PROJECT DETAILS

1. List other communities that are being considered for the project:

The Argyle development team is considering and searching for similar urban infill sites in Austin, Houston, Dallas, & Denver.

2. Why is an incentive necessary for the project to succeed financially?

Because it was very difficult to make the numbers work and for the returns to be attractive enough to raise third party joint venture equity without the incentives. We eventually found an EB-5 investor (Civitas out of Dallas) but now, with significant cost escalations for labor, materials, etc., we need incentives to help offset these rising construction costs more than ever.

3. Indicate any incentives sought or received from other taxing entities in connection with this project.

We also recieved incentives from the city of San Antonio through their Center City Housing Incentive Program (CCHIP) and the Inner City Reinvestment/Infill Policy (ICRIP)

4. Describe the project, including capital improvements (real and personal property) to be undertaken, the facility's use, and the product or service to be produced.

1130 Broadway will be a ~270,000sf (gross) mixed use project with 302 apartment units and an additional 2,838 sf of retail or creative office space. It will be a 4 story "wrap" project on Broadway & Jones just north of Maverick Park and it will cost an estimated \$40 million. Roughly 200 people will work on the project from start to finish and the total economic benefit to the community and to the county and city is easily in the tens of millions of dollars.
