Answers to Questions 40, 45, 46, 47 and 48

40. Board Member of Chrysalis Ministries, Inc. (2012-current); Member of ImpactSA (2014-current); Member of the State Bar of Texas (Real Estate, Probate and Trust Law Section) (2010-current); Member of San Antonio Bar Association and American Bar Association (2010-current), Member of the Real Estate Council of San Antonio (2010-current); Member of the Urban Land Institute Women's Leadership Initiative (2016); Member of San Antonio Real Estate Discussion Group (2010-current); Board Member and past Treasurer, Secretary and President of the Gallery Court Condominium Association (2013-current)

45. St. Mary's University School of Law – San Antonio, Texas -Doctor of Jurisprudence, May 2010

Southwestern University – Georgetown, Texas - Bachelor of Science Degree in Biology, May 2003

46. I am a commercial real estate attorney and have been working with Barton, East and Caldwell, P.L.L.C. since September, 2010. My practice includes representing real estate developers and investors in commercial real estate transactions including the acquisition, disposition, financing, developing, management and leasing of commercial properties. I have also represented clients in entity formation and the negotiation of company partnership agreements, and the organization of commercial business entities. I am a graduate of the Real Estate Council Leadership Development Program. I have been named one of San Antonio's Best Attorneys in Scene in SA (2011-2015); I was named one of the San Antonio Business Journal's "Wonder Women" of Commercial Real Estate.

47. I have and continue to serve as a board member of Chrysalis Ministries. I have been a part of the IMPACT SA grant review committee where I reviewed grants for local non-profit organizations. I have served and cooked meals, as well as planned major events for a local recovery group. I have served on the Real Estate Council of San Antonio's golf committee and volunteered at their annual golf tournaments. I judged a Negotiations Competition at St. Mary's University School of Law. I have helped organize 5k runs for Phi Delta Phi.

48. I grew up in Laredo, Texas and I saw a city that had the potential to grow but was held back due to control or other limiting factors. I moved to San Antonio to help my Mom raise my brother and sister. I met my husband, who is from Oregon, in San Antonio and got married here. San Antonio is my Home.

I have seen this city transform over the past several years. I want to be a part of the future transformation of this city. San Antonio is fortunate to have two major interstate highways run through its core. That is an enormous advantage for this city to bring businesses and families. With a strategic plan in place and a vision for the future of this city, I believe that San Antonio will be the best city in the United States. Allowing the citizens to be involved and provide their input in preparing and implementing a plan for this city is important. I believe that with my commercial real estate background, I will be able to provide a great deal of vision and strategy and dedication. I have seen how commercial developments have benefited from tax incentives. I believe that we need attract businesses to the urban core and plan for the future growth of this city. I am dedicated to making San Antonio a home for businesses and families. I want to be a part of the intricate details in making that dream a reality.

Professional Experience narrative:*Professional Engineer - TX PE (97273) and LEED Green Associate**UT Health Science Center San Antonio (September 2009 to Present)*

Currently I, along with another PE, manage the mechanical engineering department. Duties include HVAC and plumbing design for a research university, managing fire alarm and protection projects, coordinating design requirements with other disciplines and consultants, code compliance, and construction administration.

Facility types at the university include offices, laboratories, animal holding rooms, BSL-3s and medical and dental suites. The campus systems include chilled water, heating water, steam, and laboratory plumbing systems. I also coordinate campus requirements for recycled water and energy rebates with SAWS and CPS Energy.

Jacobs (May 2007 to November 2009)

As a professional engineer at Jacobs my responsibilities as a design engineer expanded. I was a lead mechanical engineer. In addition to design and coordination, I edited the project specifications and controls. I worked on energy audits and facility condition assessments. Many of the projects were federal projects and had to meet various regulatory and departmental requirements. The building types I worked on were high rise office buildings, border patrol stations and military installations.

Goetting and Associates (October 2000 to May 2007)

I was a design engineer. Duties and responsibilities associated with HVAC design include: calculations, equipment selection, system design and layout. I also coordinated system requirements with other disciplines. I completed IECC and LEED point reports. I also verified code compliance and was involved with construction administration. I designed buildings with the following systems types: VAV and CV, chilled water and DX, hot water and electric heat. I worked on renovations and new construction for: offices, schools, laboratories, IT rooms, Auditoriums, gymnasiums, high rise buildings, post office, and a courthouse.

Community Service Narrative:

Recently I have served as president of my home owners association. We replaced our street signs and repaired the exterior wall. We worked with our city councilman to address traffic and crime issues, including getting street lights added to a street adjacent to the neighborhood.

Most of my community service has been through the organizations I have been associated with. Every year the Alamo chapter of ASHRAE provides support to our local engineering students interested in careers in HVAC. The years I was on the board we provided scholarships. The amount varies per year depending on resources and applicants. We set the criteria, announce the scholarships and review the applications. We announce the winners at a monthly meeting. The year I was president, I brought in a representative of the Texas Board of Professional Engineers and had him review the results of the legislative session and how it affected the professional engineers. We invited other local engineering societies to that meeting.

While I held leadership positions with the YD's I participated (including planning) in a variety of non-partisan community service projects such as volunteering for Habit for Humanity and the Food Bank. We held a USO drive to collect items to be sent to troops over-seas. We held fund raising mixers for the Battered Women's Shelter (twice), and the San Antonio AIDS foundation. For several years we volunteered at the Jimenez Thanksgiving Dinner and with Elf Louise. One year we also volunteered for the Fest of Tails for the San Antonio Parks Foundation.

Outside of community service associated with the organizations I have held leadership positions with, my wife and I volunteered for Habit for Humanity with our church, St. Francis of Assisi and a few years ago also organized a raffle and a billiard challenge to raise money for our friends Mom, who was battling cancer. Last year, I was a on a bowling team raising money for Big Brothers Big Sisters.

Interest narrative:

I have deep passion for San Antonio. I also have an interest in politics and local government. I believe serving on this board would be the best way to fuse my talents, experience and interest and provide an interesting way of serving my community.

The planning commission has to balance the needs of a new development and the requirements of our master plan. The new master plan known as SA Tomorrow features ideas on sustainability, multimodal transportation, and a comprehensive plan.

Our boards and commissions have been formed to handle variations to our codes, plans and guidelines. I have served on the Building Related and Fire Code Appeals and Advisory Board and the Zoning Board of Adjustments making those kinds of decision. I served when it came time to update those codes and standards. I want to serve on the planning commissions because I want to shape our city. The growth of our city needs to be managed in a way that encourages responsible development that is in concert with the master plan we citizens have helped create in the past few months. It is clear that our citizens believe we can have the perks of big city life while maintaining our friendly small town feel. As a former HOA president I was always look at how development will affect neighborhoods. We can have the exciting developments we need and maintain our quality of life in San Antonio.

	My family moved to San Antonio in 1970 when her husband came here to set up the Area Office of the U.S. Dept. of Housing and Urban Development. As a member of the League of Women Voters I became very interested in their efforts and that of others to educate the public about the need to protect the Edwards Aquifer. In 1975 I was appointed to the Citys Zoning Commission and served on committees related to water, land use, subdivision regulation and neighborhoods. In the 1980s I was active in the Womens Chamber of Commerce and joined the Water Committee of the Greater San Antonio Chamber of Commerce. I also initiated Scenic San Antonio, a chapter of Scenic Texas, which advocates for the scenic environment through tree-planting projects and appropriate sign regulation. The ability of neighborhoods to cope with changing circumstances is critical. I was president of my own neighborhood association, VJNI, in 1986 and am once again. VJNI is

Experience & Community
Service

located in one of the growth corridors identified by SA Tomorrow. I look forward to accommodating growth through the 3 plans. I also served as president of the San Antonio Coalition of Neighborhood Associations in 1990 and helped initiate the Neighborhood Resource Center and was its first president in 1995. In 1990 I also became the first chairman of the Citys newly created Open Space Advisory Board during its first 6 years. It developed an Open Space Plan, as part of the Citys Master Plan and supported the efforts of the City and others to establish Government Canyon State Natural Area and of the Junior League to establish the Mitchell Lake Wetlands Society (evolving into the Mitchell Lake Audubon Center). I also served on the Watershed and Floodplain Committee and the Committee to revise the Citys Landscape Ordinance. In 1996 the Open Space Advisory Board hosted a citizens meeting of over 100 individuals to determine their interest in forming a local land trust. They set up a Steering Committee, and the Bexar Land Trust, Inc., was formed in 1998. I was its president for its first 6 years. It is now known as Green Spaces Alliance of South Texas and its mission is to sustain the natural environment and enhance urban spaces through land conservation, community engagement, and

education. From the beginning of the Edwards Aquifer Protection Program, Green Spaces Alliance staff has assisted the City in acquiring land or conservation easement agreements with landowners from Uvalde to Bexar Counties. I returned to Green Spaces Alliance in 2013, serving as board president in 2014 and 2015 and as vice president in 2016. As a member of the board of the San Antonio Conservation Society from 2005 - 2012, I was involved in their efforts to establish the Brackenridge Park Conservancy in 2009 and was its first board president. At other times my SACS board responsibilities included the publication of the newsletter, organizing the fourth-grade Heritage tours, and arranging for oral and pictorial histories of City South residents. As a Bexar County representative, I served on the City South Management Authority Board from 2005 to its demise in 2013, at which time I was the board presiding officer. One of its products was an alternative for developing a conservation subdivision, Section 35-203 of the Unified Development Code. I have participated in the major comprehensive planning efforts of the City for years from master plans to the precursors to and including SA 2020. In 2015 and 2016 I was a member of the Natural Resources and Environmental Sustainability Plan Element Working Group of SA

	Tomorrow.
Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	These are exciting times in San Antonio. I would like to be a part of the process of planning our future. Specifically, I am interested in helping to implement the 3 elements of SA Tomorrow - The Comprehensive Plan, The Sustainability Plan, and the Multimodal Transportation Plan. It would be very satisfying to me to utilize my career and community volunteer experiences to serve as a member of the Planning Commission of the City of San Antonio.

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	My family has a long history of service to the City and Community. I am seeking appointment to continue my service to the community, having served previously on City Boards. Given my background in financing the spectrum of large mixed use projects to local mom and pops, I understand the complex challenges to balance the needs and wants of all parties. As chair of the Board of Adjustments, I strove to balance the parties to achieve "win/win" situations. I also understand the hard decisions that must be made. The end goal is to make San Antonio a better place for me, my family, and all of the citizens of San Antonio.

APPLICATION SIGN-OFF	
As a board, commission, or committee member, you will be asked to adhere to: Code of Ordinances, City of San Antonio, Part II, Chapter 2, Article IX, Sec.2-534. All board and commission members must file a Financial Disclosure Report with the Office of the City Clerk upon appointment, and annually thereafter, throughout the member's term. Failure to file a Financial Disclosure Report within the time required by the City's Ethics Code will be considered an automatic removal.	
I understand that if any member of the public makes a request for information included in this Application for Appointment, most of the information must be disclosed under the Public Information Act. I understand that the City of San Antonio will attempt to maintain the confidentiality of highly private matters by seeking an Attorney General's opinion in accordance with the Public Information Act. I understand that it may not be legally possible to maintain the confidentiality of such information, and I hereby release the City of San Antonio, and its agents, employees and officers, from any and all liability whatsoever if the information must be released pursuant to the Public Information Act or any other law requiring its release.	Acknowledged
I recognize that I am an applicant for Planning Commission, as a City of San Antonio board or commission that is more than advisory in nature. As a city officer, I understand that I, my immediate family members, and any business in which I and/or they hold a 10% or greater ownership interest will be prohibited from seeking or accepting contracts with the city for the duration of my service on this board. I further understand that this restriction will extend with regard to many types of discretionary contracts for a period of one year after leaving city service.	Acknowledged
OATH: I have read and understand the guidelines set out in this application. The foregoing statements are true, accurate, and complete. I agree that any misrepresentation or omission of facts may result in my disqualification for appointment.	Acknowledged

I also serve on the Executive Committee of the Real Estate Council and have been involved with Professional Engineers in Private Practice, Council of Engineering Companies, Greater San Antonio Builders Association, and the National Society of Professional Engineers.
	The Planning Commission plays a

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:

vital role in the orderly growth and development of our community. Based on my personal and professional experience, interest in community service, understanding of the development process, and participation with local industry organizations, I can fulfill all of the duties of a Planning Commissioner and add value to the commissions deliberations. My experience over the past four years on the Planning Commission has been both rewarding and enjoyable. I feel I have played an integral role in the functions and decisions of the commission and with four years under my belt, I feel I can contribute even more in the years to come. I am seeking re-appointment to continue adding value to the Planning Commission and as a way to give back to the community in a positive manner and in a way which I am most qualified for. As a planning commission representative on the Technical Advisory Committee I also feel that with my vast knowledge and experience with the Unified Development Code I will be able to add tremendous value to and facilitate the review of the proposed UDC modifications which will be brought forth as part of the implementation of the new comprehensive plan. I have personally read every single page

	and spent a significant number of hours reviewing the contents of all three plans. Between that and my involvement on the Steering Committee for the comprehensive plan I fully understand the purpose and goals of the comprehensive plan, sustainability plan and the multimodal plan. My participation and knowledge of these plans will be invaluable from a code modification stand point and will help these plans be successfully implemented.

Commentary: The Youngest in the Room

CASEY WHITTINGTON on 4 August, 2016 at 13:30

When I tell my friends and coworkers that I can't go to dinner with them due to the monthly neighborhood association meeting, a puzzled look is often followed with the existential question: "Why?"

Sometimes I say it's for business, other times I just say, "You wouldn't understand." In those meetings I get the occasional odd glance and the question, "What City department do you work for?" At 25 years old, I have come to embrace the title of "the youngest in the room" in business and politics.

But in reality, it is a passion that has been inside me since I took my first politics class in college. Soon after, I found myself reading legislative bills for fun, and I was hooked. But as fate would have it, my first foray into local political-esque affairs came to pass by total accident.

Upset with the process that led to Uber and Lyft leaving town, I quickly fired off a terse email to District 10 staff, satisfied with the ability to vent more than expecting a response.

Sure enough, my diatribe was met with a response from Councilman Mike Gallagher's (D10) Chief of Staff Paul Jimenez.

"We can see how passionate you are, how about you come into the office and we can chat about how we came to our decision," he responded.

After venting to the staff, they asked me if I was interested in serving on a committee or board within the city. They said they knew just the place: the **CPS Energy Citizens Advisory Committee** (CAC).

Not entirely sure what I was getting myself into, I said sure and went about my day. Months later, I learned that this is a common tactic, putting those who complain on boards.

Not entirely sure what I was getting myself into, I said sure and went about my day. Months later, I learned that this is a common tactic, putting those who complain on boards.

My first CPS Citizens Advisory Committee meeting was a prime example of me being the youngest in the room by quite a bit. In fact, I was the youngest ever appointed to the CAC, a moniker I wasn't sure I should embrace or shun.

After almost a year on the committee, I can say it has been one of the most enjoyable experiences of my young career. While some of my friends still ask if I can help them lower their utility bill – I can't – the response from the district has been incredible.

Whether it is a neighborhood watch or neighborhood association meeting, my representation of District 10 within CPS always comes up, and instead of just being the youngest in the room, I find myself helping neighbors navigate complex solar panel rules, teaching them about insulating their garage, and what the optimal temperature for their home is.

My ability to represent the issues of District 10 to CPS and witnessing the positive changes being made has encouraged me to examine other ways in which I can bring more representation to the neighborhoods I love.

And it is with great pride that I can say today that I will be representing District 10 in the upcoming **bond** discussions on the facilities committee. With \$850 million in play, it is crucial that District 10, and every City Council district, has representation willing to push for the issues most important to our district.

I realize that I most likely will be one of the youngest in the room again. In fact, I hope I am. What was once a stigma I hoped to dismiss is now a driving factor in everything I do. When talking to friends now, I hope to use my example to encourage my peers to get involved in local politics and policy issues, regardless of party affiliation.

As this city transitions from being a tourist destination to a tech and business hub, two things are increasingly important. First, the bond must pass. The sheer investment in infrastructure and necessary upgrades to keep this vibrant city in lock-step with our competition cannot be stressed enough. We like to think we are the city of tomorrow and now it is time to act like it.

Breaking the age barrier on the CPS Energy Citizens Advisory Committee

Oct 27, 2015, 7:45am CDT

At the age of 24 years old, local public relations professional Casey Whittington is now the youngest person to serve on **CPS Energy's** Citizens Advisory Committee.

The CPS Energy Board of Trustees officially appointed Whittington to the committee during their monthly meeting on Monday afternoon.

Nominated by San Antonio District 10 City Councilman Mike Gallagher, Whittington will serve a two-year term on the committee.

CPS Energy officials confirmed that Whittington is the youngest person to serve on committee.

"I would really like it if my generation, paid more attention to the media and what is happening in government," Whittington said. "Just having a basic understanding of what is happening around you is really important to being engaged."

The committee meets monthly to provide the municipally-owned utility with advice from a customer perspective on CPS Energy projects and programs.

Made up of 15 members, each of San Antonio's 10 city council members appoints a representative from their district to the committee. The remaining five members

are at-large candidates interviewed and nominated by the committee based on applications and resumes submitted. Each committee member can serve up to three terms.

Whittington is a San Antonio native who graduated with a degree in political science and government from the University of Texas at San Antonio in 2014. He currently works for the Whittington Group, a local public relations firm owned and operated by his family.

"I certainly did not go forward seeking this appointment," Whittington told the Business Journal. "I went to go meet with Councilman Gallagher about concerns I had about Uber, and he said, 'Well, why don't you serve on this board?'"

	My research and leadership interests are diverse and varied with a background in social work, education, environmental policy, and the sciences. I am extremely interested in city government and have a strong desire to work in policy development in order to continue moving San Antonio towards a bright future. In August of 2015, Trinity Environmental Academy (TriEA), a Generation 19 charter school, opened

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	its doors in Dallas, Texas on the Paul Quinn College Campus. I served on the founding board of directors from the very beginning in 2011 through final Texas Education Agency approval in 2014. TriEA serves as the first environmentally focused charter school in Texas and I am proud to have been a part of this endeavor. While I am currently pursuing my Masters of Environmental Law and Policy through Vermont Law School, I completed my Masters of Education in Curriculum and Instruction with an additional four credit hours at the doctoral level in 2014. My undergraduate background is in Social Work and Environmental Studies. I have a strong passion for issues pertaining to economic and sustainable development, which is why I am applying for the Planning Commission with the City of San Antonio.
APPLICATION SIGN-OFF
