Councilmember Medina entered the meeting at this time.

2. A Briefing on the process and recommendation for selection of a contract to provide Management of Towing Services for the City of San Antonio Police Department. [Erik Walsh, Deputy City Manager; Anthony Trevino, Interim Chief of Police]

Deputy City Manager Erik Walsh provided an overview of the Management of Towing Services Contract and introduced Interim Police Chief Anthony Treviño. Chief Treviño presented a Power Point and stated that the 2008 Agreements for Towing Services provided for the reliable and efficient removal of motor vehicles from streets and rights of way. He noted that on average, 44,700 vehicles were towed per year. He mentioned that there was a 30 minute response time requirement and that a company may be suspended if they perform below 98% for two consecutive months. He reported that there were currently six zones being serviced by three Contractors: 1) Allied Towing; 2) Assured Towing; and 3) Texas Towing. He stated that Alanis and Mission Wrecker Services were the two Emergency Backup Contractors and added that all contracts would expire in November 2015.

Chief Treviño outlined the Solicitation Process noting that they had released a Request for

Proposals (RFP) in January 2015. He stated that a Pre-Submittal Conference was held on January 28, 2015 and that the RFP was due on March 6, 2015. He noted that Respondent Interviews were held on April 14, 2015 and that the contract was scheduled for consideration by the City Council on May 28, 2015. He added that the contract was valued at \$8.8 Million annually and that the proposed new term was four years with one 2-year renewal option.

Chief Treviño explained that the Management of Towing Services Contract would include the following services: Dispatching, Recording, Oversight, Auditing, and Report Generation regarding Police-Initiated Towing Services. He outlined the Evaluation Criteria for the RFP and noted that Small Business Economic Development Advocacy (SBEDA), Local Preference, and Veteran Owned Small Business would be included. He provided a list of Voting and Advisory Members of the Project Evaluation Committee and highlighted the scoring matrix in which United Road Vehicle Management Systems (URVMS) received the highest score. He indicated that they would utilize 6 Subcontractors and would reduce response times after the first year of the contract. He noted their rates which would be \$158 for Light Duty, \$293 for Medium Duty, and \$345 for Heavy Duty.

Chief Treviño stated that they had reviewed the Towing Services utilized in comparable cities and highlighted the rates and response times. He spoke of the benefits of the Management of Towing Services that include Police Officers returning to duty sooner and reduction of congestion on roadways.

Mayor Taylor thanked staff for the presentation.

Councilmember Warrick asked if URVMS provided Management Services in other cities. Chief Treviño replied that he believed that URVMS managed other Subcontractors but would confirm that information and provide it to the City Council. Steve Baum added that URVMS performed Towing Services in some cities. Councilmember Warrick asked if references had been received from other cities in which URVMS operates. Mr. Baum replied that they had received positive references for URVMS. Councilmember Warrick asked why the City of San Antonio was changing to a Management of Towing Services Contract. Chief Treviño replied that their goal was to create a seamless process and have one point of contact for Towing Services. He noted that there were currently six SAPD Employees working on Towing Services which would be reduced to five through the elimination of one Inspector.

Councilmember Viagran thanked everyone for their work and expressed support for the Management of Towing Services Contract. She asked where the Local Dispatch Office would be located. Chief Treviño responded that it was part of their proposal but had not yet

been established. He stated that it would be operable by the contract start date of December 1, 2015. Councilmember Viagran asked of the number of employees that URVMS would have in San Antonio. Mr. Baum replied that there was one Manager that would serve as the point of contact for the City of San Antonio and that their dispatchers would be Subcontracted. Councilmember Viagran asked of the checks and balances for the Subcontractors. Chief Treviño replied that they would work with URVMS to ensure that the Subcontractors were in compliance. Mr. Walsh added that URVMS would also be responsible for ensuring that the Subcontracts met the response time established in the contract.

Councilmember Lopez expressed support for the new approach to Towing Services and asked of the points awarded for the SBEDA-SBE Protégé Mentorship Incentive Program and Local Preference Program. Alex Lopez stated that the respondents that committed to serve as a Mentor in the Mentor/Protégé Program were awarded five points. Troy Elliot replied that the companies that were Locally Headquartered were awarded 10 points within the Local Preference Program Category. Councilmember Lopez spoke of the importance of reducing response times. Chief Treviño stated that after the first year of the contract, Highway Response Time would decrease to 20 minutes and City Street Response Time would decrease to 25 minutes.

Councilmember Nirenberg stated that he was pleased that the Police Department would no longer be responsible for managing Tow Services and asked how the comparable cities were selected. Mr. Walsh replied that they had compared other Texas Cities as well as others similar in size and services provided.

Councilmember Krier expressed support for the Management of Towing Services and asked if the City Council would receive Annual Reports regarding response times. Mr. Walsh replied that noted that they usually provide updates through the Public Safety Council Committee but could provide that information to the full City Council. Councilmember Krier asked how SAPD was advising motorists of clearing the roadways after an accident. Chief Treviño replied that they would be working with the Texas Department of Transportation on a Public Education Campaign to keep roadways clear.

Mayor Taylor stated that she was pleased to be moving toward a more efficient system and thanked staff for the presentation. She noted that Item 3 was pulled from the agenda by staff and would not be addressed.
