## LEASE FOR COLLOCATION OF WIRELESS ANTENNA FACILITIES

This Lease (the "Lease") is entered into, by and between the City of San Antonio, a Texas Municipal Corporation, ("Landlord" or "City") as lessor, and New Cingular Wireless PCS, LLC, a Delaware limited liability company ("Tenant") as lessee. The Landlord and Tenant, referred to individually as "Party" or collectively as "Parties," enter into this Lease pursuant to San Antonio City Ordinance No. \_\_\_\_\_.

### WITNESSETH:

**WHEREAS**, Landlord owns real property located at 9800 Airport Blvd., San Antonio, Bexar County, Texas (hereinafter the "Property"), together with the building (the "Building") located on the Property, which is commonly known as the San Antonio International Airport; and

**WHEREAS**, Tenant wishes to collocate wireless Antenna Facilities, as defined in Section 5.1, to a tower constructed by Verizon Wireless on the roof of the Building (the "Tower"), including the placement of antennas, lines and cables, with accompanying electronic equipment shelters or enclosures installed, or to be installed, on the Building or Property; and

**WHEREAS**, as a result, Tenant wishes to lease space on the Tower Building, and Property for the installation of Tenant's Antenna Facilities, a non-exclusive access for utilities, and access for ingress and egress to the Property, Building, and Premises as defined in section 1.1. A).

**NOW THEREFORE**, in consideration of the mutual promises, covenants, undertakings, and other consideration set forth in this Lease, Tenant and Landlord agree as follows:

### 1. PERMITTED USE

**1.1 Permitted Use of Premises.** The "Premises" consist of the area controlled by Tenant as described in the site plan set out in Exhibit "A", may be used by Tenant for the transmission and reception of radio communication signals and for the collocation construction, installation, operation, maintenance and repair of wireless equipment and related support facilities (such as antennas, microwave dishes, equipment shelters or enclosures and/or cabinets and utilities including but not limited to electrical, telecommunications and fiber line) but only for the provision of wireless communications services for which Tenant has a legal right and license, if required, to provide and not for any other purpose. This Lease shall include any new types of facilities that may evolve or be adopted using wireless technologies, such as 700 MHz Public Safety LTE. Tenant shall, at its expense, comply with all applicable present and future federal, state, Federal Aviation Administration regulations, Transportation Security Administration regulations, and local laws, ordinances, rules and regulations (including but not limited to laws and ordinances relating to health, safety, radio frequency emissions, and radiation) in connection with the use of (and operations, maintenance, construction and/or installations at) the Premises. This Lease applies to the installation of the wireless equipment and support facilities depicted in the engineering designs and plans incorporated in Exhibit A. Subject to Section 8.1, network upgrades, replacement of antennas and/or shelter or enclosure equipment, and installation of replacement equipment arrays are permitted uses, provided Tenant submits to Landlord engineering designs of the proposed changes for review and approval by Landlord in compliance with subsection 5.2.

**1.2 Application Process.** Prior to the execution of this Lease, Tenant shall submit to Landlord a written application in the form required by Exhibit B (the "Application") for the proposed installation accompanied with the appropriate fees required by Exhibit C. Landlord, in its sole discretion will determine whether the Property is suitable for the proposed installation. Landlord shall review the Application to ensure compliance with local laws and policies. The proposed height and specifications of a wireless antenna must be in compliance with Section 35-385 of the City of San Antonio Unified Development Code ("UDC § 35-385"). For the purpose of this Lease, the application process fee is waived and Landlord acknowledges and agrees that Tenant has previously met the Application process requirements herein.

**1.3 Tower Built for Collocation.**

a. In compliance with UDC § 35-385, Verizon Wireless, has designed and constructed the Tower to support a minimum of two collocators. Notwithstanding the foregoing, prior to allowing Tenant to collocate on the Tower, Tenant shall provide to Landlord and Verizon Wireless a satisfactory structural analysis at such collocator's sole expense indicating that the Tower is adequate to support Tenant's equipment, and Tenant shall pay to Verizon Wireless an amount equal to thirty-three and three tenths percent (33.3%) of Verizon Wireless' total actual capital cost to construct the Tower. In addition, tenant shall pay Verizon Wireless fair market based compensation for access to fiber conduit installed on the Building for the purpose of providing telecommunications connectivity to Tower tenants.

b. Each such third party collocator shall enter into a tower lease agreement with Landlord. Notwithstanding anything in this Lease to the contrary, Landlord agrees that any such third party collocator will be permitted to install only such equipment that is of the type and frequency which will not cause harmful interference which is measurable in accordance with industry standards to the equipment of Tenant. Landlord shall include in its tower lease agreement with any such third party collocator a requirement that no such interference shall be permitted to Tenant's equipment. In the event a third party provider wishes to extend the height of the Tower in order to accommodate collocation, the Landlord will accommodate the request provided (i) the upgrade does not result in any interference with the equipment of the Tenant, (ii) the third party provider pays the entire cost of the Tower extension and equipment installation, and (iii) the proposed Tower extension is in compliance with UDC § 35-385 and any applicable property covenants or restrictions. Prior to allowing any third party collocator to modify its equipment on the Tower, such collocator shall provide to Landlord and Tenant a satisfactory structural analysis indicating that the Tower is adequate to support such collocator's equipment.

c. Rent hereunder shall be paid in the following manner: 80% to Landlord and 20% to Verizon Wireless. All revenue payments to Verizon Wireless shall be sent to the following address:

Verizon Wireless  
Site Name: Airport San Antonio Intl Repl  
P.O. Box 64498  
Baltimore, MD 21264-4498

**1.4 Approvals.** Landlord agrees that Tenant's ability to use the Premises is contingent upon the suitability of the Premises and Property for Tenant's permitted use and Tenant's ability to obtain and maintain all governmental licenses, permits, approvals or other relief required of or

deemed necessary or appropriate by Tenant for its use of the Premises, including without limitation applications for amendments, special use permits, and construction permits (collectively, the "Government Approvals"). Landlord authorizes Tenant to prepare, execute and file all required applications to obtain Government Approvals for Tenant's permitted use under this Lease and agrees to reasonably assist Tenant with such applications and with obtaining and maintaining the Government Approvals. In addition, Tenant shall have the right to initiate the ordering and/or scheduling of necessary utilities. Tenant has the right to obtain a title report or commitment for a leasehold title policy from a title insurance company of its choice and to have the Property surveyed by a surveyor of its choice. Tenant may also perform and obtain, at Tenant's sole cost and expense, soil borings, percolation tests, engineering procedures, environmental investigation or other tests or reports on, over, and under the Property, necessary to determine if Tenant's use of the Premises will be compatible with Tenant's engineering specifications, system, design, operations or Government Approvals.

## 2. TERM

2.1 **Initial Term.** The initial term of the Lease shall be for five (5) years commencing on the Effective Date of the Lease and ending at midnight on the last day of the initial term ("Initial Term"). This Lease will automatically renew for five (5) additional terms of five (5) years each unless otherwise retracted in writing by either Party at the end of the Initial Term or subsequent five (5) year terms by providing ninety (90) days' notice of termination. The total length of the Lease shall not exceed a total of thirty (30) years, including renewals. The effective date of the Lease shall be the date on which both Parties execute the Lease following approval of the Lease by the City Council (the "Effective Date").

2.2 **Renewal Terms.** Following the Initial Term, the Lease will automatically renew for up to five (5) additional five (5) year renewal terms (each a "Renewal Term") provided neither Party chooses to terminate the Lease in accordance with subsection 2.1 above. Each Renewal Term shall be based on the same terms and conditions as set forth herein. The Initial Term and all Renewal Terms shall be collectively referred to herein as the "Term."

2.3 **Hold Over Tenancy.** Any holding over by Tenant after the expiration of the Term, with the consent of the City, shall be construed to be a tenancy from month-to-month on the terms and conditions herein, except that the annual Rent (as hereinafter defined) shall be twice the amount set forth at the end of the Term of this Lease, prorated and paid monthly in advance.

## 3. RENT AND ADMINISTRATIVE FEES

3.1 **Rent.** In accordance with section 1.3 c., Tenant shall pay 80% of rent amount to Landlord and 20% to Verizon Wireless. Tenant shall pay, as rent, Fifty Thousand and 00/100 Dollars (\$50,000.00) per year to be paid in equal monthly installments on the first day of the month, in advance, for the Term of this Lease, which will be increased and compounded at three percent (3%) per year (collectively "Rent") as illustrated on the schedule included in Exhibit D. The provisions of Section 3 shall control with regard to the discrepancy between the Rent installments calculated pursuant to this section and the Rent installments set out on Exhibit D, as the purpose for Exhibit D is to illustrate the compounding effect on Rent of the 3% annual escalation factor.

3.2 **Timing of Annual Rent Payments.** The monthly installment of Rent shall commence on the first day of the month following full execution of the lease by all parties and will be payable

thereafter on the first day of the month during the entire Term of the Lease.

**3.3 Late Payment Interest.** Any Rent not paid within ten (10) days of the due date shall be assessed a rate of 18% per annum from that date.

**3.4 Administrative Fees.** In addition to the Rent, the Tenant will be responsible for paying administrative fees, as applicable, associated with the operation and maintenance of the Tower and supporting equipment, as provided in Exhibit C. Landlord reserves the right to update the schedule of administrative fees in order to recover its actual costs of contract and oversight administration.

**3.5 Payment of Rent and Administrative Fees.** Tenant shall pay Landlord the Rent and applicable administrative fees specified in Exhibit C in the form of a check made out to the order of the City of San Antonio and sent to:

City of San Antonio  
Aviation Department  
Attn: Property and Business Development  
9800 Airport Boulevard  
San Antonio, TX 78216

#### **4. INTERFERENCE, TESTING AND RESERVATION**

**4.1 Interference with Use of Property Prohibited.** Tenant shall not use the Premises or Antenna Facilities (as defined in subsection 5.1) in any way which interferes with the current or future operations of Landlord, or the use of any portion of the Property and Building by Landlord and any of its City departments and agencies, or by lessees or licensees of Landlord with rights in any portion of the Property and Building prior to or subsequent to execution of this Lease. Tenant acknowledges that the Premises are located on and are part of an operating airport and that Tenant may not install any equipment or perform any functions that may be in conflict with 14 CFR Part 139 Airport Certification as those regulations may be amended from time to time, or jeopardize the operating certificate of the Airport. Notwithstanding section 4.2, Landlord shall not use, nor shall Landlord permit its lessees, licensees, grantees, employees, or agents to use, any portion of the Premises in any way which intentionally interferes with, the operations of Tenant or the rights of Tenant hereunder. Such interference shall be deemed a material breach by Landlord, who shall, upon written notice from Tenant, take reasonable action to terminate such interference which results from operations directly under Landlord's control. In the event any such interference does not cease promptly, the Parties acknowledge that continuing interference may cause irreparable injury and, therefore, the Tenant shall have the right to terminate this Lease immediately upon written notice pursuant to Section 10 hereof.

**4.2 No Interference with Mission Critical Communications.** . Tenant shall not operate its Antenna Facilities in such a manner as to cause interference with City radio communications at any time during the Term of this Lease, including all radio communications utilized at the Property by law enforcement, aviation, and public safety authorities of federal law (i.e., Federal Aviation Administration, Department of Homeland Security, Drug Enforcement Administration, Department of Defense, Department of State, and Environmental Protection Agency), state law (i.e., Texas Department of Public Safety, and Bexar County Sheriff's

Department), and City Ordinances and regulations (i.e., City of San Antonio Emergency Communications Radio System). In the event Tenant's Antenna Facilities interfere with Landlord's emergency communications radio system, Tenant will be required to cease the interference immediately upon receiving notice from Landlord. In the event such interference cannot be remedied within 24 hours, Tenant shall shut down its Antenna Facilities (except for intermittent testing to determine the cause of such interference) until such interference is remedied.

**4.3 Radio Frequency Compliance Tests.** On an annual basis, Landlord may, at Tenant's expense, perform tests as necessary to determine compliance of the Antenna Facilities and equipment located on the Premises with applicable Federal radio frequency exposure limit rules, currently set forth at 47 C.F.R. Section 1.1310, or subsequent applicable Federal rules as from time to time in effect. Landlord may perform additional antenna radio frequency tests at Landlord's expense to determine whether Tenant's Antenna Facilities and equipment are in compliance with applicable Federal radio frequency exposure limit rules. If any such tests determine that Tenant is not in compliance with applicable radio frequency exposure limit rules, Tenant shall shut down all communications equipment on the Premises (except for intermittent testing and work necessary to bring it into compliance) until subsequent tests, which tests shall be at Tenant's sole expense, again show compliance with such rules. If Landlord performed a test resulting in a finding that Tenant is not in compliance with applicable Federal radio frequency exposure limit rules, Tenant shall reimburse Landlord for actual cost incurred by Landlord in performing such test.

**4.4 Initial Radio Frequency Compliance Testing.** Tenant shall conduct an initial test for compliance with applicable Federal radio frequency exposure limit rules prior to placing Tenant's equipment on the Premises into commercial operation, and Tenant shall perform additional tests upon any significant change in the equipment on the Premises. All such testing shall be performed by a qualified radio engineer, and a copy of the test results shall be provided to all Parties. If such tests show noncompliance with applicable radio frequency exposure limit rules then in effect, then all communications equipment on the Premises shall be shut down (except for intermittent testing and work necessary to bring it into compliance) until subsequent tests again show compliance with such rules.

**4.5 Reservation of Rights.** Landlord does not grant, and reserves for itself, its lessees, successors and assigns, (i) all mineral rights, seismic rights and rights to oil, gas, other hydrocarbons or minerals on, as to, under or about any portion of the Premises; (ii) ground water rights associated with the Property; (iii) rights to generate electricity from the wind or wind power on, as to or about any portion of the Premises; and (iv) the right to grant to others the rights hereby reserved.

**4.6 Interference with Tenant.** Tenant warrants that its use of the Premises will not interfere with those existing radio frequency uses on the Property, as long as the existing radio frequency user(s) operate and continue to operate within their respective frequencies and in accordance with all applicable laws and regulations. Landlord will not, and will take reasonable efforts to prevent its employees, tenants, licensees, agents or independent contractors from interfering in any way with the Antenna Facilities, the operations of Tenant or the rights of Tenant under this Lease. In the event of an emergency, Landlord may interfere with Tenant's Antenna Facilities, and or the operations of the Tenant or the rights of the Tenant under this Lease as is necessary to address the emergency.

## 5. TENANT IMPROVEMENTS

5.1 **Tenant Improvements.** Tenant shall have the right, at its expense, to erect and maintain on the Premises improvements, personal property and facilities necessary to operate its communications system, including, without limitation, radio transmitting and receiving antennas, microwave dishes, equipment shelters or enclosures and/or cabinets and related cables and utility lines and a location based system, including, without limitation, antenna(s), coaxial cable, base units and other associated equipment (collectively, the "Antenna Facilities") as set forth on and in accordance and compliance with Exhibit A. Exhibit A shall contain a site plan which includes all buildings, structures, equipment cabinets, utility boxes, fences, generators, fuel tanks, backup battery cabinets, and parking; elevation drawings for the location of the Antenna Facilities on the Tower, and equipment cabinets; fence detail; and specifications for all exterior colors, paint and other finishes. Consistent with UDC § 35-385 Tenant's unmanned equipment shelter(s) shall contain no more than 750 square feet of gross floor area and shall be no more than 12 feet in height. Tenant may include photo simulations of what the Property, Building, and Premises will look like upon installation of the Antenna Facilities and incorporate them in Exhibit A. It is understood that the Premises is the area controlled by the Tenant as described in Exhibit A.

5.2 **Approval of Plans.** Prior to commencing construction, Tenant shall use the form attached as Exhibit B to submit plans and specifications for all improvements to Landlord for Landlord's written approval, not to be unreasonably withheld. No improvement, construction, installation or alteration shall be commenced until plans for such work have been approved by the Landlord and the Federal Aviation Administration, if applicable, and all necessary permits have been properly issued. For purposes of this Lease, Tenant's plans and specifications for the initial construction of the Antenna Facilities are deemed approved by Landlord.

5.2.1 **Modification of Premises.** Subject to Section 8.1, during the Term of this Lease, but prior to commencing any network upgrades, or any changes, additions, deletion and/or alterations of the Tenant's property as depicted in Exhibit A, Site Plans – Engineering Design of Improvements, including Reinforcements to the Building, including but not limited to, the addition of antennas, microwave dishes, equipment shelters and/or cabinets and utilities, Tenant shall submit to Landlord in writing detailed engineering design documents for Landlord's review and approval, which such approval shall be granted within twenty (20) business days from Tenant's payment of the applicable administrative fee pursuant to Section 3.4 herein to Landlord. In the event that Landlord's approval is not granted within such twenty (20) day time period, Tenant shall notify Landlord by letter or by email documenting Landlord's failure to review and approve within the requisite time period and shall thereby give Landlord three (3) additional business days in which to approve such engineering design documents and in the event that Landlord fails to complete its review and grant its approval within such three (3) business day period, Tenant's engineering design documents will be deemed approved. If Landlord reasonably determines that the engineering design documents submitted by Tenant are incomplete or otherwise contrary to local regulations or Landlord's contractual commitments, the time taken by Tenant to correct such insufficiencies shall be considered outside of the scope of the above required time periods for the Landlord's review. Tenant shall not commence work on any such network upgrades, changes, additions, deletion and/or alterations prior to Landlord approving such upgrades, changes, additions, deletion and/or alterations in writing unless such has been deemed approved as provided hereinabove.

If applicable, Tenant shall also obtain written approval from the Federal Aviation Administration. Review of such engineering design documents, other than routine maintenance, will be subject to an administrative fee. Any change that requires additional cabling, parking, or ground space will be subject to an adjustment in rent. All amended engineering design documents will be incorporated into this Lease and will become part of Exhibit A. Notwithstanding anything in this Lease to the contrary, Landlord's review of the engineering design documents submitted by Tenant shall be limited solely to a review for completeness and compliance with local regulations and Landlord's contractual commitments and shall not result in an increase in Tenant's rent or a denial of Tenant's proposed changes, and shall not be unreasonably withheld, conditioned or delayed. Landlord further agrees that Tenant shall have the right to install RRH units and equipment related thereto as part of its initial installation. If such RRH units and related equipment are not installed as part of the initial construction, Tenant will provide notice to Landlord of the proposed installation which will be considered a maintenance operation not subject to an administrative fee. Any subsequent network upgrades that may include replacement and/or addition of RRH units and related equipment will be subject to the same notice requirement set forth in the preceding sentence.

## 6. CONSTRUCTION

**6.1 No Construction Liens.** Tenant shall cause all construction to occur lien-free and in compliance with all applicable laws and ordinances. If any lien is filed against the Premises, Building, or Property as a result of acts or omissions of Tenant or Tenant's employees, agents or contractors, Tenant shall discharge the lien or bond the lien off or otherwise reasonably secure the lien within sixty (60) days after Tenant receives written notice that the lien has been filed.

**6.2 No Interference with Construction.** Landlord acknowledges that except for Tenant's non-compliance with this Lease it shall not interfere with Tenant's construction within the Premises including, without limitation, attempting to direct construction personnel as to the location of or method of installation of the Antenna Facilities. However, Tenant will provide evidence to Landlord that Tenant's placement of the Antenna Facilities will not result in subjecting Landlord's employees, contractors, and invitees with access to the Building and Property to unacceptable levels of radio emissions in violation of FCC regulations. Notwithstanding the foregoing, Tenant's construction activities shall not interfere with public ingress and egress to the Building.

**6.4 Backup Generation.** Tenant has the right to install and maintain a permanent backup generator at ground level. Such permanent backup generator shall be for Tenant's sole and exclusive use.

**6.5 Equipment Shelters or Enclosures.** Tenant will be required to install equipment shelter(s) or enclosure(s) on or inside the Building or at ground level on the Property, in compliance with UDC § 35-385. Tenant may not install lead acid batteries in equipment shelters or enclosures unless such batteries are valve regulated lead acid batteries, and will not be required to share its equipment shelter(s) or enclosure(s) with other parties that may collocate on the Tower. Access to equipment shelters or enclosures will be via locked gates and doors.

**6.6 Relocation of Utility Facilities.** If installation of Antenna Facilities results in the necessary relocation of any utility facilities of third parties on City of San Antonio rights-of-

way, private easements, the Property, or the Building, Tenant shall be responsible for paying the cost for the relocation of utility facilities as appropriate to complete construction.

## 7. UTILITY FACILITIES

7.1 **Installation of Utility Facilities.** Tenant shall have the right to install utility lines serving the Premises, at Tenant's expense, and to improve the present utilities on the Building or Property, all at Tenant's expense. Landlord agrees to use reasonable efforts in assisting Tenant to acquire necessary utility service. Tenant shall install separate meters for utilities on the Building or Property used by Tenant. Tenant shall pay when due all charges for utilities serving the Premises during the Term of the Lease.

## 8. MAINTENANCE

8.1 **Maintenance of Antenna Facilities.** Tenant shall, at Tenant's expense, keep and maintain the Antenna Facilities now or hereafter located on the Building and Property in commercially reasonable condition and repair during the Term of this Lease, normal wear and tear and casualty excepted. Tenant shall have the right to conduct testing and maintenance activities, and repair and replace the Antenna Facilities at any time during the Term of this Lease. Notwithstanding anything in this Lease to the contrary, Tenant shall have the right to make any maintenance adjustments to the Antenna Facilities including, but not limited to modifications or swaps of antennas or other equipment. Such maintenance activities shall not require the Landlord's consent or approval; however, Tenant shall notify Landlord of equipment modifications or swaps pursuant to subsection 5.2.1 and Tenant shall adhere to applicable security protocols to contractors working at the airport.

8.2 **Signage.** Tenant may not place or allow the placement of any signs or graffiti on the Premises, except for those required for emergency notification and identification, or as required by law or rule. After thirty (30) days' notice to remove, Landlord at any time may enter the Premises and undertake any activities necessary to abate or remove graffiti located therein. Tenant shall reimburse Landlord all costs incurred by Landlord in connection with such abatement or removal within thirty (30) days of Landlord's presenting Tenant with a statement of such costs.

8.3 **Facilities Management.** Tenant shall, at its own expense, maintain the Premises and all of Tenant's improvements, equipment and other personal property on the Premises in good working order, condition and repair. Tenant shall keep the Premises free of debris and anything of a dangerous, noxious or offensive nature or which would create a hazard or source of undue vibration, heat, noise or interference. If Tenant's lack of maintenance creates a public hazard or endangers the health or safety of Landlord's employees, agents or licensees accessing the Building or Property, the Tenant will address the situation within ten (10) days of receiving notice from Landlord, unless a longer timeframe is mutually agreed to by the Parties. Failure to comply will serve as grounds for termination of this Lease pursuant to Section 10.1.1 hereof.

8.4 **Building Maintenance and Repair.** Landlord will maintain and repair the Property and access thereto, the Building and the Tower, and all areas of the Premises where Tenant does not have exclusive control, in good and tenantable condition, subject to reasonable wear and tear and damage from the elements. Tenant shall promptly repair any damage to the Building caused by its installation of the Antenna Facilities. In the event, the Tenant's installation of Antenna Facilities results in water leakage during rain events the Tenant shall be responsible

for repairing the roof and all water damage to the Building caused by Tenant, including replacing the roof if necessary. Tenant shall respond with necessary repairs within 24 hours of receiving notice of evidence of damage to the Building.

**8.5 Material Improvements and Alterations.** Tenant shall not construct any material improvements or structures not otherwise allowed under the terms of this Lease, nor shall Tenant make any material physical alterations other than repairs in the ordinary course of business. Any material physical improvements and/or alterations over and above the plans provided in Exhibit A, including but not limited to network upgrades, not in compliance with subsection 5.2 shall be considered impermissible uses of the Premises.

## 9. ACCESS

**9.1 Access to Property and Premises.** As partial consideration for Rent paid under this Lease, Landlord hereby grants Tenant non-exclusive access to the Property and Building for ingress, egress, and utilities installation and maintenance, which include, but are not limited to, the installation of power and telephone service cables, and to access and service the Premises and the Antenna Facilities at all times during the Term of this Lease. Tenant shall have 24-hours-a-day, 7-days-a-week access to the Premises, including the common areas of the Building ("Access") at all times during the Term of this Lease, consistent with the regulations applicable to the Property, Building, and Premises. Tenant shall use the Premises and any City facilities to which it is granted access under this Lease with the same degree of care as it accords its own property, and shall in no way interfere with the operations of the Property or Building, or any City department or agency operating on the Property. Further, Tenant shall adhere to and in no way act in conflict with 49 CFR Part 1542 Airport Security or the TSA-approved security plan for the San Antonio International Airport. Landlord and its agents shall have the right to enter the Building and Premises at reasonable times to examine and inspect the Tower, Antenna Facilities and the Premises; however, Landlord, its employees or agents shall not impede or deny Access to Tenant, its employees, agents, or licensees. Upon at least twenty-four (24) hours' prior notice to Tenant, Landlord shall have the right to enter and inspect the Premises, and upon notifying Tenant, the right to inspect the Tenant's equipment shelter or enclosure. In the event of an emergency, Landlord may at its discretion withhold notice and enter and inspect the Premises and have the right to inspect Tennant's equipment and shelter or enclosure. In the event that Landlord must limit or prohibit access, or otherwise require the shutting down of Tenant's services as the result of an emergency, Landlord shall permit Tenant to place a temporary Antenna Facility (Cell on Wheels or similar installation) on Landlord's Property or at some other location acceptable to both Tenant and Landlord, at Landlord's costs until such time as Tenant's access and/or services are fully restored

**9.2 Photo Badges Required.** While on the Premises, Tenant's employees and contractors must wear a suitable photo ID badge, to be provided by the Tenant, which includes a nominal 1 1/2" square personal photo, unique logo and labeling that identifies the Tenant and the employee or contractor by name and a telephone number where confirmation of employment may be verified.

**9.3 Electronic Security Cards.** Landlord may install electronic security card readers at the Building and Premises to allow entry to be monitored and logged, in which case Tenant will pay the cost for the issuance of security cards to authorized personnel at the rate specified in Exhibit C.

9.4 **Escort Charges.** In the event the Property and/or Building has been designated a high security campus or facility, which requires entry by escort, Tenant will incur escort charges as specified in Exhibit C and will adhere to all relevant security policies. To this end, said Director shall have authority to disapprove an activity of the Tenant and/or any sublessee, on the basis of a risk assessment. The parties understand that Airport premises are not intended for use involving refining, processing, manufacturing, maintenance, overhaul, or similar heavy industrial activities entailing use, storage, manufacture, or transport of critical volumes of regulated or hazardous materials or toxic chemicals. For purposes of this Lease Agreement, "critical volumes" are those which, in the discretion and judgment of the Aviation Director, pose or may pose an unreasonable risk to Airport property, its occupants, employees or the traveling public. Discretion and judgment are reserved to the Aviation Director due to the fact that combinations and proximity of such materials are synergistic. The Aviation Director's decision in this regard is final, and said Director shall exercise such review prior to any lease or sublease, from time to time, as he may deem necessary for appropriate risk assessment of existing leases
