- (b) In accordance with the guidelines below, that neither it nor its principals are presently debarred, suspended, proposed for debarment, declared ineligible or voluntarily excluded from participation in this transaction by any Federal department or agency OR where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this offer.

GUIDELINES FOR CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION – LOWER TIER COVERED TRANSACTIONS

By signing and submitting this offer, the prospective lower tier participant is providing the certification set out below.

1. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

2. The prospective lower tier participant shall provide immediate written notice to the person to which this offer is submitted if, at any time, the prospective lower tier participant learns that its certification was erroneous when submitted or had become erroneous by reason of changed circumstances.

3. The terms covered transaction, debarred, suspended, ineligible, lower tier covered transaction, participant, person, primary covered transaction, principal, proposal, and voluntarily excluded, as used in this clause, have the meaning set out in the Definitions and Coverage sections of rules implementing Executive Order 12549. The person to whom this offer is submitted may be contacted for assistance in obtaining a copy of those regulations.

4. The prospective lower tier participant agrees by submitting this offer that, should the proposed covered transaction be entered into, it knowingly shall not enter into any lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, declared ineligible or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.

5. The prospective lower tier participant further agrees, by submitting this offer, that it will include this clause titled "Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion – Lower Tier Covered Transaction," without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions.

6. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under 48 CFR part 9, subpart 9.4, debarred, suspended, ineligible, or voluntarily excluded from covered transactions, unless it knows that the certification is erroneous. A participant may decide the method and frequency by which it determines the eligibility of its principals. Each participant may, but is not required to, check the List of Parties Excluded from Federal Procurement and Nonprocurement Programs.

7. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

8. Except for transactions authorized under Paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under 48 CFR part 9, subpart 9.4, suspended, debarred, ineligible or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension and/or debarment.

2. DISCREPANCIES AND INTERPRETATION

- (a) Prospective Respondents shall notify Consultant and City in writing at minimum eleven (11) calendar days prior to scheduled submittal deadline if discrepancies and ambiguities or omissions are found in the Project Plans and/or Specifications, or if further information or interpretation is desired.
- (b) Answers by Consultant and/or City will be given in writing to all prospective Respondents in Addendum form. All provisions and requirements of such addenda will supersede or modify affected portions of the Project Plans and/or Specifications. All addenda will be incorporated in and bound with the Contract Documents. No other explanation or interpretation will be considered official or binding upon the City.

3. PREPARATION OF BIDS

Offers will be prepared in accordance with the following:

- (a) All information required by the invitation for offers shall be furnished or the bid may be deemed non-responsive.
- (b) Respondent shall complete the "020 Bid Form for 020 Proposal Form" and include the completed form in City's solicitation documents. Failure to complete and submit this form may render Respondent's proposal nonresponsive.
- (c) If applicable, Respondents shall submit unit pricing either on the forms provided by the City or its Consultant or submit an original computer printout sheet bearing certification by and signature for the offering firm. The unit prices shown on acceptable printouts will be unit prices used to tabulate the offer and used in the contract if awarded by City. As a minimum, computer printouts must contain the information and in the arrangement shown on the 025 Unit Pricing form included in City's solicitation documents. Proposals with unit prices by computer printout may be considered nonresponsive if:
 - 1. The proposal does not bear the certification verbatim, as shown on the example in the City's solicitation documents.
 - 2. The computer printout is not signed in the name of the firm to whom the proposal was issued.
 - 3. The computer printout omits or alters required offer items or includes items not shown in the City's solicitation documents or specifications.

If the proposal submitted by Respondent contains both the form furnished by City, completed according to the instructions, and also a computer printout, completed according to the instructions, only one will be considered. In such a situation, the offer prices shown on the computer printout will be used to determine the offer.

- (d) Respondents shall submit a unit price for each Work element pay item for which an offer is requested, except in the case of an alternate. In such a case, the procedure is as follows:
 - 1. Additive Alternate: In the case of Additive Alternates, unit prices must be submitted for the base offer and the items in all proposed additive alternates separately.

2. Substitute Alternate: In the case of a Substitute Alternate (these alternates appear in sets of two or more related alternates), unit prices must be submitted for all the items in the base offer separately and for all the items in one of the related substitute alternates in each set.

- (e) Where there is an error in extension of price, the unit price shall govern.
- (f) If a Respondent detects an error in quantities on the specifications or solicitation documents, unit price shall govern. Respondent shall notify City of such error by indicating in the comments section of the bid/pricing form or beside the item on City's proposal form or computer printout referenced in 3. (e) above. Respondent should not attempt to correct the error by inflating unit pricing.
- (g) In the event additional or extra blank spaces remain after completion of the various forms, Contractor shall enter the terms "none" or "not applicable" on any remaining blank spaces as an indication that the Contractor has considered City requests for information on every line presented. Any blank unit prices will be tabulated and evaluated as "no cost" to the City.
- (h) The combined total offers, for Mobilization and Preparing Right-of-Way shall not exceed fifteen percent (15%) of the total project offer. The 15% allowed for Mobilization and Preparing Right-of-Way will be calculated based upon the total of all offer components. An offer containing a combined total for Mobilization and Preparing Right-of-Way in excess of fifteen (15%) percent may be considered unbalanced and may be rejected.
- (i) The unit price shall be inserted on the 025 Unit Pricing Form in the "UNIT BID PRICE" column. Extensions, which are the unit prices multiplied by the approximate quantities for each item, shall be inserted in figures in the amount column. Offers shall be submitted only on City's 025 Unit Pricing Form or approved computer printout sheets. Offers not so submitted will be considered nonresponsive. Conditional offers or unbalanced offers will be considered nonresponsive.
- (j) Separated Contract: This project will be offer as a "separated contract", in accordance with a recent amendment to section 151.311 of the tax code, in order for the contractor to claim a tax exemption on the contract price of materials.
