributions.

Planning Grant: City of San Antonio Department of Human Services Salary and Benefits committed = **\$12,000**. This amount represents the value of the activities of the Special Projects Manager assigned to Homeless programs spends in support of CoC activities. HUD may require the City to provide payroll and/or time tracking to support the in kind contributions.

San Antonio Police Department (SAPD) Salary and Benefits = **\$9,000**. This amount represents the value of the activities of police department to ensure the safety of the volunteers conducting the annual Point in Time Count.

No Party will be obligated to spend any money or pledge any in kind contributions on this project or any other matter in connection with this Memorandum, other than the dollar amounts and in kind contributions specifically listed above.

5. Preliminary Overview of Planning Period

The Planning Period will consist of a series of well-organized steps delineated in the proposal narrative that will culminate in the creation of a continuum of organized sequential and responsive solutions, with oversight by the SARA Continuum of Care Board of Directors. The Board of Directors will construct a continuum of solutions that addresses each program or project need indicator determined during the planning process. The solutions will likely feature a combination of programs, policies, and services (“Programs”) selected for their capacity to stimulate achievement of the future grant project’s developmental, school, and community goals. Before the end of the Planning Period, SARA, with the Board of Directors approval, will construct a multi-year plan for implementing the selected solutions and developing the data management component, with the goal of significantly improving chronic homeless individuals and family outcomes of all identified homeless persons within our San Antonio/Bexar County, thus transforming the community.

6. Planning Period Commitments

The City of San Antonio plans to execute the contract October 1, 2016 and will manage the SARAH Contract Agreement and provide administrative support to ensure the contracts' statement of work aligns with the project scope throughout the duration of the contract term through September 30, 2017.

A. City of San Antonio DHS: commits \$12,000 staff salary to ensure project accountability, governance and sustainability of one special projects management staff with federal, state and foundation grants management experience; offers its long-standing experience with administering governmental and foundation grants; commits to work within the City and corporate partners to provide SARAH Continuum of Care background assistance and permanent supportive housing and sustainability policy recommendations and housing research to improve financial self-sufficiency and capacity of homeless individuals and families. DHS also commits \$25,000 of one senior management coordinator staff salary to support the homeless veteran coordination and time spent on CoC related veteran program, coordinated entry access planning, and further commits to homeless veteran housing and supportive service coordination to expedite housing placement process.

B. City of San Antonio Police Department, through the CoC Continuum of Care grant funds, commits \$9,000 of SAPD staff salary which represents supportive services activities to ensure the safety of the annual 2017 Homeless Point In Time Count performed by Volunteers planned for January 2017.

C. SARAH commits coordination with Collaborative Applicant responsibilities prior to HUD established deadlines in Collaborative Applicant administrative support, Planning Grant

coordination and alignment with set contract agreement timelines for completion of project scope.

7. Commitment to Sharing Data

Subject to applicable laws and regulations, all Parties agree to share aggregate Homeless Management Information System (HMIS) data as requested to meet the needs of the proposed project implementation.

8. Commitment to Cooperate with Parties

All Parties are committed to fully cooperate and work with CSH and with SARA. The SARA CoC Program Manager will ensure access to relevant program and project data sources (e.g., administrative data and program and project indicator data). The CoC Program Manager also will work with the Parties to ensure the evaluator has a credible comparison group and a plan for collecting reliable, valid baseline data for both program participants and the comparison group.

**DELEGATE AGENCY CONTRACT

Project QUEST, Inc.

CITY OF SAN ANTONIO *

This Contract is entered into by and between the City of San Antonio (hereinafter referred to as "City"), a Texas Municipal Corporation, acting by and through its Director of the Department of Economic Development pursuant to Ordinance No. _____, dated _____, and the Project QUEST, Inc., (hereinafter referred to as "Contractor").

WITNESSETH:

WHEREAS, the Economic Development Department is designated as the managing City department (hereinafter referred to as "Managing City Department") for the City; and

WHEREAS, the City has provided certain funds from the City of San Antonio General or Grant Fund Operating Budget (hereinafter referred to as "General Fund" or "Grant Fund," as applicable) for Workforce Development services; and

WHEREAS, the City has adopted a budget for the expenditure of such funds, and included therein is an allocation of \$2,000,000 for a project entitled "Project QUEST" (hereinafter referred to as the "Project"); and

WHEREAS, the City wishes to engage the Contractor to carry out the Project; NOW THEREFORE:

The parties hereto agree as follows:

I. SCOPE OF WORK

- 1.1 The Contractor will provide, oversee, administer, and carry out all activities and services in a manner satisfactory to the City and in compliance with the **Scope of Work** and **Scorecard** attached hereto and incorporated herein for all purposes as Attachment I.

II. TERM

- 2.1 Except as otherwise provided for pursuant to the provisions hereof, this Contract shall begin on **October 1, 2016** and shall terminate on **September 30, 2017**.

III. CONSIDERATION

- 3.1 In consideration, the City will reimburse Contractor for costs incurred in accordance with the budget approved by City Council of San Antonio in the above referenced Ordinance, and all subsequently authorized amendments to that budget. Said budget is attached hereto and incorporated herein for all purposes as Attachment II. It is specifically agreed that reimbursement hereunder shall not exceed the total amount of **\$2,000,000**.
- 3.2 The funding level of this Contract is based on an allocation from the following funding sources:

X

General Fund

Consequently, Contractor agrees to comply with the **Funding Guide**, attached hereto and incorporated herein for all purposes as Attachment III.

- 3.3 Contractor understands and agrees that the funds provided to Contractor from the City's Consolidated Human Development Funding Services Pool shall represent a limited percentage of Contractor's total agency revenues and expenses for the contract term, which percentage is established by City Council and is subject to change. The percentage of the total agency revenues and expenses derived from sources other than City funds is sometimes referred to as the agency's "match" requirement. Contractor's total agency revenues and expenses derived from non-City sources and from the City is Contractor's Total Budget. Contractor shall comply with any matching fund requirements set by City Council that apply to Contractor's contract, regardless of when such requirements are passed. If Contractor receives an aggregate amount of \$1,000,000.00 or more in City funds from all City funded contracts, then Contractor shall obtain thirty-five percent (35%) of its Total Budget from non-City sources (i.e., no more than sixty-five percent (65%) of its Total Budget is derived from the City). If Contractor receives less than an aggregate amount of \$1,000,000.00 in City funds from all City funded contracts, then Contractor shall obtain fifty percent (50%) of its Total Budget from non-City sources (i.e., no more than fifty percent (50%) of its Total Budget is derived from the City). City shall require sufficient evidence that such funding is in place with Contractor's annual program budget prior to contract execution. Contractor understands that City shall have no obligation to provide any funds hereunder until Contractor demonstrates having secured the percentage of matching funds required of Contractor. Contractor understands and acknowledges that Pell grants and other awards received by individuals shall not count toward its matching fund requirements. Additionally, Contractor understands and acknowledges that in-kind contributions shall not count toward its matching fund requirements. Contractor shall provide acceptable evidence, as determined solely by the City, that Contractor has expended a funding amount from non-City funds equal to or greater than the applicable matching funds percentage requirement. City reserves the right to make a request at the end of each quarter throughout the Contract term for evidence that Contractor has expended or is on course to expend the applicable percentage of funds constituting its match prior to the end of the Contract term. If Contractor does not provide City with acceptable evidence that funds have been expended as required herein, Contractor understands and agrees that City may reduce or recapture pursuant to 4.1 the amount of City funds provided to Contractor in order to comply with the required expenditure ratio of non-City funds to the Total Budget, without first obtaining the approval of City Council.
- 3.4 It is expressly understood and agreed by the City and Contractor that the City's obligations under this Contract are contingent upon the actual receipt of adequate General or Grant Fund revenue, as applicable, to meet City's liabilities hereunder. Should City not receive sufficient funds to make payments pursuant to this Contract or should awarded Grant Funds be reduced, City shall notify Contractor in writing within a reasonable time after such fact has been determined and may, at its option, either terminate this Contract or reduce the Scope of Work and Consideration accordingly.
- 3.5 Contractor shall provide a seat on its Board of Directors for the mayor or her designee.

IV. PAYMENT

- 4.1 Contractor agrees that this is a cost reimbursement contract and that the City's liability hereunder is limited to making reimbursements for allowable costs incurred as a direct result of City-funded services provided by the Contractor in accordance with the terms of this Contract. Allowable costs are defined as those costs which are necessary, reasonable and allowable under applicable federal, state, and local law, including but not limited to those laws referenced in Section XII hereof, for the proper administration and performance of the services to be provided under an agreement. All requested reimbursed costs must be consistent with the terms and provisions of the approved budgeted line items described in Attachment II of this Contract, unless (a) a subsequent budget revision has been approved and signed by the Director of the Managing City Department or designee in cases where the total Contract Budget remains the same, or (b) a Contract amendment has been approved and signed by the Director of the Managing City Department pursuant to

Section 24.1 of this Contract in cases where there is an increase or decrease to the total Contract Budget. Approved budget revisions and Contract amendments modify the Budget attached hereto, and in such cases Contractor's requested reimbursed costs must be consistent with the last revised, approved budget. Approved budget revisions and Contract amendments supersede prior conflicting or inconsistent agreements with regard to the referenced Project Budget, and all references in the Contract to the budget shall mean the budget as revised through approved budget revisions or Contract amendments. In no event shall the City be liable for any cost of Contractor not eligible for reimbursement as defined within the Contract. Contractor shall remit to City within ten (10) business days after the City makes the request for remittance any funded amounts which were paid pursuant to this Article IV and used to cover disallowed costs. Any such amounts not remitted within ten (10) business days may, at City's option, be subject to offset against future funding obligations by City. For purposes of this Contract, the term, "business day" shall mean every day of the week except all Saturdays, Sundays and those scheduled holidays officially adopted and approved by the San Antonio City Council for City of San Antonio employees.

- 4.2 If specific circumstances require an advance payment on this Contract, Contractor must submit to the Director of the Managing City Department a written request for such advance payment, including the specific reason for such request in the form prescribed by the City. Contractor agrees that the City shall not be obligated to pay for any advances requested. In those instances in which advance payments are authorized, the Director of the Managing City Department may, in the Director's sole discretion, approve an advance payment on this Contract. It is understood and agreed by the parties hereto that (a) each request requires submission to the Director of the Managing City Department no less than ten (10) business days prior to the actual ostensible cash need; (b) each request will be considered by the Director of the Managing City Department on a case-by-case basis, and (c) the decision by the Director of the Managing City Department whether or not to approve an advance payment is final. In those instances in which advance payments are authorized:

- (A) Contractor's payments to its vendors using funds advanced by the City shall be remitted to the vendors in a prompt and timely manner, defined as not later than ten (10) calendar days after the Contractor is notified that an advance payment check is available from the City, so long as services have been performed by the subject vendor.
- (B) The Contractor must deposit City funds in an account in a bank insured with the Federal Deposit Insurance Corporation (FDIC). In those situations where Contractor's total deposits in said bank, including all City funds deposited with said bank, exceed the FDIC insurance limit, the Contractor must arrange with said bank to automatically have the excess collaterally secured. A written copy of the collateral agreement must be obtained by Contractor from the Contractor's banking institution, maintained on file and be available for City monitoring reviews and audits. Advanced funds that cause the Contractor's account balance to exceed the FDIC limit shall be deposited in a manner consistent with the Public Funds Investment Act (Chapter 2256 of the Texas Government Code) as amended. Contractor shall maintain the FDIC insured bank account in which City funds are deposited and its recordkeeping in a manner that will allow City to track expenditures made pursuant to this and all other City contracts.
- (C) The City may, in its sole discretion, either deduct from monthly reimbursements amounts necessary to offset the amount advanced based upon the number of months remaining in the Contract term, or from a single subsequent monthly reimbursement the full amount previously advanced to Contractor. The City may consider factors such as projected allowable costs and other indicators such as Contractor's financial stability. Contractor shall maintain a financial management system to account for periodic, or a lump sum, deduction from reimbursements.

- 4.3 Contractor shall submit to City no later than the fifteenth (15th) of every month a monthly Request for Payment in the form prescribed by City, which details the specific costs (by category and by program account number) Contractor expensed in the previous month for the services delivered as described in Article I herein, including supporting documentation of such costs as may be required by the Director of the Managing City Department. The Request for Payment shall also specify the Program Income (as defined herein) received or projected during the same time period. The Director of the Managing City Department

may require the Contractor's submission of original or certified copies of invoices, cancelled checks, Contractor's general ledger and/or receipts to verify invoiced expenses.

- 4.4 City shall make reimbursement payments of eligible expenses to the Contractor of any undisputed amounts as determined by the Director of the Managing City Department in accordance with established procedures, so long as City receives a properly completed and documented Request for Payment. City shall make payment to Contractor within 30 calendar days of receiving a valid and approved Request for Payment.
- 4.5 The Contractor shall submit to City all final requests for payment no later than 45 days from the expiration or early termination date of this Contract, unless Contractor receives written authorization from the Director of the Managing City Department prior to such 45 day period allowing Contractor to submit a request for payment after such 45 day period.
- 4.6 Contractor agrees that the City shall not be obligated to any third parties of Contractor (including any subcontractors or third party beneficiaries of Contractor) under this Contract.
- 4.7 Contractor agrees that administrative overhead costs may not exceed twenty percent (20%) of the funding provided pursuant to this Contract. Contractor shall submit detailed administrative costs by line item with its annual program budget prior to Contract execution by the deadline established by the City.
- 4.8 Contractor shall maintain a financial management system, and acceptable accounting records that provide for:
 - (A) accurate, current, and complete disclosure of financial support from each federal, state and locally sponsored project and program in accordance with the reporting requirements set forth in Article VIII of this Contract. If accrual basis reports are required, the Contractor shall develop accrual data for its reports based on an analysis of the documentation available;
 - (B) identification of the source and application of funds for City-sponsored activities. Such records shall contain information pertaining to City awards, authorizations, obligations, un-obligated balances, assets, equity, outlays, and income;
 - (C) effective control over and accountability for all funds, property, and other assets. The Contractor shall adequately safeguard all such assets and shall ensure that they are used solely for authorized purposes. Contractor shall maintain an accounting system that can separate funds by funding source and project;
 - (D) comparison of actual outlays with budget amounts for each award. Whenever appropriate or required by the City, financial information should be related to performance and unit cost data;
 - (E) procedures to minimize the time elapsing between the transfer of funds from the City and the disbursement of said funds by the Contractor;
 - (F) procedures for determining reasonable, allowable, and allocable costs in accordance with the provisions of any and all applicable cost principles, including but not limited to the cost principles referenced in Section XII hereof, and the terms of the award, grant, or contract, with the City;
 - (G) supporting source documentation (i.e., timesheets, employee benefits, professional services agreements, purchases, and other documentation as required by City); and
 - (H) an accounting system based on generally acceptable accounting principles which accurately reflects all costs chargeable (paid and unpaid) to the Project. A Receipts and Disbursements Ledger must be maintained. A general ledger with an Income and Expense Account for each budgeted line item is necessary. Paid invoices revealing check number, date paid and evidence of goods or services received are to be filed according to the expense account to which they were charged.

- 4.9 Contractor agrees that Contractor costs or earnings claimed under this Contract may not be claimed under another contract or grant from another agency, organization, business entity or governmental entity.
- 4.10 Contractor shall establish and utilize a cost allocation methodology and plan which ensures that the City is paying only its fair share of the costs for services, overhead, and staffing not solely devoted to the Project funded by this Contract. The Cost Allocation Plan and supportive documentation shall be included with Contractor's annual program budget prior to Contract execution by the deadline established by the City. The Cost Allocation Plan is a plan that identifies and distributes the cost of services provided by staff and/or departments or functions. It is the means to substantiate and support how the costs of a program are charged to a particular cost category or to the program.
- 4.11 Upon expiration or early termination of this Contract, or at any time during the term of this Contract, all unused funds, rebates, or credits on-hand or collected thereafter relating to the Project, must immediately, upon receipt, be returned by Contractor to the City. Upon expiration or early termination of this Contract, all advance payments exceeding allowable costs incurred during the Contract term or for which Contractor fails to deliver services as consideration and as specified under the Contract shall be returned within twenty (20) calendar days of written notification to Contractor of the need for reimbursement.
- 4.12 Upon execution of this Contract or at any time during the term of this Contract, the City's Director of Finance, the City Auditor, or a person designated by the Director of the Managing City Department may review and approve all Contractor's systems of internal accounting and administrative controls prior to the release of funds hereunder.
- 4.13 Contractor agrees that prior to the payment of any funds under this Contract, and throughout the term of this Contract, Contractor shall maintain financial stability and operate in a fiscally responsible and prudent manner. Contractor agrees that the City may immediately terminate this Contract if the City finds, as solely determined by the City, that Contractor is in such unsatisfactory financial condition as to endanger performance under this Contract. The City may consider evidence such as the apparent inability of Contractor to meet its financial obligations and items that reflect detrimentally on the credit worthiness of Contractor. Relevant factors include, but are not limited to, pending litigation, liens and encumbrances on the assets of Contractor, the appointment of a trustee, receiver or liquidator for all or a substantial part of Contractor's property, or institution of bankruptcy, reorganization, rearrangement of or liquidation proceedings by or against Contractor. Contractor shall provide any records requested by City that City deems necessary to make such a determination.

V. PROGRAM INCOME

- 5.1 For purposes of this Contract, "program income" shall mean earnings of Contractor realized from activities resulting from this Contract or from Contractor's management of funding provided or received hereunder. Such earnings shall include, but shall not be limited to, interest income; usage or rental/lease fees; income produced from contract-supported services of individuals or employees or from the use of equipment or facilities of Contractor provided as a result of this Contract, and payments from clients or third parties for services rendered by Contractor pursuant to this Contract. At the sole option of the Director of the Managing City Department, Contractor will either (a) be required to return program income funds to City through the Managing City Department, or (b) upon prior written approval by the Director of the Managing City Department, Contractor may be permitted to retain such funds to be:
- (A) added to the Project and used to further eligible Project objectives, in which case proposed expenditures must first be approved by the City; or
- (B) deducted from the total Project cost for the purpose of determining the net cost reimbursed by the City.
- 5.2 In any case where Contractor is required to return program income to the Managing City Department, Contractor must return such program income to City within the timeframe that may be specified by the Director of the Managing City Department. If the Director of the Managing City Department grants

- 5.4 The Contractor shall fully disclose and be accountable to the City for all program income. Contractor must submit a statement of expenditures and revenues to the Managing City Department within thirty (30) days of the activity that generates program income. The statement is subject to audit verification by Managing City Department. Failure by Contractor to report program income as required is grounds for suspension, cancellation, or termination of this Contract.
- 5.5 Contractor is prohibited from charging fees or soliciting donations from participants in any City-funded project without the prior written approval of the Director of the Managing City Department.
- 5.6 Contractor shall include this Article V, in its entirety, in all of its subcontracts involving income-producing services or activities.

- 6.2 In the event that any disagreement or dispute should arise between the parties hereto pertaining to the interpretation or meaning of any part of this Contract or its governing rules, regulations, laws, codes or ordinances, the City Manager, as representative of the City, is the party ultimately responsible for all matters of compliance with City of San Antonio rules and regulations and the Grantor's rules or regulations, if Grant funded, and shall have the final authority to render or secure an interpretation.

- 7.5 The City reserves the right to conduct, or cause to be conducted an audit or review of all funds received under this Contract at any and all times deemed necessary by City. The City Internal Audit Staff, a Certified Public Accounting (CPA) firm, or other personnel as designated by the City, may perform such audit(s) or reviews. The City reserves the right to determine the scope of every audit. In accordance herewith, Contractor agrees to make available to City all accounting and Project records.

Contractor shall during normal business hours, and as often as deemed necessary by City and/or the applicable state or federal governing agency or any other auditing entity, make available and shall continue to make available the books, records, documents, reports, and evidence with respect to all matters covered by this Contract and shall continue to be so available for a minimum period of three (3) years or whatever period is determined necessary based on the Records Retention guidelines established by applicable law for this Contract. Said records shall be maintained for the required period beginning immediately after Contract expiration, save and except when there is litigation or if the audit report covering such Contract has not been accepted, then the Contractor shall retain the records until the resolution of such issues has satisfactorily occurred. The auditing entity shall have the authority to audit, examine and make excerpts, transcripts, and copies from all such books, records, documents and evidence, including all books and records used by Contractor in accounting for expenses incurred under this Contract, contracts, invoices, materials, payrolls, records of personnel, conditions of employment and other data relating to matters covered by this Contract.

At its sole option, the Managing City Department may instead deduct such claims from subsequent reimbursements; however, in the absence of prior notice by City of the exercise of such option, Contractor shall provide to City a full refund of such amount no later than ten (10) days from the date of notification of such disapproval or disallowance by the City. If Contractor is obligated under the provision hereof to refund a disapproved or disallowed cost incurred, such refund shall be required and be made to City by cashier's check or money order. Should the City, at its sole discretion, deduct such claims from subsequent reimbursements, the Contractor is forbidden from reducing Project expenditures and Contractor must use its own funds to maintain the Project.

Contractor agrees and understands that all expenses associated with the collection of delinquent debts owed by Contractor shall be the sole responsibility of the Contractor and shall not be paid from any Project funds received by the Contractor under this Contract.

- 7.7 If the City determines, in its sole discretion, that Contractor is in violation of the above requirements, the City shall have the right to dispatch auditors of its choosing to conduct the required audit and to have the Contractor pay for such audit from non-City resources.

Contractor shall protect the Confidential Information and shall take all reasonable steps to prevent the unauthorized disclosure, dissemination, or publication of the Confidential Information. If disclosure is required (i) by law or (ii) by order of a governmental agency or court of competent jurisdiction, Contractor shall give the Director of the Managing City Department prior written notice that such disclosure is required with a full and complete description regarding such requirement. Contractor shall establish specific procedures designed to meet the obligations of this Article VIII, Section 8.3, including, but not limited to execution of confidential disclosure agreements, regarding the Confidential Information with Contractor's employees and subcontractors prior to any disclosure of the Confidential Information. This Article VIII, Section 8.3 shall not be construed to limit the City's or its authorized representatives' right of access to records or other information, confidential or otherwise, under this Contract. Upon expiration or early termination of this Contract, Contractor shall return to City all copies of materials related to the Project, including the Confidential Information.
- 8.4 The Public Information Act, Government Code Section 552.021, requires the City to make public information available to the public. Therefore, if Contractor receives inquiries regarding documents within its possession pursuant to this Contract, Contractor shall within twenty-four (24) hours of receiving the requests forward such requests to City for disposition. If the requested information is confidential pursuant to state or federal law, the Contractor shall submit to City the list of specific statutory authority mandating confidentiality no later than three (3) business days of Contractor's receipt of such request.
- 8.5 In accordance with Texas law, Contractor acknowledges and agrees that all local government records as defined in Chapter 201, Section 201.003 (8) of the Texas Local Government Code created or received in the transaction of official business or the creation or maintenance of which were paid for with public funds are declared to be public property and subject to the provisions of Chapter 201 of the Texas Local Government Code and Subchapter J, Chapter 441 of the Texas Government Code. Thus, Contractor agrees that no such local government records produced by or on the behalf of Contractor pursuant to this Contract shall be the subject of any copyright or proprietary claim by Contractor.

Contractor acknowledges and agrees that all local government records, as described herein, produced in the course of the work required by this Contract, shall belong to and be the property of City and shall be made available to the City at any time. Contractor further agrees to turn over to City all such records upon expiration or early termination of this Contract, if requested by the City. The Managing City Department shall be notified of such request as set forth in Article VIII., section 8.3 of this Contract.

- 8.6 Ownership of Intellectual Property. Contractor and City agree that the Project shall be and remain the sole and exclusive proprietary property of City. The Project shall be deemed a "work for hire" within the meaning of the copyright laws of the United States, and ownership of the Project and all rights therein shall be solely vested in City. Contractor hereby grants, sells, assigns, and conveys to City all rights in and to the Project and the tangible and intangible property rights relating to or arising out of the Project, including, without limitation, any and all copyright, patent and trade secret rights. Contractor agrees to execute all documents reasonably requested by City to perfect and establish City's right to the Intellectual Property Rights. In the event City shall be unable, after reasonable effort, to secure Contractor's signature on any documents relating to Intellectual Property Rights in the Project, including without limitation, any letters patent, copyright, or other protection relating to the Project, for any reason whatsoever, Contractor hereby irrevocably designates and appoints City and its duly authorized officers and agents as Contractor's agent and attorney-in-fact, to act for and in Contractor's behalf and stead to execute and file any such application or applications and to do all other lawfully permitted acts to further the prosecution and issuance of letters patent, copyright or other analogous protection thereon with the same legal force and effect as if executed by Contractor. Provided, however, nothing herein contained is intended nor shall it be construed to require Contractor to transfer any ownership interest in Contractor's best practice and benchmarking information to the City.
- 8.7 Within a period not to exceed 90 days from the expiration or early termination date of the Contract, Contractor shall submit all final client and/or fiscal reports and all required deliverables to City. The person or persons signing and executing this Agreement on behalf of QUEST, or representing themselves as signing and executing this Agreement on behalf of QUEST, do hereby guarantee that he, she or they have been duly authorized by QUEST to execute this Agreement on behalf of QUEST and to validly and legally bind QUEST to all terms, performances and provisions herein set forth.

C. The CITY will have the right to suspend or terminate this Agreement in accordance with Sections 14 and 15 herein if there is a dispute as to the legal authority, of either QUEST or the person signing this Agreement, to enter into this Agreement, any amendments hereto or failure to render performances hereunder. QUEST is liable to the CITY for any money it has received from the CITY for performance of the provisions of this Agreement if the CITY suspends or terminates this Agreement for reasons enumerated in this Section 11.

SECTION 12. LITIGATION AND CLAIMS

A. QUEST shall use its best efforts to give the CITY prompt notice in writing of any action, including any proceeding before an administrative agency, filed against QUEST arising out of the performance of any subcontract hereunder. Except as otherwise directed by the CITY, QUEST shall furnish promptly to the CITY copies of all non-privileged pertinent papers received by QUEST with respect to such action or claim. QUEST shall use its best efforts to notify the CITY of any legal action filed against the QUEST under the federal bankruptcy code. QUEST shall use its best efforts to submit a copy of such notice to the CITY within 30 calendar days after receipt. No funds provided under this Agreement may be used in the payment of any costs incurred from violations or settlements of, or failure to comply with, federal and state regulations.

B. The CITY and QUEST acknowledge that the CITY is a political subdivision of the State of Texas and is subject to, and complies with, the applicable provisions of the Texas Tort Claims Act, as set out in the

Civil Practice and Remedies Code, Section 101.001 et. seq., and the remedies authorized therein regarding claims and causes of action that may be asserted by third parties for accident, injury or death.

C. This Agreement shall be interpreted according to the Constitution and the laws of the State of Texas. Venue of any court action brought directly or indirectly by reason of this Agreement shall be in Bexar County, Texas.

SECTION 13. CHANGES AND AMENDMENTS

A. Except as specifically provided in Section 13(C) of this Agreement, any alterations, additions, or deletions to the terms of this Agreement shall be by amendment hereto in writing and executed by both parties to this Agreement upon CITY approval and authorization of QUEST.

B. It is understood and agreed by the parties hereto that performances under this Agreement shall be rendered in accordance with the laws and rules governing the Economic Development Program as detailed in Chapter 380 of the Texas Local Government Code, approved by Ordinance 100684 on April 14, 2005, and the terms and conditions of this Agreement. The CITY may, during the contract period, issue policy directives that serve to establish, interpret, or clarify performance requirements under this Agreement. Such policy directives will be promulgated by the CITY, shall have the effect of qualifying the terms of this Agreement and shall be binding upon QUEST, as if written herein, provided however that said policy directives and any amendments shall not alter the terms of this Agreement so as to release the CITY from any obligation specified in Section 5 of this Agreement to reimburse costs incurred by QUEST prior to the effective date of said amendments or policy directives.

C. Any alterations, additions, or deletions to the terms of this Agreement required by changes in state law or regulations are automatically incorporated into this Agreement without written amendment hereto, and shall become effective on the date designated by such law or regulation.

SECTION 14. SUSPENSION

A. Notwithstanding the provisions of Chapter 2251 of the Texas Government Code, in the event QUEST fails to comply with the terms of any contract with the CITY, the CITY shall provide QUEST with written notification as to the nature of the non-compliance. The CITY shall grant QUEST a sixty (60) day period from the date of the CITY's written notification to cure any issue of non-compliance under such contract. Should QUEST fail to cure any default within this period of time, the CITY may, upon written Notice of Suspension to QUEST, suspend this Agreement in whole or in part and withhold further payments to QUEST, and prohibit QUEST from incurring additional obligations of funds under this Agreement. Such Notice of Suspension shall include: (1) the reasons for such suspension; (2) the effective date of such suspension; and, (3) in the case of partial suspension, the portion of the Agreement to be suspended.

B. In the case of default for causes beyond QUEST's reasonable control, which cannot with due diligence be cured within such sixty (60) day period, the CITY may, in its sole discretion, extend the cure period provided that QUEST shall: (1) immediately upon receipt of Notice of Suspension advise the CITY of QUEST's intention to institute all steps necessary to cure such default and the associated time frame; and (2) institute and thereafter prosecute to completion with reasonable dispatch all steps necessary to cure same.

C. A suspension under this Section 14 may be lifted only at the sole discretion of the CITY upon a showing of compliance with or written waiver by the CITY of the term(s) in question.

D. With the exception of payment for work in progress or materials ordered prior to receiving a Notice of Suspension, the CITY shall not be liable to QUEST or to QUEST's creditors for costs incurred during any term of suspension of this Agreement.

SECTION 15. TERMINATION

A. The CITY shall have the right to terminate this Agreement for non-compliance, in whole or in part, at any time whenever the CITY determines that QUEST has failed to comply with any material term of any contract with the CITY. The CITY will provide QUEST with written notification as to the nature of the non-compliance, and grant QUEST a sixty (60) day period from the date of the CITY's written notification to cure any issue of non-compliance under such contract. Should QUEST fail to cure any default within this period of time, the CITY may, upon issuance to QUEST of a written Notice of Termination, terminate this Agreement in whole or in part and withhold further payments to QUEST, and prohibit QUEST from incurring additional obligations of funds under this Agreement. Such notification shall include: (1) the reasons for such termination; (2) the effective date of such termination; and, (3) in the case of partial termination, the portion of the Agreement to be terminated.

B. In the case of default for causes beyond QUEST's reasonable control, which cannot with due diligence be cured within such sixty (60) day period, the CITY may, in its sole discretion, extend the cure period provided that QUEST shall: (1) immediately upon receipt of Notice of Termination advise the CITY of QUEST's intention to institute all steps necessary to cure such default and the associated time frame; and (2) institute and thereafter prosecute to completion with reasonable dispatch all steps necessary to cure same.

C. Except as provided in Section 15(A), this Agreement may be terminated in whole or in part only as follows:

1. By the CITY (with the consent of QUEST) in which case the two parties shall agree upon the termination conditions, including the effective date and in the case of partial termination, the portion to be terminated; or
2. By QUEST upon written notification to the CITY, setting forth the reasons of such termination, the effective date, and in the case of partial termination, the portion to be terminated. However, if, in the case of partial termination, the CITY determines in its sole discretion that the remaining portion of the award will not accomplish the purpose for which the award was made, the CITY may terminate the award in its entirety under Section 15(A).

D. Upon receipt of Notice of Termination for non-compliance under Section 15(A), QUEST shall, to the extent possible under its other contractual obligations, cancel, withdraw or otherwise terminate any outstanding obligations related to the performance of this Agreement or the part of this Agreement to be terminated and shall cease to incur costs thereunder. Any other work or materials under or part of this Agreement shall be terminated and the CITY will not be liable to QUEST or to QUEST's creditors for any costs incurred subsequent to receipt of a Notice to Terminate.

E. Notwithstanding any exercise by the CITY of its right of suspension under Section 14 of this Agreement, or of early termination pursuant to this Section 15, QUEST shall not be relieved of any liability to the CITY for damages due to the CITY by virtue of any breach by QUEST of any contract with the CITY. The CITY may withhold payments to QUEST until such time as the exact amount of damages due to the CITY from QUEST is agreed upon or is otherwise determined.

SECTION 16. SPECIAL CONDITIONS AND TERMS

QUEST, in accordance with Chapter 2264 of the Texas Government Code, agrees not to knowingly employ any undocumented workers during the Term of this Agreement. If QUEST is convicted of a violation under 8 U.S.C. Section 1324a (f), then QUEST shall repay CITY the amounts granted by this Agreement for the tax year(s) covered under this Agreement during which such violation occurred. Such payment shall be made within 120 business days after the date QUEST is notified by CITY of such violation. CITY, in its sole discretion, may extend the period for repayment herein. Additionally, QUEST shall pay interest on the amounts due to CITY at the rate periodically announced by the Wall Street Journal as the prime or base commercial lending rate, or if the Wall Street Journal shall ever cease to exist or cease to announce a prime or base lending rate, then at the annual rate of interest from time to time announced by Citibank, N.A. (or by any other New York money center bank selected by the City) as its prime or base commercial lending rate, from the date of such violation notice until paid.

SECTION 17. SUBCONTRACTS

A. QUEST shall ensure that the performance rendered under all subcontracts complies with all terms and provisions of this Agreement as if such performance were rendered by QUEST. As between QUEST and the CITY only and not as to any third parties, QUEST shall bear full responsibility for performance by all subcontractors if any are employed under this Agreement.

B. QUEST, in subcontracting any of the performances hereunder, expressly understands that in entering into such subcontracts, the CITY is in no way liable to QUEST's subcontractor(s).

C. QUEST assures and shall obtain assurances from all of its subcontractors where applicable that no person shall, on the grounds of race, creed, color, disability, national origin, sex or religion, be excluded from, be denied the benefit of, or be subjected to discrimination under any program or activity funded in whole or in part under this Agreement.

SECTION 18. DEBARMENT

By signing this Agreement, QUEST certifies that it will not award any funds provided under this Agreement to any party which is debarred, suspended or otherwise excluded from or ineligible for participation in assistance programs.

SECTION 19. RIGHTS UPON DEFAULT

It is expressly understood and agreed by the parties hereto that any right or remedy provided for in this Agreement shall not preclude the exercise of any other right or remedy under any contract between QUEST and the CITY or under any provision of law, nor shall any action taken in the exercise of any right or remedy be deemed a waiver of any other rights or remedies. Failure to exercise any right or remedy hereunder shall not constitute a waiver of the right to exercise that or any other right or remedy at any time.

SECTION 20. NON-ASSIGNMENT

This Agreement is not assignable, except by operation of law (e.g., if QUEST is acquired by or merges with another entity). Notwithstanding any attempt to assign the Agreement, QUEST shall remain fully liable on this Agreement and shall not be released from performing any of the terms, covenants and conditions herein. QUEST shall be held responsible for all funds received under this Agreement.

SECTION 21. ORAL AND WRITTEN AGREEMENTS

All oral and written agreements between the parties to this Agreement relating to the subject matter of this Agreement that were made prior to the execution of this Agreement have been reduced to writing and are contained in this Agreement.

SECTION 22. AUTHORIZED RELIEF FROM PERFORMANCE (*Force Majeure*)

The CITY may grant relief from performance of the Agreement if QUEST is prevented from compliance and performance by an act of war, order of legal authority, act of God, civil unrest or disturbance, severe weather or other unavoidable cause not attributed to the fault or negligence of QUEST. The burden of proof for the need for such relief shall rest upon QUEST. To obtain release based upon *force majeure*, QUEST must file a written request with the CITY.

SECTION 23. SURVIVAL OF CERTAIN CONTRACT PROVISIONS

The following provisions of the Agreement, concerning QUEST's obligations, shall survive the termination of the Agreement after completion of the Project:

STATE OF TEXAS *

COUNTY OF BEXAR *

CITY OF SAN ANTONIO *

**DELEGATE AGENCY CONTRACT
WITH
LITERACY SAN ANTONIO, INC.**

This Contract is entered into by and between the City of San Antonio (hereinafter referred to as "City"), a Texas Municipal Corporation, acting by and through its Director of the Department of Human Services pursuant to Ordinance No. 2016-09-15-_____, dated September 15, 2016, and Literacy San Antonio, Inc. (hereinafter referred to as "Contractor").

WITNESSETH:

WHEREAS, the Department of Human Services is designated as the managing City department (hereinafter referred to as "Managing City Department") for the City; and

WHEREAS, the City has provided certain funds from the City of San Antonio General or Grant Fund Operating Budget (hereinafter referred to as "General Fund" or "Grant Fund," as applicable) for human development services; and

WHEREAS, the City has adopted a budget for the expenditure of such funds, and included therein is an allocation of \$50,000.00 for a project entitled "SAReads Literacy Academy and Book Bank" (hereinafter referred to as the "Project"); and

WHEREAS, the City wishes to engage the Contractor to carry out the Project; NOW THEREFORE:

The parties hereto agree as follows:

I. SCOPE OF WORK

- 1.1 The Contractor will provide, oversee, administer, and carry out all activities and services in a manner satisfactory to the City and in compliance with the **Scope of Work** and **Scorecard** attached hereto and incorporated herein for all purposes as Attachment I.

II. TERM

- 2.1 Except as otherwise provided for pursuant to the provisions hereof, this Contract shall begin on **October 1, 2016** and shall terminate on **September 30, 2017**.

III. CONSIDERATION

- 3.1 In consideration, the City will reimburse Contractor for costs incurred in accordance with the budget approved by City Council of San Antonio in the above referenced Ordinance, and all subsequently authorized amendments to that budget. Said budget is attached hereto and incorporated herein for all purposes as Attachment II. It is specifically agreed that reimbursement hereunder shall not exceed the total amount of \$50,000.00.
- 3.2 The funding level of this Contract is based on an allocation from the following funding sources:

\$50,000.00 General Fund

Consequently, Contractor agrees to comply with the **Funding Guide**, attached hereto and incorporated herein for all purposes as Attachment III.

- 3.3 Contractor understands and agrees that the funds provided to Contractor from the City's Consolidated Human Development Funding Services Pool shall represent a limited percentage of Contractor's total agency revenues and expenses for the contract term, which percentage is established by City Council and is subject to change. The percentage of the total agency revenues and expenses derived from sources other than City funds is sometimes referred to as the agency's "match" requirement. Contractor's total agency revenues and expenses derived from non-City sources and from the City is Contractor's Total Budget. Contractor shall comply with any matching fund requirements set by City Council that apply to Contractor's contract, regardless of when such requirements are passed. If Contractor receives an aggregate amount of \$1,000,000.00 or more in City funds from all City funded contracts, then Contractor shall obtain thirty-five percent (35%) of its Total Budget from non-City sources (i.e., no more than sixty-five percent (65%) of its Total Budget is derived from the City). If Contractor receives less than an aggregate amount of \$1,000,000.00 in City funds from all City funded contracts, then Contractor shall obtain fifty percent (50%) of its Total Budget from non-City sources (i.e., no more than fifty percent (50%) of its Total Budget is derived from the City). City shall require sufficient evidence that such funding is in place with Contractor's annual program budget prior to contract execution. Contractor understands that City shall have no obligation to provide any funds hereunder until Contractor demonstrates having secured the percentage of matching funds required of Contractor. Contractor understands and acknowledges that Pell grants and other awards received by individuals shall not count toward its matching fund requirements. Additionally, Contractor understands and acknowledges that in-kind contributions shall not count toward its matching fund requirements. Contractor shall provide acceptable evidence, as determined solely by the City, that Contractor has expended a funding amount from non-City funds equal to or greater than the applicable matching funds percentage requirement. City reserves the right to make a request at the end of each quarter throughout the Contract term for evidence that Contractor has expended or is on course to expend the applicable percentage of funds constituting its match prior to the end of the Contract term. If Contractor does not provide City with acceptable evidence that funds have been expended as required herein, Contractor understands and agrees that City may reduce or recapture pursuant to 4.1 the amount of City funds provided to Contractor in order to comply with the required expenditure ratio of non-City funds to the Total Budget, without first obtaining the approval of City Council.
- 3.4 It is expressly understood and agreed by the City and Contractor that the City's obligations under this Contract are contingent upon the actual receipt of adequate General or Grant Fund revenue, as applicable, to meet City's liabilities hereunder. Should City not receive sufficient funds to make payments pursuant to this Contract or should awarded Grant Funds be reduced, City shall notify Contractor in writing within a reasonable time after such fact has been determined and may, at its option, either terminate this Contract or reduce the Scope of Work and Consideration accordingly.

IV. PAYMENT

- 4.1 Contractor agrees that this is a cost reimbursement contract and that the City's liability hereunder is limited to making reimbursements for allowable costs incurred as a direct result of City-funded services provided by the Contractor in accordance with the terms of this Contract. Allowable costs are defined as those costs which are necessary, reasonable and allowable under applicable federal, state, and local law, including but not limited to those laws referenced in Section XII hereof, for the proper administration and performance of the services to be provided under an agreement. All requested reimbursed costs must be consistent with the terms and provisions of the approved budgeted line items described in Attachment II of this Contract, unless (a) a subsequent budget revision has been approved and signed by the Director of the Managing City Department or designee in cases where the total Contract Budget remains the same, or (b) a Contract amendment has been approved and signed by the Director of the Managing City Department pursuant to Section 24.1 of this Contract in cases where there is an increase or decrease to the total Contract Budget. Approved budget revisions and Contract amendments modify the Budget attached hereto, and in such cases Contractor's requested reimbursed costs must be consistent with the last revised, approved budget. Approved budget revisions and Contract amendments supersede prior conflicting or inconsistent agreements with regard to the referenced Project Budget, and all references in the Contract to the budget shall mean the budget as revised through approved budget revisions or Contract amendments. In no event shall the City be liable for any cost of Contractor not eligible for reimbursement as defined within the Contract. Contractor shall remit to City within ten (10) business days after the City makes the request for

remittance any funded amounts which were paid pursuant to this Article IV and used to cover disallowed costs. Any such amounts not remitted within ten (10) business days may, at City's option, be subject to offset against future funding obligations by City. For purposes of this Contract, the term, "business day" shall mean every day of the week except all Saturdays, Sundays and those scheduled holidays officially adopted and approved by the San Antonio City Council for City of San Antonio employees.

- 4.2 If specific circumstances require an advance payment on this Contract, Contractor must submit to the Director of the Managing City Department a written request for such advance payment, including the specific reason for such request in the form prescribed by the City. Contractor agrees that the City shall not be obligated to pay for any advances requested. In those instances in which advance payments are authorized, the Director of the Managing City Department may, in the Director's sole discretion, approve an advance payment on this Contract. It is understood and agreed by the parties hereto that (a) each request requires submission to the Director of the Managing City Department no less than ten (10) business days prior to the actual ostensible cash need; (b) each request will be considered by the Director of the Managing City Department on a case-by-case basis, and (c) the decision by the Director of the Managing City Department whether or not to approve an advance payment is final. In those instances in which advance payments are authorized:
- (A) Contractor's payments to its vendors using funds advanced by the City shall be remitted to the vendors in a prompt and timely manner, defined as not later than ten (10) calendar days after the Contractor is notified that an advance payment check is available from the City, so long as services have been performed by the subject vendor.
 - (B) The Contractor must deposit City funds in an account in a bank insured with the Federal Deposit Insurance Corporation (FDIC). In those situations where Contractor's total deposits in said bank, including all City funds deposited with said bank, exceed the FDIC insurance limit, the Contractor must arrange with said bank to automatically have the excess collaterally secured. A written copy of the collateral agreement must be obtained by Contractor from the Contractor's banking institution, maintained on file and be available for City monitoring reviews and audits. Advanced funds that cause the Contractor's account balance to exceed the FDIC limit shall be deposited in a manner consistent with the Public Funds Investment Act (Chapter 2256 of the Texas Government Code) as amended. Contractor shall maintain the FDIC insured bank account in which City funds are deposited and its recordkeeping in a manner that will allow City to track expenditures made pursuant to this and all other City contracts.
 - (C) The City may, in its sole discretion, either deduct from monthly reimbursements amounts necessary to offset the amount advanced based upon the number of months remaining in the Contract term, or from a single subsequent monthly reimbursement the full amount previously advanced to Contractor. The City may consider factors such as projected allowable costs and other indicators such as Contractor's financial stability. Contractor shall maintain a financial management system to account for periodic, or a lump sum, deduction from reimbursements.
- 4.3 Contractor shall submit to City no later than the fifteenth (15th) of every month a monthly Request for Payment in the form prescribed by City, which details the specific costs (by category and by program account number) Contractor expensed in the previous month for the services delivered as described in Article I herein, including supporting documentation of such costs as may be required by the Director of the Managing City Department. The Request for Payment shall also specify the Program Income (as defined herein) received or projected during the same time period. The Director of the Managing City Department may require the Contractor's submission of original or certified copies of invoices, cancelled checks, Contractor's general ledger and/or receipts to verify invoiced expenses.
- 4.4 City shall make reimbursement payments of eligible expenses to the Contractor of any undisputed amounts as determined by the Director of the Managing City Department in accordance with established procedures, so long as City receives a properly completed and documented Request for Payment. City shall make payment to Contractor within 30 calendar days of receiving a valid and approved Request for Payment.

- 4.5 The Contractor shall submit to City all final requests for payment no later than 45 days from the expiration or early termination date of this Contract, unless Contractor receives written authorization from the Director of the Managing City Department prior to such 45 day period allowing Contractor to submit a request for payment after such 45 day period.
- 4.6 Contractor agrees that the City shall not be obligated to any third parties of Contractor (including any subcontractors or third party beneficiaries of Contractor) under this Contract.
- 4.7 Contractor agrees that administrative overhead costs may not exceed twenty percent (20%) of the funding provided pursuant to this Contract. Contractor shall submit detailed administrative costs by line item with its annual program budget prior to Contract execution by the deadline established by the City.
- 4.8 Contractor shall maintain a financial management system, and acceptable accounting records that provide for:
- (A) accurate, current, and complete disclosure of financial support from each federal, state and locally sponsored project and program in accordance with the reporting requirements set forth in Article VIII of this Contract. If accrual basis reports are required, the Contractor shall develop accrual data for its reports based on an analysis of the documentation available;
 - (B) identification of the source and application of funds for City-sponsored activities. Such records shall contain information pertaining to City awards, authorizations, obligations, un-obligated balances, assets, equity, outlays, and income;
 - (C) effective control over and accountability for all funds, property, and other assets. The Contractor shall adequately safeguard all such assets and shall ensure that they are used solely for authorized purposes. Contractor shall maintain an accounting system that can separate funds by funding source and project;
 - (D) comparison of actual outlays with budget amounts for each award. Whenever appropriate or required by the City, financial information should be related to performance and unit cost data;
 - (E) procedures to minimize the time elapsing between the transfer of funds from the City and the disbursement of said funds by the Contractor;
 - (F) procedures for determining reasonable, allowable, and allocable costs in accordance with the provisions of any and all applicable cost principles, including but not limited to the cost principles referenced in Section XII hereof, and the terms of the award, grant, or contract, with the City;
 - (G) supporting source documentation (i.e., timesheets, employee benefits, professional services agreements, purchases, and other documentation as required by City); and
 - (H) an accounting system based on generally acceptable accounting principles which accurately reflects all costs chargeable (paid and unpaid) to the Project. A Receipts and Disbursements Ledger must be maintained. A general ledger with an Income and Expense Account for each budgeted line item is necessary. Paid invoices revealing check number, date paid and evidence of goods or services received are to be filed according to the expense account to which they were charged.
- 4.9 Contractor agrees that Contractor costs or earnings claimed under this Contract may not be claimed under another contract or grant from another agency, organization, business entity or governmental entity.
- 4.10 Contractor shall establish and utilize a cost allocation methodology and plan which ensures that the City is paying only its fair share of the costs for services, overhead, and staffing not solely devoted to the Project funded by this Contract. The Cost Allocation Plan and supportive documentation shall be included with Contractor's annual program budget prior to Contract execution by the deadline established by the City.

The Cost Allocation Plan is a plan that identifies and distributes the cost of services provided by staff and/or departments or functions. It is the means to substantiate and support how the costs of a program are charged to a particular cost category or to the program.

- 4.11 Upon expiration or early termination of this Contract, or at any time during the term of this Contract, all unused funds, rebates, or credits on-hand or collected thereafter relating to the Project, must immediately, upon receipt, be returned by Contractor to the City. Upon expiration or early termination of this Contract, all advance payments exceeding allowable costs incurred during the Contract term or for which Contractor fails to deliver services as consideration and as specified under the Contract shall be returned within twenty (20) calendar days of written notification to Contractor of the need for reimbursement.
- 4.12 Upon execution of this Contract or at any time during the term of this Contract, the City's Director of Finance, the City Auditor, or a person designated by the Director of the Managing City Department may review and approve all Contractor's systems of internal accounting and administrative controls prior to the release of funds hereunder.
- 4.13 Contractor agrees that prior to the payment of any funds under this Contract, and throughout the term of this Contract, Contractor shall maintain financial stability and operate in a fiscally responsible and prudent manner. Contractor agrees that the City may immediately terminate this Contract if the City finds, as solely determined by the City, that Contractor is in such unsatisfactory financial condition as to endanger performance under this Contract. The City may consider evidence such as the apparent inability of Contractor to meet its financial obligations and items that reflect detrimentally on the credit worthiness of Contractor. Relevant factors include, but are not limited to, pending litigation, liens and encumbrances on the assets of Contractor, the appointment of a trustee, receiver or liquidator for all or a substantial part of Contractor's property, or institution of bankruptcy, reorganization, rearrangement of or liquidation proceedings by or against Contractor. Contractor shall provide any records requested by City that City deems necessary to make such a determination.

V. PROGRAM INCOME

- 5.1 For purposes of this Contract, "program income" shall mean earnings of Contractor realized from activities resulting from this Contract or from Contractor's management of funding provided or received hereunder. Such earnings shall include, but shall not be limited to, interest income; usage or rental/lease fees; income produced from contract-supported services of individuals or employees or from the use of equipment or facilities of Contractor provided as a result of this Contract, and payments from clients or third parties for services rendered by Contractor pursuant to this Contract. At the sole option of the Director of the Managing City Department, Contractor will either (a) be required to return program income funds to City through the Managing City Department, or (b) upon prior written approval by the Director of the Managing City Department, Contractor may be permitted to retain such funds to be:
 - (A) added to the Project and used to further eligible Project objectives, in which case proposed expenditures must first be approved by the City; or
 - (B) deducted from the total Project cost for the purpose of determining the net cost reimbursed by the City.
- 5.2 In any case where Contractor is required to return program income to the Managing City Department, Contractor must return such program income to City within the timeframe that may be specified by the Director of the Managing City Department. If disclosure is required (i) by law or (ii) by order of a governmental agency or court of competent jurisdiction, Contractor shall give the Director of the Managing City Department prior written notice that such disclosure is required with a full and complete description regarding such requirement. Contractor shall establish specific procedures designed to meet the obligations of this Article VIII, Section 8.3, including, but not limited to execution of confidential disclosure agreements, regarding the Confidential Information with Contractor's employees and subcontractors prior to any disclosure of the Confidential Information. This Article VIII, Section 8.3 shall not be construed to limit the City's or its authorized representatives' right of access to records or other information, confidential or otherwise, under this Contract. Upon expiration or early termination of this Contract, Contractor shall return to City all copies of materials related to the Project, including the Confidential Information.
- 8.4 The Public Information Act, Government Code Section 552.021, requires the City to make public information available to the public. Provided, however, nothing herein contained is intended nor shall it be construed to require Contractor to transfer any ownership interest in Contractor's best practice and benchmarking information to the City.
- 8.7 Within a period not to exceed 90 days from the expiration or early termination date of the Contract, Contractor shall submit all final client and/or fiscal reports and all required deliverables to City. 1.2 The CONTRACTOR hereby represents, warrants, assures and guarantees that it possesses the legal authority, pursuant to any proper, appropriate and official motion, resolution or action passed or taken, to enter into this CONTRACT and to perform the responsibilities herein required.

1.3 The signer of this CONTRACT for CONTRACTOR represents, warrants, assures and

guarantees that he or she has the full legal authority to execute this CONTRACT on behalf of CONTRACTOR and to bind CONTRACTOR to all terms, performances and provisions herein contained.

1.4 In the event a dispute arises as to the legal authority to enter into this CONTRACT of either the CONTRACTOR or the person signing on behalf of the CONTRACTOR, the CITY shall have the right, at its option, to either temporarily suspend or permanently terminate this CONTRACT. Should CITY suspend or permanently terminate this CONTRACT pursuant to this paragraph, the CONTRACTOR shall be liable to CITY for any money it has received from CITY hereunder.

1.5 The CONTRACTOR understands that the funds provided pursuant to this CONTRACT are funds that have been made available through the City of San Antonio Housing Trust and therefore, the CONTRACTOR will comply with all rules, regulations, policies, and procedures applicable to these funds as directed by the CITY. The CONTRACTOR agrees to abide by any future amendments or additions to such rules and regulations as they may be promulgated by the CITY or the City of San Antonio Housing Trust Board of Trustees.

The effective date of the termination must be set in the ordinance.

1.14 It is expressly understood by CONTRACTOR that this CONTRACT in no way obligates CITY's general fund monies or any other monies or credits of CITY other than that specifically referred to in the Program Work Statement, affixed hereto and incorporated herein for all purposes as "Exhibit A."

1.15 The term of this agreement begins October 1, 2016, or when the approved program statement and program budget are received by the CITY's Department of Planning and Community Development, whichever occurs later, and will terminate on September 30, 2017.

1.16 CONTRACTOR must establish and use internal fiscal and program management procedures to preclude theft, embezzlement, improper inducement, obstruction of investigation or other criminal action, and to prevent fraud and program abuse.

1.17 CONTRACTOR warrants that no person or selling agency has been employed or retained

to solicit or secure this CONTRACT upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, and further that no such understanding or agreement exists or has existed, with any employee of CONTRACTOR or CITY.

The CONTRACT is not considered complete or in compliance until such time as the approved, signed, and dated Program Work Statement is attached.

3.2 CONTRACTOR agrees to maintain records that will provide accurate, current, separate and complete disclosure of the status of any funds received pursuant to this CONTRACT. CONTRACTOR further agrees that:

- A. Maintenance of said records shall be in compliance with all terms, provisions and requirements of this CONTRACT and with all applicable federal and state regulations establishing standards for financial management; and

3.3 CITY's Director of the Department of Planning and Community Development, or the Director's authorized representative, is assigned monitoring, fiscal control, and evaluation of CONTRACTOR's performance and operations under this CONTRACT. CONTRACTOR will provide CITY staff, including auditors, EEO officers and CITY- designated representatives, such as independent public accountants and representatives of the federal government, access during regular business hours, as often as CITY deems necessary for the purpose of audit, monitoring, evaluation, coordination and investigation, to any and all CONTRACTOR's books, records and files on the programs covered by this CONTRACT and such other programs administered by CONTRACTOR with funds from any other sources, and to any and all books, records and files pertaining to CONTRACTOR's proprietary, agency or trust funds as CITY may need and request. CITY shall have the authority to make excerpts, transcripts or copies from all such books, records and files, including all contracts, invoices, materials and other data relating to all matters covered by this CONTRACT.

CONTRACTOR further covenants that in the performance of this CONTRACT, no persons having such interest shall be employed or appointed as a member of its governing body or of its staff.

3.8 CONTRACTOR will establish safeguards to prohibit officers or employees from possessing any interest in or using their positions for a purpose that is or gives the appearance of being motivated by a desire for private gain for themselves or those with whom they have family, business, or other ties. CITY may, at its sole option, cancel this CONTRACT for any violation of this Section by any officer, director, or employee of CONTRACTOR.

3.9 Members of CONTRACTOR's Board of Directors or governing body may not be employees of the agency or paid in any way for services with CONTRACT funds.

3.10 CONTRACTOR agrees to establish internal procedures that assure employees of an established complaint and grievance policy.

3.11 A grievance policy will include procedures to receive, investigate, and resolve complaints and grievances in an expeditious manner.

3.12 In the event no complaint and grievance policy has been established, the procedures outlined in the San Antonio Municipal Civil Service rules will be followed by the agency.

IV. FISCAL MANAGEMENT

4.1 An accounting system using the accrual basis of generally accepted accounting principles that accurately reflects all costs chargeable, paid and unpaid, to the project, should the project terminate the next day, is mandatory.

4.2 CONTRACTOR will establish an account in a federally insured financial institution as a depository to be used exclusively for receipt and expenditure of funds provided hereunder. All checks and withdrawals from such account shall have itemized documentation in support thereof. Such account shall be maintained in said institution with any account balance exceeding the federal deposit insurance coverage likewise collaterally secured.

4.3 CITY may, within its sole discretion, review and approve the accounting system and internal controls prior to the release of funds hereunder and shall in no way be obligated to release such funds until said accounting system and internal controls are first reviewed and approved, if such option is exercised.

4.4 CONTRACTOR shall observe sound business practices with respect to securing such bonding and insurance coverage as would provide adequate coverage for activities under this CONTRACT.

4.5 All persons on the CONTRACTOR's Board of Directors or in the employ of CONTRACTOR who handle CITY funds received or disbursed hereunder or who sign or co-sign checks for said fund disbursement must be covered by a dishonesty and fidelity bond in the amount of \$100,000.00 (One Hundred Thousand and No/100 Dollars) or one-half the total contract amount, whichever is less. If a bond is required under the terms of this provision, evidence of same shall be filed with the City Clerk, and copied to the Department of Planning and Community Development, within ten (10) working days following execution of this CONTRACT.

4.6 No fees may be charged to or donations requested from participants in a CITY funded project without the prior written approval of the City Manager, or her authorized representative.

related to the administration of the City of San Antonio Housing Trust, including the disbursement of Trust assistance to project sponsors. CONTRACTOR is responsible for full disclosure and accountability of program income to CITY. CONTRACTOR will account to CITY for its administration of the receipt and disbursal of Trust assistance, the performance of the project sponsors, and the administrative operation of the City of San Antonio Housing Trust under the agreement for Trust assistance. A statement of expenditures and revenues shall be submitted by CONTRACTOR to CITY within thirty (30) days of the activity in a format as may be prescribed by CITY; the statement is subject to audit verification. Failure to report program income as required is grounds for suspension, cancellation, or termination of this CONTRACT.

4.9 CONTRACTOR shall not be relieved of liability to CITY for damages sustained by CITY by virtue of any breach of this CONTRACT, and CITY may withhold funds otherwise due as damages.

4.10 Any subcontract for professional or other services requires prior written approval of the City Manager, or her duly authorized representative. Any said subcontract for professional services shall require that the said professional both be licensed to practice her profession in the State of Texas and maintain a policy of liability insurance to indemnify, save harmless, and defend both CONTRACTOR and CITY from any claims arising from any acts or omissions of said professional or said professional's agents. The request and submission of the proposed subcontract must allow CITY a minimum of ten (10) working days for review prior to the anticipated execution of the proposed subcontract. CITY shall not be obligated to any third parties, including any subcontractors of CONTRACTOR.

4.11 If any expense or charge made by CONTRACTOR is subsequently disapproved or disallowed as a result of any site review or audit, CONTRACTOR will promptly refund such amount, from non-CITY funds, to CITY. CONTRACTOR authorizes CITY to deduct such amount or charge as a claim against future payment. The City Manager, or her duly authorized representative, has the authority to deduct such claims from future contract awards.

4.12 CITY, a political entity, unlike a business for profit, is interested in determining if the agencies supported with CITY funds accomplished or achieved the objectives as stipulated in their contracts. Therefore, all CITY-funded projects and programs are subject to periodic audits at any time by CITY auditors.

4.13 Agencies receiving funds in excess of \$25,000.00 (Twenty-five Thousand and No/ 100 Dollars) annually from CITY are required to furnish CITY Finance Director, with a copy to Director of the assigned "Responsible Department," a certified audit within ninety (90) days of the close of the accounting period or termination of the CONTRACT.

Audits must show whether any unused funds, rebates or credits collected by CONTRACTOR, were returned to CITY within sixty (60) days after close of the accounting period or termination of Contract.

4.14 CONTRACTOR understands and agrees to abide by and adhere to applicable federal, state, and CITY provisions.

CONTRACTOR further AGREES TO DEFEND , AT ITS OWN EXPENSE and ON BEHALF OF THE CITY AND IN THE NAME OF THE CITY, any claim or litigation brought against the CITY and its elected officials, employees, officers, directors and representatives, in connection with any such injury, death, or damage for which this INDEMNITY shall apply, as set forth above.

5.2 It is expressly understood and agreed that CONTRACTOR is and shall be deemed to be an independent contractor and operator responsible to all parties for its respective acts or omissions and that CITY shall in no way be responsible therefor.

VI. SPECIAL PROVISIONS

6.1 Under no circumstances will the funds received under this CONTRACT be used, either directly or indirectly, to pay costs or attorney fees incurred in any adversarial proceeding against the CITY or any other public entity.

6.2 During the term of this CONTRACT, if CONTRACTOR files and/or pursues an adversarial proceeding against the CITY then, at the CITY 's option, this CONTRACT and all access to the funding provided for hereunder may terminate if CONTRACTOR is in violation of Paragraph 6.1 herein.
