

Table I

**Texas Commission
on Environmental
Quality**

Area	Description	Summary	START	END	Current Amount	Proposed Amount	Current FTEs	Proposed FTEs	Explanation of difference	Fiscal Notes	In Kind	Program Income	CFDA #	Grantor
Environmental Safety	PM 2.5/Lake Calaveras	The Public Center for Environmental Health (PCEH) was established to protect the environment of residents in San Antonio. Since air quality has a potential health impact, air monitoring and follow up measures to address the problems identified are important public health efforts. The Department of Homeland Security has contracted with the City of San Antonio PCEH to operate and maintain whole air sampling monitors. The Texas Commission on Environmental Quality (TCEQ), has contracted with the City of San Antonio for PCEH to manage two local air monitoring efforts. The first effort with TCEQ supports work by PCEH to operate, maintain and validate data from air particulate matter monitors. The second effort operates continuous air monitoring stations that measure ozone, nitrous oxides and other ozone precursors as well as associated meteorological parameters. PCEH processes, catalogs and delivers all samples collected seven (7) days a week (365) days a year to the SAMHD Laboratory for analysis.	9/1	8/31	\$ 98,192	\$98,192 \$132,329	0	0			\$0	\$0	66.034 66.605	EPA
Total Texas Commission on Environmental Quality						\$230,521.00		0			\$0.00	\$0.00
