   §           KNOW ALL BY THESE PRESENTS:  
 COUNTY OF UVALDE               §

**Conservation Easement**  
 DRIPSTONE RANCH

<b>Authorizing Ordinance:</b>	
<b>Grantor:</b>	Deep Spring Ranch, Ltd.
<b>Grantor's Address:</b>	250 W. Nottingham, Suite 305 San Antonio, Texas 78209
<b>Grantee:</b>	City of San Antonio, a Texas municipal corporation
<b>Grantee's Address:</b>	P.O. Box 839966, San Antonio, Bexar County, Texas 78283-3966 Attn: Director, Parks and Recreation Department (Bexar County)
<b>Property:</b>	1,891.71 acres, as more particularly described on <b>Exhibit A.</b>

**Grant, Rights, and Obligations**

**Now, Therefore,** in consideration of the premises, the mutual covenants and promises contained herein, \$10 in hand paid, and other good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, Grantor grants and conveys to Grantee in perpetuity a Conservation Easement ("Easement") in gross over the Property as of the Effective Date. This Easement is created under and is governed by Chapter 183 of the Texas Natural Resources Code, as amended, or its recodification.

**Predicate Facts**

Grantor owns the Property identified below in fee simple, subject to the Reservations From and Exceptions to Warranty.

The Property sits over the Edwards Aquifer recharge zone, the contributing zone, or both.

Grantor and Grantee both wish to restrict development on the Property to minimize the chance of materially impairing the quantity and quality of aquifer recharge.

The characteristics of the Property, its current use and state of improvement, are described in the Report (as defined below).

The Report is a complete and accurate description of the Property as of the date of this Easement, establishing the baseline condition of the Property as of the Effective Date and includes reports, maps, photographs, and other documentation;

In inquiring into the condition of the Property as of the date of this Easement, the Report may be augmented but not contradicted by other evidence.

Grantor and Grantee have the common purpose of protecting the natural condition of the Property to further the Purpose of this Easement in perpetuity.

The rights and obligations arising under this Easement are a bargained-for allocation of property rights between Grantor and Grantee.

## 1. Basic Information.

<b>Maximum Number of Parcels:</b>	Three (3)
<b>Maximum Number of Building Envelopes:</b>	Eight (8)
<b>No-Development Zones:</b>	As more particularly described on <b>Exhibit B</b> . Structures identified in the Report need not be removed and may be repaired as needed to maintain those structures in their current usable condition.
<b>Maximum Increased Impervious Cover:</b>	412,014 square feet, which is intended to approximate ½ of one percent of the Property's total acreage, but the square footage controls
<b>Maximum Impervious Cover per Building Envelope:</b>	25% of the total square feet in the Building Envelope
<b>Maximum Number of Water Wells:</b>	Eleven (11) Current: One (1) Edwards Aquifer Authority Permitted Irrigation Well No. W101-415 authorizing the annual groundwater withdrawal amount of 476 acre-feet per calendar year, of which 238 acre-feet are unrestricted irrigation groundwater and 238 acre-feet are base irrigation groundwater; Nine (9) producing exempt-use wells; and One (1) non-producing exempt-use well which Grantor shall be entitled to restore to production; and all future wells that Grantor shall have the right to drill and complete as provided in Paragraph 5.03.05. The total number of wells may not exceed fifteen (15).
<b>Report:</b>	The Easement Documentation Report dated _____ prepared by Adams Environmental, Inc. relating to the Property, as shown on <b>Exhibit C</b> .
<b>Exceptions to and Reservations from Warranty:</b>	As shown on <b>Exhibit D</b> .

All exhibits are incorporated into this Easement by reference for all purposes, as if fully set forth.

## 2. Exhibits.

Exhibit A & A-1	Description of Property
Exhibit B	No-Development Zones

Exhibit C	Easement Documentation Report (“The Report”)
Exhibit D	Exceptions to and Reservations from Warranty

### **3. Purpose.**

This Easement’s purpose (“Purpose of this Easement”) is to minimize the chance of materially impairing the quantity or quality of aquifer recharge. In furthering the Purpose of this Easement, the parties restrict numerous activities on the Property and seek to ensure that the Property remains forever in approximately the same natural state in which it now exists, except as otherwise provided. In addition to the specific limitations and requirements of this instrument, Grantor must at all times use its reasonable best efforts to prevent impairment of quality or quantity of aquifer recharge.

### **4. Definitions.**

4.01. Building Envelope means an area set aside within the Property in which Structures now exist or may be built or added. The total area of all Building Envelopes within the Property is not to exceed forty (40) acres.

4.02. Feeder means a device that dispenses or otherwise provides food to livestock or wildlife that sits on legs above the surface of the ground.

4.03. Development means any increase in Impervious Cover as defined in 4.06, removal of vegetation, or mechanical tillage of the soil. This definition includes cultivation, earthmoving, land forming, land grading, and land planing.

4.04. Hazardous Materials means (i) any hazardous waste as defined by the Resource Conservation and Recovery Act of 1976 (42 U.S.C. Section 6901 et. seq.), as amended from time to time, and regulations promulgated thereunder; (ii) any hazardous substance as defined by the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (42 U.S.C. Section 9601 et seq.), as amended from time to time, and regulations promulgated thereunder (including petroleum-based products as described therein); (iii) other petroleum and petroleum-based products; (iv) asbestos in any quantity or form that would subject it to regulation under any Applicable Laws; (v) polychlorinated biphenyls (PCBs); (vi) or any hazardous substance, the presence of which on the Property is prohibited by any Applicable Laws; and (vii) any other substance that, by any Applicable Laws, requires special handling in its collection, storage, treatment or disposal. As used herein, the term "Applicable Laws" means all laws, statues, ordinances, regulations, and judicial rulings now or hereafter adopted by any governmental authority with jurisdiction over the Property regarding the handling and disposal of hazardous materials.

4.05. Hunting Blind means a structure of 100 square feet or less used for viewing or hunting wildlife. Blinds may but need not be elevated.

4.06. Impervious Cover means any artificial condition that substantially impedes absorption of water by the soil, including roofs, foundations, parking lots, Roads, and anything else covering or placed above the natural surface of the Property. Mobile homes, motor homes, and travel trailers of all types count as Impervious Cover.

4.07. Confined Animal Feeding Operation means agricultural operations in which livestock or wildlife is confined for at least 45 days in any 12-month period in a corral or similar enclosure in which most of the animals' nutrition is provided artificially.

4.08. Maximum Increased Impervious Cover means the maximum amount of the Property to which Impervious Cover may be added after the Effective Date. It does not include Impervious Cover shown in the Report (or replacements thereof).

4.09. No-Development Zone means an area set aside within the Property in which no Building Envelopes, Roads, or other Development may occur and is identified in Exhibit B.

4.10. Parcel means a distinct, contiguous tract resulting from a division, subdivision, or partition of the Property allowed under this Easement. A parcel includes any tract resulting from a subdivision plat, conveying part of the Property to another, or other arrangement creating characteristics of a subdivision. Creation of undivided interests in the Property does not create a division, subdivision, or partition.

4.11. Road means any route traveled by a motorized vehicle which route has been improved through the use of base or other material that would materially impair the recharge capability of the Property. Unimproved trails or paths that do not materially diminish the recharge capability of the Property or paths made by leveling native or Indigenous soil and rock do not constitute a Road or count as Impervious Cover.

4.12. Structure means anything built on or added to the Property, excluding fences, Hunting Blinds, Feeders, utility poles.

4.13. Temporary Impervious Cover means any non-permanent Structure typically used to provide protection from the elements (i.e. tents, awnings, etc.).

4.14. Exotic means not naturally occurring in the Edwards Plateau or South Texas Plains eco-region.

4.15. Indigenous means naturally occurring in the Edwards Plateau or South Texas Plains eco-region.

4.16. Fertilizer means any synthetically produced or manufactured fertilizer. Processed organic fertilizers, such as compost, and naturally occurring fertilizers, such as peat or manure, are not considered to be a synthetically produced or manufactured fertilizer and do not fall under this term.

4.17. Recharge Feature means any permeable geologic or manmade feature located on the Edwards Aquifer recharge zone or Edwards Aquifer contributing zone where there is a potential for hydraulic interconnectedness between the surface and the Edwards Aquifer exists, and rapid infiltration to the subsurface may occur.

## **5. Development-Related Provisions.**

5.01. Grantor must maintain the Property in substantially the same state shown demonstrated in the Report, except as otherwise provided in this Easement.

5.02. Grantor must not:

5.02.01. Exceed Maximum Increased Impervious Cover or the Maximum Impervious Cover per Building Envelope.

5.02.02. Divide, subdivide or otherwise partition the Property into more Parcels than allowed by the Maximum Number of Parcels.

5.02.03. Except as otherwise expressly allowed by this Easement, build any Structure outside a Building Envelope, build any Structure higher than three stories (except for antenna towers), or allow a mobile home, motor home, or travel trailer to be lived in or stored on the Property outside a Building Envelope.

5.02.04. Install, maintain, repair, or replace more than one septic system for each Structure containing plumbing. In the event a multi-unit guest ranch lodge is constructed, Grantor may install a wastewater treatment system adequate to serve that Structure. Any wastewater treatment system adequate to serve that Structure must comply with State and County wastewater treatment regulations.

5.02.05. Unless Grantee consents in writing, grant new utility or Road easements. Grantee will generally withhold consent except when the easement is granted under threat of condemnation. Despite this proscription, Grantor may, without Grantee's consent but subject to the Maximum Increased Impervious Cover, grant road and utility easements reasonably necessary to service and to permit access to Parcels and Building Envelopes allowed under this Easement.

5.02.06. Except as otherwise provided in this Easement or as reasonably necessary to conduct activities permitted under this Easement, ditch, drain, fill, dig, or otherwise make permanent, substantial topographical changes. Grantor needs no permission to build stock tanks or other surface water-retention facilities, but stock tanks and other surface water retention facilities not shown in the Report must not exceed two acres each and must not cause the Property to exceed the Maximum Increased Impervious Cover, if the bottom of the facility is impervious. Surface water retention facilities built to facilitate recharge do not count toward the Maximum Increased Impervious Cover.

5.02.07. Drill or allow the existence of more than the Maximum Number of Water Wells on the Property as defined in Paragraph 1 hereof. Water wells drilled by Grantee for monitoring or other Grantee purposes and not used by Grantor do not count against the Maximum Number of Wells.

5.02.08. Conduct any business activity on the Property that would draw large numbers of people to the Property at any one time or that might, as a reasonably expected incident of its conduct, materially impair the quantity or quality of aquifer recharge. A guest ranch lodge with 30 or fewer bedrooms is acceptable.

5.03. For so long as the activities are conducted so as not to materially impair the Purpose of this Easement, Grantor may:

5.03.01. Reside and entertain family and guests on the Property.

5.03.02. Maintain, repair, restore, and rebuild any Structure in Building Envelopes or shown to be on the Property in the Report.

5.03.03. Continue use and enjoyment of the Property for ranching, agriculture, organic gardens, vineyards, hunting, fishing, and recreation, consistent with other applicable express provisions of this Easement.

5.03.04. Allow short-term use of Temporary Impervious Cover, such as tents or awnings, outside Building Envelopes and outside No-Development Zones for up to 30 days. Any use lasting longer than 30 days is not short-term, and once removed, the Temporary Impervious Cover cannot be re-erected for at least 90 days after removal. Temporary Impervious Cover must not cause the Property to exceed the Maximum Increased Impervious Cover.

5.03.05. Drill one water supply well in each Building Envelope that does not currently have a water well, or replacement wells for any existing wells, but the total number of water wells may not exceed the Maximum Number of Water Wells. Any existing well replaced by a replacement well shall be properly plugged in accordance with the Rules of the Edwards Aquifer Authority or the Texas Department of Licensing and Regulation, as appropriate. Any such water wells must be properly permitted or authorized by either the Edwards Aquifer Authority or Uvalde County Underground Water Conservation District, as appropriate.

5.03.06. Engage in all acts and uses that: (i) are permitted by law and (ii) are consistent with the Purpose of this Easement.

5.04. In addition to any Building Envelope locations identified in this Easement, Grantor may propose alternative Building Envelope locations. Grantor's requests for Building Envelope locations are handled according to the Section titled "Requests for Approval." Future Building Envelopes must be defined with the same degree of specificity required for identifying real property for conveyance. Approved Building Envelopes must be evidenced by a recorded memorandum signed by both Grantor and Grantee. The property description must be attached to the memorandum. One or more Building Envelopes shall be designated for each area containing the residences shown on the Report. If Grantor wishes to change a Building Envelope, in addition to following the process for designation of any Building Envelope, Grantor must ensure that the former Building Envelope site is restored such that it will offer the same quantity and quality of recharge as similar, previously undeveloped areas.

5.05. With Grantee's permission, Grantor may erect cell towers and other antennas outside No-Development Zones, but all such items are subject to the maximum increase in impervious cover.

## **6. Agriculture-Related Provisions.**

6.01. Grantor must not:

6.01.01. Operate a commercial feedlot, poultry farm, or similarly Confined Animal Feeding Operation. This provision may not be construed to restrict the holding and feeding of Grantor's livestock or wildlife in a confined feeding area in connection with gathering, birthing, transporting, caring for or doctoring livestock or wildlife, nor does the term apply to corrals or other holding areas for horses, wildlife or other livestock used by Grantor.

6.01.02. Operate a horticultural nursery.

6.02. For so long as the activities are conducted in such a way as not to materially impair the Purpose of this Easement, Grantor may:

6.02.01. Grow crops, including wildlife food plots, in fields identified in the Report or approved by Grantee. Removal of vegetation or mechanical tillage of the soil in these identified or approved areas will not constitute Development as defined in 4.03 *supra* nor an increase in Impervious Cover as defined in 4.06 *supra*.

6.02.02. Hunt and fish on the Property, lease the Property for hunting and fishing, and provide guided and unguided hunts and fishing.

6.02.03. Construct or install fences, Hunting Blinds, and Feeders, even in No-Development Zones.

6.02.04. Permit other outdoor recreation on the Property. In connection with recreation, Grantor may install composting toilets on the Property, but if it does so, Grantor must properly maintain them.

6.02.05. Foster the presence of wildlife on the Property.

6.03. For so long as the activities are conducted in such a way as not to materially impair the Purpose of this Easement, Grantor may graze livestock, commercial wildlife, or Exotic game, but only according to: (i) a Grantee-provided plan; (ii) a United States Department of Agriculture Natural Resource Conservation Service-provided plan (NRCS Plan); (iii) a Texas Parks and Wildlife Department-provided wildlife management plan (TPWD Plan); (iv) or a plan provided by a qualified range management specialist, so long as the activities in the provided plan are consistent with the terms of this Easement. Grantee must review and approve any NRCS Plan, TPWD Plan, or range management specialist plan before it may be implemented to assess compliance with the terms of this Easement. If either the United States Department of Agriculture Natural Resource Conservation Service or the Texas Parks and Wildlife Department ceases to exist or ceases to provide such plans, Grantee may designate an alternative, similarly qualified authority to provide grazing and wildlife management plans.

## **7. Vegetation-Related Provisions.**

7.01. Outside Building Envelopes, unless reasonably necessary to conduct activities permitted under this Easement, Grantor must not:

7.01.01. Plant Exotic vegetation on the Property, except in Building Envelopes and fields permitted under this Easement or subsequently by Grantee.

7.01.02. Plow or use Fertilizers, except in fields or food plots permitted under this Easement, shown in the Report, or subsequently approved by Grantee.

7.01.03. Cut or remove vegetation, except Grantor may, without restriction, cut and remove diseased or Exotic vegetation or vegetation so damaged by natural forces as to be unable to survive. Grantor may further cut and remove Indigenous or Exotic vegetation to further the Purpose of this Easement, in Building Envelopes, but in so

doing, must minimize erosion and must not otherwise materially impair the Purpose of this Easement.

7.02. For so long as the activities are conducted in such a way as not to materially impair the Purpose of this Easement, Grantor may manage resources on the land as follows:

7.02.01. Remove and dispose of dead or diseased brush or trees by cutting, burning or mulching as Grantor deems appropriate and control brush according to a United States Department of Agriculture Natural Resource Conservation Service-provided plan (NRCS Plan), a plan provided by a qualified range management specialist, or Grantee-provided plan, or participate in other NRCS Technical Assistance Programs designed to assist in conservation planning, so long as the activities in the provided plan are conducted so as not to materially impair the Purpose of this Easement and are consistent with the terms of this Easement. Any such plan or program must be reviewed and approved by Grantee before it may be implemented to assess compliance with the terms of this Easement. If the NRCS ceases to exist or ceases to provide such plans, Grantee may designate an alternative, similarly qualified authority to provide brush control and conservation management plans.

7.02.02. Cut firewood for use on the Property.

7.02.03. Create firebreaks up to a width not to exceed three times the height of the adjacent vegetation.

7.02.04. Shred, mow or otherwise control brush and weeds, or to aid in enhancing aquifer recharge, or the Purpose of this Easement.

## **8. Vehicle-Related Provisions.**

8.01. Authorized representatives of Grantor and Grantee may use motorized vehicles anywhere on the Property in furtherance of their responsibilities under this Easement and as reasonably necessary for Grantor's residential use, agricultural, ranching, and wildlife management operations, educational programs and maintenance of the Property. Any such use may not materially impair the Purpose of this Easement.

8.02. In no event may the Property be used for commercial motorized vehicle off-road or rally purposes. This restriction includes, but is not limited to: cars, trucks, motor-bikes, motorcycles and All Terrain Vehicles.

## **9. Storage, Dumping, and Disposition-Related Provisions.**

9.01. Grantor must not:

9.01.01. Store chemicals (except those for activities permitted under this Easement) that, if leaked, would materially degrade surface or subsurface water quality.

9.01.02. Dump trash, rubbish, or other waste, except short-term storage of material accumulated in the course of conducting activities permitted under this Easement. All such materials must be removed from the Property not less often than annually, and no such materials may leak chemicals into or otherwise pose a material degradation threat to the quality of water entering the aquifer. Grantor may burn domestic waste as

defined in Title 30, Texas Administrative Code, Section 101.1(26) in a container or earthen pit so long as all burning is compliant with Title 30, Texas Administrative Code, Section 111 generally and Section 111.209 specifically (as may be amended) and all other laws, ordinances, or regulations pertaining thereto. Any such container or earthen pit must be either identified in the Easement Documentation Report or located within a Building Envelope and outside of a No-Development Zone. All residue must be contained until it is removed from the Property.

9.01.03. Generate, store, collect, transport, dispose, dump, or release hazardous waste or materials, in whatever form, or install or permit underground storage tanks of materials defined under 4.04 *supra* on the Property.

9.01.04. Store, use, or apply herbicides, biocides, pesticides, Fertilizers, insecticides, fungicides, rodenticides, or any similar chemicals or agents, except for household use. Grantor may use any chemical or fertilizers on a list approved by Grantee, or in a Grantee-approved plan. Grantee's list may change from time to time and Grantee may impose time, quantity, and use restrictions. While the City of San Antonio is the Grantee, the City Manager or City Manager's designee may alter the list without further action or authorization by City Council. Grantor's use of chemicals must conform to the best practices at the time the issue arises, and Grantor must not allow permitted materials to leak into or otherwise pose a material degradation threat to groundwater quality. Grantor must indemnify Grantee from all loss, cost, liability, or expense arising from Grantor's use of such chemicals, with or without Grantee's permission.

9.02. Grantor represents and warrants, to the best of Grantor's actual knowledge (with no duty to investigate), that:

9.02.01. No Hazardous Materials are or have been generated, treated, stored, used, disposed of, or deposited in or on the Property in such manner as to violate or create any liabilities pursuant to any Applicable Laws, and

9.02.02. No underground storage tanks are located on the Property.

9.02.03. No governmental authority has given notice of violation or alleged violation of any Applicable Law relating to the operations or condition of the Property.

9.03. Nothing in this Easement shall be construed as giving rise to any right or ability in Grantee to exercise physical or managerial control over the day-to-day operations of the Property, or any of Grantor's activities on the Property, or otherwise to become an operator with respect to the Property within the meaning of The Comprehensive Environmental Response, Compensation, And Liability Act of 1980, as amended ("CERCLA"), any other applicable federal laws, federal regulations, state laws, county and local ordinances, and any regulations thereunder, all as may be amended from time-to-time.

## **10. Extraction-Related Provisions.**

10.01. Grantor must not:

10.01.01. Use the surface of the Property for any activity related to extracting hydrocarbons or other minerals on or below the surface, including storing hydrocarbons

or other minerals. Minerals include not only hydrocarbons but also coal, lignite, uranium, ore, and any other substance that may be removed from the earth.

10.01.02. Extract surface or subsurface water, transfer surface or subsurface water rights for use off the Property, or otherwise use water or water rights other than in direct support of activities Grantor may, consistently with this Easement, otherwise engage in on the Property, except for 238 acre feet of Base Irrigation Edwards Aquifer Permitted Groundwater Rights owned by Grantor, and Grantor has the continuing right to use such water rights to irrigate Grantor's crops on the Property or to lease all or a portion thereof from time to time under applicable rules of the EAA. In addition, the Edward's Aquifer Authority issued to the owner of the Dripstone Ranch 238 acre feet of unrestricted irrigation groundwater rights which have been transferred to Dripstone Water Company, Inc. which is not a party to this Easement agreement. Use of groundwater, groundwater rights, or groundwater credits, as part of a recharge project on the property, will be considered use on the property regardless of the location of withdrawal of that groundwater or use of groundwater credits.

10.01.03. Extract and discharge groundwater at volumes greater than allowed under permits issued to Grantor by the governing groundwater conservation district or by other applicable federal, state, or local laws and regulations.

10.02. Despite any other provision of this Easement to the contrary, soil, sand, caliche, gravel, or rock may be removed from the surface of the Property so long as such removal:

(A) is solely for use on the Property and for non-commercial purposes, such as, for example, construction, maintenance, and repair of a Road on the Property,

(B) is in conjunction with activities permitted herein,

(C) is accomplished in a manner that does not materially impair the Purpose of this Easement,

(D) is limited to no more than two one-acre removal sites on the Property at any one time, with no more than ten such sites ever created unless otherwise approved by Grantee, and

(E) that any area so disturbed is restored and replanted as appropriate with native vegetation at the conclusion of the removal activity and prior to the creation of any new removal site if a new removal site will exceed the limit of no more than two (2) such sites at any one time.

(F) is not within 500 feet of a recharge feature

10.03. Any activity permitted under this paragraph must be undertaken and this provision must be interpreted in a manner consistent with Section 170(h) of the United States Internal Revenue Code and the Treasury Regulations adopted pursuant thereto.

10.04. No party to this Easement may hereafter extract via the surface estate of the Property any severed or unsevered minerals pertinent to the Property. Neither may any party hereto convey any mineral interest or executive right in minerals to another not bound by this Easement. This clause does not prevent a party to this Easement from accepting royalties,

bonuses, delay rentals, or other sums due to the party from another with a previously existing right to extract the minerals. This clause does not prevent Grantor, as sole owner of all oil, gas and other minerals in, on and under the subject land, to execute oil, gas or mineral leases covering all or any portion of the subject lands that may be pooled or unitized with other lands for the production of oil, gas or minerals, as approved by the Texas Railroad Commission. Any such lease shall expressly prohibit the Lessee's entry upon the Property or conducting any drilling operations or mineral excavations upon the Property.

10.05. Grantor may also permit archaeological digs supervised by qualified personnel for so long as they are conducted in a manner so as not to materially impair the Purpose of this Easement. Grantee may not conduct or permit archeological digs on the Property without the prior written consent of Grantor, which may be given or refused in Grantor's sole discretion. Any such archeological digs conducted by Grantee hereunder shall be supervised by qualified personnel pursuant to a written plan submitted to Grantor identifying the specific locations on the Property to be investigated, the qualifications and the number of Personnel to be involved, the anticipated time required to complete such architectural dig and to describe how the proposed archeological dig relates and supports the Purpose of the Easement. Grantor shall promptly provide grantee a copy of all Archaeological Excavation Reports provided on any archaeological digs conducted on the Property.

10.06. If any of the minerals under the Property ("Minerals") are, as of the Effective Date, owned by someone not a party hereto and if some or all of those Minerals are later acquired by Grantor (or the then owner of the Property), then the Minerals so-acquired immediately become subject to this Easement.

10.07. Both parties acknowledge that the restrictions on alienation and other provisions in this Section are reasonable, because mineral exploitation poses a risk to aquifer recharge.

## **11. Water Flow-Related Provisions.**

11.01. Grantor must not:

11.01.01 Alter natural water courses, lakes, ponds, marshes, or other water bodies, subject to Grantor's right to have stock tanks and other surface-water retention facilities, except during stream restoration or bank stabilization projects and during maintenance of permitted Roads.

11.01.02. Pollute the soil or surface or subsurface water or otherwise engage in activities materially detrimental to water purity or that could materially alter the natural water level or flow in or over the Property. This does not impair the right to use the wells permitted under this Easement for the purposes permitted under this Easement.

11.01.03. Otherwise, materially and adversely affect the quantity and quality of aquifer recharge.

11.02. Grantor reserves the exclusive right to act individually or in collaboration with any private organizations or governmental authorities to build, maintain and control one or more recharge structures at locations on the Property selected by Grantor for the purpose of increasing recharge of the Edwards Aquifer. Grantor shall be entitled to receive any and all water recharge credits resulting therefrom; and none of the provisions of this Easement shall be

interpreted to limit Grantor's exclusive rights under this Paragraph, except that Grantor's exclusive right to build, maintain and control such recharge structures shall require prior approval of the Edwards Aquifer Authority.

## **12. Requests for Approval.**

12.01. When Grantee's consent is needed for any purpose under this Easement, Grantor must submit all such requests to Grantee in writing. The requests must set out all detail reasonably required by Grantee, including plans, specifications, and designs where appropriate. The request must include a timetable sufficiently detailed to permit Grantee to monitor progress. Grantor must not make changes or take action for which Grantee's approval is required unless expressly authorized in writing by Grantee.

12.02. Grantee may consult with governmental agencies, nonprofit preservation and conservation organizations, and other advisors concerning appropriateness of any activity proposed under this Easement.

12.03. Grantee may exercise its approval or disapproval rights in its reasonable discretion. Grantee must respond to a request by Grantor within 60 days after the date of Grantee's receipt of the written request. Grantee's failure to respond timely is not approval of Grantor's request, but Grantee must not unreasonably withhold, condition, or delay its approval.

12.04. If Grantor does not begin approved actions within one year after the date on which Grantee grants its written approval, the approval is void. Grantor may resubmit the request, but previous approval does not estop Grantee from denying approval on resubmission.

12.05. In any case during such time as the City of San Antonio is the Grantee and the Grantee's consent or agreement is required under this Easement, other than for an amendment of this Easement, the consent or agreement may be given by the City Manager or the Manager's designee without authorization of City Council. The Manager's delegation of authority to a designee must be in writing. Grantee is not estopped by the actions of anyone to whom the Manager's authority has not been delegated in writing. If the City of San Antonio no longer has a City Manager, the governing body of the City may designate an officer to give consents and agreements called for under this Easement. City Council's approval of this Easement is approval of the delegation of authority to the City Manager contained in this paragraph.

## **13. No Public Access.**

This Easement creates no right of access to the general public.

## **14. Ownership Obligations.**

Grantor is solely responsible to pay all taxes and assessments levied against the Property. Grantee has no responsibility to Grantor to maintain any part of the Property, except for water monitoring devices, if any, installed by Grantee.

## **15. Grantee's Rights.**

15.01. In addition to other rights necessarily incident to Grantee's ability to further the Purpose of this Easement, Grantee has the following rights regarding the Property:

15.01.01. The right to monitor the hydrology of the Edwards Aquifer and other water or geologic formations below the subject Property, subject, however, to the entry requirements set out below.

15.01.02. The right to enter the Property twice a calendar year, as provided herein, at times mutually agreeable to Grantor and Grantee, to inspect to determine compliance with this Easement. If Grantee finds a potential violation or breach of this Easement, Grantee may enter the Property as much as reasonably necessary to monitor the status of the problem, obtain evidence for enforcement, or correct the problem at Grantor's expense if Grantor does not correct the problem in a reasonable time, not to exceed one-hundred twenty (120) days. In so doing, Grantee must not interfere unreasonably with Grantor's permitted uses of the Property.

15.01.03. The right to install, operate, and maintain Purpose-related monitoring equipment, including a continuous recording rain gauge at locations outside of Building Envelopes (unless Grantor approves in its sole discretion a location inside of a Building Envelope) that do not unreasonably interfere with Grantor's activities otherwise permitted under this Easement. Grantee may install, operate, and maintain fences and other devices reasonably necessary to provide security for the monitoring equipment.

15.01.04. The right to drill, operate, and maintain up to two (2) monitoring wells at locations outside of Building Envelopes (unless Grantor approves in its sole discretion a location inside of a Building Envelope) that do not interfere unreasonably with Grantor's permitted uses of the Property. Grantee may install, operate, and maintain fences and other devices reasonably necessary to provide security for the monitoring wells.

15.01.05. Grantee may conduct research activities on the Property individually or in conjunction with other research entities related to watershed management, water quality protection, or similar purposes, or use the Property for educational purposes, including field trips related to natural science education. Grantee must coordinate all such activities with the Grantor, and Grantee's right to conduct such activities are subject to Grantor's specific written consent, which may be given or refused in Grantor's sole discretion.

15.01.06. The right to review any plans of the Grantor involving cave structures and other sensitive hydrogeologic features on the Property, but Grantee shall have no right of approval thereof unless such plans conflict with the Purpose of this Easement.

15.02. If Grantee's exercise of any rights under this Section 15 causes any damage to the Property, Grantee will act diligently to restore the Property to its previous condition. This includes restoring fences and plugging abandoned wells according to applicable law. Grantee is responsible for maintenance of areas fenced by it, for equipment, any Structure or facilities it places on the Property, and for any contractor or individuals entering the Property pursuant to or in connection with Grantee's rights under this Easement. Except as expressly provided to the contrary, no approval or consent required under this Section may be unreasonably withheld, conditioned or delayed. Grantee will provide 72-hour advance, written notice to Grantor before entry, except when immediate entry is necessary or desirable to further the Purpose of this Easement, to prevent, terminate, or mitigate a violation of this Easement, or to fulfill Grantee's maintenance obligations under this Easement.

15.03. None of the enumerated rights impose a duty on Grantee to exercise that right.

15.04. Grantor is responsible for remedying violations of this Easement, but Grantee has the right to prevent and correct violations through any means available at law or in equity, including injunction. If Grantee finds a violation, it may, at its discretion, take appropriate legal action or, at Grantor's expense, eliminate or ameliorate any material, continuing violation of this Easement, including any artificial condition that may materially impair the Purpose of this Easement. Except when an ongoing or imminent violation might substantially diminish or impair the Purpose of this Easement, Grantee must give Grantor 20-days' prior written notice before initiating action. If a violation cannot reasonably be corrected within 20 days, Grantee may allow Grantor a longer period that is reasonably necessary under the circumstances to correct the violation. In such case, Grantor must begin corrective action within the 20 days and thereafter diligently and continuously pursue complete correction in good faith. Nothing in this Easement requires Grantor to restore the Property after any act of God or other event over which Grantor had no control, but Grantor must permit Grantee to correct, at Grantee's sole expense, conditions caused by such events that impair quantity or quality of recharge. In so doing, Grantee must not interfere unreasonably with Grantor's permitted uses of the Property.

15.05. Grantor acknowledges that, once pollution enters an aquifer, it may be impossible to undo the damage. Likewise, surface water that might percolate into the aquifer, but that Grantor wrongfully allows to run off, is irreplaceable. Further, loss of the Property and the aquifer as natural phenomena cannot be compensated adequately by damages. Accordingly, the parties acknowledge that, in the case of a material, uncorrected violation of this Easement, Grantee has no adequate remedy at law. In such case, equitable relief generally and an injunction specifically are appropriate remedies.

15.06. Grantee has the right to recover all costs and expenses incurred in enforcing this Easement. In the event Grantee is the prevailing party in any court proceeding, these costs include court costs and reasonable attorney's fees. In the event this Easement is assigned by the City of San Antonio to an entity that is not prohibited from incurring future unfunded debt, then the prevailing party in any dispute regarding this Easement has the right to recover all costs and expenses, including court costs and reasonable attorney's fees, incurred enforcing this Easement.

15.07. Grantee's remedies are cumulative. Exercise of one remedy is not an election of remedies and does not waive or limit other remedies. Failure to exercise a remedy on one or more occasions does not waive or limit use of the remedy on other occasions.

15.08. Grantee has discretion whether and how to enforce this Easement. Grantee's delay in or forbearance from exercising rights under this Easement does not waive the rights the exercise of which is delayed or forborne.

## **16. Discretionary Consent.**

Grantee's consent for activities otherwise prohibited by this Easement may be given under the following conditions and circumstances. If, owing to unforeseen or changed circumstances, any of the prohibited activities listed in this Easement are deemed desirable by both Grantor and Grantee, Grantee may, in its sole discretion, give consent for such activities, subject to the limitations herein. Such requests for consent for otherwise prohibited activities, and consent for such activities requiring Grantee's discretionary consent shall be in writing and shall describe the proposed activity in sufficient detail to allow Grantee to judge the consistency of the

proposed activity with the Purpose of this Easement. Grantee may give its consent only if it determines, in its sole discretion, that such activities (1) do not violate the Purpose of this Easement, and (2) enhance or do not materially impair any significant conservation interests associated with the Property.

## **17. Alienation by Grantee.**

17.01. This Easement is in gross and is freely alienable by Grantee, subject to the following conditions:

17.01.01. The transferee must be both a “holder” under Section 183.001 of the Texas Natural Resources Code (as the same may be amended from time-to-time) and also a “qualified organization” under Section 170(h) of the U.S. Internal Revenue Code.

17.01.02. The transferee must expressly assume the responsibilities of the Grantee under this Easement.

17.02. If Grantee ceases to exist or no longer qualifies as a holder under applicable law, the Easement continues. On application by Grantor or Grantee, a court of competent jurisdiction must transfer Grantee’s rights under this Easement to a qualified organization having similar purposes that agrees to assume the responsibility. If more than one qualified entity competes for the role, the court should select the entity that, in the court’s judgment, is best suited to assure accomplishment of the Purpose of this Easement.

## **18. Alienation by Grantor.**

The Property is freely alienable, in whole or in part, by Grantor, but Grantor must notify Grantee in writing at least 30 days before transfer. The notice must include the name of the buyer, the anticipated closing date, and evidence that the buyer has been given a copy of this Easement. If Grantor transfers all the Property or a Parcel of it to more than one transferee, the joint transferees must, at the closing of the transfer to them, designate a single party to receive notices from Grantee and to give all approvals and consents to Grantee. If the joint transferees do not unanimously designate a contact for Grantee, Grantee may pick one at random with no liability to the other transferees. Grantor’s transferees take subject to this Easement. This authorization of partial alienation does not authorize more than the maximum number of Parcels.

## **19. Amendment.**

This Easement may be amended only with the written consent of both Grantor and Grantee. Any amendment must be consistent with the Purpose of this Easement and must comply with applicable law, including Sec. 170 (h) of the Internal Revenue Code, as amended from time-to-time, and with Chapter 183 of the Texas Natural Resources Code, as amended from time-to-time. If the Grantee is the City of San Antonio, its consent to an amendment must be authorized by City Council or a successor governing body, in accordance with the City of San Antonio Conservation Easement Amendment Policy (“Policy”). Grantor, upon written request to Grantee, may obtain a copy of the most recent version of such Policy.

## **20. Termination, Condemnation.**

20.01. The Easement may be terminated by judicial declaration if condemnation or a change in conditions on or around the Property renders it impossible to substantially fulfill the Purpose of this Easement.

20.02. Grantee's interest is a compensable property right. If some or all of the Property is condemned or sold in lieu of condemnation, Grantor and Grantee will divide the condemnation proceeds (which, by definition, include proceeds from a sale in lieu of condemnation) as follows: Grantor receives a share equal to the entire award multiplied times a fraction, the numerator of which is the value of the Property burdened by the Easement and the denominator of which is the value of the Property unburdened by the Easement; Grantee receives the rest of the award. Values are measured at the time of condemnation.

## **21. Interpretation.**

This Easement is to be interpreted under the laws of the State of Texas, resolving any ambiguities and questions of the validity of specific provisions to give maximum effect to the Purpose of this Easement, without regard to which party was the drafter. This Easement was fully negotiated, and no presumption exists against either party. Nothing in this Easement excuses Grantor or Grantee from compliance with any applicable law, rule, ordinance, or regulation.

## **22. Severability.**

If any part of this Easement is found invalid or unenforceable, the finding does not affect the remainder.

## **23. Successor, Beneficiaries.**

This Easement inures to the benefit of and binds the heirs, representatives, successors, and permitted assigns of each party. No third party has the right to enforce any part of this Easement.

## **24. Encumbrance by Grantor.**

Grantor may encumber the Property (including consensual liens) after the Effective Date, but all such encumbrances are subordinate to this Easement. Grantor further acknowledges that Subordination Agreements for liens or similar encumbrances existing as of the Effective Date have been, or will be, secured and filed of record as of such Effective Date.

## **25. Appropriations.**

All obligations of the City of San Antonio under this Easement are funded through the City of San Antonio General Fund and are subject to the discretion of City Council whether to appropriate funding for any given year.

## **26. Notices from Governmental Authorities.**

Grantor must deliver to Grantee copies of any notice of violation or lien relating to the Property received by Grantor from any government authority within five (5) days of receipt. Upon request by Grantee, Grantor must promptly furnish Grantee with evidence of Grantor's compliance with the notice or lien, if compliance is required by law.

## **27. Easement Runs with the Land; No Merger.**

This Easement continues in perpetuity and runs with the land (referred to as “Property” in this Easement). It is binding upon Grantor and all those claiming by, through or under Grantor. Any right, title, or interest granted in this Easement to Grantee passes to each successor and assign of Grantee and each following successor and assign, and the word “Grantee” includes all such successors and assigns. This Easement survives unity of ownership of the fee and the Easement.

## **28. Effective Date.**

The “Effective Date” is the date this easement is recorded in the real property records of the county in which the Property is located.

**TO HAVE AND TO HOLD** this Easement unto the Grantee and its successors and permitted assigns forever. Without limitation, this Easement conveys to Grantee all development rights in the Property not expressly retained by Grantor. Grantor further conveys to Grantee the property right to enforce this Easement according to law. Grantor conveys to Grantee the property rights Grantor would otherwise have to perform activities limited or prohibited by this Easement. Grantor violates its obligations under this Easement if it violates any applicable Federal, State or Groundwater Conservation District law the observance of which would further the Purpose of this Easement.

Grantor further makes subject to this Easement all the following interests, collectively called “Excess Lands”: (1) all interest, if any, in excess lands or vacancies (within the meaning of subchapters E and F of Chapter 51 of the Texas Natural Resources Code, as may be amended from time to time) presently held or later acquired by Grantor; (2) all interest in strips or gores between the Property and abutting properties and acreage in adjoining surveys to which Grantors’ predecessors in title have superior right; (3) any land lying in or under the bed of any road or highway, opened or proposed, abutting or adjacent to the Property; (4) any land lying in or under the bed of any creek, stream, or river, if any, running through or abutting or adjacent to the Property; and (5) all interests in real property within the boundaries of this Easement title to which is later acquired by Grantor.

Grantor binds Grantor and Grantor's heirs, executors, administrators, and successors to warrant and forever defend all and singular this Easement to Grantee and Grantee's administrators, successors, and assigns against every person whomsoever lawfully claiming or to claim the same or any part thereof, but excepting the Exceptions to and Reservations from Warranty.

**In Witness Whereof**, the parties have caused their representatives to set their hands. By the signature of its representative below, Grantee manifests its acceptance of this Easement.
