Until any such change is made, notices to MOBILITIE shall be delivered as follows:

	Copy to:	
Attn:		Attn:

- (d) Copies of petitions, applications, communications and reports submitted by MOBILITIE to the Federal Communications Commission or the Public Utility Commission of Texas concerning or affecting this License Agreement shall be provided to the CITY concurrently with the filing of such documents.

**SECTION 10. RECORDS**

- (a) MOBILITIE shall keep complete and accurate maps and records of its Telecommunications System. The CITY may require the keeping of additional records or maps which are reasonably necessary for purposes of identifying, accounting for, and reporting changes in Facilities.
- (b) The CITY may, at reasonable times and for reasonable purposes, examine, verify and review the documents, maps, plans and other records of MOBILITIE pertaining to the Facilities installed in the Rights-of-Way. MOBILITIE shall make the above records available to the CITY for review within ten (10) working days after requested by the Director or Rights-of-Way Manager.

## SECTION 11. COMPENSATION FOR USE OF RIGHTS-OF-WAY

In exchange for the use and occupancy of the Public Rights-of-Way, MOBILITIE shall be required to allow and provide the following:

(a) **Processing Fee.** MOBILITIE shall remit to the CITY a one-time processing fee of two thousand five hundred dollars (\$3,500.00).

(b) **Right-of-Way Access Fees.**

(1) The annual consideration amount for use of public right-of-way for the purpose of installing aerial and/or subterranean fiber optic and related communications facilities is based on the fair market value of the Rights-of-Way used by MOBILITIE. The licensed area must be as wide as the MOBILITIE will reasonably need to maintain the licensed facilities but not more than twenty (20) feet. The Chief Information/Technology Officer in his discretion may utilize internal staff or engage an independent professional consultant to conduct an appraisal of the Rights-of-Way subject to this License Agreement, based on the appraised values of adjoining properties as assessed by the Bexar County Appraisal District. MOBILITIE will be responsible for paying the Rights-of-Way appraisal separate from the processing fee. The Chief Information/Technology Officer will determine the fair market value based on the total number of square feet of Rights-of-Way multiplied by the total number of per-linear-foot of the Rights-of-Way area associated with the MOBILITIE'S network footprint. An annual escalation factor of four (4) percent will be applied to the consideration amount for year one in order to derive the consideration amount for years two (2) to ten (10) of the license term. At the discretion of the Chief Information/Technology Officer, *the CITY may negotiate a discount off the total licensing fee in exchange for in-kind contributions of equivalent value.*

(2) The licensing fee will authorize MOBILITIE to install Facilities on CITY Rights-of-Way, but does not grant authority to use poles or other infrastructure of the CITY or utility agencies. The Chief Information/Technology Officer may require MOBILITIE to sign and deliver an agreement setting out the applicable license fee and conditions imposed by CITY departments and utility agencies. When reasonably conducive to the efficient use of the property on which Facilities are located, the Chief Information/Technology Officer may require MOBILITIE to relocate the Facilities, including all related equipment, at MOBILITIE'S expense.

(3) Following termination of this License Agreement for any reason, MOBILITIE must remove or otherwise dispose of all Facilities at its' own expense within sixty (60) days. Failure to take this action will result in the Facilities being considered abandoned and the property of the CITY.

(d) MOBILITIE shall remit the Rights-of-Way access fees on an annual basis. Each

payment shall be due on February 15<sup>th</sup> of the year and shall be accompanied by a statement explaining that the payment is made pursuant to this License Agreement.

- (e) Following termination of this License Agreement for any reason, MOBILITIE must remove or otherwise dispose of all Facilities at its own expense within sixty (60) days. Failure to take this action will result in the Facilities being considered abandoned and the property of the CITY.

## **SECTION 12. ASSIGNMENT OF LICENSE AGREEMENT**

The rights granted by this License Agreement inure to the benefit of MOBILITIE and this License Agreement shall not be assigned, transferred, sold or disposed of, in whole or in part, by voluntary sale, merger, consolidation or otherwise by force or involuntary sale, without the expressed written consent of the CITY, approved by passage of an ordinance. For the purposes of this Section, assignment, transfer, sale, disposal, merger or consolidation shall exclude an assignment or transfer to entities that control, are controlled by, or are under common Control with MOBILITIE. Any such consent by the CITY shall not be unreasonably withheld.

## **SECTION 13. FUTURE CONTINGENCY**

Notwithstanding anything contained in this License Agreement to the contrary, in the event that this License Agreement, in whole or in part, is declared or determined by a judicial, administrative or legislative authority exercising its jurisdiction to be excessive, unrecoverable, unenforceable, void, unlawful, or otherwise inapplicable, MOBILITIE and the CITY shall meet and negotiate an amended License Agreement that is in compliance with the authority's decision or enactment and, unless explicitly prohibited, the amended License Agreement shall provide the CITY with a level of compensation comparable to that set forth in this License Agreement.

## **SECTION 14. VENUE AND GOVERNING LAW**

- (a) VENUE OF ANY COURT ACTION BROUGHT DIRECTLY OR INDIRECTLY BY REASON OF THIS LICENSE AGREEMENT SHALL BE IN BEXAR COUNTY, TEXAS. THE PROVISIONS OF THE LICENSE AGREEMENT SHALL BE CONSTRUED UNDER, AND IN ACCORDANCE WITH, THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATIONS OF THE PARTIES CREATED HEREUNDER SHALL BE PERFORMED IN BEXAR COUNTY, TEXAS.
- (b) This License Agreement shall be construed in accordance with the CITY Charter and Municipal Code(s) in effect on the date of passage of this License Agreement, and as may be subsequently amended, to the extent that such Charter and Code(s) are not in conflict with or in violation of the Constitution and laws of the United States or the State of Texas.

## **SECTION 15. LICENSE AGREEMENT VIOLATIONS AND TERMINATION**

The Director shall have the right to declare this License Agreement terminated at any time for failure of the MOBILITIE to comply with any term, condition, or provision of the License Agreement, including a challenge of this License Agreement, as further provided below.

- (a) If MOBILITIE initiates a challenge, legal or otherwise, to the validity of any part of this License Agreement, the entire agreement, all permits and permit applications to use Public Rights-of-Way or a municipal facility is declared null and void as of the challenge date.
- (b) MOBILITIE shall inform the CITY no later than the second day after initiating such a challenge. Failure to provide the CITY with notice constitutes a material breach of the License Agreement.
- (c) MOBILITIE must remove all Facilities installed in Public Rights-of-Way, or in, on, or around any CITY facility wherever located by no later than the 30<sup>th</sup> day after initiating the challenge.
- (d) The CITY may remove any MOBILITIE'S Facility that remain in or around Public Rights-of-Way or CITY facility on or after the 31<sup>st</sup> day following MOBILITIE'S challenge without incurring liability for the removal.
- (e) As to violations, other than a challenge of the License Agreement, MOBILITIE will have an opportunity to cure following notice from the CITY. If MOBILITIE fails to cure a violation within thirty (30) days after receiving written notice, then the CITY may pursue termination of this License Agreement.
- (f) Any termination, other than for a challenge to the License Agreement, shall be declared in writing by the Director following an opportunity to cure a violation of the License Agreement.
- (g) MOBILITIE shall not be excused from complying with any of the terms and conditions of this License Agreement by the previous failure of the CITY to insist upon or seek compliance with such terms and conditions.

## **SECTION 16. NON-BINDING MEDIATION**

- (a) Prior to filing suit, the parties to this License Agreement shall use non-binding mediation to resolve any controversy, claim or dispute arising under the License Agreement, expressly excluding disputes involving the applicability or effect of superior laws, the constitutionality of any requirement in this License Agreement or the preemptive effect of federal law.

- (b) To initiate non-binding mediation, a Party shall give written notice to the other Party. In the mediation process, the Parties will try to resolve their differences voluntarily with the aid of an impartial mediator, who will attempt to facilitate negotiations. The mediator will be selected by agreement of the Parties. If the Parties cannot agree on a mediator, a mediator shall be designated by JAMS/Endispute at the request of a Party. Any mediator so designated must (shall) be acceptable to both Parties.
- (c) The mediation will be conducted as specified by the mediator and agreed upon by the Parties. The Parties agree to discuss their differences in good faith and to attempt with the assistance of the mediator, to reach an amicable resolution of the dispute. - (d) The mediation will be treated as a settlement discussion and therefore will be confidential in accordance with Tex. Civ. Prac. & Rem. Code § 154.073. The mediator may not testify for either party in any later proceeding relating to the dispute. No recording or transcript shall be made of the mediation proceedings.
- (e) Each Party will bear its own costs in the mediation. The fees and expenses of the mediator will be shared equally by the parties.

#### **SECTION 18. SEVERABILITY**

If any clause or provision of the License Agreement is illegal, invalid, or unenforceable under present or future laws effective during the term of this License Agreement, then and in that event it is the intention of the Parties hereto that the remainder of this License Agreement shall not be affected thereby, and it is also the intention of the Parties that in lieu of each clause or provision of this License Agreement that is illegal, invalid, or unenforceable, there be added as part of this License Agreement a clause or provision as similar in terms to such illegal, invalid, or unenforceable clause or provision as may be possible and be legal, valid, and enforceable.

- (a) **License to Use Rights-of-Way** – Licensor hereby grants Licensee, a non-exclusive license to use and occupy Rights-of-Way throughout the corporate boundaries of the City of San Antonio, as these boundaries may be adjusted from time-to-time due to annexations, for the purpose of selecting Small Cell Sites and installing Small Cell Equipment, including the right to attach, operate, maintain, and replace Wireless Facilities, Transmission Media, and Wireless Backhaul Transmission Equipment on eligible poles, and no other structures, subject to the conditions outlined in this License Agreement. Licensee shall install its Small Cell Equipment consistent with the City’s Right-of-Way Management Ordinance and Excavation Manual.
- (b) **License Does Not Permit WiFi** – The non-exclusive license granted in this License Agreement does not grant Licensee the authority to install WiFi devices in Licensor’s Rights-of-Way.
- (c) **License to Use Traffic Light Poles** – Licensor also grants Licensee the right to use City traffic light poles for the purpose of attaching Small Cell Equipment based on the inventory of traffic light structures illustrated in Exhibit D, which may be updated from time to time. Access to individual City traffic light poles will be determined on a case-by-case basis pursuant to the provisions of this License Agreement.
- (d) **Non-Exclusive License** – The Licensee’s right to use and occupy the Public Rights-of-Way and attach to City traffic light poles shall not be exclusive as the City reserves the right to grant a similar use of same to itself or any person or entity at any time during the Term of this License Agreement.

- (e) **Waiver of Claims** – In consideration for the rights granted under this License Agreement, Licensee waives all claims, demands, causes of action, and rights it may assert against the City and City officials, personnel, agents, and representative because of any loss, damage, or injury to any Small Cell Equipment or any loss or degradation of Personal Communications Service resulting from the installation, operation, maintenance, or malfunction of Small Cell Equipment regardless of cause, except as provided in Section 14.

### **SECTION 3. PERMITTED USE OF RIGHTS-OF-WAY**

- (a) **Provision of Personal Communications Service** – Public Rights-of-Way may be used by Licensee, seven (7) days a week, twenty-four (24) hours a day, only for the selection of Small Cell Sites and installation of Small Cell Equipment for the transmission and reception of radio communication signals, and only for the provision of Personal Communications Service and not for any other purpose. It is understood that the purpose for installing Small Cell Equipment at designated Small Cell Sites is to augment Licensee’s PSC Provider Customer’s network capacity otherwise provided through the installation of “personal wireless service facilities,” such as traditional tower structures. This License Agreement shall include new types of Small Cell Equipment that may evolve or be adopted using wireless technologies. Licensee shall, at its expense, comply with all applicable present and future federal, state, and local laws, ordinances, rules and regulations (including but not limited to laws and ordinances relating to health, safety, radio frequency emissions, and radiation) in connection with the use of (and installation, operation, maintenance, and replacement of Small Cell Equipment on) Public Rights-of-Way.
- (b) **Installations on Poles** – Wireless Facilities, Transmission Media, and Wireless Backhaul Transmission Equipment owned by Licensee and which are part of the Small Cell Equipment may only be installed on Licensor’s traffic light poles under the terms of this License Agreement, on utility poles under the terms of a fully executed pole attachment agreement with the owner of such poles, or on Licensee’s proprietary poles. All Small Cell Equipment shall be installed on the pole selected as a Small Cell Site. No Small Cell Equipment shall be installed on a pole at a height in excess of 30 feet. No equipment shelters or cabinets, nor electrical distribution panels may be installed at ground level, except after all reasonable alternative pole locations have been explored and found unavailable or lacking in some substantial way and only with prior City approval upon a good faith showing of necessity. The City shall decide the exception based on but not exclusively historic preservation policies (Office of Historic Preservation), downtown aesthetic considerations (Center City Development and Operations Department and Planning and Community Development Department), pedestrian and disabled person access to sidewalks (Right-of-Way Management Office), public safety concerns (Transportation and Capital Improvements Department), technical installation conflicts (Chief Technology Officer), and compliance with applicable City ordinances. The permitted use of Public Rights-of-Way shall include the installation, on a set alone basis, of Wireless Backhaul Transmission Equipment owned by Licensee on any eligible pole as necessary for the operation of Small Cell Equipment after Licensee agrees to follow all applicable laws.

- (c) **No Federal Regulations Govern Small Cell Sites** – For the purpose of this License Agreement, any and all poles selected for the installation of Small Cell Equipment shall not be considered “personal wireless service facilities” as that term is defined at 47 U.S.C. § 332(c)(7)(C)(ii), or a “base station” as that term is defined at 47 CFR § 24.5. The limitations applicable to local governments with regard to the placement, construction, and modification of “personal wireless service facilities” under 47 U.S.C. § 332(c)(7)(B) shall not apply to Licensor with regard to poles selected as Small Cell Sites. Nor shall any federal regulations limiting the authority of local governments with regard to the placement, construction, and modification of “base stations” apply to Licensor with regard to poles selected as Small Cell Sites.
- (d) **No Macro Cell Installations Authorized** – Nothing in this License Agreement shall be interpreted to authorize the installation of “personal wireless service facilities” or “base stations” on Public Rights-of-Way as those terms are generally understood to refer to traditional macro wireless towers, equipment, and facilities, nor the installation on poles of wireless equipments and facilities designed for macro wireless towers.
- (e) **Landline Broadband Backhaul Transmission Service Not Authorized** – The use of Rights-of-Way under this License Agreement does not include a license to install and operate wires and facilities to provide Landline Broadband Backhaul Transmission Service, whether provided by a third-party provider, Licensee, or a corporate affiliate of Licensee. Any entity that provides Landline Broadband Backhaul Transmission Service must have independent legal authorization to use Public Rights-of-Way outside this License Agreement.
- (f) **No Collocation on Traffic Light Poles** – This License Agreement does not authorize the collocation of Small Cell Equipment on any of Licensor’s traffic light poles. To the extent that there is interest by multiple wireless providers to install Small Cell Equipment on any given traffic light pole, access to City traffic light poles will be determined on a first-come first-serve basis. An exception may be granted by the Chief Technology Officer or his designee based on Licensee’s PCS Provider Customer’s network demand considerations and the unavailability of alternative suitable Small Cell Site locations. Small Cell Equipment residing on traffic light poles must be functioning and providing service to a PCS Provider Customer applying to utilize the same traffic pole.
- (g) **No Interest in City Property or Rights-of-Way** – Nothing under this License Agreement shall be interpreted to create or vest in Licensee and its PCS Provider Customers any easement or other ownership or property interest to any City property or Rights-of-Way. Neither this License Agreement, nor any Supplemental License granted under this License Agreement, shall constitute an assignment of any Licensor’s rights to City property or Rights-of-Way. Licensee shall, at all times, be and remain a licensee only.
- (h) **No Illegal Activity Permitted** – Licensee shall not use or permit the Small Cell Sites and City traffic light poles to be used for any activity violating any applicable local, state, or federal laws, rules, or regulations.

- (i) **Licensee Representations** – Licensee is a communications infrastructure provider that provides Small Cell Equipment installed in City rights-of-way pursuant to this License Agreement to PCS Provider Customers. Licensee agrees that:
  - a. Licensee shall identify on each Small Cell Site Application the PCS Provider Customer utilizing the Small Cell Equipment and/or Small Cell Site. Such identification shall be deemed a representation by Licensee that it has a written agreement with the PCS Provider Customer to expand network capacity in the City utilizing Licensor’s rights-of-way.
  - b. If the Small Cell Equipment installed by Licensee has the radio frequency range to provide service to two (2) or more PCS Provider Customers, the Licensee shall submit a Small Cell Site Application for each PCS Provider Customer provided network capacity or otherwise provided service from the Small Cell Equipment.
  - c. Licensee shall not sublease or in any way provide capacity in the Licensor’s Right-of-Way to other neutral host communications infrastructure providers. Violation of this subsection shall be considered a material breach of the License Agreement and Licensor shall have the right to terminate the License Agreement.

#### **SECTION 4. TERM AND AMENDMENTS**

- (a) **Term of License Agreement** – The term of the Lease Agreement shall be for twenty-five (25) years commencing on the Effective Date and ending at midnight on the last day of the term (the “Term”).
- (b) **Intentionally Deleted**
- (c) **Supplemental Licenses** – Each Small Cell Site will be subject to a Supplemental License under the same terms and conditions as this License Agreement as it may be amended by mutual agreement of the Parties pursuant to subsection 4(f). The term of each Supplemental License shall run until the end of the Term commencing on the date the corresponding Small Cell Site Application is approved as provided in subsection 6(b)(6) herein. Each such Supplemental License will run during the Term of this License Agreement unless Licensee chooses to terminate any such Supplemental License pursuant to subsection 4(d). Supplemental Licenses shall not exceed the maximum 25-year Term of the License Agreement. At any time during the last five (5) years of the Term of this License Agreement, should Licensee wish to continue to deploy Small Cell Equipment on Public Rights-of-Way, the Parties may enter into negotiations to (i) extend the Term of the License Agreement beyond twenty-five (25) years under existing or amended conditions; or (ii) negotiate a successor agreement for the purpose of Licensee accessing Rights-of-Way for the installation of additional Small Cell Equipment and to transfer all existing Supplemental Licenses under the authority of such successor agreement.
- (d) **Termination of Supplemental Licenses** – In the event that (i) any applications for any governmental approvals should be finally rejected; (ii) any governmental approval issued to Licensee’s PCS Provider Customer is canceled, expires, lapses, or

is otherwise withdrawn or terminated by governmental authority; or (iii) Licensee determines that such governmental approvals may not be obtained in a timely manner, Licensee shall have the right to terminate the applicable Supplemental License. Notice of Licensee's exercise of its right to terminate under this subsection 4(d) shall be given to Licensor in accordance with the notice provisions set forth herein and shall be effective upon the mailing of such notice by Licensee, or upon such later date as designated by Licensee. All Annual License Fees paid to said termination date shall be retained by Licensor. Upon such termination, the applicable Supplemental License shall be of no further force or effect except to the extent of the representations, warranties and indemnities made by each Party to the other hereunder, and as provided in this subsection 4(d). Otherwise, Licensee shall have no further obligations for the payment of Annual License Fees to Licensor for the terminated Supplemental License, provided the Small Cell Equipment associated with said Supplemental License and any related facilities owned by Licensee have been removed from the Right-of-Way. Notwithstanding anything to the contrary contained herein, and provided Licensee is not in default hereunder beyond applicable notice and cure periods, Licensee shall have the right to terminate each Supplemental License upon the annual anniversary of the commencement date of such Supplemental License provided that three (3) months prior notice is given to Licensor. Thereafter, Licensee shall have no obligation for the payment of Annual License Fees to Licensor for the terminated Supplemental License, provided the Small Cell Equipment associated with said Supplemental License and any related facilities owned by Licensee have been removed from any affected City traffic lights pole and the Right-of-Way by the termination date. Should the Small Cell Equipment remain in place after the termination date of the Supplemental License, Licensee shall continue to be liable to Licensor for the Annual License Fee prorated for every month that the Small Cell Equipment remains in the Right-of-Way.

- (e) **Effect of Expiration of License Agreement** – Upon expiration of the License Agreement, Licensee shall have up to two hundred forty (240) days following expiration in which to remove all Small Cell Equipment and related facilities from City traffic light poles and Public Rights-of-Way, except as otherwise provided in subsection 4(c). Within thirty (30) days following expiration, Licensee shall provide the Chief Technology Officer with a schedule and timeline for removing the Small Cell Equipment. Thereafter, Licensee shall have no access to Rights-of-Way for the purpose of installing any Small Cell Equipment. Should any Small Cell Equipment remain in place thereafter, Licensee shall be liable to Licensor for the payment of monthly prorated Annual License Fees for the Small Cell Equipment that remains in the Rights-of-Way.
- (f) **Amendment of License Agreement** – Either Party shall have the right to request an amendment of this License Agreement on the fifth (5<sup>th</sup>) anniversary of the Effective Date and each five (5) year period of the Term thereafter, provided notice to amend is sent to the other Party no later than ninety (90) days from the end of such five (5) year period. In the event Licensor requests amendments to the Annual License Fee, such Annual License Fee may be increased based on comparable licensing fees paid by Licensee in other Texas cities or based on local fair market value conditions, but such increase shall be limited to no more than twenty percent (20%) during any given five year period. The Annual License Fee shall not be decreased at any time during the Term of this License Agreement. The Parties may

agree to amend other substantive provisions of this License Agreement. Any contractual amendments shall be approved by an ordinance of the City Council. If the Parties have not reached agreement on contractual amendments by the end of the then existing Term, the Parties may agree in writing to a temporary extension of the License Agreement as appropriate and necessary to complete negotiations on proposed contractual amendments, which may include mediation under Section 23. If following negotiations, the Parties cannot reach agreement on contractual amendments, the City shall have the right to terminate this License Agreement at the end of the agreed upon temporary extension period by providing written notice thereof to Licensee.

## **SECTION 5. LICENSE-AND ADMINISTRATIVE FEES**

- (a) **Annual License Fee and Escalation** – The Annual License Fee per Small Cell shall be \$1,500, which shall increase and compound annually at a rate of three percent (3%).
- (b) **Annual License Fee Applicable to Every Small Cell Site** – Licensee shall pay Licensor an Annual License Fee for every Small Cell Site approved by Licensor regardless of whether Licensee attaches its Small Cell Equipment to a traffic light pole owned by Licensor, utility pole owned by a third-party, pole owned by Licensee, or any other area of the Rights-of-Way. Any pole installation of Wireless Backhaul Transmission Equipment on a stand-alone basis shall be considered a Small Cell Site to which the Annual License Fee shall apply (unless such installation is subject to a separate agreement between Licensor and Licensee). Except as otherwise approved by the Chief Technology Officer, Licensee shall not make multiple Wireless Backhaul Transmission Equipment installations on a single pole.
- (c) **Timing of License Fee Payments** – Licensee shall pay in advance to Licensor the Annual License Fee for the coming year for each Small Cell Site. The Annual License Fee for all Small Cell Sites approved on any given month will be due on the first day of the following month. Thereafter, on the annual anniversary of that month, Licensee shall pay Licensor the Annual License Fees (including the 3% annual interest rate) for the next year for every applicable Small Cell Site.
- (d) **Late Payment Interest** – Any Annual License Fees not paid within ten (10) days of the due date shall be assessed a rate of 18% per annum from that date.
- (e) **Administrative Fees.** In addition to Annual License Fees, Licensee shall be responsible for paying Administrative Fees for the processing of Small Cell Site Applications by City staff as prescribed in Section 7. Starting on the Effective Date, Licensee shall pay a non-refundable \$700.00 Administrative Fee to Licensor for each Small Cell Site Application submitted for review and approval. The Administrative Fee shall be submitted with every Small Cell Site Application as a prerequisite to begin review of the Small Cell Site Application. Licensee shall have the right to amend the Small Cell Site Application to correct errors or provide additional information without having to pay a second Administrative Fee.
- (f) **Advance Payment** – As partial consideration under this License Agreement, Licensee shall pay Licensor within thirty (30) days of the Effective Date of the License Agreement an advance payment of \$70,000.00 Such payment shall be

used as a credit against Annual License Fees and Administrative Fees incurred by Licensee until such date on which such advance payment has been fully depleted.

- (g) **Annual License Fees and Administrative Fees to Licensor** – Licensee shall pay Licensor the Annual License Fees and Administrative Fees as specified in subsections 5(a) – (f) in the form of a money transfer or a check made out to the order of the City of San Antonio and sent to:

City of San Antonio  
Information Technology Services Department  
Attn: ITSD Fiscal Administrator

San Antonio, TX 78283

## SECTION 6. APPROVAL OF SMALL CELL SITES

- (a) **Small Cell Site Application** – Licensee shall file with the Chief Technology Officer a Small Cell Site Application for every proposed Small Cell Site as prescribed in Exhibit E. Said application form may be modified from time-to-time by the Chief Technology Officer as deemed necessary in order to more efficiently process applications from Licensee. As provided in Section 3(i), Licensee shall indentify on the Small Cell Site Application the PCS Provider Customer using the Small Cell Equipment and Small Cell Site. Such identification shall be deemed a representation by Licensee to the City that Licensee has a written agreement with such PCS Provider Customer concerning such utilization.
- (b) **Small Cell Site Approval Process** – Upon filing of a Small Cell Site Application as provided in Exhibit E, the Chief Technology Officer shall process the Small Cell Site Application within thirty (30) business days in accordance with the process flow chart set out in Exhibit F. A request by ITSD staff for additional information will toll the time period for approval of the Small Cell Site Application on a day-by-day basis. The Chief Technology Officer may designate one or more staff personnel to review and approve Small Cell Site Applications, and shall have the authority to develop regulations for the efficient process of such applications.
- (1) **Right-of-Way Determination** – The Licensor will determine whether the location (and any existing pole) identified by Licensee as a Small Cell Site is within City Right-of-Way. If it is not, the request would be outside the scope of the License Agreement as Licensor would not have authority to approve the Small Cell Site Application.
- (2) **Ownership of Pole** – The Licensor will determine the ownership of the pole identified for installation of Small Cell Equipment. As the process flow chart at Exhibit F provides, the pole may be a City traffic light pole, a new pole to be installed by Licensee, or a utility pole owned by CPS Energy. Exhibit F outlines a review process applicable for each category of pole. The application review process applicable for a utility pole owned by CPS Energy shall also apply to a pole owned by any other third-party which Licensee uses to attach Small Cell Equipment and which is located on Public Right-of-Way.

- (3) **Site Eligibility** – Licensor shall determine whether a requested City traffic light pole or the location for the installation for a new pole is eligible as a Small Cell Site based on space availability or other considerations. In addition, Licensor must determine whether public safety considerations prevent eligibility of a traffic light pole as a Small Cell Site. Concerning a request to install a new pole, Licensor shall determine whether City policies and availability of Right-of-Way prevent the pole installation at the requested location.
- (4) **Review Criteria** – All Small Cell Site Applications requesting access to a City traffic light pole must include a load bearing study to determine whether the attachment of Small Cell Equipment may proceed without pole modification or whether the installation will require pole re-enforcement or replacement. If pole re-enforcement or replacement is necessary, Licensor shall provide engineering design and specification drawings demonstrating the proposed alteration to the pole. Moreover, all Small Cell Site Applications requesting the installation of a new pole shall include engineering design and specification drawings demonstrating compliance with the Americans with Disabilities Act. For each Small Cell Site Application, the Chief Technology Officer or his designee shall:
- a. Verify that the Small Cell Site Application is complete and the appropriate Administrative Fee has been submitted.
  - b. Review engineering design documents to determine:
    - i. compliance with contractual requirements under this License Agreement and all City Rights-of-Way requirements;
    - ii. no interference with City public safety radio system, traffic signal light system, or other communications components;
    - iii. inclusion of appropriate design of stealth components necessary to comply with historic preservation requirements or aesthetic design elements for downtown attachments; and
    - iv. compliance with City pole attachment regulations for traffic light poles, including replacement of CPS Energy electric meter with dual meters.
  - c. Determine compliance with any other applicable requirements.

As appropriate, the Chief Technology Officer or his designee shall require Licensee to make design modifications in order to comply with applicable contractual, regulatory, or legal requirements. Failure to make the requested design modifications shall result in an incomplete Small Cell Site Application which may not be processed under this License Agreement.

Concerning Small Cell Site Applications for attachment to a CPS Energy pole, or the pole owned by any other third-party, the Chief Technology Officer or

his designee shall follow the same review process as outlined in subsections 6(4)(a)-(c) as applicable.

- (5) **Approval of Application** – Upon finding that the Small Cell Site Application is complete and in compliance with all applicable requirements as outlined above, the Chief Technology Officer or his designee shall approve such Small Cell Site application. The approval of the Small Cell Site Application requesting to attach to a City traffic light pole, or to install a new pole, shall authorize Licensee to proceed to obtain a Right-of-Way permit (ROW Permit) from the City’s Right-of-Way Management Office. Licensee shall comply with the requirements of the Right-of-Way Management Ordinance and Excavation Manual. Licensee shall pay all appropriate Texas standard promulgated ROW Permit fees. Upon obtaining a ROW Permit, Licensee may proceed to install the Small Cell Equipment in coordination with any affected City departments. Approval of a Small Cell Site Application related to the use of a CPS Energy utility pole, or a pole owned by any other third-party, shall authorize Licensee to proceed with attachment process applicable to the pole owner and in accordance with the pole owner’s regulations proceed to obtain a ROW Permit. Again, Licensee shall proceed with the Small Cell Equipment installation in coordination with any affected City departments. Upon completion of the installation, Licensee shall notify the Chief Technology Officer, or his designee, in writing and provide a picture of said installation to be included in the Small Cell Site Application records.
- (6) **Execution of Supplemental License** – Upon approval of the Small Cell Site Application, the Parties shall execute a Supplemental License in the form provided in Exhibit G, which shall be effective as of the date of application approval.
- (7) **Inventory of Small Cell Sites** – Licensee shall maintain a current Inventory of Small Cell Sites throughout the Term of this License Agreement. Licensee shall provide to Licensor a copy of the Inventory of Small Cell Sites one hundred and eighty (180) days prior to the first (1st) anniversary of the License Agreement and every year thereafter until the end of the Term. The Inventory of Small Cell Sites shall include GIS coordinates, date of installation, Company Site ID #, type of pole used for installation, pole owner, and description/type of installation for each Small Cell Equipment installation. Concerning Small Cell Sites that become inactive, the Inventory of Small Cell Sites shall include the same information as active installations in addition to the date the Small Cell Site was deactivated and the date the Small Cell Equipment was removed from the Right-of-Way. Licensor shall compare the Inventory of Small Cell Sites to its records to identify any discrepancies.
- (8) **Unauthorized Installations** – Any Unauthorized Small Cell Sites that are identified by the City as a result of comparing the Inventory of Small Cell Sites to internal records or through any other means will be subject to the payment of Unauthorized Installation Charges by Licensee. Licensor shall provide written notice to Licensee of any Unauthorized Small Cell Site identified by City staff and Licensee shall have thirty (30) days thereafter in

which to submit a preexisting Supplemental License for said site. Failure to produce a Supplemental License corresponding with the Unauthorized Small Cell Site will result in the imposition of an Unauthorized Installation Charge, which shall be calculated by applying the Annual License Fee formula set out in Section 5 to the period spanning from the original date of installation of the Unauthorized Small Cell Site to the date of the written notice sent by Licensor. The total amount resulting from this calculation shall be assessed an interest rate of twelve (12) percent to constitute the applicable Unauthorized Installation Charge. Thereafter, Licensee shall submit a Small Cell Site Application and applicable Administrative Fee for the Unauthorized Small Cell Site and if approved by the Chief Technology Officer, a Supplemental License shall be executed and Licensee shall become liable for paying Annual License Fees going forward. If the Small Cell Site Application for the Unauthorized Small Cell Site is not approved based on applicable considerations under this License Agreement or has not been submitted within the aforementioned 30-day period, Licensee shall remove the Small Cell Site Equipment and any related facilities from the Right-of-Way within thirty (30) days.

#### **SECTION 7. CONSTRUCTION WORK-REGULATION BY CITY**

- (a) **Compliance with Law Required** – The work done by Licensee in connection with the installation, construction, maintenance, repair, and operation of Small Cell Equipment on poles within the Public Rights-of-Way shall be subject to and governed by all pertinent local and state laws, rules, regulations, including the City’s Right-of-Way Management Ordinance, that are applicable to insuring the work done does not unduly inconvenience the public in the use of the surface of the streets and sidewalks.
- (b) **Duty to Minimize Interference** – All pole excavations, construction activities, and aerial installations on poles in the Rights-of-Way shall be carried on as to minimize interference with the use of City’s Rights-of-Way and with the use of private property, in accordance with all regulations of the City necessary to provide for public health, safety and convenience.

#### **SECTION 8. CONSTRUCTION, RESTORATION AND MAINTENANCE ACTIVITIES**

- (a) **Eligibility of City Traffic Light Pole** – Prior to submitting a Small Cell Site Application related to the use of a City traffic light pole, Licensee shall verify with the City’s Transportation and Capital Improvements (“TCI”) Department the eligibility of the specified traffic light pole for attachment of Small Cell Equipment. In addition, Licensee shall conduct an engineering load bearing study to determine whether the pole can withstand the added weight of the Small Cell Equipment. If the proposed installation will require pole re-enforcement or replacement, the engineering design documents included with the Small Cell Site application shall include specifications relating to the proposed pole re-enforcement or replacement. Construction activities involving pole re-enforcement or replacement shall be coordinated with applicable TCI Department personnel and the Right-of-Way Manager.

- (b) **Compliance with Right-of-Way Regulations** – In the installation, construction, maintenance, upgrade, and operation of Small Cell Equipment, Licensee shall comply with the provisions of the Right-of-Way Management Ordinance and Excavation Manual (which is applicable to all utilities operating within the San Antonio), including but not limited to provisions pertaining to the following activities:
- (1) construction activities related to the installation, maintenance, repair, upgrade, and removal of Small Cell Equipment on existing poles in the Rights-of-Way;
  - (2) installation of new poles in the Rights-of-Way;
  - (3) cut or otherwise disturb the surfaces of the Rights-of-Way;
  - (4) disruption of vehicular and pedestrian traffic on Rights-of-Way to a minimum as reasonably necessary to execute the required work;
  - (5) applicable excavation and restoration standards; and
  - (6) pavement repairs.
- (c) **Submission of Engineering Plans** – Prior to installation, Licensee shall submit engineering plans to the Right-of-Way Manager for review and approval in accordance with the Right-of-Way Management Ordinance.
- (d) **Identification of Utility Lines** – Prior to beginning any excavation or boring project on Public Rights-of-Way, Licensee shall comply with the provisions of the Texas One Call utility locator service at least forty-eight (48) hours in advance. Licensee has the responsibility to protect and support the various utility facilities of other providers while conducting construction, installation, and maintenance operations.
- (e) **Installation, Maintenance, and Repair of Small Cell Equipment** – Licensee and its designated contractors shall have the sole responsibility to install state-of-the-art Small Cell Equipment on City traffic light poles, including the responsibility for providing electricity service and an electric meter. Licensee shall keep and maintain all Small Cell Equipment installed on Public Rights-of-Way in commercially reasonable condition and repair throughout the Term of this License Agreement, normal wear and tear and casualty excepted. Licensee shall have the right to conduct testing and maintenance activities, and repair and replace damaged or malfunctioning Small Cell Equipment at any time during the Term.
- (f) **Upgrade of Small Cell Equipment** – Licensee shall have the right to upgrade the Small Cell Equipment with next-generation equipment and innovative new technologies. Prior to making any such equipment or technology upgrade, Licensee shall file a Small Cell Equipment Application with the Chief Technology Officer or his designee, who shall review the application for compliance with the permitted use under this License Agreement and to verify that the new installation will not cause any interference with City's public safety

communications system, traffic light signal system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate. Licensee will address any interference issues prior to approval of such application.

- (g) **Coordination of Maintenance and Equipment Upgrade Activities** – Prior to Licensee engaging in planned or routine maintenance activities, or equipment upgrades concerning Small Cell Equipment attached to a City traffic light pole, Licensee shall provide twenty (20) days advance notice to the TCI Department in order to coordinate such maintenance activities with City operations of the traffic light system or other public safety functions. Licensee shall obtain a ROW Permit prior to engaging in any maintenance or equipment upgrade activities in the Right-of-Way regardless of pole ownership. Such twenty (20) day advance notice shall not be required in the case of an emergency.
- (h) **Removal of Non-Compliant Installations** – The City shall have the authority at any time to order and require Licensee to remove and abate any Small Cell Equipment or other structure that is in violation of the City Code of Ordinances. In case Licensee, after receipt of written notice and thirty (30) days opportunity to cure, fails or refuses to comply, the City shall have the authority to remove the same at the expense of Licensee, all without compensation or liability for damages to Licensee.
- (i) **Reservation of Rights** – The City reserves the right to install, and permit others to install utility facilities in the Rights-of-Way. In permitting such work to be done by others, the City shall not be liable to Licensee for any damage caused by those persons or entities.
- (j) **No Limitation in City’s Operation of Traffic Light Signal System** – The Parties agree that this License Agreement does not in any way limit Licensor’s right to locate, operate, maintain, and remove City traffic light poles in the manner that best enables the operation of its traffic light signal system and protect public safety. The TCI Department may deny access to City traffic light poles due to operational conditions at the requested site, limited space availability, public safety concerns, future traffic signal system planning, or other operational considerations. Further, nothing in this License Agreement shall be construed as granting Licensee any attachment right to install Small Cell Equipment to any specific traffic light pole, other than an approved Small Cell Site Application and execution of the corresponding Supplemental License under the terms of this License Agreement.
- (k) **Coordination of Traffic Light Maintenance Activities and Emergency Response** – Prior to conducting planned or routine maintenance on specific components of the traffic light signal system mounted on poles where Small Cell Equipment has been installed, the TCI Department shall provide Licensee twenty (20) days advance notice of such maintenance activities. In advance of such maintenance activities, Licensee shall temporarily cut-off electricity to its Small Cell Equipment for the safety of maintenance personnel. In the event of failure of components of the traffic light signal system for whatever reason, including damage resulting from vehicular collisions, weather related events, or malicious attacks, Licensor will respond to restore traffic light signal operations as a matter of public safety

under the emergency provisions outlined in Section 13. Should the events that results in damage or failure of the traffic light signal system also affect Small Cell Equipment, Licensee shall have the sole responsibility to repair or replace its Small Cell Equipment and shall coordinate its own emergency efforts with the TCI Department.

#### **SECTION 9. SUPERVISION BY CITY OF LOCATION OF POLES**

- (a) **Supervision by Right-of-Way Manager** – In the event Licensee finds it necessary to install poles on Public Rights-of-Way in order to install Small Cell Equipment at a selected Small Cell Site, such poles shall be of metal or other material of similar strength and straight in construction, and shall be set so that they will not interfere with the flow of water in any gutter or drain, and so that they will not unduly interfere with ordinary travel on the streets or sidewalk. The location of all Licensee’s personal property, poles, , and electrical connections placed and constructed by the Licensee in the installation, construction, and maintenance of Small Cell Equipment shall be subject to the lawful, reasonable and proper control, direction and/or approval of the Right-of-Way Manager.
- (b) **Pre-Approval by Right-of-Way Manager** – Prior to submitting a Small Cell Site Application covering the installation of a new pole, Licensee shall verify with the Right-of-Way Manager the eligibility of the Right-of-Way location for the proposed pole installation. Licensee shall include in the Small Cell Site Application documentation from the Right-of-Way Manager approving the proposed pole location in the Right-of-Way.

#### **SECTION 10. INTERFERENCE WITH OTHER FACILITIES PROHIBITED**

- (a) **Interference with Rights of Others Prohibited** – Licensee shall not impede, obstruct or otherwise interfere with the installation, existence and operation of any other facility in the Rights-of-Way, including but not limited to sanitary sewers, water mains, storm water drains, gas mains, poles, aerial and underground electrical infrastructure, cable television and telecommunication wires, public safety and City networks, and other telecommunications, utility, or municipal property.
- (b) **Signal Interference with City’s Communications Infrastructure Prohibited** – In the event that Licensee’s Small Cell Equipment interferes with the City’s traffic light signal system, public safety radio system, or other City communications infrastructure operating on spectrum where the City is legally authorized to operate, Licensee will respond to the Licensor’s request to address the source of the interference as soon as practicable, but in no event later than twenty-four (24) hours of receiving notice, pursuant to protocol outlined in subsection 10(c) below and shall follow the escalation process outlined in Section 13 of this License Agreement.
- (c) **Protocol for Responding to Event of Interference** – The protocol for responding to events of interference will require Licensee to provide the Chief Technology Officer an Interference Remediation Report that includes the following items:

- (1) **Remediation Plan.** Devise a remediation plan to stop the event of inference;
- (2) **Time Frame for Execution.** Provide the expected time frame for execution of the remediation plan; and
- (3) **Additional Information.** Include any additional information relevant to the execution of the remediation plan.

In the event that interference with City facilities cannot be eliminated, Licensee shall shut down the Small Cell Equipment and pursuant to Section 12 remove or relocate the Small Cell Equipment that is the source of the interference as soon as possible to a suitable alternative location made available by Licensor.

## **SECTION 11. COMPLIANCE WITH UTILITY, HEIGHT, AND HISTORIC PRESERVATION REGULATIONS**

- (a) **Compliance with Local Regulations** – Licensee shall comply with all applicable local design and historic preservation regulations, including the following:

In all other zoning areas, Small Cell Equipment shall not be installed at a height exceeding thirty (30) feet.
  - (3) **Downtown Aesthetics.** The design plans for all Small Cell Site installations Downtown shall be compatible with the character and aesthetics of the neighborhoods, plazas, boulevards, parks, public spaces, and commercial districts located in whole or in part within Downtown. In coordination with City’s Office of Historic Preservation, Planning and Community Development Department, Licensee shall implement design concepts and the use of camouflage or stealth materials, as necessary to blend its installations with the overall character of downtown locations selected as Small Cell Sites. Prior to submitting a Small Cell Site Application covering Downtown, Licensee shall meet with these City departments to discuss proposed Small Cell Site installations and request input on potential design modifications appropriate for the installation. Licensee shall comply with the City of San Antonio Downtown Design Guide and with all other City regulations applicable to Downtown.
  - (4) **Historic Preservation.** All Small Cell Site installations within a historic district shall be stealth installations subject to the review of the City’s Office of Historic Preservation in order to satisfy that the installations are compatible with the regulations applicable to the historic district. Licensee shall implement design concepts, and the use of camouflage or

stealth materials, as necessary in order to achieve compliance with historic preservation review, including following the City of San Antonio Historic Design Guidelines and other applicable regulations as amended. Further, Licensee acknowledges that under City regulations, all installations on Public Rights-of-Way are subject to review by the Office of Historic Preservation. Prior to submitting a Small Cell Site Application, Licensee shall meet with the Office of Historic Preservation to discuss any potential design modifications appropriate for the installation.

- (5) **Expenses.** Licensee exclusively bears the cost and expense necessary to comply with subsections (1) through (4) above.

## SECTION 12. RELOCATION AND REMOVAL OF FACILITIES

- (a) **Relocation and Removal at Licensee's Expense** – Licensee shall remove and relocate its Small Cell Equipment at its own expense to an alternative location made available by Licensor and acceptable to Licensee not later than one hundred twenty (120) days after receiving written notice that removal, relocation, and/or alteration of the Small Cell Equipment (including poles) is necessary due to:
  - (1) construction, expansion, repair, relocation, or maintenance of a street or other public improvement project; or
  - (2) maintenance, upgrade, expansion, replacement, or relocation of City traffic light poles and/or traffic signal light system; or

  - (5) activities undertaken to eliminate a public nuisance; or
  - (6) duty otherwise arising from applicable law.

Licensee's duty to remove and relocate its Small Cell Equipment at its expense under this subsection 12(a) is not contingent on the availability of an alternative location acceptable for relocation. Licensor will make reasonable efforts to provide an alternative location on Right-of-Way for relocation, but regardless of the availability of an alternative site acceptable to Licensee, Licensee shall comply with the notice to remove its personal property as instructed.

- (b) **Cooperation in Relocations** – The Licensee and Licensor shall cooperate to the extent possible to assure continuity of service during relocation of Small Cell Equipment.
- (c) **Recovery of Relocation Cost from Third-Parties** – Nothing in this section shall be construed as preventing Licensee from recovering the cost of removal and/or relocation of its facilities from a nongovernmental third-party responsible for the removal and/or relocation.

- (d) **Consequences of Failure to Remove and/or Relocate** – If Licensee fails to remove and/or relocate its facilities to the satisfaction of the Chief Technology Officer or his designee by the 60<sup>th</sup> day after the date of notice or has not diligently commenced such removal as directed by Licensor, the Licensor may remove the Small Cell Equipment at the expense of Licensee.
- (e) **Duty of Care when Removing and/or Relocating** – Any damage to the Public Rights-of-Way or adjacent property caused by Licensee that occurs during the removal and/or relocation of Licensee’s Small Cell Equipment shall be promptly repaired or replaced at Licensee’s sole expense. - (c) **Licensee's Response to Network Emergency** - In case of a network emergency due to any unforeseen event, Licensee may access its Small Cell Equipment without first obtaining a ROW Permit provided Licensee has conducted network trouble-shooting and diagnostic tests and has reasonably identified the point or points of network failure or malfunction. While acting under this provision to address a network emergency, Licensee shall conduct its activities within the Right-of-Way in such a manner as to protect public and private property. Licensee will make every reasonable effort to coordinate its emergency response with the Licensor. To that end, prior to entering the Right-of-Way, Licensee will use the following emergency contacts to give notice to Licensor of the network emergency and an estimated time period to address the situation:

In addition, if any of Licensee's Small Cell Equipment, whether installed pursuant to a Supplemental License or not, would cause such forfeiture (as determined by any order, decision, action, or ruling by a court or other governmental authority of competent jurisdiction), Licensee shall promptly remove such Small Cell Equipment from any City traffic light pole(s) and Rights-of-Way upon written notice from Licensor of such order, decision, action, or ruling.   - (3) Licensee shall not be excused from complying with any of the terms and conditions of this License Agreement by the previous failure of the City to insist upon or seek compliance with such terms and conditions.
- (b) **No Waiver of Duties** – Termination of this License Agreement does not relieve Licensee from the obligation to pay (i) Annual License Fees owing to Licensor under the License Agreement at the time of termination, or (ii) any claim for damages against Licensee under this License Agreement. Termination does not prevent Licensor from enforcing payment by any remedy provided for by law or from recovering from Licensee for any default. Licensor's rights, options, and remedies under this License Agreement are cumulative, and no one of them is exclusive of the other. Licensor may pursue any or all such remedies or any other remedy or relief provided by law, whether or not stated in this License Agreement. No waiver by Licensor of a breach of any covenant or condition of this License Agreement is a waiver of any succeeding or preceding breach of the same or any other covenant or condition of this License Agreement.
