STATE OF TEXAS §

COUNTY OF TRAVIS §

**NON-CONSTRUCTION  
ADVANCE FUNDING AGREEMENT**

**For A**

**Congestion Mitigation and Air Quality Improvement (CMAQ)- Clean Air Program**

**THIS AGREEMENT** (Agreement) is made by and between the State of Texas, acting by and through the **Texas Department of Transportation**, called the “State”, and the **City of San Antonio**, acting by and through its duly authorized officials, called the “Local Government”. The State and Local Government shall be collectively referred to as “the parties” hereinafter.

**BACKGROUND**

Federal law establishes federally funded programs for transportation improvements to implement its public purposes, including the CMAQ program.

Federal and state laws require local governments to meet certain contract standards relating to the management and administration of State and Federal funds.

The Texas Transportation Commission has codified 43 TAC, Rules 15.50-15.56 that describe federal, state, and local responsibilities for cost participation in highway improvement and other transportation projects.

The Texas Transportation Commission passed Minute Order Number **115291**, which provides for development of and funding for the project identified in this agreement.

The Governing Body of the Local Government has approved entering into this agreement by resolution, ordinance, or commissioners court order dated **{Enter Date of Resolution}**, which is attached to and made a part of this Agreement as Attachment A, Resolution, Ordinance, or Commissioners Court Order (Attachment A).

**NOW, THEREFORE**, the State and the Local Government agree as follows:

**AGREEMENT**

**1. Period of the Agreement**

This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until the close of ordinary business on March 31, 2025.

**2. Scope of Work**

The scope of work is the project (Project) as detailed in Attachment B, Scope of Work (Attachment B), which is attached to and made part of this agreement.

**3. Project Sources and Uses of Funds**

The total estimated cost of the Project is shown in Attachment C, Project Budget Estimate (Attachment C), which is attached to and made a part of this Agreement.

- A. If the Local Government will perform any work under this Agreement for which reimbursement will be provided by or through the State, the Local Government must complete training. If federal funds are being used, the training must be completed before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled "Local Government Project Procedures and Qualification for the Texas Department of Transportation" and retains qualification in accordance with applicable TxDOT procedures. Upon request, the Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not continuously designated in writing a qualified individual to work actively on or to directly oversee the Project.
- B. The expected cash contributions from the federal government, the State, the Local Government, or other parties are shown in Attachment C. The State will pay for only those Project costs that have been approved by the Texas Transportation Commission. For projects with federal funds, the State and the federal government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration (FHWA). After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.
- C. The State will be responsible for securing the federal and State share of the funding required for the Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.
- D. The Local Government will be responsible for all non-federal and non-State participation costs associated with the Project. If the State determines that additional funding by the Local Government is required at any time during the Project, the State will notify the Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- E. The budget in Attachment C will clearly state all items subject to fixed price funding, specified percentage funding and the periodic payment schedule, when periodic payments have been approved by the State.
- F. If the Local Government is an Economically Disadvantaged County (EDC) and if the State has approved adjustments to the standard financing arrangement, Attachment C reflects those adjustments.
- G. Whenever funds are paid by the Local Government to the State under this Agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation" or may use the State's Automated Clearing House (ACH) system for electronic transfer of funds in accordance with instructions provided

by TxDOT's Finance Division. The funds shall be deposited and managed by the State and may only be applied by the State to the Project.

- H. The State will not pay interest on any funds provided by the Local Government.
- I. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice, in a form and containing all items required by the State, no more frequently than monthly and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.
- J. Upon completion of the Project, the State will perform a final accounting of the Project costs for all items of work with specified percentage funding. Any funds due by the Local Government, the State, or the federal government for these work items will be promptly paid by the owing party.
- K. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this Agreement or indirectly through a subcontract under this Agreement. Acceptance of funds directly under this Agreement or indirectly through a subcontract under this Agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.
- L. Payment under this Agreement beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this Agreement shall be terminated immediately with no liability to either party.

#### **4. Termination of This Agreement**

This Agreement may be terminated:

- A. By written mutual consent of the parties;
- B. By one party because of a material breach by the other party, in which case any costs incurred because of the breach shall be paid by the breaching party;
- C. By the State if the Local Government elects not to provide its share of funding, in which case the Local Government shall pay for the State's reasonable actual costs during the Project;
- D. By the State because the parties are not able to execute a mutually agreeable amendment when the costs for Local Government requested items increase significantly due to differing site conditions, determination that Local government requested work is ineligible for federal or state cost participation, or more thorough definition of the Local Government's proposed work scope identifies greatly differing costs from those estimated. The State will reimburse Local Government remaining funds to the Local Government within ninety (90) days of termination; or
- E. If the Project is inactive for thirty-six (36) consecutive months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this Agreement.
