September 10, 2015

Mayor and City Council:

Enclosed is the proposed Fiscal Year 2016 Audit Plan for the Office of the City Auditor. The plan includes 28 performance and IT audits, 8 follow-up audits, 5 contract compliance audits for high profile contracts, and 1 attestation project for a total of 42 projects. As in years past, the plan includes time allocated for potential City Council and Management requested projects.

In developing the plan, my Office sought input from the Mayor, City Council Members, the City Manager, Executive Leadership Team and select Department Directors. We added additional input based on local government audit industry trends. This effort resulted in an extensive list of potential areas for audit within the City. We then prioritized these potential areas based on a high-level risk assessment considering factors such as financial impact, compliance and prior issues, and developed the enclosed proposed FY2016 Audit Plan.

I believe this plan provides adequate audit coverage across City departments and recognizes concerns of City Council and Management.

This proposed plan was discussed and approved at the August 18 City Council Audit Committee meeting. As required, I am now requesting approval of the proposed plan by the full Council.

I welcome discussion and am available at your convenience.

Respectfully,
