003 – BACKGROUND

The City of San Antonio, Metropolitan Health District has been operating a violence-prevention program known as “Stand Up SA” based on the Cure Violence Health Model, which takes a public health approach to preventing violence. In essence, Stand Up SA has sought to mobilize the community by enlisting residents, stakeholders and members of the faith community in developing a rapport and trust with individuals involved in criminal activity in order to intervene in their lives and convince them to discontinue criminal behavior and to become peaceful and productive members of their community, thus preventing violence and increasing public safety. Stand Up SA commenced operations in March 2014 and has been implemented alongside existing intervention programs for maximum impact within four targeted San Antonio neighborhoods. The project remains funded by the Governor’s Criminal Justice Division through a Federal Byrne memorial Justice Association Grant Program, CFDA 16.738 through March 2017.

Due to Federal funding, the respondents agree to comply with the provisions of the Governor's Criminal Justice Division rules in Title I, Part I, Chapter 3, Texas Administrative Code in effect on the date the grant was awarded as well as any and all applicable federal and state statutes, regulations, policies, guidelines and requirements, including, but not limited to, 2 CFR Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards; Texas Government Code, Chapter 783, Uniform Grant and Contract Management; and the Texas Uniform Grant Management Standards (UGMS) that govern the application, acceptance and use of Federal and State funds for this project. In instances where multiple requirements apply to a respondent, the more restrictive requirement applies.

Stand Up SA Description: San Antonio experiences high rates of interpersonal violence concentrated within neighborhoods that also have high levels of poverty and adverse health disparities. The City of San Antonio seeks to mitigate shootings and killing in these hot spots of violence through targeted outreach and community mobilization by the application of the evidence-based strategies employed through the Cure Violence model. The City has been working with the Cure Violence project at the University of Illinois Chicago and local partners to implement the first project in Texas. The project began in March 2014 but experienced significant interruptions in early-mid 2016.

Target Population: Individuals and youth ages 16-24 at high risk of perpetrating violence living within four target neighborhoods are identified on an ongoing basis for the project. Each target neighborhood encompasses an average area of 6 square miles. The greater neighborhood community is also targeted for community norm changes around violence. Neighborhoods as defined by two police districts each in the project were prioritized for inclusion based on violent crime and homicide rates, as well as health indicator data and poverty levels.

Interventions: The project staff works directly within target neighborhoods to engage high risk individuals and families within the neighborhoods that have been disproportionately affected by community violence. Staff work in non-traditional settings within the community to engage these individuals, such as parks and street corners during non-traditional hours when local data indicate violence is most likely to occur – evenings into late night hours and on weekends as well as weekdays. Outreach workers maintain a case load of 15-20 high risk participants each, and both outreach workers and violence interrupters engage actively in street-level conflict resolution. The San Antonio Police Department provides crime information to identify potential areas where workers need to be deployed to, but maintain no contact at the street level to maintain workers’ safety and trust in the community.

The other facets of the Cure Violence model entail faith leadership involvement, public education, and community mobilization. Faith leadership involvement requires that the various faith institutions found in the hot spots or targeted communities get back involved with their communities beyond just from the spiritual perspective but rather from the human day to day living experience that many of these communities go through. Public education is the tool that is heavily used to influence how people perceive the role that violence plays in their lives. It relies strongly on messages that make it clear that violence is not an acceptable way of living and that it is in fact not normal behavior. Community mobilization is the organizing of the community so that they can come together and no longer avoid or ignore the problems that violence is causing in their communities. It is the organizing of the community so that it itself is empowered to take responsibility of what goes on in their midst.

Texas Office of the Governor Criminal Justice Division (CJD) Measures: Stand Up SA is funded in substantial part by grants from the Criminal Justice Division of the Office of the Governor. As part of the grant agreement, CJD is tracking the project's progress through a series of measures of program outputs and operations.

Performance Measures	Target
Community Partners	25
Community Events	16
Program Participants	80
Successful Conflict Resolutions	40

CJD has also sought to measure the program's outcomes, or impact, as well as how its operations relate to the evidence measured in other iterations of the Cure Violence model. The evaluation sought by this RFP is part of the effort to measure Stand UP SA's impacts and fidelity to evidence-based research.

004 - SCOPE OF SERVICE

The City of San Antonio Metropolitan Health District is seeking proposals from qualified organizations to conduct an implementation evaluation for Stand Up SA Violence Prevention Project to measure Stand UP SA's impacts and fidelity to evidence-based research.

Stand Up SA is a program designed to prevent violence by treating the issue based on the Cure Violence model, an evidenced-based public health approach to reduce and prevent violence in our streets.

Stand Up SA focuses on interrupting transmission, changing behaviors and community norms.

Stand Up SA Prevention Project engages neighborhoods and individuals and youth at high risk of perpetrating violence in activities focused on community organizing strategies at community level and case management, mentoring and conflict resolution to change behavior on an individual level to prevent community violence.

Respondent Qualifications:

Respondents may be non-profit or for-profit, and are not required to have an academic affiliation. Respondents with a principal investigator with a doctoral or master's degree in a relevant field are preferred and demonstrable experience in evaluations of public health, sociology, social work or criminal justice programs. Respondents shall provide the educational and experience qualifications of the principal investigators and any other relevant investigators expected to work on the project. Information on experience should demonstrate work on projects of a similar nature that focus on individuals and communities that experience high rates of health disparities and high rates of involvement with the criminal justice system.

Implementation Evaluation Purpose: The primary objectives of this evaluation are:

- **Outcomes:** Systematically assess the impact and outcomes of the this project, as measured by reductions in violence over what would have been expected in the absence of the project;
- **Documentation:** Document the project's operations at an overview level sufficient for outsiders to gain a basic understanding;
- **Efficiency and Effectiveness:** Assess the efficiency and effectiveness of the project's operations, methods, and strategies and to propose changes to increase them;
- **Program fidelity:** Assess how the project's operations and methods compare to those established by previous analyses of evidence regarding Cure Violence implementations and to evaluate whether the departures from the evidence-based model helped or hindered the project;
- **Program management:** Assess the project's leadership/management and offer constructive criticism to improve it;

- **Side-effects:** Assess the impacts, to the greatest degree practical, of the project on participants, staff, partners, and overall neighborhood health; and
- **Lessons learned:** Assess any factors specific to San Antonio and Texas and how the Cure Violence model should take those into account when continuing the San Antonio program and establishing any Cure Violence-like program in other Texas communities.

Anticipated Difficulties: This project experienced substantial disruptions in early-mid 2016, making it more difficult to assess its impact. This implementation evaluation will also not benefit from the longer-term observation period or early involvement that other, more complete evaluations might enjoy, for example in establishing baseline measurements to determine impacts. These difficulties are acknowledged by Stand Up SA but should be seen as obstacles to overcome on the way to achieving the evaluation objectives rather than prohibitive. Stand Up SA seeks the highest quality evaluation possible considering these constraints.

Successful respondents should take into account these constraints and explain how they will customize the evaluation to compensate for them to the greatest degree possible, and how they will achieve the evaluation's objectives despite these constraints.

Below we broadly describe how we anticipate evaluation activities to unfold as well as describe some specific activities for respondents to consider in their responses:

- **Meeting with SAMHD Staff:** Selected respondent will meet with project staff to discuss, refine and focus the implementation evaluation and come to agreement regarding proposed implementation evaluation activities based on the purpose and intent of the implementation evaluation. The respondent should estimate the number of sessions this activity will require in their response.
- **Specific Sub-Evaluation:** A component of this project has required the engagement of leaders, program participants, and families affected by community violence from the four target neighborhoods to guide project activities. Respondents should plan to conduct interviews with a minimum of six from each of the four neighborhoods. We are interested in assessing participant experience with the project. Respondents should propose questions which will be reviewed and approved by SAMHD staff.
- **Interviews/Focus Groups:** Respondents will propose to conduct interviews and/or focus groups with project staff and project partners. Note: Interview questions be proposed in the response and will be finalized upon review by SAMHD staff.
- **Incentives:** Respondents MAY include incentives for participation in focus groups, interviews, and/or surveys in their proposed budgets.
- **Deliverables:** In addition to the following specific deliverables, respondents should include a listing of what they consider other important deliverables for this project.
 - Respondent will deliver a detailed DRAFT Evaluation Work Plan during Month 1 of the contract. Note: SAMHD staff on the contractor will review, modify, and come to agreement regarding the Final work plan.
 - Respondent will provide monthly written updates of evaluation activities, progress and challenges. Monthly Update content will be negotiated between SAMHD and selected respondent.
 - By February 15, 2017, contractor will deliver an initial DRAFT of the project evaluation report.
 - February 28, 2017, contractor will deliver the FINAL project evaluation report.

B. SBEDA Program

The CITY has adopted a Small Business Economic Development Advocacy Ordinance (Ordinance No. 2016-05-19-0367 and as amended, also referred to as "SBEDA" or "the SBEDA Program"), which is posted on the City's Economic Development Department (EDD) website page and is also available in hard copy format upon request to the CITY. The SBEDA Ordinance Compliance Provisions contained in this section of the Agreement are governed by the terms of the SBEDA Ordinance, as well as by the terms of the SBEDA Ordinance Policy & Procedure Manual established by the CITY pursuant to this Ordinance, and any subsequent amendments to this referenced SBEDA Ordinance and SBEDA Policy & Procedure Manual that are effective as of the date of the execution of this Agreement. Unless defined in a contrary manner herein, terms used in this section of the Agreement shall be subject to the same expanded definitions and meanings as given those terms in the SBEDA Ordinance and as further interpreted in the SBEDA Policy & Procedure Manual.

C. Definitions

Affirmative Procurement Initiatives (API) – Refers to various S/M/WBE Program tools and Solicitation Incentives that are used to encourage greater prime and subcontract participation by S/M/WBE firms, including bonding assistance, evaluation preferences, subcontracting goals and joint venture incentives. (For full descriptions of these and other S/M/WBE Program tools, see Section III.D of Attachment A to the SBEDA Ordinance). To be eligible for the benefits of race- and gender-conscious APIs as provided in the SBEDA Ordinance, M/WBE firms must also satisfy the size standards for being a Small Business Enterprise or SBE as defined herein.

Annual Aspirational Goal – a non-mandatory annual aspirational percentage goal for overall M/WBE Prime and subcontract participation in City of San Antonio contracts is established each year for Construction, Architectural & Engineering, Professional Services, Other Services, and Goods & Supplies contract Industry Categories. This Annual Aspirational Goal is to be set (and thereafter adjusted) by the Goal Setting Committee (GSC) based upon the M/WBE availability by industry in accordance with the City's 2015 Disparity Study findings, along with relative M/WBE availability data to be collected by the City through its CVR system, and the utilization of M/WBEs. Any adjusted Annual Aspirational Goals for a given industry should not exceed the Expected Availability for award dollar weights as found in the 2015 Disparity Study. Annual Aspirational Goals are not to be routinely applied to individual contracts, but are intended to serve as a benchmark against which to measure the overall effectiveness of the S/M/WBE Program on an annual basis, and to gauge the need for future adjustments to the mix and to the aggressiveness of remedies being applied under the Program. Percentage Goals for S/M/WBE participation may be established by the GSC on a contract-by-contract basis based upon similar data and analysis for the particular goods and services being purchased in a given contract.

Award – the final selection of a Respondent for a specified Prime Contract or subcontract dollar amount. Contract awards are made by the City to Prime Contractors or vendors and by Prime Contractors or vendors to Subcontractor or sub-vendors, usually pursuant to a solicitation process. (Contract awards are to be distinguished from contract payments in that they only reflect the anticipated dollar amounts instead of actual dollar amounts that are paid to a contractor under an awarded contract).

Best Value Contracting – a purchasing solicitation process through which the Originating Department may evaluate factors other than price. Evaluation criteria for selection may include a Respondent's previous experience and quality of product or services procured, and other factors identified in the applicable statute.

Centralized Vendor Registration System (CVR) – a mandatory electronic system of hardware and software programs by which the City recommends all prospective Respondents and Subcontractors that are ready, willing and able to sell goods or services to the City to register. All businesses awarded a City contract shall be required to register in the CVR. The CVR system assigns a unique identifier to each registrant that is then required for the purpose of submitting solicitation responses and invoices, and for receiving payments from the City. The CVR-assigned identifiers are also used by the Goal Setting Committee for measuring relative availability and tracking utilization of SBE and M/WBE firms by Industry or commodity codes, and for establishing Annual Aspirational Goals and Contract-by-Contract Subcontracting Goals.

Certification – the process by which the Small Business Office (SBO) staff determines a firm to be a bona-fide small, minority-, women-owned, or emerging small business enterprise. Emerging Small Business Enterprises (ESBEs) are automatically eligible for Certification as SBEs. Any firm may apply for multiple Certifications that cover each and every status category (e.g., SBE, ESBE, MBE, or WBE) for which it is able to satisfy eligibility standards. The SBO staff may contract these services to a regional Certification agency or other entity. For purposes of Certification, the City may accept any firm that is certified by local government entities and other organizations identified herein that have adopted Certification standards and procedures similar to those followed by the SBO, provided the prospective firm satisfies the eligibility requirements set forth in this Ordinance in Section III.E.6.

City – refers to the City of San Antonio, TX.

Commercially Useful Function – an S/M/WBE firm performs a Commercially Useful Function when it is responsible for execution of the work of the contract and is carrying out its responsibilities by actually performing, staffing, managing and supervising the work involved. To perform a Commercially Useful Function, the S/M/WBE firm must also be responsible, with respect to materials and supplies used on the contract, for negotiating price, determining quantity and quality, ordering the material, and installing (where applicable) and paying for the material itself. To determine whether an S/M/WBE firm is performing a Commercially Useful Function, an evaluation must be performed of the amount of work subcontracted, normal industry practices, whether the amount the S/M/WBE firm is to be paid under the contract is commensurate with the work it is actually performing and the S/M/WBE credit claimed for its performance of the work, and other relevant factors. Specifically, an S/M/WBE firm does not perform a Commercially Useful Function if its role is limited to that of an extra participant in a transaction, contract or project through which funds are passed in order to obtain the appearance of meaningful and useful S/M/WBE participation, when in similar transactions in which S/M/WBE firms do not participate, there is no such role performed.

Control – the authority of a person or business owner to sign responses to solicitations and contracts, make price negotiation decisions, sell or liquidate the business and have the primary authority to direct the day-to-day management and operation of a business enterprise without interference from others.

Emerging M/WBE – a certified M/WBE firm whose annual revenues and number of employees are no greater than 25% of the small business size standards for its industry as established by the U.S. Small Business Administration, and meets the Significant Business Presence requirements as defined herein.

Evaluation Preference – an API that may be applied by the Goal Setting Committee to Construction, Architectural & Engineering, Professional Services, Other Services, and Goods and Supplies contracts that are to be awarded on a basis that includes factors other than lowest price, and wherein responses that are submitted to the City by S/M/WBE firms may be awarded additional Points in the evaluation process in the scoring and ranking of their proposals against those submitted by other prime Respondents.

Formal Solicitation – an invitation for bids, request for proposals, request for qualifications or other solicitation document issued by a City department for a contract that requires City Council approval, in accordance with the procurement rules adopted by the City Manager or designee through a memorandum issued by the City Manager or designee, an Administrative Directive or a procurement manual issued under the authority of the City Manager or designee, and/or pursuant to statutory requirements.

The City Manager or designee may also appoint two ex-officio members of the Small Business Advocacy Committee to serve on any GSC purely in an advisory and non-voting capacity. The GSC establishes S/M/WBE Program Goals for the City of San Antonio (e.g., Annual Aspirational Goals, Contract-by-Contract Subcontracting Goals, and determining which M/WBE segments are eligible for Segmented Subcontracting Goals annually) based upon Industry Categories, vendor availability, project-specific characteristics, and M/WBE utilization. The GSC also makes determinations about which Affirmative Procurement Initiatives (APIs) are to be applied to specific contracts based upon various criteria.

Good Faith Efforts – documentation of the Respondent's intent to comply with S/M/WBE Program Goals and procedures including, but not limited to, the following: (1) documentation as stated in the solicitation reflecting the Respondent's commitment to comply with SBE or M/WBE Program Goals as established by the GSC for a particular contract; or (2) documentation of efforts made toward achieving the SBE or M/WBE Program Goals (e.g., solicitations of bids/proposals/qualification statements from all qualified SBE or M/WBE firms listed in the Small Business Office's directory of certified SBE or M/WBE firms; correspondence from qualified SBE or M/WBE firms documenting their unavailability to perform SBE or M/WBE contracts; documentation of efforts to subdivide work into smaller quantities for subcontracting purposes to enhance opportunities for SBE or M/WBE firms; documentation of a Prime Contractor's posting of a bond covering the work of SBE or M/WBE Subcontractors; documentation of efforts to assist SBE or M/WBE firms with obtaining financing, bonding or insurance required by the Respondent; and documentation of consultations with trade associations and CONTRACTORS that represent the interests of SBE and/or M/WBEs in order to identify qualified and available SBE or M/WBE Subcontractors.)

HUBZone Firm – a business that has been certified by U.S. Small Business Administration for participation in the federal HUBZone Program, as established under the 1997 Small Business Reauthorization Act. To qualify as a HUBZone firm, a small business must meet the following criteria: (1) it must be owned and Controlled by U.S. citizens; (2) at least 35 percent of its employees must reside in a HUBZone; and (3) its Principal Place of Business must be located in a HUBZone within the San Antonio Metropolitan Statistical Area. [See 13 C.F.R. 126.200 (1999).]

Independently Owned and Operated – ownership of an SBE firm must be direct, independent and by Individuals only. Ownership of an M/WBE firm may be by Individuals and/or by other businesses provided the ownership interests in the M/WBE firm can satisfy the M/WBE eligibility requirements for ownership and Control as specified herein in Section III.E.6. The M/WBE firm must also be Independently Owned and Operated in the sense that it cannot be the subsidiary of another firm that does not itself (and in combination with the certified M/WBE firm) satisfy the eligibility requirements for M/WBE Certification.

Individual – an adult person that is of legal majority age.

Industry Categories – procurement groupings for the City of San Antonio inclusive of Construction, Architectural & Engineering, Professional Services, Other Services, and Goods & Supplies (i.e., manufacturing, wholesale and retail distribution of commodities). Joint Venture Incentives – an API that provides inducements for non-SBE and non-M/WBE firms to collaborate with SBE or M/WBE partners in responses to solicitations and performing a Prime Contract to supply goods to, or to perform non-Construction services on behalf of, the City. Joint ventures are manifested by written agreements between two or more Independently Owned and Controlled business firms to form a third business entity solely for purposes of

undertaking distinct roles and responsibilities in the completion of a given contract. Under this business arrangement, each joint venture partner shares in the management of the joint venture and also shares in the profits or losses of the joint venture enterprise commensurately with its contribution to the venture. Incentives under this API may include Evaluation Preferences that are tied to the percentage of SBE or M/WBE participation in the joint venture, expedited issuance of building permits and extra contract option years in certain Other Services and Goods & Supplies contracts.

Such subcontracting goals may be set and applied by the GSC on a contract-by-contract basis to those types of contracts that provide subcontract opportunities for performing Commercially Useful Functions wherein:

- (1) There have been ongoing disparities in the utilization of available M/WBE Subcontractors; or
- (2) Race-Neutral efforts have failed to eliminate persistent and significant disparities in the award of prime contracts to M/WBEs in a particular Industry Category or industry segment (e.g., Construction contracts, Professional Services contracts, and Architectural and Engineering contracts), and subcontract opportunities are limited outside of City contracts.

When specified by the GSC, the M/WBE Subcontracting Program may also be required to reflect Good Faith Efforts that a Prime Contractor or vendor has taken (or commits to taking in the case of solicitations that do not include a detailed scope of work or those in which price cannot be considered a factor in evaluation), toward attainment of subcontracting goals for M/WBE firms.

M/WBE Evaluation Preference – an API that the City may apply to requests for proposals or qualifications (RFPs or RFQs) on City Construction, Architectural & Engineering, Professional Services, Other Services, and Goods & Supplies contracts that are issued pursuant to a Best Value Contracting method or other methods of procurement wherein criteria other than lowest price are factored into the selection process. M/WBEs that submit responses for these kinds of solicitations are awarded additional Points in the scoring of their responses when evaluating and ranking their responses against those submitted by non-minority firms. Where specified in contract specifications as approved by the Goal Setting Committee, the M/WBE Evaluation Preference may be limited to Emerging M/WBE firms.

Minority Business Enterprise (MBE) – any legal entity, except a joint venture, that is organized to engage in for-profit transactions, which is certified as being at least fifty-one percent (51%) owned, managed and Controlled by one or more Minority Group Members, and that is ready, willing and able to sell goods or services that are purchased by the City.
