For FY 2014, the City contribution shall be \$247,218.00, and the City Public Service contribution shall be \$15,352.00.
2. The City shall have no financial obligation to the PID other than levying and collecting the assessments levied by the PID, except as provided in Section 3(1) above and paying for improvements and/or services that the Contractor performs in the PID in accordance with the approved Plan, subject, however, to the provisions of Sections 6 and 7 hereof. Payments shall be limited to funds available from assessment collections and contributions in payment of assessments against tax-exempt municipal property.

 4. In the event City-owned equipment or vehicles are to be used by the Contractor, the City will allow the Contractor to utilize those certain City-owned vehicles and/or that certain City-owned equipment covered by Section 9 "Right of Ownership" that are to be identified by the Contractor with specificity in Exhibit C to this Agreement, within the limits of the District for delivery of the Contractor services as provided for in this Agreement.  5. If Exhibit C is submitted by the Contractor, the City, by its officers, employees, agents, representatives and contractors, shall have the right at any and all reasonable times to inspect the vehicles, equipment and service facilities used by the Contractor pursuant to this Agreement to verify performance by the Contractor of its obligations under this Agreement. demand that the Contractor follow through with repair and maintenance obligations. If the Contractor refuses or neglects to commence within ten (10) business days after the City's demand and complete the same within thirty (30) business days after the City's demand, except for emergencies, then the City may, but is not obligated to, make and cause such repairs or maintenance to be made after, which the Contractor agrees that it will forthwith, on demand, pay to the City the costs thereof and if the Contractor defaults on such payment, the City shall be able to deduct said costs from funds transferred in the next fiscal year.

SECTION 4.

Amendments to Contract

This Agreement shall not be considered to be modified, altered, changed or amended in any respect unless the same is done in writing and is signed by both parties and approved by City Council as authorized by passage of an ordinance.

SECTION 5.

Term

The term of this Agreement shall begin on October 1, 2018. This Agreement shall terminate September 30, 2023 and may be extended for additional one-year terms beyond the initial term upon mutual agreement of both parties. Any extensions shall be authorized by the San Antonio City Council, evidenced by a duly authorized ordinance, on an annual basis. In the event the Downtown PID is terminated prior to the end of this Agreement, this Agreement shall automatically terminate without any action by either party. The compensation for contract extensions may be adjusted in accordance with the annual Service and Assessment Plan approved by City Council.

SECTION 6.

Payments to Contractor

1. After October 1, 2018 the City shall make payment on a reimbursement basis to the Contractor for performance of the work as hereinafter provided. The Contractor will invoice the City within 25 days of the end of each month.

Upon submission of invoices, the City shall review the invoices for accuracy and the required supporting documentation, to include but not limited to payroll journals; invoices for related fringe; contracts; lease agreements; meal receipts; and invoices from third parties. The City will remit payment via ACH within ten (10) working days for payroll related invoices and fifteen (15) working days for non-payroll related invoices from the date of complete invoice submission.

All invoice reimbursement packages will require the Contractor to certify that copies of invoices and other supporting documentation provided are the true and accurate representation of the original expenditure incurred by the Contractor. The City may

also require the submission of cancelled checks and invoices to verify invoiced expenses paid. Should any expense or charge that has been approved by the City and processed for payment be subsequently disapproved or disallowed as a result of any site review or audit, the Contractor will refund such amount to the City. The City has the authority to deduct such claims from subsequent reimbursements.

Expenditures for late fees, “re-activation fees,” and alcoholic beverages, and lobbying are not eligible expenses; and as such will not be processed by the City for reimbursement, regardless of activity or program. Where applicable, the Contractor should also mitigate the amount of sales tax incurred on PID related activities by working with the vendor to complete a tax-exemption.

The allocation of any expenditure between PID and Non-PID funding sources should be supported by a documented allocation. The documentation for the basis of the allocation shall be provided to the City for each allocated expense at the beginning of each fiscal year or at time of change.

A rolling one month operating advance may be issued upon the written approval of the Chief Financial Officer or designee.

2. The Contractor shall make a quarterly work report to the designated City representative. This quarterly report shall detail all of the Contractor’s significant work activities during the preceding quarter. The format of the report shall be in a form that is mutually agreed upon by the Contractor and the City Manager. The report shall be due on the thirtieth (30) working day of the month after the end of the quarter. Payments to the Contractor may be withheld if the quarterly report is not received. The City’s designated representative shall have the right to verify that the report is complete and accurate.
3. Upon conclusion of each fiscal year, the City and the Contractor shall reconcile the reimbursements made, receipts requested and any outstanding advance between the two entities. No further reimbursements will be made for the prior fiscal year after December 31st unless agreed to in advance by written agreement.
4. All funds received by the Contractor under this Agreement will be used in the management and operation of the PID. Any funds received from the City by the Contractor, even if held after the term of this Agreement, shall be used by the Contractor to manage the PID, or make improvements in or provide services in the PID, in accordance with the approved Plan. Acceptance by the City of requests for reimbursements that are not in compliance with Agreement provisions shall not be construed to be a waiver of the City's right to demand that future requests meet Agreement requirements.
5. The costs associated with budgeted travel for business, either in-town or out-of-town, are allowable costs provided documentation to include business purpose of expenses is present.

A. Employees, to be eligible for car allowance, are required to possess a valid

Texas Driver's License and liability insurance as required by law. Participation by the employees in an approved defensive driving course is strongly encouraged. Evidence of the required driver's license and liability insurance must be kept on file with the agency.

- B. Costs associated with out-of-town travel must be no more liberal than the City of San Antonio's travel policies. The purpose of the trip along with complete documentation of expenses and copies of all receipts are required to be maintained in the Contractor's files and provided to the City in the reimbursement package. Receipts for meals are to include all participants in attendance and business purpose for expense.
6. In those cases where the Contractor receives funds for this specific program from sources other than the City, there may be administrative-standards and/or practices that are different from those required by the City. The accounting system of the Contractor must ensure that City assessed PID funds and related expenditures be accounting for separately and are not commingled with funds from other funding sources.

SECTION 7.

Availability of Funds

If the City revenues referred to in Section 6 above are not available or are insufficient for the City to make the payments due hereunder, the City's designated representative will immediately notify the Contractor of such occurrence, and the Contractor's duty's under this Agreement shall be suspended until funds are available from special assessments or previously appropriated City funds. In the alternative when sufficient funds are not available, the City and the Contractor may meet and negotiate an amendment to this Agreement and the Plan so that the scope of improvements and/or services to be provided by the Contractor will correspond to the amount of available funds.

SECTION 8.

Public Convenience and Safety
