2014-01-09-0004

- 5C.** An Ordinance authorizing an “Agreement for Services in lieu of Annexation between the City of San Antonio and Southwest Independent School District” located in the City’s extraterritorial jurisdiction.

John Dugan presented a Power Point and stated that a 2011 State Law required a study of the City South Management Authority (CSMA) Effectiveness. He reported that the study was completed in 2012 and recommended the Dissolution of the CSMA; annexation of major nodes of current and potential economic development; and modification of land use and zoning to encourage economic development. He stated that the study was adopted by the CSMA Board and City Council in 2012. He noted that after CSMA Dissolution; properties located within the CSMA Jurisdiction would revert to unincorporated Bexar County and the City’s Extra-Territorial Jurisdiction (ETJ) without land use controls.

Mr. Dugan reported that staff had revised their Area 4 Recommendation noting that a cost analysis reflected that a third Fire Station would be warranted. He noted that the Neighborhood would be reconsidered as part of the 10-Year Annexation Plan. He outlined the Amended Limited Purpose Annexation Area which would consist of 491 square miles and 1,310 parcels of land. He indicated that 150 Development Agreements had been signed.

Mr. Dugan spoke of the Proposed Regulatory Plan Amendment which identifies City Codes that will be applied to the area. He stated that the Plan includes a date for Full Purpose Annexation within three years. He noted that it excludes Storm Water Utility Fees and Services and extends time by 180 days to adhere to Code Compliance. He reported that staff recommends amending the Regulatory Plan to extend the Code Compliance Deadline and remove the Water and Sewer Development Fees. He added that Bexar County currently provides services and will continue to do so during the three-year Limited Purpose Annexation.

Mr. Dugan mentioned that State Law requires the city to offer a Development Agreement to areas appraised as Agricultural, Wildlife Management, or Timber Management. He stated that the city could annex the property if the Land Owner declines or is non-responsive. He noted that staff recommended acceptance of the 150 Development Agreements. He spoke of the 3-Year Agreement in lieu of annexation with Southwest ISD.

Mr. Dugan reported that the CSMA Board had been dissolved and that zoning and land use controls were removed. He indicated that the effective date of the CSMA Dissolution would be January 19, 2014. Lastly, he outlined the Four Annexation Areas and noted that staff recommended approval.

Mayor Castro called upon the individuals registered to speak:

Annette Anderson addressed the City Council in opposition to the proposed Annexation. She requested that the property owners be grandfathered and that the residents be allowed to decide on their own.

Amalia Martinez stated that she lived in Area 4 and was pleased that the request had been modified. She expressed concern that they did not have more time to discuss the proposed Annexation.

T. Simon Martinez stated that he lived in Area 4 and thanked the Planning and Zoning Commission for listening to their requests.

Colleen Schneider stated that she was opposed to the proposed Annexation and does not understand why the area was selected. She noted that she had lived in the area for 30 years and would move if Annexation occurred.

Darrell Willoughby stated that he lived in Area 4 and did not want to be annexed. He asked the City Council to accept the modified plan for Area 4 if they moved forward with the proposed Annexation.

Aurelina Prado thanked city staff for the revised plan and stated that she believed it was a good compromise. She noted that she needed some clarification and would contact city staff.

Lucy Adame-Clark stated that many in their community were still concerned with the proposed Annexation. She expressed concern with individuals on fixed incomes and asked that fire safety be provided.

James Nations thanked the City Council for the opportunity to speak but expressed concern that 90 days would not be enough time to comply. He noted concerns with the new fees that would have to be paid and asked that Areas 3 and 4 be removed from the Plan.

Jack M. Finger spoke in opposition to the proposed Annexation and asked the City Council to listen to the concerns of the residents.

Buck Benson stated that he represents the operator of the Flying J Travel Center at the Intersection of IH-37 and Loop 1604. He noted that the current zoning was inconsistent with the current use and looked forward to working with city staff to address same.

Mayor Castro asked of the Code Compliance Timeline. Mr. Dugan responded that staff is recommending 180 days for property owners to bring their properties into compliance with City Codes. He stated that this should provide the necessary time for property owners to convert from Rural Community Standards to Urban Community Standards. Mayor Castro asked of the Development Agreements. Mr. Dugan replied that 250 letters had been sent to property owners and staff had received 150 signed Agreements. Mayor Castro asked staff to explain next steps. Mr. Dugan stated that over the next 36 months, they would decide whether to permanently annex the areas and ensure that safe and quality construction occurs. He spoke of the studies they would conduct including Land Use, Financial, and Services Studies. Mayor Castro asked that the residents of the area be provided opportunities for input and commended Councilmembers Viagran and Saldaña for their work on said item.

Councilmember Viagran thanked everyone that participated in the process and asked of the changes to Chapter 5. Mr. Dugan replied that there would be changes but they did not yet know what they would be. He stated that they would discuss same with larger property owners. Councilmember Viagran recommended quarterly meetings with area residents to discuss issues and answer questions. She asked what would occur in 10 years. Mr. Dugan explained that individuals could request an extension if there are still Agricultural Operations and the City of San Antonio could agree or disagree to extend the agreement.

Councilmember Viagran moved to institute annexation proceedings and approve Item 4 and Items 5A through 5C by adopting the Regulatory Plan for the area to be annexed for limited purposes with amendments to allow Bexar County to continue to provide services and collect the fee for Drainage Utility Services and finding that such amendment avoids duplication of services and fees by Bexar County and the City of San Antonio and allow 180 days for property owners to bring their properties into compliance with City Codes and find it necessary to allow time for property owners to convert from rural community standards to urban community standards:

annexing for Limited Purposes Area 1, Area 2, Area 3 and Area 4 with amendments as recommended by staff, save and except Southwest ISD Property located on Howard Street and properties appraised for tax purposes as agricultural or timber that are subject to Development Agreements;

approving Development Agreements for properties appraised for tax purposes as agricultural or timber for a 10 year term;

approving modification of the Development Agreement with Cross Timbers to allow construction of two new single-family homes;

and approving a Development Agreement with Southwest ISD to allow completion of construction of a multi-school campus finding that the approval of such agreement is in the public interest by reducing the cost of the school facility;

all such properties and agreements being more particularly described in the ordinances relating to these items.

Councilmember Saldaña seconded the motion.

Councilmember Saldaña thanked the residents of the areas that participated in the process and Councilmember Viagran for her work the Annexation Terms. He spoke of the investment that needs to occur on the Southside and the implementation of an Urban Growth Boundary.

Councilmember Bernal commended the residents and Councilmembers Viagran and Saldaña for agreeing to a compromise.

Councilmember Nirenberg also thanked the residents for being present and spoke to the importance of balanced growth.

Councilmember Gonzales spoke of issues that still have not been addressed within District 5. She stated that she had experienced a house fire near her home and cannot support the Annexation until Fire Service can be available to the area within five minutes from a call.

Councilmember Krier stated that Annexation was never easy but great cities must continue to grow. He asked of future Annexation to the East, West and North Sides of the city. Mr. Dugan replied that they were in the process of reviewing the entire ETJ and would provide recommendations to the City Council.

Councilmember Lopez commented with support for the Annexation and addressing regional issues such as transportation and air quality which is a component for the region.
