**WHEREAS**, the City of San Antonio is developing a Strategic Multi-Modal Transportation Plan (SMMTP) to begin planning for the major population growth expected by the year 2040 and an effort to emphasize multi-modal transportation, walking and biking safety, especially around schools, has become a national focus due to the increased number of pedestrian and bicycle accidents each year, it is imperative that our community find a way to minimize pedestrian and bicycle fatalities; and

**WHEREAS**, the first portion of this grant is to prepare a school safety kit for local schools to educate their students walking and biking safety by providing a variety of items such as educational curriculum, informational handouts, web resources, safety facts, giveaway items and surveys; and

**WHEREAS**, this approach is intended to target education in a local neighborhood, in order to reach the students where they live and travel; and

**WHEREAS**, the second approach to promoting walking and biking safety is to address safety in adult populations through distribution of materials in the community which will be used to educate citizens on the importance of using designated crosswalks as well as to motorists to drive attentively; and

**WHEREAS**, to assist the City through this educational outreach, the City has applied for a grant from the Texas Department of Transportation to provide printed materials and giveaways to include in safety tool kits; and

**WHEREAS**, staff was asked to quantify the amount of funding that would be needed to assemble these tool kits and it is estimated that this will cost \$44,991.20 to focus on the walking and bike safety with the goal of the grant to educate as many students as possible with tool kits, as well as, promote safety throughout San Antonio for all-ages; and
