January 30, 2015

Ms. Sheryl L. Sculley
City Manager
City of San Antonio
P.O. Box 839966
San Antonio, Texas 78231-3966

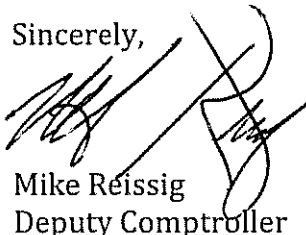

Dear Ms. Sculley:

We received the letter presenting the San Antonio City Council's Resolution 2015-01-29-0005R of January 29, 2015 providing for the Edwards Aquifer Protection Venue Project and the Parks Development and Expansion Venue Project and authorizing the continuation of the City's one-eighth of one percent sales and use venue tax.

The Resolution, authorized by Chapter 334 of the Local Government Code, provides that the City of San Antonio seeks to continue the current venue tax, under the provisions of Subchapter D, at the current rate of one-eighth of one percent (0.125%) to finance the two venue projects specified in the Resolution.

Pursuant to Texas Local Government Code 334.022, the Resolution has been reviewed. The Comptroller's Office has determined that the approval and implementation of the Resolution would have no significant negative impact on state revenue. The review assumes the Resolution will not result in an increase in the local sales and use tax rate, but will simply continue the existing local sales and use tax rate. If you have any questions, please do not hesitate to contact me.

Sincerely,

Mike Reissig
Deputy Comptroller

cc: Stephen Whitworth, Assistant City Attorney
