RE: File No. 2300-Request for Category Determination for **Town Center La Cantera Extension, Approximately 10.96 Acres**, located northwest of the intersection of Loop 1604 and Old Fredricksburg Road.

Dear Mr. Carter:

On January 3, 2019, the Aquifer Protection and Evaluation Section of the San Antonio Water System (SAWS) received a letter issued by your office requesting a category determination for the above-referenced project. Based on a review of the documentation submitted and in accordance with Chapter 34, Article VI, Division 6, Section 34-925 of the City Code, **Category 1** classification of **Town Center La Cantera Extension, western 10.08 acres**, is confirmed.

Based on a review of the documentation submitted and in accordance with Chapter 34, Article VI, Division 6, Section 34-925 of the City Code, **Category 2** classification of **Town Center La Cantera Extension, eastern 0.88 acres**, is confirmed.

Please be aware that the occurrence of a "substantial alteration", as identified in Section 34-926 of the City Code, may result in a loss of Category 1 status and may cause a recategorization of the property or portion(s) thereof. Upon the expiration of the application(s) or permit(s) causing the property to be designated Category 1; the property will automatically be placed in its appropriate category as of the date of expiration. In accordance with Ordinance No. 81491, an Aquifer Protection Plan for all Category 2 and 3 properties is required to be submitted to and approved by the Aquifer Protection & Evaluation Section of the San Antonio Water System prior to the release of Plats and/or Building Permits.

If you have any questions regarding this matter, please contact Bruce Keels at (210) 233-3173.

Sincerely,

Andrew Wiatrek, Manager
Edwards Aquifer and Watershed Protection Division

Approved:

Scott R. Halty, Director
Resource Protection and Compliance Department
