SUBJECT: Final Report from the Committee on Emergency Preparedness

DATE: June 24, 2021

During the special City Council meeting today, the City Council will receive a briefing and the Final Report from the Committee on Emergency Preparedness (CEP). I would like to take this opportunity to thank each of the members of the Committee for their diligence and dedicated efforts on this important endeavor.

The City will coordinate with CPS Energy and SAWS to assess and analyze the recommendations provided by the CEP. Coordination and collaboration on these recommendations between the City (Emergency Operations Center), CPS Energy, and SAWS will be critical to comprehensively improving preparation, response, recovery, and management of future emergencies like the Winter Event of 2021 with changing conditions and cascading impacts.

City staff will take the lead to provide recommendations on a process to keep the City Council and community informed of our collective progress.
