All times stated herein are Central Time. Any bid or modification received after the time and date stated on the Cover Page shall be rejected.

Submission of Electronic Bids. Submit one bid electronically by the due date provided on the Cover Page. All times stated herein are Central Time. Any bid or modification received after the time and date stated on the Cover Page shall be rejected. All forms in this solicitation which require a signature must have a signature affixed thereto, either by manually signing the document, prior to scanning it and uploading it with your submission, or affixing it electronically.

Bids sent to City by facsimile or email shall be rejected.

Modified Bids. Bids may be modified provided such modifications are received prior to the time and date set for submission of bids, and submitted in the same manner as original bids. For hard copy bids, provide a cover letter with the bid, indicating it is a modified bid and that the Original bid is being withdrawn. For electronic bids, a modified bid will automatically replace a prior bid submission. See below for information on submitting Alternate Bids.

City shall not be responsible for lost or misdirected bids or modifications.

Bidders must sign the Signature Page on hard copy bids and return the IFB document to City. For electronic bids, Bidder's electronic submission, with accompanying affirmations, constitutes a binding signature for all purposes.

Bidders are cautioned that they are responsible for the security of their log on ID and password, since unauthorized use could result in Bidder's being held liable for the submission.

Certified Vendor Registration Form. If Bidder has not completed City's Certified Vendor Registration (CVR) Form, Bidder is required to do so prior to the due date for submission of bids. The CVR form may be accessed at: <http://www.sanantonio.gov/purchasing/>. Bidders must identify the correct name of the entity that will be providing the goods and/or services under the contract. No nicknames, abbreviations (unless part of the legal title), shortened or short-hand names will be accepted in place of the full, true and correct legal name of the entity.

Alternate Bids. Alternate bids may be allowed at the sole discretion of City.

Hard Copy Alternate Bids. Alternate bids must be submitted in separate sealed envelopes in the same manner as submission of other bids. Alternate bids must be marked consecutively on the envelope as Alternate Bid No. 1, 2, etc. Failure to submit alternate bids in separate envelopes may result in rejection of a bid.

Electronic Alternate Bids Submitted Through the Portal. All alternate bids are recorded with original bids when submitted electronically.

Catalog Pricing. (This section applies to bids using catalog pricing.)

The bid will be based on manufacturer's latest dated price list(s). Said price list(s) must denote the manufacturer, latest effective date and price schedule.

Bidders shall be responsible for providing one copy of the manufacturer's catalog for each manufacturer for which a bid is submitted. Bidder shall provide said catalog at the time of submission of its bid. Bidders may submit price lists other than the manufacturer's price list. Said price list(s) must denote the company name, effective date and price schedule. These price lists are subject to approval of City Purchasing & General Services Department.

Specified items identified herein, if any, are for overall bid evaluation and represent the commonly and most used items. Net prices entered for those specified items must reflect the actual price derived from quoted price list less all discounts offered.

Restrictions on Communication.

Bidders are prohibited from communicating with: 1) elected City officials and their staff regarding the IFB or bids from the time the IFB has been released until the contract is posted as a City Council agenda item; and 2) City employees from the time the IFB has been released until the contract is awarded. These restrictions extend to "thank you" letters, phone calls, emails and any contact that results in the direct or indirect discussion of the IFB and/or bid submitted by Bidder. Violation of this provision by Bidder and/or its agent may lead to disqualification of Bidder's bid from consideration.

Exceptions to the restrictions on communication with City employees include:

Bidders may ask verbal questions concerning this IFB at the Pre-Submittal Conference.

Bidders may submit written questions, or objections to specifications, concerning this IFB to the Staff Contact Person listed on the Cover Page on or before 7 calendar days prior to the date bids are due. Questions received after the stated deadline will not be answered. Questions submitted and City's responses will be posted with this solicitation. All questions shall be sent by e-mail or through the portal.

Bidders may provide responses to questions asked of them by the Staff Contact Person after bids are received and opened. The Staff Contact Person may request clarification to assist in evaluating Bidder's response. The information provided is not intended to change the bid response in any fashion. Such additional information must be provided within two business days from City's request.

Bidders and/or their agents are encouraged to contact the Small Business Office of the International and Economic Development Department for assistance or clarification with issues specifically related to the City's Small Business Economic Development Advocacy (SBEDA) Program policy and/or completion of the SBEDA form(s), if any. The point of contact is identified on the Cover Page. Contacting the Small Business Office regarding this IFB after the bid due date is not permitted. If this solicitation contains Affirmative Procurement Initiatives, it will be noted on the Cover Page.

If this solicitation contains DBE/ACDBE requirements, bidders and/or their agents may contact the Aviation Department's DBE/ACDBE Liaison Officer for assistance or clarification with issues specifically related to the DBE/ACDBE policy and/or completion of the required form(s). Any oral response given at the Pre-Submittal Conference that is not confirmed in writing and posted with this solicitation shall not be official or binding on the City.

Changes to IFB.

Changes to this IFB made prior to bid opening shall be made directly to the original IFB. Changes are captured by creating a replacement version each time the IFB is changed. It is Bidder's responsibility to check for new versions

until the bid due date. City will assume that all bids received are based on the final version of the IFB as it exists on the day bids are due.

No oral statement of any person shall modify or otherwise change or affect the terms, conditions or specifications stated in the IFB.

Preparation of Bids.

All information required by the IFB must be furnished or the bid may be deemed non-responsive and rejected. Any ambiguity in the bid as a result of omission, error, unintelligible or illegible wording shall be construed in the favor of City.

Correct Legal Name. If Bidder is found to have incorrectly or incompletely stated the name of the entity that will provide goods and/or services, the bid may be rejected.

Line Item Bids. Any bid that is considered for award by each unit or line item, must include a price for each unit or line item for which Bidder wishes to be considered. All bids are awarded on the basis of low line item, low total line items, or in any other combination that serves the best interest of City, unless City designates this solicitation as an "all or none" bid in the Supplemental Terms & Conditions.

All or None Bids. Any bid that is considered for award on an "all or none" basis must include a price for all units or line items. In an "All or None" bid, a unit price left blank shall result in the bid being deemed nonresponsive and disqualified from consideration. An "All or None" bid is one in which City will award the entire contract to one bidder only.

Delivery Dates. Proposed delivery dates must be shown in the bid form where required and shall include weekends and holidays, unless specified otherwise in this IFB. Proposed delivery times must be specific. Phrases such as "as required", "as soon as possible" or "prompt" may result in disqualification of the bid. Special delivery instructions, if any, may be found in the Specifications / Scope of Services section of this document, or in the Purchase Order.

Tax Exemption. The City of San Antonio is exempt from payment of federal taxes, and State of Texas limited sales excise and use taxes. Bidders must not include such taxes in bid prices. An exemption certificate will be signed by City where applicable upon request by Bidder after contract award.

Description of Supplies.

Any brand names, catalog or manufacturer's reference used in describing an item is merely descriptive, and not restrictive, unless otherwise noted, and is used only to indicate quality and capability desired.

Bids submitted for comparable items must clearly identify the proposed product, model, and type, as applicable, and shall include manufacturer specification sheet(s) for each proposed item with bid response. Product specifications shall be the most current available and be sufficiently detailed and descriptive so as to permit City to determine the item's suitability and compliance with bid specifications. City shall be the sole judge of equality and suitability of comparable items.

Pro-rata adjustments to packaging and pricing may be allowed at the sole discretion of City.

Samples, Demonstrations and Pre-award Testing. If requested by City, Bidder shall provide product samples, demonstrations, and/or testing of items bid to ensure compliance with specifications prior to award of the contract. Samples, demonstrations and/or testing must be provided within 7 calendar days of City's request. Failure to comply with City's request may result in rejection of a bid. All samples (including return thereof), demonstrations, and/or testing shall be at Bidder's expense. Samples will be returned upon written request. Requests for return of samples must be made in writing at the time the samples are provided. Otherwise, samples will become property of City at no cost to City. Samples that are consumed or destroyed during demonstrations or testing will not be returned.

Estimated Quantities for Annual Contracts.

Designation as an "annual" contract is found in the contract's title on the Cover Page of this document. The quantities stated are estimates only and are in no way binding upon City. Estimated quantities are used for the purpose of evaluation. City may increase or decrease quantities as needed. Where a contract is awarded on a unit price basis, payment shall be based on the actual quantities supplied.

Bidders shall thoroughly examine the drawings, specifications, schedule(s), instructions and all other contract documents.

Bidders shall make all investigations necessary to thoroughly inform themselves regarding plant and facilities for delivery of material and equipment, or conditions and sites/locations for providing goods and services as required by this IFB. No plea of ignorance by Bidder will be accepted as a basis for varying the requirements of City or the compensation to Bidder.

Confidential or Proprietary Information. All bids become the property of the City upon receipt and will not be returned. Any information deemed to be confidential by Bidder should be clearly noted; however, City cannot guarantee that it will not be compelled to disclose all or part of any public record under the Texas Public Information Act, since information deemed to be confidential by Bidder may not be considered confidential under Texas law, or pursuant to a Court order. Note that pursuant to state law, bids are opened publicly and read aloud. In addition, bids are tabulated and posted to the City's website, so shall not be considered proprietary or confidential.

Interlocal Participation.

City may engage in cooperative purchasing with other governmental entities or governmental cooperatives ("Entity" or "Entities") to enhance City's purchasing power. At City's sole discretion and option, City may inform other Entities that they may acquire items listed in this IFB. If this contract will be subject to cooperative purchasing, such fact will be indicated in the Supplemental Terms and Conditions portion of this IFB. Such acquisition(s) shall be at the prices stated in the bid, and shall be subject to Bidder's acceptance. Entities desiring to acquire items listed in this IFB shall be listed on a rider attached hereto, if known at the time of issuance of the IFB. City may issue subsequent riders after contract award setting forth additional Entities desiring to utilize this bid.

Bidder must sign and submit the rider, if attached to this IFB, with its bid, indicating whether Bidder wishes to allow other Entities to use its bid. Bidder shall sign and return any subsequently issued riders within ten calendar days of receipt. Bidder's decision on whether to allow other Entities to use the bid shall not be a factor in awarding this IFB.

Costs of Bidding. Bidder shall bear any and all costs that are associated with the preparation of the Bid, attendance at the Pre-Submittal Conference, if any, or during any phase of the selection process.

Rejection of Bids.

City may reject any and all bids, in whole or in part, cancel the IFB and reissue the solicitation. City may reject a bid if:

Bidder misstates or conceals any material fact in the bid; or

The bid does not strictly conform to law or the requirements of the solicitation;

The bid is conditional; or

Any other reason that would lead City to believe that the bid is non-responsive or Bidder is not responsible.

City, in its sole discretion, may also waive any minor informalities or irregularities in any bid, such as failure to submit sufficient bid copies, failure to submit literature or similar attachments, or business affiliation information.

Variances and Exceptions to Bid Terms. In order to comply with State law, bidders must submit bids on the same material terms and conditions. Bids that contain material variances or exceptions to the terms and conditions, including additional terms and conditions, will be rejected.

Changes to Bid Form. Bids must be submitted on the forms furnished. Bids that change the format or content of City's IFB will be rejected.

Withdrawal of Bids. Bids may be withdrawn prior to the time set for the bid opening. Written notice of withdrawal shall be provided to the City Clerk for bids submitted in hard copy. Bids submitted electronically may be withdrawn electronically.

Bid Opening. Bids will be opened publicly and read aloud at 2:30 on the day the bids are due. Bid openings are held at Purchasing & General Services, Riverview Tower, 11th Floor, 111 Soledad, Suite 1100, San Antonio, Texas 78205.

Evaluation and Award of Contract.

Per Section §252.043 of the Texas Local Government Code, the contract will be awarded to the lowest responsible bidder. The Purchasing Division evaluates bids for responsiveness and the responsibility of the bidder, and makes a recommendation to the City Council. The City Council makes the final determination regarding award.

City reserves the right to make an award on the basis of low line item, low total line items, or in any other combination that serves the best interest of City, unless City designates this solicitation as an "all or none" bid in the Supplemental Terms & Conditions.

A written award of acceptance (manifested by a City Ordinance) and Purchase Order furnished to Bidder results in a binding contract without further action by either party. Vendor must have the Purchase Order before making any delivery.

City reserves the right to utilize historical usage data as a basis for evaluation of bids when future usages are unable to be determined.

Breaking of tie bids shall be in accordance with the Texas Local Government Code §271.901.

City reserves the right to delete items prior to the awarding of the contract, and purchase said items by other means.

Inspection of Facilities/Equipment.

Depending on the nature of the IFB, Bidders' facilities and equipment may be a determining factor in making the bid award. All bidders may be subject to inspection of their facilities and equipment.

Prospective bidders must prove beyond any doubt to City Purchasing Administrator that they are qualified and capable of performing the contract's requirements.

Prompt Payment Discount.

Provided Bidder meets the requirements stated herein, City shall take Bidder's offered prompt payment discount into consideration. The evaluation will not be based on the discount percentage alone, but rather the net price as determined by applying the discount to the bid price, either per line item or total bid amount. However, City reserves the right to reject a discount if the percentage is too low to be of value to City, all things considered. City may also reject a discount if the percentage is so high as to create an overly large disparity between the price City would pay if it is able to take advantage of the discount and the price City would pay if it were unable to pay within the discount period. City may always reject the discount and pay within the 30 day period, at City's sole option.

City will not consider discounts that provide fewer than 10 days to pay in order to receive the discount.

For example, payment terms of 2% 5, Net 30 will NOT be considered in bid evaluations or in the payment of invoices. However, payment terms of 2% 10, Net 30 will result in a two percent reduction in the bid price during bid evaluation, and City will take the 2% discount if the invoice is paid within the 10 day time period.

Tabulations. The Purchasing Division will post preliminary tabulations within 7 days of the advertised bid opening. The information on these tabulations will be posted for informational purposes only, and will be posted as read during the bid opening. This tabulation is not a notice of award of the contract. All bids are subject to review for completeness, accuracy and compliance with the terms set forth in the bid documents.

Bid Protest Procedures.

Any bidder who is adversely affected in connection with the solicitation, evaluation, or proposed award of a contract may file a protest with the Director and appeal any adverse decision to the City Manager of the City of San Antonio.

Bidder must deliver a written notice of protest to the Director within 7 calendar days of the posting of the intent to award. If Bidder does not file a written notice within this time, Bidder will have waived all rights to formally protest the intent to award. It is Bidder's responsibility to check the City's website posting.

Debriefing. Debriefing of contract award is available upon request and after award of the Contract.

Prohibited Financial Interest. The Charter of the City of San Antonio and its Ethics Code prohibit a City officer or employee, as those terms are defined in the Ethics Code, from having a financial interest in any contract with City or any City agency such as City-owned utilities. An officer or employee has a "prohibited financial interest" in a contract with City

or in the sale to City of land materials, supplies or service, if any of the following individual(s) or entities is a party to the contract or sale: the City officer or employee; his parent, child or spouse; a business entity in which he or his parent, child or spouse owns ten (10) percent or more of the voting stock or shares of the business entity, or ten (10) percent or more of the fair market value of the business entity; or a business entity in which any individual or entity above listed is a subcontractor on a City contract, a partner or a parent or subsidiary business entity.

Conflict of Interest. Effective January 1, 2006, Chapter 176 of the Texas Local Government Code requires that persons, or their agents, who seek to contract for the sale or purchase of property, goods, or services with the City, shall file a completed conflict of interest questionnaire with the City Clerk not later than the 7th business day after the date that the person: (1) begins contract discussions or negotiations with the City; or (2) submits to the City an application, response to a request for proposals or bids, correspondence, or another writing related to a potential agreement with the City. The conflict of interest questionnaire form is available from the Texas Ethics Commission at www.ethics.state.tx.us. Completed conflict of interest questionnaires may be mailed or delivered by hand to the Office of the City Clerk. If mailing a completed conflict of interest questionnaire, mail to: Office of the City Clerk, P.O. Box 839966, San Antonio, TX 78283-3966. If delivering a completed conflict of interest questionnaire, deliver to: Office of the City Clerk, City Hall, 2nd floor, 100 Military Plaza, San Antonio, TX 78205." Bidder should consult its own legal advisor with questions regarding the statute or form. Do not include this form with your sealed bid. The Purchasing Division will not deliver the form to the City Clerk for you.

Attachment B – Local Preference Program Identification Form

City of San Antonio
Finance Department - Purchasing Division
Local Preference Program Identification Form

The City of San Antonio Local Preference Program, adopted by Ordinance 2013-03-21-0167, implemented a local preference program for specific contracting categories. Each time a bidder or respondent submits a bid for a solicitation this Local Preference Program Identification Form must be completed and turned in with the solicitation response in order to be identified as a local business and receive the preference described below. The City will not rely on Local Preference Program Identification Forms submitted with prior or contemporaneous bids or proposals.

The Local Preference Program allows the City to grant a preference in the award of the following types of contracts, when selection is made based on price alone:

- Personal Property (Goods / Supplies): The local bidder's price must be within 3% of the price of the lowest non-local bidder for contracts of \$50,000 or more;
- Non-professional Services: The local bidder's price must be within 3% of the price of the lowest non-local bidder for contracts of \$50,000 to under \$500,000;
- Construction Services: The local bidder's price must be within 3% of the price of the lowest non-local bidder for contracts of \$50,000 to under \$100,000, excluding contracts awarded using alternative delivery methods;

The Local Preference Program also allows the award of additional points, when multiple evaluation criteria are used in the award of professional service contracts, where the selection process is not governed by statute. A business meeting the definition of local business stated below may be awarded 10 points for being headquartered within the city, or 5 points for having a local office within the city.

A local business (a.k.a. a City Business) is defined as a business headquartered within the incorporated San Antonio city limits OR one that meets the following conditions:

- Has an established place of business for at least one year in the incorporated limits of the City:
 - (a) from which at least 100 of its employees OR at least 20% of its total full-time, part-time and contract employees are regularly based; and
 - (b) from which a substantial role in the business' performance of a commercially useful function or a substantial part of its operations is conducted by those employees.

A location utilized solely as a post office box, mail drop or telephone message center or any similar combination, with no other substantial work function, is not a local business.

For the purposes of this program, Headquartered is defined as the place where a business entity's officers direct, control, and coordinate the entity's activities.

Attachment C – SBEDA

I. SBEDA Ordinance Compliance Provisions

A. Solicitation Response and Contract Requirements and Commitment

Respondent understands and agrees that the following provisions shall be requirements of this solicitation and the resulting contract, if awarded, and by submitting its Response, Respondent commits to comply with these requirements.

B. SBEDA Program

The CITY has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2010-06-17-0531 and as amended, also referred to as “SBEDA” or “the SBEDA Program”), which is posted on the City’s Economic Development (EDD) website page and is also available in hard copy form upon request to the CITY. The SBEDA Ordinance Compliance Provisions contained in this section of the Agreement are governed by the terms of this Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by the CITY pursuant to this Ordinance, and any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual that are effective as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this section of the Agreement shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

C. Definitions

Affirmative Procurement Initiatives (API) – Refers to various Small Business Enterprise, Minority Business Enterprise, and/or Women Business Enterprise (“S/M/WBE”) Program tools and Solicitation Incentives that are used to encourage greater Prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE program tools, see Section III. D. of Attachment A to the SBEDA Ordinance.)

Annual Aspirational Goal – a non-mandatory annual aspirational percentage goal for overall M/WBE Prime and subcontract participation in City of San Antonio contracts is established each year for Construction, Architectural & Engineering, Professional Services, Other Services, and Goods & Supplies contract Industry Categories. This Annual Aspirational Goal is to be set (and thereafter adjusted) by the Goal Setting Committee (GSC) on an annual basis based upon relative M/WBE availability data to be collected by the City through its Centralized Vendor Registration (“CVR”) system. Annual Aspirational Goals are not to be routinely applied to individual contracts, but are intended to serve as a benchmark against which to measure the overall effectiveness of the S/M/WBE Program on an annual basis, and to gauge the need for future adjustments to the mix and to the aggressiveness of remedies being applied under the Program. Percentage Goals for S/M/WBE participation may be established by the GSC on a contract-by-contract basis based upon similar data and analysis for the particular goods and services being purchased in a given contract. The M/WBE Annual Aspirational Goals for FY 2014 are:

Construction – 27%
Architecture and Engineering – 22%
Professional Services – 18%
Other Services – 20%
Goods and Supplies - 9%

Certification or “Certified” – the process by which the Small Business Office (SBO) staff determines a firm to be a bona-fide small, minority-, women-owned, or emerging small business enterprise. Emerging Small Business Enterprises (ESBEs) are automatically eligible for Certification as SBEs. Any firm may apply for multiple Certifications that cover each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, the City accepts any firm that is certified by local government entities and other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6 of Attachment A.

Centralized Vendor Registration System (CVR) – a mandatory electronic system wherein the City requires all prospective Respondents and Subcontractors that are ready, willing and able to sell goods or services to the City to register. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices, and for receiving payments from the City. The CVR-assigned identifiers are also used by the Goal Setting Committee for measuring

relative availability and tracking utilization of SBE and M/WBE firms by Industry or commodity codes, and for establishing Annual Aspirational Goals and Contract-by-Contract Subcontracting Goals.

Commercially Useful Function – an S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of a distinct element of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it is actually performing and the S/M/WBE credit claimed for its performance of the work, and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation, when in similar transactions in which S/M/WBE firms do not participate, there is no such role performed. The use of S/M/WBE firms by CONTRACTOR to perform such “pass-through” or “conduit” functions that are not commercially useful shall be viewed by the CITY as fraudulent if CONTRACTOR attempts to obtain credit for such S/M/WBE participation towards the satisfaction of S/M/WBE participation goals or other API participation requirements. As such, under such circumstances where a commercially useful function is not actually performed by the S/M/WBE firm, the CONTRACTOR shall not be given credit for the participation of its S/M/WBE subcontractor or joint venture partner towards attainment of S/M/WBE utilization goals, and the CONTRACTOR and S/M/WBE firm may be subject to sanctions and penalties in accordance with the SBEDA Ordinance.

Good Faith Efforts – documentation of the CONTRACTOR’s or Respondent’s intent to comply with S/M/WBE Program Goals and procedures including, but not limited to, the following: (1) documentation within a solicitation response reflecting the Respondent’s commitment to comply with SBE or M/WBE Program Goals as established by the GSC for a particular contract; or (2) documentation of efforts made toward achieving the SBE or M/WBE Program Goals (e.g., timely advertisements in appropriate trade publications and publications of wide general circulation; timely posting of SBE or M/WBE subcontract opportunities on the City of San Antonio website; solicitations of bids/proposals/qualification statements from all qualified SBE or M/WBE firms listed in the Small Business Office’s directory of certified SBE or M/WBE firms; correspondence from qualified SBE or M/WBE firms documenting their unavailability to perform SBE or M/WBE contracts; documentation of efforts to subdivide work into smaller quantities for subcontracting purposes to enhance opportunities for SBE or M/WBE firms; documentation of a Prime Contractor’s posting of a bond covering the work of SBE or M/WBE Subcontractors; documentation of efforts to assist SBE or M/WBE firms with obtaining financing, bonding or insurance required by the Respondent; and documentation of consultations with trade associations and consultants that represent the interests of SBE and/or M/WBEs in order to identify qualified and available SBE or M/WBE Subcontractors.) The appropriate form and content of CONTRACTOR’s Good Faith Efforts documentation shall be in accordance with the SBEDA Ordinance as interpreted in the SBEDA Policy & Procedure Manual.

Independently Owned and Operated – ownership of an SBE firm must be direct, independent and by Individuals only. Ownership of an M/WBE firm may be by Individuals and/or by other businesses provided the ownership interests in the M/WBE firm can satisfy the M/WBE eligibility requirements for ownership and Control as specified herein in Section III.E.6. The M/WBE firm must also be Independently Owned and Operated in the sense that it cannot be the subsidiary of another firm that does not itself (and in combination with the certified M/WBE firm) satisfy the eligibility requirements for M/WBE Certification.

Individual – an adult person that is of legal majority age.

Industry Categories – procurement groupings for the City of San Antonio inclusive of Construction, Architectural & Engineering (A&E), Professional Services, Other Services, and Goods & Supplies (i.e., manufacturing, wholesale and retail distribution of commodities). ADDENDUM I

SUBJECT: Invitation for Bid (IFB) Mobile Application Development for San Antonio Public Library (RFx# 6100003779) Scheduled to Open: December 20, 2013; Date of Issue: December 5, 2013

FROM: Jorge Garcia
Procurement Manager

DATE: December 17, 2013

THIS NOTICE SHALL SERVE AS ADDENDUM NO. I - TO THE ABOVE REFERENCED INVITATION FOR BID

QUESTIONS SUBMITTED IN ACCORDANCE WITH SECTION 003, RESTRICTIONS ON COMMUNICATION:

Below are the clarification questions submitted for response. The City's official response to questions asked is as follows:

Question 1: According to the RFP (page 14), "This contract shall begin upon the effective date of the ordinance awarding the contract, or date specified in the award letter if this contract does not exceed \$50,000, and terminate on SEPTEMBER 30, 2015." If the contract exceeds \$50,000, are the contract terms to be negotiated prior to finalizing the agreement? Another process?

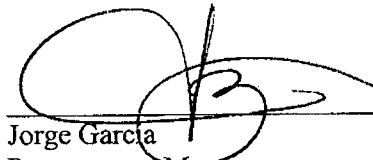

Response: Should the contract value exceed \$50,000, statute requires approval of the contract by the governing body. The IFB and selected response serve as the binding contract document with the Terms & Conditions of the IFB prevailing in the event of a conflict.

Question 2: How does the SAePS Electronic Catalog Options (page 14) apply to a Software as a Service solution? If a software vendor normally does not create or publish a catalog, does such a catalog need to be created for the purposes of this RFP and submitted via email or uploaded in addition to the Price Schedule to be submitted?

Response: This is boilerplate language. A catalog does not need to be created. Vendor must submit price schedule.

Question 3: How may potential vendors suggest changes to the General Terms and Conditions? Should any suggestions be submitted along with the proposal in response to the solicitation?

Response: The City will review exceptions to the Terms & Conditions. It will be at the sole discretion of the City to accept any changes to the Terms & Conditions of the IFB.

Schedule “B”: Post Implementation Support

Support Process and Response Time

BiblioCommons provides four levels of post-rollout support for the Core service. These vary in timing and scope, in proportion to the severity of the problem to which they are responding.

BiblioCommons defines severity by four levels: Emergency, Critical, Normal, and Low-priority. The severity of a problem is determined by:

1. The importance of the feature affected
2. The prevalence of the outage

1. Definition of feature importance

Primary Features	Secondary Features	Tertiary Features
<ul style="list-style-type: none"> • Site availability • Registration • Login • Search • Holds • Renewals 	<ul style="list-style-type: none"> • Synchronization: of bibliographic records (additions, deletions, edits), and item availability) • ILS-independent, BiblioCommons features including: My Shelves and My Lists; user-generated content (e.g. ratings, comments, etc) and community functionality (e.g. Following, Ignoring, patron to patron 	<ul style="list-style-type: none"> • Text changes and cosmetic issues not affecting site functionality • Changes to mapping of configurable features – formats, audience, availability status etc.

	messaging,) • Cosmetic issues affecting site functionality	
--	---	--

2. Definition of Prevalence

Complete: System-wide; consistently reproduced in supported browsers and against (multiple) patron IDs.

Partial: Feature outages that are not universal, but are estimated to affect a significant (i.e. >5%) of relevant use cases (e.g. logins, pageviews, holds, etc.)

Sporadic: Affecting less than 5% of total relevant use cases. (Use cases that are relevant issue in question.)

Severity Classification by Feature Importance and Failure Prevalence:

		Prevalence of Failure		
		Complete	Partial	Sporadic
Feature Importance	Primary	Critical	Critical	Critical
	Secondary	Critical	Critical	Normal
	Tertiary	Normal	Low	Low

Supported reporting methods by issue severity

BiblioCommons supports different response methods, depending on the severity of the problem.

Contact Method

For non-critical issues, BiblioCommons manages support through an online error ticketing system, currently Unfuddle. This is the standard gateway for all communications with BiblioCommons Support. BiblioCommons will supply access to this service to the Library for the purpose of issue tracking.

Non-critical issues should be reported to BiblioCommons through online tickets.

Once Requests are submitted they will be triaged, with resources and scheduling assigned based on an assessment of the importance of the issue.

Schedule "C" Service Levels

BiblioCommons shall use commercially reasonable measures to make the Core service available with a minimum uptime standard of 99.5% in any given calendar year, excluding scheduled maintenance windows or any unavailability resulting from a Subscriber's applications, equipment, facilities, or employees.

Service Unavailability

At the request of the Subscriber, BiblioCommons will calculate Subscriber's "Service Unavailability" for the previous month. "Service Unavailability" consists of the number of minutes that the Core Service was not available to Subscriber, and includes any unavailability associated with any unscheduled maintenance. Outages will only be counted if Subscriber notifies BiblioCommons within five business days of the outage.

Service Unavailability will not include:

- a) any scheduled maintenance;
- b) any unavailability resulting from a Subscriber's applications, equipment, facilities, or employees;
- c) any acts or omissions of Subscriber, or any use or user of the Service authorized by Subscriber; and
- d) any event outside the reasonable control of BiblioCommons and Force Majeure events as defined in the Agreement.

Remedy

Subscriber's exclusive remedy for a failure of the Service shall be that for any continuous period of 24 hours or more of Service Unavailability, at Subscriber's request, Subscriber's Term shall be extended for one additional week without additional charge.

Scheduled Maintenance

The Subscriber acknowledges that the Service may not be available to Subscriber and Authorized Patrons during scheduled maintenance. For the purposes of this paragraph, "Scheduled Maintenance" only refers to planned, routine maintenance carried out by BiblioCommons that has the effect of significantly limiting the functions of the System available to Subscriber and Authorized Patrons.

BiblioCommons shall limit Scheduled Maintenance to ten hours per month and shall make reasonable efforts to notify Subscriber of Scheduled Maintenance not less than twenty-four hours in advance.

Schedule “D”

Technical Requirements

Subscriber must meet the following requirements in order to take advantage of the BiblioCommons Service. These requirements may be amended from time to time by BiblioCommons in accordance with evolving technical standards in the industry.

ILS SERVER AND DATABASE

- The ILS Server must be a locally hosted instance of Sirsi Dynix’s Horizon, Symphony or Unicorn/Symphony; Innovative Interfaces’ Millennium; Evergreen; or other ILS system as may be agreed to by BiblioCommons.
- The ILS server must offer or accommodate a reliable programmatic method:
 - to access cataloging and patron data; and
 - to execute circulation requests on behalf of a User.
- Libraries must be able to provide the version number of the ILS application and its underlying database and operating system.
- The standard security configuration provides for access to the ILS connector by opening a port in Subscriber’s firewall to BiblioCommons servers. Any additional security requirements from Subscriber may be accommodated for a supplementary implementation fee by written agreement.

TOMCAT SERVER

- There must be a new and correct installation of Apache Tomcat on a server (“the Tomcat server”) in the library environment.
- The Tomcat Server must be installed on the same server in which any Unicorn/Symphony API server commands are located.
- There must be an instance of Java 1.7 on the Tomcat server, and it must be modifiable as BiblioCommons requirements evolve.
- Tomcat Manager must be installed on the new Tomcat instance.
- For Unicorn/Symphony, the Tomcat Server must be run using the ‘sirsi’ user. Tomcat must be available through Subscriber’s firewall to the BiblioCommons servers.
- As required for monitoring, troubleshooting and testing, BiblioCommons must be given unassisted access, using SSH, Remote Desktop or similar, to the server running Tomcat, with sufficient privileges to configure and restart the connector and Tomcat.

HARDWARE AND BANDWIDTH

- The Tomcat server CPU must have at least 2Ghz in processing speed, or processing speed that provides response time that is acceptable to Subscriber and BiblioCommons
- The Tomcat server must have a minimum of 256 MB of available RAM (for small libraries, under 25,000 population served), 512 MB (for medium libraries, under 100,000 population served) or 1 GB or more (for large libraries).
- The Tomcat server must have a minimum 1 GB of free space on the hard-drive

except for III instances, where the Tomcat server must have a minimum 10 GB of free space.

- The Tomcat server CPUs must not exceed 50% utilization (with existing, non-BiblioCommons load).
- The library's communication (all network communication from the Tomcat server to the ILS server, the ILS database, and to the external Internet) must be through a high-speed, reliable Internet connection: 5Mbps bi-directional (upload/download) or better for a small or medium-sized library, or 44Mbps bi-directional or better for a large library serving a population over 100,000.

ASSISTANCE AND ACCESS

To successfully launch and maintain the BiblioCommons service, Subscriber must be prepared to provide:

- A Project Manager (the "Library Project Manager") to act as a liaison between your library and BiblioCommons;
- A lead technical contact.
- During the testing and acceptance phase, if any incompatibilities with API calls arise, BiblioCommons will be granted SSH access to the system with the 'sirsi' user in order to verify API calls.

USER INTERFACE

Subscriber will be asked to provide graphic elements that meet basic usability criteria, including for example font and background colours for the navigation bars, and a horizontally oriented logo, no larger than 260px width x 130px high, with a RBG background colour or image.

IN-LIBRARY TERMINALS

BiblioCommons recommends and supports the following web browsers on in-library terminals:

- Firefox 3.0 or higher
- IE8 or higher,
- Safari 4 or higher
- Chrome 4 or higher

Other browsers will be supported on library terminals only by written agreement.

DATA QUALITY

In order to facilitate BiblioCommons data transfers and the sharing of information among patrons and libraries, BiblioCommons has deployed the following minimum standards for data, which are preconditions for the Service. BiblioCommons has worked with other libraries to develop these standards based on the demands of both the ILS and the user experience.

MARC and Patron Data

BiblioCommons' requirements for MARC mapping reflect typical cataloguing practice:

- Use of AACR2 or RDA and MARC21 standards for Bibliographic and Authority data;
- Authority and Bibliographic records must be exportable separately with corresponding links between the two.

Subscriber will complete a survey describing a set of rules that can be used across all bib records to isolate key data for mapping into BiblioCommons schemas, including for example and without limitation:

- Format values (e.g., DVD, Braille book)
- Audience values: Adult, Teen, Children
- Fiction/Non-fiction/Other

BiblioCommons will supply sample MARC that inventories the character sets and encoding it expects. Subscriber will then identify and export records that surface these character-set issues for testing. BiblioCommons will only support character sets and character-set encoding practices typical in library environments.

BiblioCommons reserves the right not to support nonstandard library data practices and practices that require custom parsing of data.

Identifiers and Other Required Fields

- Library records must have persistent identifiers over time. For example, record numbers must persist for any batch delete and re-add process of the same set of records.
- All key elements such as patron identification, bibliographic record identification and item identification must have a unique permanent identifier
 - For example, if a patron loses their library card, their barcode may change, but the new barcode must reference the same unique permanent identifier.
 - Universal identifiers should be in place for all bibliographic records where practically possible.
- Patron records must have a birth date field, though not necessarily birth data.

Cataloguing Workflows

Subscriber should be prepared to describe acquisition and cataloguing workflows, explaining how records are added, changed and deleted in various cases (e.g., brief records creating during the inter-library loan processes, records created during the acquisitions process, records that are suppressed from the OPAC, batch processes). BiblioCommons will support cataloguing practice and workflows that are typical among public libraries in North America.

Subscriber must notify BiblioCommons in advance when a larger than normal number of records is added, edited, or deleted from their ILS.

IF SUBSCRIBER DOES NOT MEET THE REQUIRED CONDITIONS

BiblioCommons will show flexibility in the requirements detailed in this Schedule "D" if mutually agreeable alternatives are found. But in the absence of such alternatives and where Subscriber fails to meet materially any of the requirements, Subscriber will a) use its own resources to perform the work necessary to conform to the requirements or to specifications applied by BiblioCommons in libraries of similar size and with the same or similar ILS deployment, or b) hire BiblioCommons at a rate of \$1500 per day per technician to develop a reasonable solution that will be specified and estimated in advance by BiblioCommons.

In the event that Subscriber does not provide the required unassisted access to the server running Tomcat, Subscriber will pay to BiblioCommons an additional one-time fee of ten thousand dollars (\$10,000.00), payable on the date of the Agreement.

Schedule "E" Privacy Statement

A link to the Privacy Statement will appear to all Authorized Patrons or users registering with BiblioCommons during the registration process, and will appear on all main pages of the Service. The following Privacy Statement was in effect June, 2011, and may be amended by BiblioCommons from time to time.

X Public Library has entered into an agreement with BiblioCommons to provide an online service that will make it easier to track your holds and renewals and find the titles you are looking for. In addition, you may also choose to use this service to share ratings and commentary about the titles you find at XPL, and to connect with other library users. When you use the pages in XPL's catalog that say "Powered by BiblioCommons" in the lower left-hand corner of the screen, you are using what is referred to in this document as the "BiblioCommons Service," and any information that is collected or shared here will be governed by this Privacy Statement.

BiblioCommons believes that effective privacy controls are the cornerstone of open and engaged communities. We have implemented the standards described on this page to protect the privacy of all users, at the same time providing the opportunity to share information about books, movies and music for those who are interested. By using the BiblioCommons Service, you agree to the terms of this BiblioCommons Privacy Statement and the [BiblioCommons Terms of Use](#). The BiblioCommons Privacy Statement and BiblioCommons Terms of Use can be accessed anytime through the links at the bottom of each page that is powered by BiblioCommons; together they are the only documents that govern your relationship with BiblioCommons.

Is this the only policy governing the use of my information on services offered by the library?

No. XPL may have additional policies that govern other aspects of the services we offer. Please check the library's homepage to view these documents, or speak to a librarian.

What types of information are collected on this service?

Several types of information may be collected and stored on the BiblioCommons service:

- Personal information
- Borrowing information
- Shared content
- Feedback and Suggestions
- Non-Identifying information.

You will find a description of how this information is handled in the sections that follow.

Personal Information

What personal information is gathered?

BiblioCommons gathers personal information that you provide or choose to import from XPL. If you register for the BiblioCommons Service, your library barcode, PIN and borrower ID, name, birth month and year, and email address are automatically loaded into your on-line account from your library record. If some of this information is not available in your record you may be asked to provide it. For some services, BiblioCommons may also ask for your gender.

How is my personal information used?

We use your personal information to create an online account in your name, provide the services that you have requested, monitor and improve the service, keep your library record up to date, and customize content.

If you choose to share information or opinions about books, movies, music, and other topics, participate in online conversations, or create selections using Guides or My Shelves (“Shared Content”), information such as the username or name you have chosen to display, your library affiliation(s) and age group may accompany your Shared Content and appear on a profile page that summarizes your Shared Content. If you would like to change your username or modify the information that is made publicly available in connection with these features, please visit your [Account Settings](#).

BiblioCommons may disclose your personal information and any content associated with your account if required to do so by law or in a good faith belief that such disclosure is reasonably necessary to: (a) satisfy any applicable law, regulation, legal process or enforceable governmental request, or (b) enforce the Terms of Use, including investigation of potential violations hereof.

Is my personal information protected?

Information in your BiblioCommons account that personally identifies you is encrypted and stored in a secured facility. This information will be used by BiblioCommons and XPL to deliver the services you request in accordance with this Privacy Statement. BiblioCommons will not sell, rent or trade your personal information (e.g., your email address or date of birth). But we may display Shared Content (defined below) in the BiblioCommons Service, or make other commercial uses of Shared Content.

Can I change or delete my personal information?

You may alter or delete any of the personal information in your BiblioCommons account except for your name, birth information and your library card number(s); please contact your library staff to make changes to these. If your personal information is updated either through the BiblioCommons Service or directly on your [XPL] account with the help of library staff, we will synchronize the new information in both locations.

At any time, you may delete your BiblioCommons account without deleting your XPL account. To delete your BiblioCommons account, please contact the [BiblioCommons Privacy Officer](#). Note that while your BiblioCommons account information will not be available after deletion, some of that information may persist on memory discs.

Do I have to provide contact information?

No, you do not need to provide contact information to use the BiblioCommons Service. However you may choose to do so in order to receive notices related to your use of the library through the BiblioCommons Service. Your contact information will not be used by BiblioCommons for any other purpose without your consent, or shared with any party other than XPL without your direction to do so. We encourage you to check XPL's policies to understand the other ways in which your contact information may be used by XPL.

BiblioCommons may send email or display messages on the service that provide you with the choice to take advantage of new features and functionality based on your past activity and stated preferences. To change your preferences for system messaging, please go to [My Settings](#).

What measures are in place to protect children?

Parts of the BiblioCommons Service are open to children under the age of thirteen. However additional measures have been taken to protect their privacy and safety. Patrons under the age of thirteen (13) years will be restricted from using the BiblioCommons Service to enter free text; in the future, provision may be made for a more permissive service for minors with parental consent.

Where can I learn more about internet safety for users under the age of 18?

We recommend that parents and guardians discuss internet privacy and safety with their children. When using the internet, children should be advised:

- never to give out personal information such as their real name, phone number, email address, or school without first consulting their parents or guardians, and
- never to arrange a meeting with someone they met online.

More information about children's safety online can be found on the following sites.

- <http://www.internetsafety101.org/safety101.htm>

How can parents and guardians oversee the personal information of their children?

Guardians of underage users in the US may make a request to review and alter the personal information collected from their children on this service, or to deactivate their child's BiblioCommons account. The first step in gaining access to your child's account is to make your request in person to staff at one of the library's locations. Be prepared to show proof of your identity and of your relationship with the child. Staff will then have the information retrieved and delivered to you by mail or held for pick-up.

Note that the BiblioCommons Service does not require children under the age of 13, as a condition of participation, to provide more information than is reasonably required.

Borrowing Information

How is my borrowing record protected?

Lists of your current loans, due dates, outstanding fines, etc. may be loaded from your library record during your sessions online, but this information is not permanently stored on your BiblioCommons account, and is never shared with other users. You may choose to create a record of your recently-borrowed titles where available; information about recently borrowed items is never made available to the public unless you choose to enter specific titles on your shelves or in other Shared Content. If you do not choose to enable this feature, no automatic record of your borrowing will be created through this feature.

Shared Content

What is Shared Content?

You may use the BiblioCommons Service to record information or opinions about books, movies, music, and other topics, participate in online conversations, or create selections using Guides or My Shelves; all of this content is called "Shared Content". Shared Content may be useful for your own reference and can help other users find resources and information.

When you contribute content to an individual title, that title is automatically added to My Shelves, a collection that gathers all of the titles to which you have contributed content or

chosen to add to your shelves. You may also create Shared Content by interacting with others through messaging, forums, or collaborative guides.

Can Shared Content be viewed by the public?

Shared Content has been designed for sharing, and is usually public. However you may make portions of your Shared Content private by using your [privacy settings](#). In addition, messages sent directly to other users through the service are not publically viewable.

If you are uncomfortable with the idea of sharing content with others, you may decide not to use My Shelves or contribute ratings, comments, guides, or other types of Shared Content. You do not need to create Shared Content in order to use the BiblioCommons Service.

Will my name be visible with my Shared Content?

Content and messages that you leave in public view or send to other users will be accompanied by the username that you create, or by whatever display name that you choose at a later date in your account settings. This display name is also linked to your profile page, which includes links to your Shelves, your Shared Guides, and any other profile information you choose to display.

Can I change my Shared Content?

Shared Content that is not interactive may be edited or deleted on this service at any time. Deleted content is removed from our data bases and inaccessible to other users, but may remain in our data back-up system and in third-party search indexes like Google. Shared Content that is not deleted may remain available on the BiblioCommons Service indefinitely, even if you have closed your library account.

Messages and chat cannot be deleted or edited once they have been sent. They are logged and archived indefinitely. In the event of complaints regarding violations of the BiblioCommons Terms of Use, this type of information may be used by BiblioCommons to investigate.

Interactive Shared Content that other users may respond or contribute to, such as discussions or collaborative guides, may be visible to others indefinitely in association with your display name, and may persist after your BiblioCommons account is terminated.

Other Information

Feedback and Suggestions

When you submit feedback or suggestions they will not be considered confidential and may be stored with your name and email address for analysis and follow-up.

Non-Identifying Information

BiblioCommons gathers anonymous information from user profiles and preferences in order to improve the quality and scope of the BiblioCommons Service, which may include the following:

- Information such as your browser type or IP address helps BiblioCommons to understand how visitors use the service and how it might be improved.
- Data from your account may also be aggregated in an anonymous way.
- Anonymous search logs are analyzed to improve the search algorithms.

Cookies

Cookies are small files used to enhance the functionality of websites.

- BiblioCommons may set and access temporary session cookies on your computer in order to make our system easier for you to use. In addition, a more persistent cookie is used to store your user preferences. These files do not contain or transfer any personally-identifiable information.
- You may also choose on the log-in page to save your username in a cookie by checking “remember me.”
- If you wish to be notified when you receive a cookie, you may set your browser to do so.

External Sites

The Internet is a big place: take care to guard your personally identifying information. This website may link to other websites that collect personal information. We recommend that you review the privacy policies of these sites before providing them with any personal data.

Changes to this Privacy Statement

This privacy statement may change from time to time in response to new laws, or to an evolution in BiblioCommons policies or practices. We encourage you to check this privacy statement from time to time for changes. Your continued use of BiblioCommons after a change will signify your acceptance of the new terms.

Change of Service

In the event that X Public Library discontinues its participation in the BiblioCommons Service, the XPL may transfer your information to a new service of a similar nature. In addition, X Public Library may agree to have your information transferred to a successor

entity of BiblioCommons or to any entity which purchases substantially all of the assets related to BiblioCommons or a division of BiblioCommons.

Schedule "F" Terms of Use

Acceptance of the Terms of Use is a condition of any use of the Service. In addition upon registration, which is required before an Authorized Patron may access circulation functions or contribute content, he or she must signal his or her agreement to the Terms of Use by clicking a checkbox. The following Terms of Use were in effect on June, 2011, and may be amended by BiblioCommons from time to time.

X Public Library has entered into an agreement with BiblioCommons to provide an online service that will make it easier to track your holds and renewals and find the titles you are looking for. In addition, you may also choose to use this service to share ratings and commentary about the titles you find at XPL, and to connect with other BiblioCommons users. When you use the pages in XPL's catalog that say "Powered by BiblioCommons" in the lower left-hand corner of the screen, you are using what is referred to here as the "BiblioCommons Service," and these BiblioCommons Terms of Use apply. Your use of the BiblioCommons Service is subject to the BiblioCommons Terms of Use, and indicates that you accept these Terms of Use, which includes the BiblioCommons Privacy Statement; together they are the only documents that govern your relationship with BiblioCommons. You may not use the BiblioCommons Service if you do not accept the Terms or Use; please read them carefully.

Is this the only policy governing my use of the library's services?

No. XPL may have additional policies that govern other aspects of the services we offer. Please check the library's homepage to view these documents, or speak to a librarian.

REGISTRATION

Is Registration Necessary?

It is not necessary to register with the BiblioCommons Service in order to search the XPL catalog. However, registration is required to use BiblioCommons for personalized services, such as managing your renewals and holds, contributing ratings and reviews, personalized recommendations, and communicating electronically with other users.

Who is Eligible to Register?

Registration for use of the BiblioCommons Service is open to all patrons of X Public Library and other libraries affiliated with BiblioCommons (XPL and other affiliated libraries are referred to herein as "Participating Libraries").

Can children use this service?

Children are welcome to register for the Service. However, we recommend that parents and guardians discuss internet privacy and safety with their children regularly. Please read the [BiblioCommons Privacy Statement](#) to find out more about the measures that have been put in place on the BiblioCommons Service to protect the privacy and security of children, and for information on protecting your child's privacy and safety online. Parents and guardians of underage patrons in the US may request access to review and manage personal information collected from their child. Please refer to the [BiblioCommons Privacy Statement](#) for details.

Where can I find out more about the privacy policy of the BiblioCommons Service?

The privacy of your personal information is important to BiblioCommons. We have established security measures and controls to ensure that your information is only used as you wish. We encourage you to review the BiblioCommons [Privacy Statement](#), which forms a part of this agreement, as well as the XPL Privacy Policy.

SHARED CONTENT

What is Shared Content?

You may use the BiblioCommons Service to create "Shared Content," which is any information, content or opinion that you post on the Service; it includes online conversations on the Service and selections you create using Guides or My Shelves. Shared Content may be useful for your own reference and can help other users find resources and information. Shared Content may include for example collections, ratings, reviews, video, or conversations with other users.

You may make portions of your Shared Content private, or you may leave it publicly available (as "Public Content") for the benefit of yourself and other users in your library and on the World Wide Web. To learn more about the controls BiblioCommons has put in place to protect your privacy, please refer to the BiblioCommons [Privacy Statement](#), or visit your [privacy settings](#).

Who owns Shared Content?

Registered Users retain any ownership rights they have in content that they post on the BiblioCommons Service. However as described below, other users of the service, XPL and BiblioCommons are granted broad licenses to use Shared Content.

Can other users use my Shared Content?

The sharing of content is an important objective of the BiblioCommons Service. When you contribute Shared Content that can be viewed by others, you grant a license to other users to make use of that material under an [Attribution-NonCommercial-Share Alike Creative Commons License](#). This is a license that grants others the non-commercial right to copy, distribute, display, perform the work or create derivative works on the condition

that the original author is credited, and that any derivative distribution is licensed in the same way. Unless otherwise indicated, you have the right to use Shared Content contributed by others according to the same Creative Commons license.

What rights do XPL and BiblioCommons have to use Shared Content?

By contributing content such as reviews and comments to the BiblioCommons Service, you are granting BiblioCommons and XPL the right to use this content broadly. BiblioCommons may display Shared Content in the services that we sell to libraries or other third parties, or make other commercial uses of Shared Content. Unless otherwise indicated, when you post Public Content, you grant, represent and warrant that you have the right to grant BiblioCommons and XPL an irrevocable, perpetual, non-exclusive, transferable, royalty-free, worldwide license, with the right to sublicense, to use, copy, publicly display, reformat, translate, excerpt, perform, adapt, create derivative works from, and distribute such content with the name or username you have chosen to display.

If you do not want to give BiblioCommons and XPL these rights, please do not contribute Shared Content on the BiblioCommons Service.

What are my responsibilities when I choose to post Shared Content?

You are solely responsible for the Shared Content that you post to the BiblioCommons Service, or transmit to or share with other users. Please read carefully the section in these Terms of Use entitled "Appropriate Use" to ensure that you understand the responsibilities that you incur when you post Shared Content.

BiblioCommons respects the intellectual property of others, and we ask our users to do the same. You represent and warrant that you own or otherwise control all of the rights to the content that you post; that use of the content you supply does not violate these Terms and will not cause injury to any person or entity; and that you will indemnify us for all claims resulting from content you supply. BiblioCommons may, at our discretion, disable and/or terminate the BiblioCommons accounts of users who violate these Terms of Use.

What can I do if I see content that infringes on my intellectual property rights?

If you believe that your work has been copied in a way that constitutes copyright infringement, please provide BiblioCommons's copyright agent the written information specified below. Please note that this procedure is exclusively for notifying us that your copyrighted material has been infringed. BiblioCommons's copyright agent can be reached via email at copyright@bibliocommons.com, or at the above mailing address. Please provide:

- An electronic or physical signature of the person authorized to act on behalf of the owner of the copyright interest;
- A description of the copyrighted work that you claim has been infringed upon;

- A description of where the material that you claim is infringing is located on the site;
- Your address, telephone number, and e-mail address;
- A statement by you that you have a good-faith belief that the disputed use is not authorized by the copyright owner, its agent, or the law;

A statement by you, made under penalty of perjury, that the above information in your notice is accurate and that you are the copyright owner or authorized to act on the copyright owner's behalf.

Is Shared Content ever removed from the BiblioCommons Service for other reasons?

Because our communities are diverse, what is acceptable or even of value to some may be offensive to others. In addition to simply overlooking comments that don't suit their sensibilities, users who are logged-in have the option of blocking or "ignoring" content from specified users on an individual basis. Ignoring a user can be reversed.

All posted content is subject to the Appropriate Use standards of these Terms of Use. If you see content that clearly violates the Appropriate Use standards you may flag the content for removal by using the 'Report This' tool that is adjacent to all Shared Content when you are logged in. If content is flagged by a number of different users – three at this time – it is automatically removed from public view.

You understand and agree that BiblioCommons may, but is not obligated to, review, delete or remove without notice any content at the sole discretion of BiblioCommons, including without limitation Shared Content that in our judgment violates these Terms of Use or which might be offensive or illegal, or that might violate the rights, harm, or threaten the safety of users or others. BiblioCommons is under no obligation to retain any content in public view, and we may, at our discretion, remove any material from public view for reasons that may include, but are not limited to, redundancy, timeliness, and the potential to offend. This Service is not intended for the storage of valuable or irreplaceable data.

Appropriate Use Standards

All visitors to the BiblioCommons Service agree not to:

- access or attempt to access areas of the BiblioCommons Service in which they are not authorized;
- use or attempt to use another person's account without our authorization, or create a false identity on the BiblioCommons Service;
- use or access the BiblioCommons Service or related systems in a way that adversely affects the performance or function of the service;
- use any automated system to harvest or capture any BiblioCommons Content (as defined below) from the BiblioCommons Service, except as may be specifically permitted using RSS/XML feeds;
- co-brand the BiblioCommons Service or portion thereof ("co-branding" means to display a name, logo, trade-mark, or other means of attribution or identification of any party in a manner reasonably likely to give a user the impression that such other party has the right to display, publish, or distribute the BiblioCommons Service or BiblioCommons Content);
- "frame" the BiblioCommons Service or portion thereof so that the BiblioCommons Service or BiblioCommons Content appears in the same window with a portion of another website.

If you choose to register, you agree to:

- provide and maintain accurate, current and complete information;
- ensure that your account is used in keeping with the terms of this agreement;
- maintain the security of your password and username;
- not register for more than one account.

Appropriate Use When Posting Content

Remember that the Service is used by visitors with a broad range of ages and sensibilities. You agree not to use the Service to upload, post, transmit, share, store or otherwise make available any content that:

- would inhibit others from using or enjoying the service;
- is false or misleading;
- is harmful, threatening, unlawful, defamatory or may be construed as a personal attack, abusive, inflammatory, harassing, vulgar, obscene, fraudulent, invasive, or hateful;
- constitutes unsolicited or unauthorized advertising, solicitations, promotional materials, "junk mail," "spam," "chain letters," "pyramid schemes," political campaigning, or any other form of solicitation;
- is the private information of any third party, including, without limitation, addresses, phone numbers, email addresses, personal identification numbers and credit card numbers;
- contains software viruses, worms, or any other computer code, files or programs designed to interrupt, gain illegal access, destroy or limit the functionality of any data, software, hardware, or telecommunications equipment;

- constitutes, encourages or provides instructions for a criminal offence, violates the rights of any party, or that would otherwise create liability or violate any local, state, national or international law.

In addition, you may not:

- impersonate any person or entity, or falsely state or otherwise misrepresent yourself, your age or your affiliation with any person or entity;
- solicit personal information from anyone under the age of 18 or solicit passwords or personally identifying information for commercial or unlawful purposes.

Warning About Content

You understand that by using the BiblioCommons Service, you may encounter content that may be considered offensive, indecent, or objectionable. Title: Mobile Application Development for San Antonio Public Library
December 20, 2013, 2 p.m. CST

Executive Summary

This proposal presents BiblioMobile—an established mobile solution developed specifically for public libraries that not only fully integrates with the library’s catalog for search and account management and the library’s vital online information such as events, but also features continuous, on-going innovation that will ensure SAPL flourishes in the future as a thriving online community hub as well as a vital physical community space.

Subscribing to BiblioMobile would bring San Antonio Public Library into direct online collaboration with some of the most innovative public libraries in the United States such as New York Public, Brooklyn Public and Chicago Public. Through collaboration within BiblioCommons’ multi-tenant Software-as-a-Service solutions, top public libraries such as SAPL can cooperate and support online development and future functionality both cost-effectively and efficiently.

With recent advances in technology, opportunities exist as never before for libraries to combine efforts around technology and community building in powerful new ways. But as the interactive possibilities of the web have exploded, user expectations for online experiences have also risen dramatically. While at the same time innovation cycles have accelerated. The technology investments required to realize these opportunities and meet these expectations are complex—and potentially costly.

BiblioCommons proposes a partnership with SAPL that will take advantage of the full potential of emerging web technologies to deliver a fully engaged library online via the BiblioMobile suite.

BiblioMobile is the only mobile app specifically designed for public libraries and features:

- A visually appealing, image-rich design
- Title availability when and how patrons need expect it
 - From search results
 - From facet view
 - Map view
- Facets to refine searches based on availability, format, audience or other options—the only mobile app for libraries that provides this vital functionality
- Integration of public library staff and patron reviews, ratings and other contributions
- Personal record keeping ensures patrons’ complete in-progress, completed and for-later “shelves” are online and at their fingertips anytime
- Streamlined design that puts the functionality patrons want front and center
- Easy steps to implement and even easier to maintain
 - No files to maintain or upload, even for new titles lists
 - Automatic, real-time integration that works with existing ILS connector
 - Always up to date with no up-keep from library staff

Because BiblioMobile connects directly to a library’s ILS, the implementation for BiblioMobile actually involves all of the same steps as the implementation for BiblioCore—our fully integrated catalog and discovery service. If SAPL were to subscribe to BiblioMobile, and then add the BiblioCore service later, there would be no additional implementation fee for SAPL, and with BiblioCore, SAPL would have a fully integrated catalog which would promote the branding, navigation and functionality of the library’s website while also transforming the library’s website into a rich, community-centered staff and patron engagement platform.

By sharing the code base across public libraries and delivering via the Software-as-a-Service (SaaS) model, BiblioCommons is able to ensure scalability, ongoing innovation and sustainability now and for the future. The BiblioMobile solution will:

- Allow SAPL to benefit from the general advantages of the SaaS delivery model—in particular a lower total cost of ownership and continuous, accelerated innovation.
- Benefit SAPL by providing functionality arising from investments from other large urban libraries such as New York Public and Chicago Public in a shared code base.
- Provide an essential foundation for the iterative, collaborative development of next generation online services.
- Encourage collaboration across large public libraries to benefit public libraries and their communities effectively and efficiently.

With a continuously improving product and regular significant enhancements, SAPL will not just be at the forefront of technology and online community engagement in 2014 when the site is released to the public, but will remain at the forefront into the future with constant upgrades and functionality enhancements specifically focused on the needs of public library patrons and the strategic mission of public libraries.

With the examples of detailed below and many other leading public libraries, BiblioMobile makes it fast and easy for patrons to benefit from their library's extensive resources while on the go while also creating new paths to discover what to read, watch, or listen to next.

And BiblioMobile requires no work from the library staff to maintain. No files to upload or lists to update as everything is automated through the complete integration with the library's ILS. As evidenced from patron feedback, patrons often express their gratitude for how the BiblioMobile app enriches their lives and connects them with their library's extensive collections:

"This app is so great to use. It has increased my use of the library 5x.

The recently reviewed items gets me to try stuff I wouldn't have looked up on my own, the bar code function in the search section has kept me from purchasing books because I could immediately order them from the library, and my favorite section, "My NYPL" really does have all the most important info at my fingertips. I am so grateful for this app.

It has actually made my life better."

BiblioCommons services: BiblioCore, BiblioMobile, Summer Sites, BiblioSchools, BiblioReader (Beta), BiblioBuy (Beta)

With BiblioMobile, patrons are greeted with a library-branded, visually appealing mobile experience that promotes browsing the library's collections and popular categories such as:

eBooks & eAudiobooks:

Find books to read or listen to on the go.

Recent Arrivals:

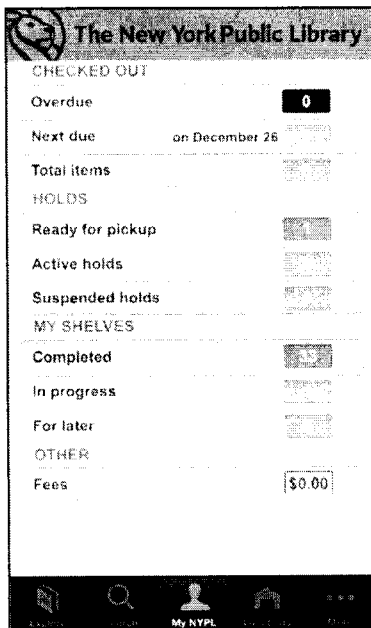

Find new titles and quickly see what is available for immediate checkout.

Just ordered:

Quickly place holds on titles that have been ordered today or to add titles to a patron's "for later list."

Best sellers:

Checkout or place holds on popular titles. *The New York Times* best sellers lists are updated weekly as part of the BiblioMobile service.

Patrons can quickly view and manage their accounts with the enhanced functionality of personal "shelves" to track titles, similar to GoodReads.

Checked Out

Syncs in real time to the ILS and provides helpful color-coding of items that need quick attention, such as red for over-due titles or yellow for almost due titles. Patrons can quickly renew titles directly in the app.

Hold

Quickly see what holds are available for pick-up while you're out running errands. Or, suspend holds while you're on vacation and then re-active them when you've returned. All from the app, and all syncing in real time to the ILS.

My Shelves

Track what's been completed, what is in progress, or what you'd like to read, watch or listen to later. Patrons are not limited to titles in the library's collections or what they have checked out from the library, but can also include what they have purchased on their own or borrowed from friends.

Patrons can quickly see what fees or fines they have accrued and the related titles.

With the Locations button, patrons can quickly see & access information on all the locations of the library with multiple view options.

Map-view pins

View Nearest location

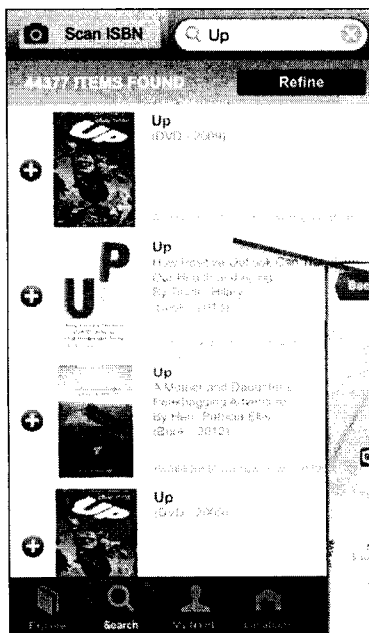

Using GPS to find the location nearest to your current location

Locations A-Z

See all locations, listed alphabetically

Branch-specific pages

Include photos of the buildings, hours, holidays, contact information and more. All easily edited by library staff.

Search that features:

Exceptional relevancy results

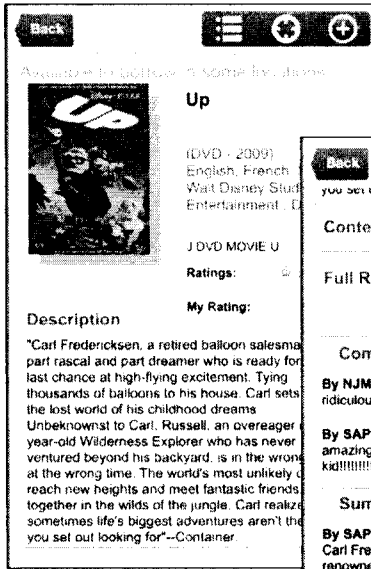

Type in an exact title — find the exact title, with results ordered based on relevancy to public libraries worldwide.

Visually appealing display with cover art

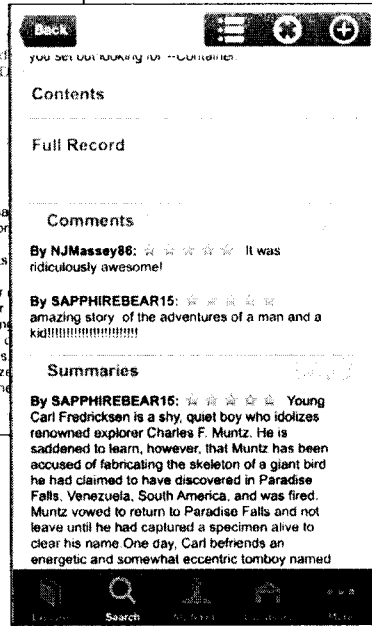

Cover art is integrated via the library's existing Syndetics or Content Café augmented content subscription.

Integration of availability details on the results page—the very data patrons need most on the go.

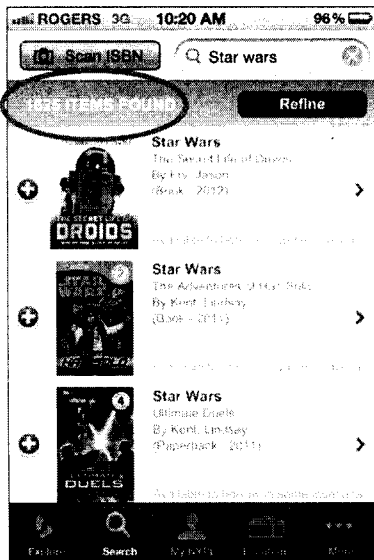

From the title or bib page for the title, the patron can view descriptions, ratings from other library patrons and library staff, and share his or her own rating—all from the app.

By clicking on the blue corner button, patrons can place holds, add items to their shelves, or check additional availability details.

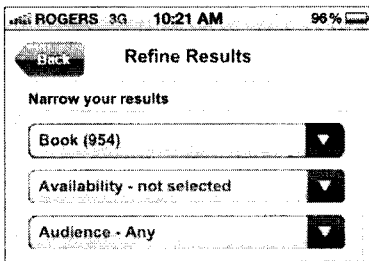

Perhaps most importantly, BiblioMobile is the only mobile app for libraries supporting facets to allow patrons to quickly refine and limit their search to what they want most—and not have to scroll through endless titles that aren't applicable or available for checkout.

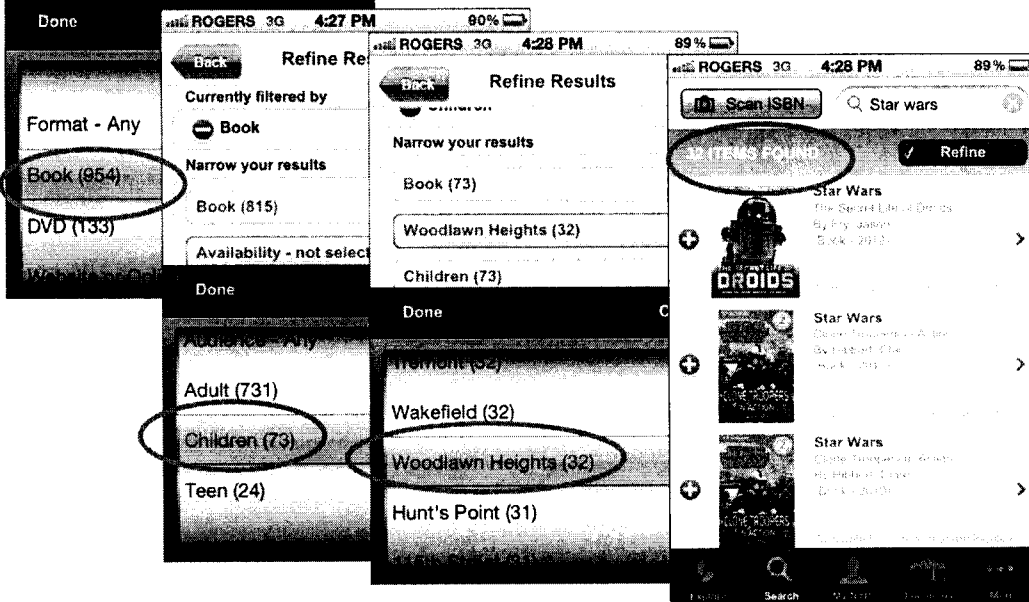

By clicking **Refine**, patrons can quickly limit their results by

- Format
- Availability (anywhere or at a specific location)
- Audience
- Acquisition date
- Topic
- Content
- Form/Genre
- Language
- Publication date
- Region
- Author
- Tags

In the "Star wars" search, a patron might be looking for the easy-reader Star Wars books for children available for check out at the Woodlawn Heights branch—and not want to wade through all the movies or titles for adults or titles that aren't available for immediate checkout.

BiblioMobile is the only mobile app that delivers this precision on the go.

Another great search feature of BiblioMobile is the option to scan an ISBN barcode and determine if the title is available from the library.

For example...

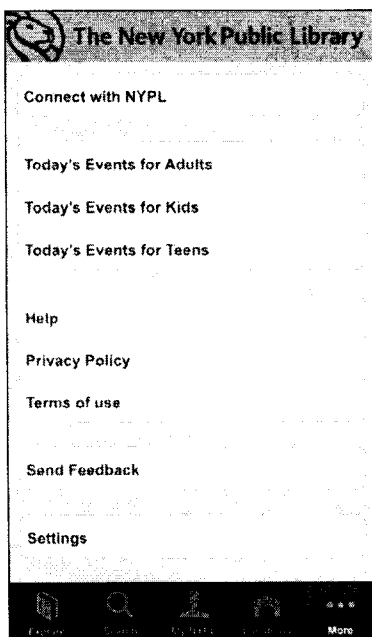

If a patron saw *Six Degrees: The Science of a Connected Age* at a friend's house or bookstore and wanted to check it out, the patron only needs to go to Search and click "Scan ISBN."

Scan the book's barcode... and if the title is available at the library, the Bib title is immediately found and the availability is displayed. In this case, all copies are in use, so a patron could either place a hold on the title or place it on his or her "for later list"

While BiblioMobile focuses on the features patrons use most—namely searching or browsing the collection, checking out titles, managing their accounts, and visiting library locations, it also provides access to “More,” so patrons can...

Connect with the library's staff via social media

The library can customize a mobile-optimized webpage to include social media or related links and content

Find out about library events

Currently this is accomplished with a library-developed mobile-optimized webpage. However, BiblioCommons will integrate with Trumba for SAPL's implementation.

Feedback from NYPL patrons on BiblioMobile

Wow- Powerful- Mobile- the best! ★★★★★

by Dasan888 – Jun 28, 2011

This app is what mobile apps are all about- full integration of the website with useful mobile/location-based functions. You can search, hold books, renew, everything just like the website. You can also find out the nearest branch to you, the closest branch with a book you're looking for if you're not patient enough to wait for it to arrive at your local branch.

The presentation is fantastic, useful, and crystal clear. I did not even find the app to be buggy at all- I was able to sign into my account in 15 seconds.

The NYPL hold/online system is the best kept secret in NYC- you basically have the entire library system at your fingertips- now it's on your iPhone!

NYPL Mobile ★★★★★

by D. Hill – Jan 22, 2012

This is one of the best library apps in the marketplace. It mirrors the patron experience on the website by making easy search, check outs, item lists, and anything involving the user's account status. The only thing that can raise the rating of this app is adding a e-reader so one can have the complete library experience in their pocket.

Awesome! ★★★★★

This app, in my opinion, is terrific. It's very user friendly and an excellent resource for putting books on hold and managing my account. The Times best sellers list has also allowed me to easily get titles I usually see press about and then promptly forget to check out. For my library usage, this app is excellent. The BPL did a great job.

January 2013: Flavorwire Featured NYPL's mobile app via BiblioCommons as an essential mobile app for New York Culture Lovers

Indicate the number of years Respondent has been in the business of providing Mobile Application, specifically for Libraries.

BiblioCommons has been in business since April 2006 and exclusively focuses on online services for public libraries. Historically, library vendors have provided solutions to serve across various types of libraries such as academic, public, school, and special libraries. However, BiblioCommons chose to optimize all online services to public libraries to deliver an exceptional experience specifically for public library patrons. BiblioCommons first went live with the BiblioCore catalog. The BiblioMobile suite was launched in 2011.

Indicate if this is the Respondent's primary line of business. If not, state the Respondent's primary line of business.

BiblioCommons exclusively builds online applications for public libraries.

List current projects of similar scope that are in progress. For each project listed, give project timeline through target date of completion.

While BiblioMobile is available to libraries without subscribing to BiblioCore, to date, all libraries that have subscribed to BiblioMobile implemented the mobile suite along with the BiblioCore catalog which includes website integration, extensive hands-on staff training, and more. Therefore BiblioCore + BiblioMobile implementations are longer than 120 days. However, because the implementation and training requirements for BiblioMobile are not as extensive that for BiblioCore, the BiblioCommons team will be able to provide BiblioMobile to SAPL within the 120 day window. SAPL staff will need to complete the first phase of the implementation (installing Tomcat and completing the mapping surveys) within the first week of the project, but as a final note, it's not unheard of for a full BiblioCommons implementation of BiblioCore + BiblioMobile to be up in less than 120 days. When the BiblioCommons team implemented with NYPL, the soft launch was ready within just three months.

BiblioCommons Services: BiblioCore, BiblioMobile, Summer Sites planned for 2014

KCLS completed their BiblioCommons Agreement on February 25, 2013. As KCLS uses a customized version of the Evergreen ILS, there was some additional development for BiblioCommons to integrate with the KCLS catalog, but even with the additional development, KCLS was able to have a long period of "soft launch" for patrons and staff and went live officially on December 17. In the fall, KCLS decided they would have the funds to add BiblioMobile to their BiblioCommons services, and the mobile web optimized version of their catalog is live now (and can be viewed from any mobile web browser), and the apps are to be launched soon as well.

BiblioCommons Services: BiblioCore, BiblioMobile, BiblioCMS

Chicago Public completed their BiblioCommons Agreement on January 24, 2013. The Chicago Public Library Foundation funded a three-year agreement with BiblioCommons to not just provide BiblioMobile and BiblioCore but also a fully re-worked BiblioCMS to design and host the entire Chicago Public Library Website. Chicago Public wanted to launch all services together and all are available in soft launch as of November 2013, and are set to launch officially in early 2014.
