**26A.** Resolution of Intent to establish a Property Assessed Clean Energy (PACE) program within the City of San Antonio boundaries.

**2020-02-20-0116**

**26B.** Ordinance approving an Interlocal Agreement with Alamo Area Council of Governments to serve as the Third-Party Administrator of Property Assessed Clean Energy (PACE) Program contingent upon City Council formally establishing the City PACE Program

Michael Sindon stated that the Texas Legislature passed the Texas Property Assessed Clean Energy (PACE) Act in 2013 which established a financing tool allowing commercial, industrial, non-profit, and multifamily residential property owners access to low cost long-term loans to conduct energy efficiency and water conservation improvements that are fixed to real property. He noted that in order for San Antonio property owners to access the financing tool, the Texas PACE Act required City Council to designate an area within its legal jurisdiction, which in this case was the San Antonio city limits, where PACE Loans could be assessed. He stated that the goals of the Texas PACE Act were designed to promote economic development through increased economic investment and business activity while boosting sustainability efforts through water and energy conservation. He explained how PACE worked and noted the following benefits of adopting a City of San Antonio PACE Program:

- Upfront funding and long-term repayment period
- Completed projects were cash flow positive
- Savings validated by an independent third party reviewer

- Repayment obligation transfers automatically to the next owner if the property was sold

Mr. Sindon stated that the PACE Program benefited building owners by lowering utility bills resulting in a cash flow positive project; benefited contractors by increasing business; benefited lenders by increasing fully collateralized loans; and benefited San Antonio and the State of Texas by increasing economic development activity, improve building infrastructure, improve air quality and conservation, and reduce peak energy demand. He noted that the program was aligned with recently adopted city plans and memorandums of understanding.

Mr. Sindon stated that the Economic Development Department recommended establishing an Interlocal Agreement (ILA) with the Alamo Area Council of Governments (AACOG) to have them serve as the PACE Administrator. He noted that a public hearing would be held on March 5, 2020 and City Council would consider adoption of a Resolution to establish the City of San Antonio PACE Program. He stated that once adopted, PACE Loans would be administered for eligible property owners within the City of San Antonio city limits. He reviewed the ILA requirements and community engagement and outreach efforts to be performed. He provided two examples of businesses which had utilized PACE Loans and noted that the Resolution of Intent and the Ordinance to execute an ILA with AACOG would have no fiscal impact to the City.

Councilmember Sandoval asked of AACOG's role and the outreach to be performed. Former Councilmember John Clamp stated that AACOG would provide marketing and outreach. He noted that AACOG would present information on the City's PACE Program to local bankers, the San Antonio Apartment Association, the San Antonio Hotel and Lodging Association, business leaders, and contractors.

Mayor Nirenberg stated that the PACE Program was a way to align the City's aspirational goals on climate adaptation and sustainability with the realities of small business.

Councilmember Sandoval moved to approve Items 26A and 26B. Councilmember Viagran seconded the motion. The motion prevailed by the following vote:

**AYE:** 11 - Mayor Nirenberg, Treviño, Andrews-Sullivan, Viagran, Rocha Garcia, Gonzales, Cabello Havrda, Sandoval, Pelaez, Courage, and Perry

Melissa Ramirez noted that 38 notices were mailed, zero returned in favor, and eight opposed. She stated that the Lavaca Neighborhood Association was in opposition and stated that the proposed zoning change required nine votes to approve due to the opposition exceeding 20%. She added that the applicant was amending their request and was present to submit the amendment.

Cherise Allegrini stated that the Lavaca Neighborhood Association supported development which increased density that was compatible with the surrounding community. She noted that the SA Tomorrow Plan called for a maximum of 20 units on the property and the proposed development was nearly double the recommended density. She added that residents supported IDZ-2 Zoning with 35 units.

Katherine Doucette stated that IDZ-3 Zoning was a density designation which was beyond what was reasonable. She noted that there was not enough parking in the proposal to support the number of units and their guests. She added that residents supported IDZ-2 Zoning with 35 units and the elimination of the six unit building in the back of the property.

Mark Doucette stated that residents were concerned that the development would not have enough parking spaces.

Patrick Christianson stated that the development had been reduced to 36 units, with no hotel and alcohol use on the property.

Councilmember Treviño stated that the applicant met various requests by the Lavaca Neighborhood Association regarding height, unit reduction, and removing conflicting uses. He noted that the developer was willing to work with Council District 1 and the Transportation and Capital Improvements (TCI) Department to address traffic concerns.

Councilmember Sandoval asked how the property was designated in the SA Tomorrow Plan. Ms. Ramirez replied that there was an adopted plan for the area and the proposed development was in compliance with the plan.

Councilmember Pelaez expressed support for the item and noted the support and flexibility demonstrated by Councilmember Treviño.

Councilmember Courage asked if the development would include 36 parking spaces. Ms. Ramirez replied that the developer was proposing 30 parking spaces. Councilmember Courage asked if the units could possibly be utilized as Short-Term Rentals. Ms. Ramirez replied that the developer would have to answer that question. Councilmember Courage stated that he was opposed to having Short-Term Rentals in the middle of residential neighborhoods.

Mayor Nirenberg asked if it were possible for the property to be developed at the density agreed to if it was zoned IDZ-2. Ms. Ramirez replied that it would not be possible. Mayor Nirenberg asked if safeguards were in place to ensure that no variance of the recommendations could be made. Michael Shannon replied that any changes would require a revised Site Plan which would go through the rezoning process. Mayor Nirenberg challenged staff to review State and Local Government Code to see if additional safeguards could be instituted to protect neighborhoods.

Councilmember Treviño moved to approve Z-1 with conditions. Councilmember Andrews-Sullivan seconded the motion. The motion prevailed by the following vote:
