2014-10-16-0788

- 4C. An Ordinance authorizing the Third Amendment to the Declaration of Restrictive Covenants associated with the Amended and Restated Agreement for Services in Lieu of Annexation between the City and Forestar (USA) Real Estate Group L.L.C to allow for the use of up to 43 impervious cover credits on Cibolo Canyon.

Erik Walsh presented information regarding the acquisition of a conservation easement on the Crescent Hills Property totaling 1,521 acres over the Edwards Aquifer Recharge Zone. He provided a map of the Crescent Hills Property and noted that it was located in Comal County. He noted that last year the property was under contract with a developer that had planned to build 4,500 homes but the sale was not executed. He indicated that the current property owner has an approved Master Development Plan with the City to develop 3,500 homes and an approved SAWS Utility Service Agreement to provide water and sewer service in that area.

Mr. Walsh stated that last December, they began working with The Nature Conservancy and Bat Conservation International to meet the goals for the area and protect the Recharge Zone. He spoke of the benefits of protecting the property and noted that The Nature Conservancy would purchase and own the property. He mentioned that they would maintain the property at their expense and that the City of San Antonio would receive a Conservation Easement over the entire 1,521 Acre Tract of Land. He added that the Conservation Advisory Board had approved a \$5 Million Contribution.

Mr. Walsh stated that Forestar was the Real Estate Developer for Cibolo Canyons and they had approached the City about contributing to the acquisition of Crescent Hills in exchange for Impervious Cover Credits. He explained that this had been done in 2011 with the Dierks Property. He stated that Forestar had agreed to contribute \$5 Million to The Nature Conservancy in exchange for 86 Impervious Cover Credits. He noted that they could use up to 43 of the credits on the Cibolo Canyon Development. He indicated that SAWS must review and approve the use and sale of any of the credits.

Mr. Walsh reported that in 2002, the City entered into a Non-Annexation Agreement with Lumberman's Investment Corporation now known as Forestar for the Cibolo Canyon Development. He stated that staff was recommending an amendment to the agreement to allow for the 43 Impervious Cover Credits to be used on the Cibolo Canyon Site which would increase the Impervious Cover from 15% to 16.5%.

Mr. Walsh outlined the funding for Crescent Hills, noting that Bexar County and the Edwards Aquifer Authority were each providing \$500,000; the US Army was providing \$100,000; and The Nature Conservancy and Bat Conservation International would fundraise the remaining \$9.4 Million. He added that if approved; the property would be the 56th Conservation Easement under the Proposition 1 Program.

Mayor Taylor called upon the citizens registered to speak.

Nazirite Ruben Flores Perez expressed his support for protecting the Aquifer.

Georgina Schwartz stated that she was a Resident of District 1 and supportive of the purchase of the Conservation Easement.

Laura Huffman, State Director for The Nature Conservancy in Texas addressed the City Council in support of the proposed Ordinances. She stated that a Conservation Trifecta would be achieved through the protection of the Edwards Aquifer, Bat Colony, and Golden Cheek Warbler. She thanked the private sector for their donations thus far.

Susan Hughes addressed the City Council in support of the city's participation in protecting the land adjacent to the Bracken Bat Cave. She stated that she served on the Edwards Aquifer Authority Board and was pleased to vote in favor of providing \$500,000 to the project.

Delia Guajardo, President of the US Military Veterans Parade Association addressed the City Council.

Mrs. Vacek read a Letter of Support from Joe Straus, Speaker of the House of Representatives in support of the city's efforts to preserve undeveloped land adjacent to Bracken Bat Cave. He wrote that conservation of the property would help preserve the bats' habitat and noted their positive impact on agriculture through insect control. He commended the City of San Antonio for their leadership on the initiative.

Councilmember Nirenberg thanked the many individuals that worked on the project and

spoke of the great benefits of the Edwards Aquifer Protection Program known as Proposition 1. He stated that these types of efforts would begin to move the needle on establishing regional diplomacy with regard to Water Law in Texas.

Councilmember Saldaña expressed his support and asked of the Impervious Cover Credits being transferred to Forestar. Mr. Walsh explained that the original Non-Annexation Agreement with Lumberman's was signed in 2002 and had a 25% Impervious Cover limit. He stated that an amendment was made to the agreement in 2005 that reduced the Impervious Cover to 15%. He noted that if they decided to use the credits on Cibolo Canyon; the Impervious Cover would increase to 16.5%. Councilmember Saldaña stated that this was the most heavily monitored area above the Edwards Aquifer and commended everyone involved.

Councilmember Gonzales stated that this was a great project and asked of the Impervious Cover Credits. Mr. Walsh explained that Impervious Cover restricts the amount of development that can occur on a property and that areas in the Extra Territorial Jurisdiction (ETJ) are subject to a 15% Impervious Cover Requirement. Scott Halty of SAWS added that when they received a request on Impervious Cover Credits; they would request a Variance from SAWS. He stated that SAWS would perform a full Geologic Assessment before approving the Variance. Councilmember Gonzales asked of potential park space in the area. Mr. Andrew Walker stated that they work with Colleges and Universities, Boy Scouts/Girl Scouts, and Church Groups and hoped to expand their programs.

Councilmember Krier spoke of the importance of protecting the land over the Edwards Aquifer and stated that it was possible to have responsible development over the Aquifer. He asked of protection for neighbors to the East. Mr. Walsh explained the issues that were reviewed by the Conservation Advisory Board noting that there was a direct tie to two pumping stations in District 10 and that there would be a positive impact to San Antonio

and Bexar County. Councilmember Krier asked of short and long term plans related to access. Ms. Laura Huffman stated that they were in partnership with Bat Cave International and would have a 5,000 Acre Preserve that they would own and operate once all of the loans were repaid. She added that long term plans would include public access to areas of the property that could be enjoyed. Councilmember Krier expressed his support and commended Councilmember Nirenberg for his leadership.

Councilmember Medina added his support for the project and commended Councilmember Nirenberg for his efforts. He asked of the difference of this purchase compared to others over the Edwards Aquifer Recharge Zone. Mr. Walsh replied that it was rare to find the large of a tract available for protection over the Recharge Zone and would be the first purchase East of Highway 281.

Mayor Taylor added her thanks to all involved and commended Councilmember Nirenberg for his leadership. She stated that she was pleased with the protection of the Aquifer and limited development in a sensitive area.

Councilmember Nirenberg moved to adopt the proposed Ordinances for Items 4A, 4B, and 4C. Councilmember Gallagher seconded the motion. The motion prevailed by the following vote:

Mayor Pro Tem Nirenberg called upon Mr. Darin Darby to speak.

Mr. Darin Darby of the Law Office of Escamilla and Poneck stated that he was representing the SAISD Stephen F. Austin Academy and Ms. Noemi Davila, Principal, in opposition to the request. He noted that they were concerned with the proximity of alcohol sales to the Academy which served children ages 5-13.

Councilmember Bernal thanked Principal Davila for being present. He spoke of his work in trying to keep the school open noting that many of the children that attend the school do not live in the area. He stated that the restaurant requesting the variance would not have more than 30% of their sales attributed to alcohol. He noted that there was another restaurant nearby that already sold beer and was struggling with the issue of fairness. Mr. Darby stated that the majority of the children at the school lived in the surrounding area. Councilmember Bernal stated that there was a combination of those that lived nearby and that came from outside the attendance zone and was trying not to let the school close after Year 2016. Mr. Darby stated that they would like to be on record opposed to the request. Councilmember Bernal stated that today there would be a meeting on how to keep the school open and that he was pleased that there had been no negative impact due to the other restaurant currently operating and selling alcohol.
