Miscellaneous	\$ 182,646
Construction	
Total Cost	\$ 182,646

Project Description

The purpose of this project is to assist in mitigating localized street flooding on Briarcrest Dr. between Briarfern and Briarledge. The proposed improvements will construct a concrete culvert structure at Briarcrest and convey storm water to a proposed earthen channel parallel to Briar Crest. The earthen channel will convey the run off to Salado Creek Tributary F and reduce the extent of existing floodplain.

Project Type: Drainage
Consultant: SADG
Project Status: Design (70% Plans)
Constr. Start Date: July 2014
Constr. Deadline: July 2015

Remarks

* ILA being created between Public Works and Bexar County so that this project can be designed and constructed by Bexar County in conjunction with their SC-4: Knoll Creek project.
