

**FINANCE DEPARTMENT
Certificate of Exemption Form**

Date: 01/19/2018

Originating Department: AVI / Airfield SC# 2-437038

The City is authorized under limited conditions to make procurements outside of the competitive solicitation process. Chapter 252 of the Local Government Code provides guidance regarding sixteen general exemptions from the competitive solicitation. Please select one exemption.

- a procurement made because of a public calamity that requires funds to relieve the needs of the residents or to preserve city property
- a procurement to preserve or protect the public health or safety of the city's residents
- a procurement necessary because of unforeseen damage to machinery, equipment or other property
- a procurement for personal, professional or planning services
- a procurement for work that is performed and paid for by the day as the work progresses
- a purchase of land or right-of-way
- a procurement of items available from only one source
- a purchase of rare books, papers and other materials for a public library
- paving, drainage, street widening and other public improvements or related matter where at least one-third of the costs are paid by special assessments
- a public improvement project which has been authorized but for which there is deficiency of funds to complete in accordance with the plans as authorized
- a payment under a contract by which a developer participates in the construction of a public improvement as provided by subchap. c, ch 212.
- personal property sold
- services performed by blind or severely disabled persons
- goods purchased by a municipality for subsequent retail sale by the municipality
- electricity
- advertising, other than legal notices

This Certificate of Exemption is executed and filed with the Finance Department as follows:

- The undersigned is authorized to approve an exemption.
- An exemption according to Section 252.022 of the Local Government Code exists. More specifically, the following event has occurred:

Humble Equipment Co., Inc. will use shot blasting technology to re-texture the surface of San Antonio International Airport's primary runway (Runway 13R/31L) in accordance with Federal Aviation Administration requirements and as part of maintaining the FAA required Part 139 Certification which allows the Airport to operate. Runway re-texturing is a public safety measure periodically undertaken to mitigate flight safety risk due to dangerous conditions resulting from the loss of grip between aircraft tires and the runway surface that occurs when a runway's surface texture and ability to drain water is impaired over time due to rubber and soil deposits. The non-destructive shot blasting process can regenerate surface texture roughness and skid resistance back to acceptable values. Although various methods/means of shot blasting have been developed by other companies, with approach of Final Four and annual re-certification, Aviation will engage Humble because of past performance, scheduling availability, reliability of their process, and capacity/ability to perform (once on-site) within limited window of time that the Airport's primary runway can be closed for flight operations.

- Because the exemption stated above exists, the City of San Antonio intends to contract with Humble Equipment Co., Inc. which will cost approximately \$ 321,000.00.
