List those goals you most want to accomplish immediately after graduating High School or within the next four years.	After graduation I plan on attending college where I will major in international affairs or political science and minor in gender studies in preparation for going to law school. My dream school is Georgetown in Washington D.C. because of its limitless opportunities and amazing location where there is an abundance of internship opportunities, so I hope to enroll there.
Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?	The youth related issue I would target would be mental health awareness in youth and increasing the availability for resources in public schools.
What approach would you take? Who would you work with? Why this particular issue?	I would work with school officials along with school psychologists and counselors in order to find ways to increase the availability of mental health resources in public schools, especially in those that have less funding available to them. I would try to introduce new programs that involve education and peer support to children of all ages. I chose to address this issue because I have been able to see for myself the way that mental health is effecting more and more teens and how many of them feel as if they don't have anyone to go to for help, especially those with poor situations at home. I, along with many of my peers are being placed under immense pressure as high schoolers and I want people to understand that their GPA doesn't define their worth and that there is always someone there who can and wants to help them.
