Project #2

- 1) Project Name:** Renovation of Hangar Building 11108
- 2) Project Scope, Location:** The project consisted of the design and renovation of the south-central 3-story tower inside Hangar Building 11108 (B-52 Hangar) at Biggs Field, Texas. The project consisted of complete demolition of the office, warehouse and shop areas within the tier building and reconstruction into a well-planned and efficient operations area for a Hangar aircraft operator. The tier roof and building envelope incorporated a high expansion foam fire suppression system. Work also included the removal of up to 1000 transite panels throughout the Hangar building's façade. The panels removed consisted of damaged, missing, or panels previously replaced with unapproved materials. These removed panels were replaced with a corrugated panel section matching the color, texture, and corrugation pattern of the original panels to meet U.S. Department of the Army historical criteria. Additionally, we prepared documentation for certification of the tier building at Silver Level of LEED®. Our scope of work also included the design and construction of a rigid pavement structure to match existing pavements, for automobile parking and driveway areas along the perimeter of the building. The hangar building also served as a storage area for the planes used in training. We talked to the building manager and staged our equipment and materials in a small section of the parking lot, which was fenced to ensure our equipment was not damaged. The project was located at Biggs Army Airfield, Ft. Bliss, Texas.

Project #3

1) Project Name: Repair Simulator Facility, B513

2) Project Scope, Location: The project consists of the design and construction of various reconfigured Brief/Debrief Rooms, replacement for the existing multi-zone HVAC system, removal of the existing burlap wall coverings and installation of new walls and ceilings, installation of a Lightning Protection System (LPS), extending the existing wet-pipe sprinkler system to provide 100% coverage, and upgrading of the Fire Alarm/Mass Notification System. Currently the building is being occupied with flight simulator training. Because of the location of the building, there is limited staging area. What we are currently doing is staging our equipment and materials in the classroom/office that is currently being renovated; we move our staging area in accordance with the classroom/office that is going to be renovated. This has increased efficiency in the completion of each classroom/office. The location of the project is in Holloman Air Force Base, NM

SOLICITATION NAME: **Collins Garden Library**

RESPONDENT NAME: **MGB Group, Inc.**

SOLICITATION API: **Minority / Women-Owned Business Enterprise (M/WBE) Subcontracting Program and African American Business Enterprise (AABE) Subcontracting Program**

API REQUIREMENTS: Respondents must demonstrate commitment to satisfy a **twenty-five percent (25%) M/WBE subcontracting goal**. Moreover, **four percent (4%)** out of the twenty-five (25%) subcontracting goal is to be subcontracted to **AABE firms**. Segmented AABE goals target the participation of AABEs within select industries (Construction, Professional Services & Other Services) as identified by the availability in the Central Vendor Registry. Participation by AABE subcontractors automatically counts toward the M/WBE subcontracting goal.

Pursuant to the SBEDA Ordinance, M/WBEs and AABEs must also be certified as SBEs with the South Central Texas Regional Certification Agency (SCTRCA) and be headquartered or have a Significant Business Presence in the San Antonio Metropolitan Statistical Area to satisfy the above-stated goals.

Self-performance by M/WBE and/or AABE prime respondents does not count towards these subcontracting goals. Commitment to meet subcontracting requirements must be demonstrated by writing the **company name, SAePS vendor number of each subcontractor/supplier, dollar value or percentage of participation on the contract, and type of work to be performed****.

In the absence of a waiver granted by the Small Business Office, failure of a Respondent to commit to satisfying the M/WBE and AABE subcontracting goals shall render its response NON-RESPONSIVE. For further clarification, please contact Lucy Barbosa at (210) 207-3910.

1. Describe the rationale for your request for a waiver to the subcontracting goals applied to this solicitation.

Despite our Good Effort to utilize SBE certified firms, we were unable to fulfill the minority goals set forth by the City of San Antonio. We were able to fulfill the SBE requirement of 20%; however, despite our best efforts we were unable to fulfill the AABE requirement of 3% and were only able to do 1%. We contacted the companies given to us in a list provided by the City of San Antonio but there was no response.

2. List all SBE/AABE/ABE/HABE/NABE/WBE listings or directories utilized to solicit participation for this solicitation.

South Central Texas Regional Certification Database, COSA Vendors database; Minority Contractors Association-San Antonio; Greater San Antonio Black Contractors Association, Minority Chambers of Commerce-San Antonio; Alamo City Chamber of Commerce, The San Antonio Hispanic Chamber of Commerce. 5. List all other efforts aimed at utilizing SBE/AABE/ABE/HABE/NABE/WBE firms.

We looked at the South Central Texas Regional Certification Database and called firms that were SBE certified to see if they would submit a price for this proposal. Unfortunately, none of them responded. We also sent e-mails and follow up calls with subcontractors who we have worked with in the past. Some of them were able to submit a price.
