

**BUILDING A TECH PORT:  
CONNECTING TECHNOLOGY  
WITH INNOVATION**

**June 5, 2018**

# Economic Engine

**1,900**  
Acres

**\$5.2 Billion**  
Annual  
Economic  
Impact

**13,000**  
Direct Jobs

# Milestones

- **1917** – Kelly Field founded in southwest Bexar Co.
- **1943** – Mission shifts from training to aircraft maintenance—rise as major SA employer for 50+ years.
- **1995** – Closure of Kelly announced by BRAC.
- **1997** –Greater Kelly Development Authority created; governed by11-member board appointed by City Council.
- **1998** – Initial leases between redevelopment authority and aerospace companies that retain Kelly employees.
- **2001** – Kelly AFB formally closes.
- **2001** – Alamo Academies launched.
- **2007-10** – Port provides secure facility for military commands, including the 24<sup>th</sup> Air Force / Cyber Command headquarters.

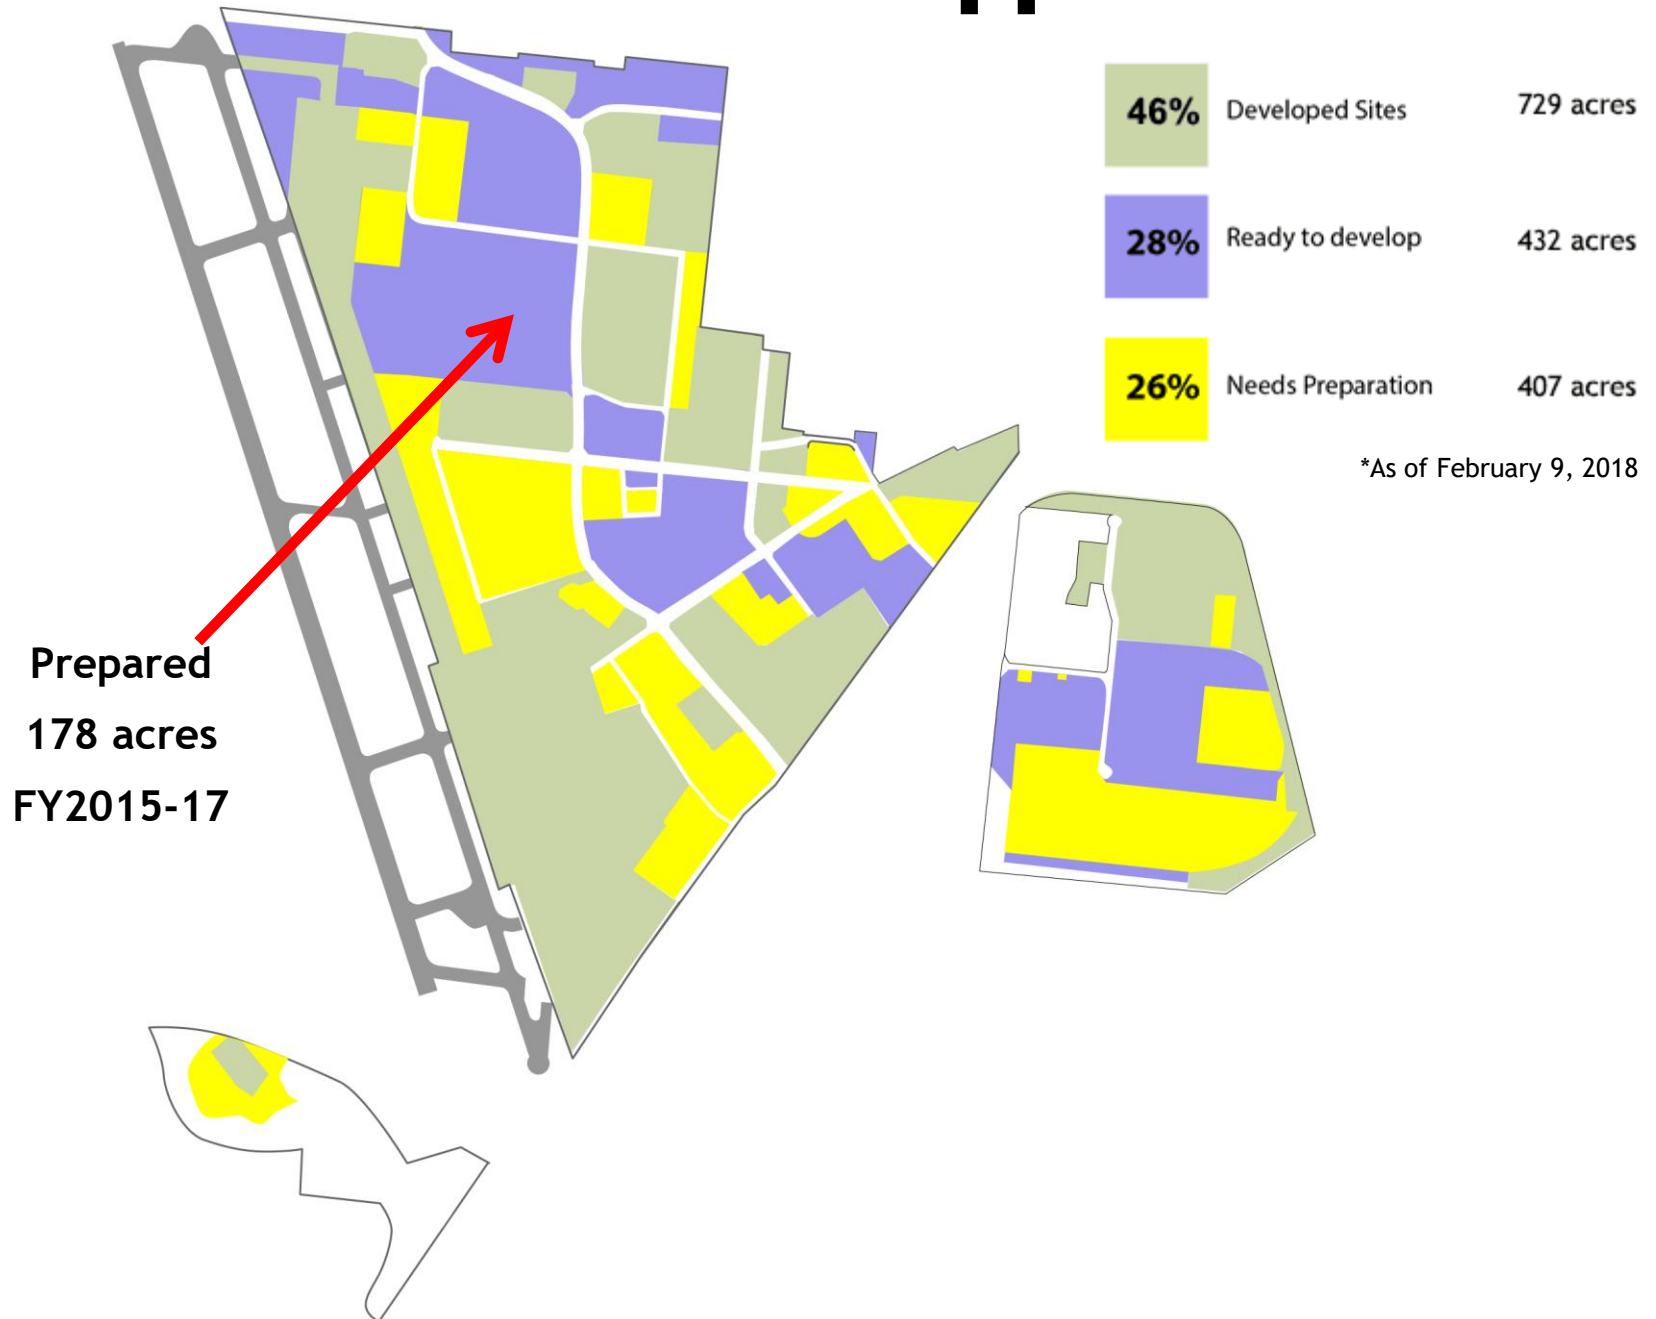

# Milestones

- **2008** – Organization rebrands as Port San Antonio.
- **2013-14** – CoSA + Port jointly develop aerospace growth strategy plan, emphasizing capability growth.
- **2010-Present** – Multiple cyber firms establish, grow operations at Port to support DoD and private sector.
- **2016** –Project Tech vision announced; 5,000 jobs by 2020.
- **2017-18** – Boeing, StandardAero announce new defense and commercial projects.
- **2017-18** – Port launches educational/innovation partnerships with SA Museum of Science and Technology.
- **2018** – First phase of Project Tech completed.
- **Today** – 3,000 aerospace, 1,000+ cyber jobs at Port

# Recent Community Support

- Upcoming drainage infrastructure
- Demolition / preparation of 178 acres at Kelly Field
- Preparation of Project Tech infrastructure
- 36<sup>th</sup> Street completion
- Quintana Road improvements
- Aerospace facility upgrades

# Project Tech: More Than A Building

# **SAN ANTONIO:**

**CONNECTING + INNOVATING GLOBAL  
TECHNOLOGIES**

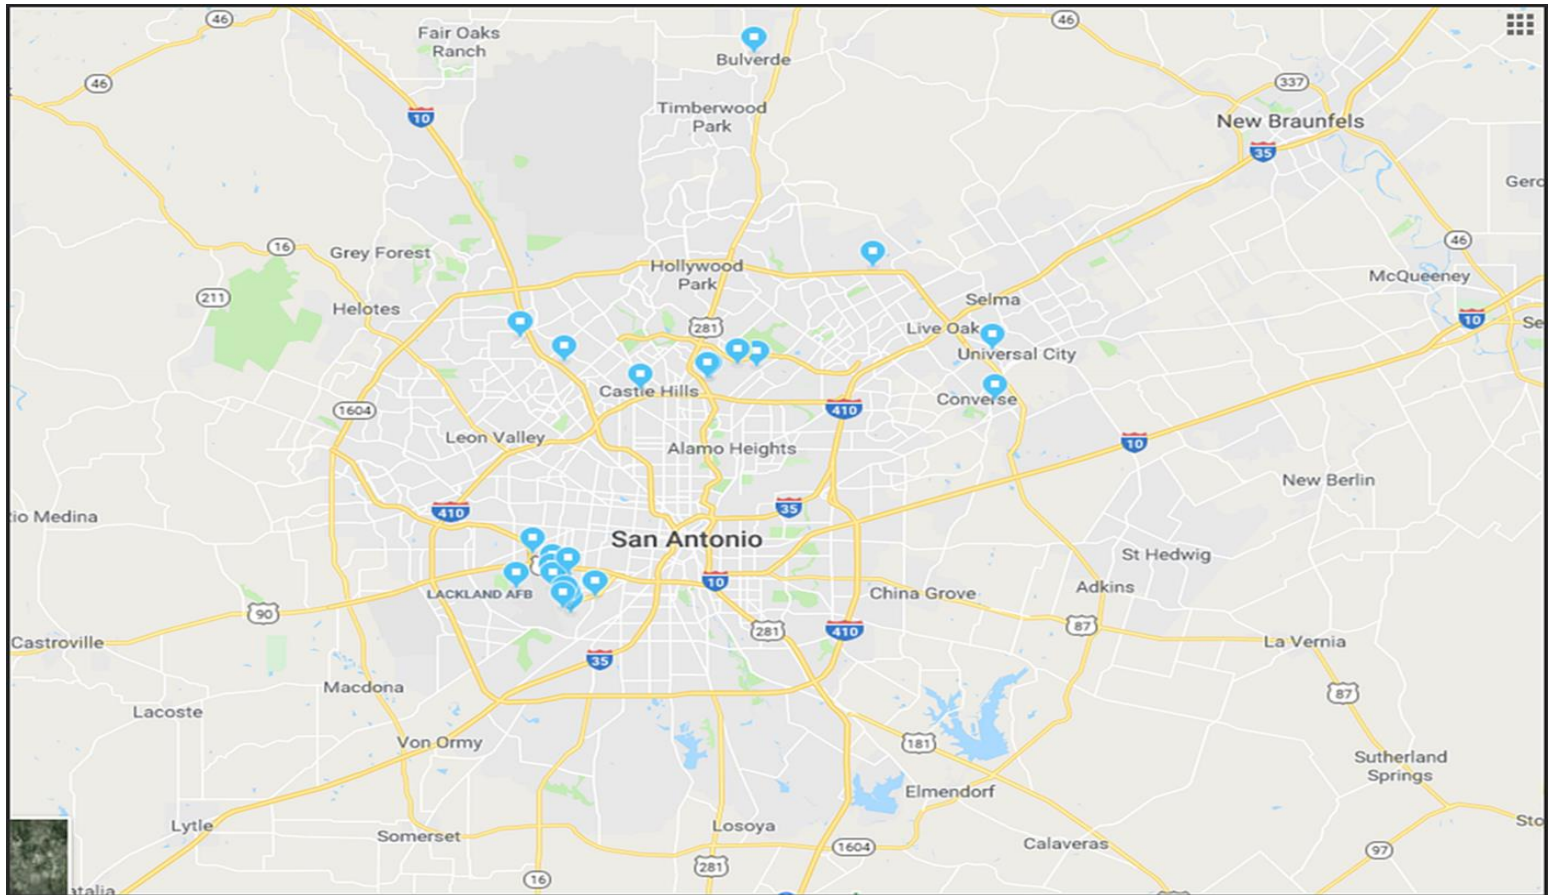

# **San Antonio Chamber of Commerce Aerospace Committee**

**2018 Chair Tyler Schroeder**

June 5, 2018

# Our Presence

# **GLOBAL GROWTH POTENTIAL**

## **Maintenance, Repair, and Overhaul (MRO)**

**Estimated \$2.7 trillion market in services through 2027**

- **Military**
  - Maintenance backlog in tactical aircraft fleets
  - Increased defense funding
  - Extending useful life of military assets
- **Commercial**
  - Growing global middle class
  - Uniformity of fleets
  - Rapid integration, minimizing out of service time
  - Predictive maintenance

# **BIG WINS FOR SAN ANTONIO**

**StandardAero's San Antonio facility wins commercial contract to maintain Boeing 757 engines**

Fighter jet work coming to Boeing facility in San Antonio

By [Rye Druzin](#)

Updated 10:03 am, Tuesday, April 10, 2018

**StandardAero's San Antonio facility awarded \$380 million DoD contract**

Government & Regulations

**Exclusive: Boeing expects to double its workforce in SA** 

**San Antonio aerospace site will get a slice of \$15 billion contract**

# Aerospace Industry Assessment

- What are our strengths/capabilities?
- What is the cost of doing business in San Antonio?
- Where are there opportunities to grow our industry?
- Who are we competing against and what is their edge?
- Is our workforce pipeline ready?

# Questions?
