RE: File No. 1505006 - Request for review of **Replat Establishing Cotton Tail Lane, Plat #150362** located NW of the intersection of Loop 1604 and White Fawn Drive.

Dear Mr. Niebla:

On May 29, 2015, the Aquifer Protection & Evaluation Section of the Edwards Aquifer and Watershed Protection Division of the San Antonio Water System (SAWS) received a request to review a plat for the property referenced above. Staff reviewed the documentation submitted and conducted field observations of the referenced plat to ensure compliance with applicable requirements for development over the Edwards Aquifer Recharge Zone (EARZ). The land use of the subject plat is for commercial and consists of approximately 2.97 acres located entirely within the EARZ. No sensitive features were observed. The property is not within the 100-year floodplain preservation area.

The proposed development is a **Category 1** property under the provisions of Aquifer Protection Ordinance No. 81491-File No.2105. Certain changes to the project may create a substantial alteration to the provision of the Water Quality Ordinance and alter its category.

**As of the date of this report, the Texas Commission on Environmental Quality (TCEQ) has not approved the Water Pollution Abatement Plan (WPAP) for the property within this plat. No building permit will be released until a Water Pollution Abatement Plan has been submitted to and approved by TCEQ.**

After careful review of the project and the documentation submitted by the applicant, the Aquifer Protection & Evaluation Section of the Resource Protection Division of the San Antonio Water System recommends the **approval** of Replat Establishing Cotton Tail Lane, Plat No. 150362.

If you have any questions regarding this matter, please contact the Aquifer Protection & Evaluation Section at (210) 233-3516.

Sincerely,

A handwritten signature in black ink, appearing to read "Andrew Wiatrek".
