### REQUEST FOR A HEIGHT & SETBACK VARIANCES

#### PROJECT OBJECTIVES:

1. Determine Maximum Building Square Footage allowed by UDC
2. Determine Minimum Parking Spaces required by UDC
3. Determine if requesting a Side Yard Variance from 10' to 0' increases the project's viability

#### PROJECT NOTES:

1. A 14' Utility easement and setbacks + variance allows a Building Area of 3,170 SF per Level.
2. One Parking Space is required for every 300 SF of Building Area
3. Conceptual Plan indicates 15 spaces, including two HC spaces and HC aisle between spaces
4. An existing Curb Cut along IH 10 is utilized for this Concept requires approval from TxDOT
5. The Building Area may need a slight reduction depending on the Architectural Design
6. One Handraffic Elevator and Stair on 1st Level will allow access to the 2nd & 3rd Levels

#### RECOMMENDATIONS:

1. Request a Height Variance from 25' to 45' and a 5' sideyard setback of in lieu of 10'
2. Utilize this Conceptual Site Plan to further develop a 2nd & 3rd Level Floor Plans
3. Utilize the Building Limit Outline as the 2nd & 3rd Level Floor Plans to Maximize SF
