

HISTORIC AND DESIGN REVIEW COMMISSION

June 17, 2015

Agenda Item No: 19

HDRC CASE NO: 2015-250
ADDRESS: 125 W MISTLETOE - Garage
LEGAL DESCRIPTION: NCB 1836 BLK 11 LOT 12
ZONING: R4 H
CITY COUNCIL DIST.: 1
DISTRICT: Monte Vista Historic District
APPLICANT: Office of Historic Preservation
OWNER: Christopher Soulsby
TYPE OF WORK: Review and recommendation of contributing status
REQUEST:

The applicant is requesting review and recommendation of contributing status for the garage structure at 125 W. Mistletoe

APPLICABLE CITATIONS:

Unified Development Code Sec. 35-614 Demolition

(f) The historic preservation officer may approve applications for demolition permits for non-contributing minor outbuildings within a historic district such as carports, detached garages, sheds, and greenhouses determined by the historic preservation officer to not possess historical or architectural significance either as a stand-alone building or structure, or as part of a complex of buildings or structures on the site.

Unified Development Code Sec. 35-619 Non-Contributing Structures

Requests for determination of whether an object, building, structure or sign are contributing or non-contributing to a historic landmark or historic district shall be made on an application obtained from the historic preservation officer through the office of historic preservation. The historic preservation officer shall review the application for completeness and shall make a determination whether the subject of the application is contributing or non-contributing within thirty (30) days of deeming the application complete. The historic preservation officer may, at his or her discretion, present the form to the historic and design commission for their recommendation.

FINDINGS:

- a. Sanborn Maps show the garage at 125 W. Mistletoe was constructed sometime between 1924 and 1951 to replace a smaller garage that was likely built soon after the main house was constructed.
- b. According to the Monte Vista Historic District survey, the main house was constructed in 1908. The garage is listed as a contributing structure to the district.
- c. Consistent with Section 35-614 (f) of the UDC, demolition of a structure located within a historic district may be approved if the historic preservation officer determines the building does not possess historical or architectural significance either as a stand-alone building or as part of a complex of structures on site. The existing garage was built years after the main house was built to replace an earlier structure, and although it may be of historic age, the garage has been severely modified and these modifications have diminished the integrity of the structure.

RECOMMENDATION:

Staff recommends the HDRC support the determination of non-contributing status for the garage with the stipulation that materials are salvaged during demolition.
