

Property Substitution Agreement

This Property Substitution Agreement is entered into between the City of San Antonio (“City”) and the San Antonio Water System (“SAWS”) as of the date of the later of the two signatures on behalf of the parties.

Background:

The City and SAWS have previously entered into an Intra-jurisdictional Agreement (“IJA”), which is recorded as an exhibit to a Transfer of Property from SAWS to City dated February 6, 2004, at Volume 10591, Page 1442, Official Records of Bexar County, Texas.

The IJA required SAWS to transfer to City certain property SAWS owned in the vicinity of the formerly planned Applewhite Reservoir (“Applewhite Property”).

In exchange for the Applewhite Property, SAWS received a conservation easement over a parcel called the Gallagher Ranch (and, in connection therewith, later received a conservation easement on a parcel known as the Laredo-Culebra Tract) and a 15% undivided interest in a parcel called the Canyon Ranch Tract, both the Gallagher Ranch, the Laredo-Culebra Tract and the Canyon Ranch Tract being in the vicinity of Government Canyon State Natural Area.

In subparagraph 3.06 of the IJA, City and COSA stipulated that the value of what SAWS was receiving from the City was \$1,974,600.

City is now entering into a transaction whereby City will transfer to the Texas Parks and Wildlife Department several parcels in the vicinity of Government Canyon State Natural Area, including the Gallagher Ranch, the Laredo-Culebra Tract and the Canyon Ranch Tract.

The transfer to Texas Parks and Wildlife must be free of the interests held by SAWS.

SAWS is willing to release its interests so City may complete its transaction with Texas Parks and Wildlife on the terms and conditions of this agreement.

City’s undertaking the obligations of this agreement is authorized by Ordinance ?????.

SAWS’s undertaking the obligations of this agreement is authorized by ?????.

Rights and Obligations:

1. Clearing Title to Gallagher Ranch, Laredo-Culebra Tract and Canyon Ranch.

1.01. Upon execution and delivery of this agreement, SAWS will execute and deliver to City (a) a complete release of all its interest in the Gallagher Ranch and Laredo-Culebra Tract and (b) a transfer of use and control to City of all its interest in Canyon Ranch, to be countersigned by City.

1.02. Gallagher Ranch is described by metes and bounds on **Exhibits A-1 and A-2**. The Laredo-Culebra Tract is described by metes and bounds on **Exhibit A-3**. The release of SAWS's interest must be substantially in the form of **Exhibit B**.

1.03. Canyon Ranch is described by metes and bounds on **Exhibit C**. The transfer of use and control of SAWS's interest must be substantially in the form of **Exhibit D**.

1.04. City must reimburse SAWS a total of not less than \$1,974,600 in value in exchange for SAWS's release and the conveyance provided for in this paragraph.

2. Reimbursement.

2.01. The parties intend for City's consideration to SAWS for the release and transfers contained in paragraph 1 above be with interests in conservation easements

acquired under City's Edwards Aquifer Protection Program (the "Program"), as set forth in accordance with the provisions of this Section 2 below.

2.02. SAWS and the City desire and intend that the consideration generally described in Paragraph 2.01 above be consummated via a Program conservation easement acquired, at the City's sole expense, in the name of "The City of San Antonio by and through, and for the benefit and control of, its San Antonio Water System" over and upon a certain approximately 720 acre property located in Uvalde County, Texas in the Edwards Aquifer recharge zone, known generally as the "Barkley Ranch, and depicted on **Exhibit "E"** attached hereto and incorporated herein (the "Barkley Ranch Conservation Easement"), which selection of the Barkley Ranch for a Program conservation easement has been approved by the City's Conservation Advisory Board ("CAB"). City and SAWS shall work together to prepare and negotiate the terms of the Barkley Ranch Conservation Easement, which must be approved by SAWS, such approval not to be unreasonably withheld. SAWS and the City agree and acknowledge that the closing and conveyance of the Barkley Ranch Conservation Easement to SAWS as provided hereinabove shall fully satisfy and release the City from its reimbursement obligations as provided in Paragraph 1. In the event that closing occurs and SAWS is the holder of the Barkley Ranch Conservation Easement, SAWS agrees (i) to provide an annual monitoring report to the City, (ii) to perform ground monitoring of the easement area, and (iii) if SAWS desires to transfer the Barkley Ranch Conservation Easement to a third party, SAWS will first offer to transfer the Barkley Ranch Conservation Easement to the City upon the same terms and conditions, and the City shall have ninety (90) days from receipt of SAWS' offer to accept and close on the acquisition of the Barkley Ranch Conservation Easement, or said SAWS offer shall be deemed rejected and SAWS may proceed to consummate its transfer. In the event that the closing of the Barkley Ranch Conservation Easement as provided hereinabove has not occurred by December 31, 2014, or such earlier date if it is reasonably determined by the parties that the acquisition of the Barkley Ranch Conservation Easement is either unlikely to occur in calendar year 2014 or that the landowners have rejected SAWS as a holder of the easement, the parties will, at SAWS option, select a substitute conservation easement, in accordance with the following:

(a) SAWS may, from time to time, select a property located in the Edwards Aquifer recharge or contributing zones that is either (i) under consideration by the CAB or proposed by SAWS for consideration by the CAB for the acquisition of a conservation easement under the Program (a "Proposed Property") (ii) approved by the CAB for acquisition of a Program conservation easement (an "Approved Property"). With respect to a Proposed Property, the City agrees that City staff shall use good faith efforts to assist SAWS in obtaining the approval of the CAB for the acquisition of a Program conservation easement on the Proposed Property, and upon such CAB approval, said Proposed Property shall become an Approved Property. "). City and SAWS shall work together to prepare and negotiate the terms of each Substitute Conservation Easement, which must be approved by SAWS, such approval not to be unreasonably withheld. If the acquisition of a Program easement for the Approved Property has not already been approved by the San Antonio City Council ("Council"), said acquisition

shall be presented for Council approval as soon as reasonably possible. Following City Council approval of acquisition of a Program conservation easement on such Approved Property, the City shall proceed to acquire, at its expense, said conservation easement in the name of “The City of San Antonio by and through, and for the benefit and control of, its San Antonio Water System” (each, being a “Substitute Conservation Easement

The December 31, 2014, deadline may be extended up to six months by mutual written consent of the parties.

2.03. For purposes of this Agreement, the Barkley Conservation Easement and each and any Substitute Conservation Easement shall be collectively referred to as the “Conservation Easements” and each shall be a “Conservation Easement.” In connection with the acquisition and closing of each Conservation Easement, the City shall provide to SAWS, at no cost to SAWS: (i) an Owner’s Policy of Title Insurance for the Conservation Easement in the amount of the purchase price of the Conservation Easement if not provided by Seller (ii) a “baseline” environmental study of the Conservation Easement property in form and substance subject to the approval of SAWS, such approval not to be unreasonably withheld, and (iii) a survey of the Conservation Easement property in accordance with the current standards for an ALTA/ASCM Land Title Survey. Each Conservation Easement must be conveyed clear of all liens (other than any lien for ad valorem taxes not yet due), mortgages and encumbrances, and the landowner must provide adequate and recordable releases and/or subordinations of any liens, mortgages or encumbrances upon the Conservation Easement property.

2.04. The purchase price of each Conservation Easement paid by the City shall be applied towards the City’s obligation to provide SAWS value as provided under this Agreement, and the sum total of the purchase price of all Conservation Easements must equal or exceed the amount of \$1,974,600. The last Conservation Easement acquired under this Agreement, or if only one is acquired, such single Conservation Easement, will likely result (given the low likelihood of acquiring Conservation Easements for the exact price of \$1,974,600) in the total sum purchase price of the Conservation Easement(s) exceeding the sum of \$1,974,600, and the parties agree that SAWS shall in no event be required to expend funds or in any way financially contribute to the acquisition costs of the Conservation Easement(s), or to compensate the City for any portion of the cost of the Conservation Easement(s), and the parties agree that the value to SAWS for such Conservation Easements for purposes of this Agreement shall be the sum of \$1,974,600.

2.05. In the event that any Approved Property that is the subject of a Conservation Easement as provided hereinabove contains habitat of any endangered karst invertebrate, the City and SAWS shall, at SAWS election, work with the U.S. Fish and Wildlife Service (“USFWS”) to structure the Conservation Easement terms such that the acquisition of the Conservation Easement will create endangered species habitat mitigation credits (“Credits”). SAWS shall be entitled to receive all Credits generated by such acquisition.

2.06. When City has acquired Conservation Easement(s) in the name of SAWS as provided above in the aggregate purchase amount of \$1,974,600 or greater, the City's consideration to SAWS for SAWS's release and transfer in paragraph 1 is satisfied. Notwithstanding the foregoing, the City's obligation to reimburse, or provide value to SAWS as provided hereinabove, in a total of not less than \$1,974,600 is considered fully vested in SAWS and payable as of the date hereof. The acquisition of said Conservation Easements in the aggregate purchase amount of \$1,974,600 or greater must occur on or before eighteen (18) months from the date hereof. At such time, if the purchase price of all Conservation Easements has not equaled or exceeded \$1,974,600, the parties shall work together to arrive at a prompt settlement of such amount.

3. Accounting for Reimbursement Amount.

3.01 City's Finance Department must keep a running account of the \$1,974,600. Ordinances approving transactions that result in a credit to the account should state the credit in the financial language. The parties may from time to time agree on a reconciliation of the balance owing on the \$1,974,600, and any such reconciliation signed by both the City's Director of Finance and SAWS's CFO is conclusive. Notwithstanding the foregoing, the acquisition of Conservation Easement(s) in an amount equal to or exceeding \$1,974,600 shall result in the "zeroing" out of the balance owing and any excess shall not result in a credit to the City.
