She expressed concern that the condition of streets has continued to decline and that disparity continues. She stated that she did not feel that the recommended annexations were consistent with SA Tomorrow and wanted all areas of the city to be equally prioritized.

Councilmember Saldaña stated that he appreciated all of the discussion that had occurred. He stated that annexation occurred for two reasons: 1) Control Development; or 2) Expand the Tax Base. He spoke of the ability to utilize resources to expand the Tax Base and continue to invest in areas that support the entire region. He asked of the Non-Annexation Agreement for residential areas in the Hwy 281 North Area. Mr. Zaroni replied that the area did not have the same needs as the IH-10 West Area which encompassed Camp Bullis and Camp Stanley. He noted that there were already two large tracts on the West and East Sides of the Hwy 281 North Area that had Non-Annexation Agreements and all would align on a 2034 Annexation Timeframe. Councilmember Saldaña stated that it was unfair to the residents of the IH-10 West Area that did not have the same opportunity for a Non-Annexation Agreement. He also expressed concern with potential legislation that could affect future annexation.

Councilmember Krier stated that there was a big difference between the IH-10 West and Hwy 281 North Areas. He noted the many great things that have occurred due to annexation such as Toyota, USAA, and the Medical Center. He asked if the Fire Department could meet Emergency Service Needs of the areas being annexed. Chief Hood replied that the service that they would receive would be enhanced by having the San Antonio Fire Department respond to them. Councilmember Krier spoke of the importance of protecting Military Installations and make the best decisions for the future of the city. Mayor Taylor thanked everyone that spoke and recognized staff for the work that has occurred since 2013. She noted that they had taken a great amount of time to gather information and answer outstanding questions.

Councilmember Gallagher moved to adopt the Ordinance for Item 4A, and approve the Resolutions for Items 4B and 4C. Councilmember Viagran seconded the motion. The motion prevailed by the following vote:
