Re: Appointment of Mark Bemis, P.E., LEED®AP, to the Building-Related and
Fire Codes Appeals and Advisory Board

Dear Ms. Kastner:

Professional Engineers in Private Practice (PEPP), Bexar County Chapter, strongly recommends Mark Bemis, P.E., LEED®AP, to be appointed as the primary member to the Building-Related and Fire Codes Appeals and Advisory Board.

With over 30 years of industry experience, Mark has been directly involved in supervising and managing projects, as well as designing for electrical power distribution, lighting and life safety systems for all types of commercial and institutional building projects, with a primary emphasis on healthcare and educational facilities.

In addition, Mark holds memberships with the Association for Learning Environments and the US Green Building Council, Illuminating Engineering Society, National Fire Protection Association and National Society of Professional Engineers.

Mark has demonstrated he has the educational and professional expertise as an electrical engineer, which will allow him to deal with the complex issues brought before this Appeals Board.

The Chapter strongly believes the City of San Antonio will continue to be well served by having Mark Bemis, P.E., on the Building-Related and Fire Code Appeals and Advisory Board.

Sincerely,

A handwritten signature in blue ink that reads "Travis E. Wiltshire, P.E.".

Travis E. Wiltshire, P.E.
Chapter President

Professional Experience narrative:*Professional Engineer - TX PE (97273) and LEED Green Associate**UT Health Science Center San Antonio (September 2009 to Present)*

Currently I, along with another PE, manage the mechanical engineering department. Duties include HVAC and plumbing design for a research university, managing fire alarm and protection projects, coordinating design requirements with other disciplines and consultants, code compliance, and construction administration.

Facility types at the university include offices, laboratories, animal holding rooms, BSL-3s and medical and dental suites. The campus systems include chilled water, heating water, steam, and laboratory plumbing systems. I also coordinate campus requirements for recycled water and energy rebates with SAWS and CPS Energy.

Jacobs (May 2007 to November 2009)

As a professional engineer at Jacobs my responsibilities as a design engineer expanded. I was a lead mechanical engineer. In addition to design and coordination, I edited the project specifications and controls. I worked on energy audits and facility condition assessments. Many of the projects were federal projects and had to meet various regulatory and departmental requirements. The building types I worked on were high rise office buildings, border patrol stations and military installations.

Goetting and Associates (October 2000 to May 2007)

I was a design engineer. Duties and responsibilities associated with HVAC design include: calculations, equipment selection, system design and layout. I also coordinated system requirements with other disciplines. I completed IECC and LEED point reports. I also verified code compliance and was involved with construction administration. I designed buildings with the following systems types: VAV and CV, chilled water and DX, hot water and electric heat. I worked on renovations and new construction for: offices, schools, laboratories, IT rooms, Auditoriums, gymnasiums, high rise buildings, post office, and a courthouse.

Community Service Narrative:

Recently I have served as president of my home owners association. We replaced our street signs and repaired the exterior wall. We worked with our city councilman to address traffic and crime issues, including getting street lights added to a street adjacent to the neighborhood.

Most of my community service has been through the organizations I have been associated with. Every year the Alamo chapter of ASHRAE provides support to our local engineering students interested in careers in HVAC. The years I was on the board we provided scholarships. The amount varies per year depending on resources and applicants. We set the criteria, announce the scholarships and review the applications. We announce the winners at a monthly meeting. The year I was president I brought in a representative of the Texas Board of Professional Engineers and had him review the results of the legislative session and how it affected the professional engineers. We invited other local engineering societies to that meeting.

While I held leadership positions with the YD's I participated (including planning) in a variety of non-partisan community service projects such as volunteering for Habit for Humanity and the Food Bank. We held a USO drive to collect items to be sent to troops over-seas. We held fund raising mixers for the Battered Women's Shelter (twice), and the San Antonio AIDS foundation. For several years we volunteered at the Jimenez Thanksgiving Dinner and with Elf Louise. One year we also volunteered for the Fest of Tails for the San Antonio Parks Foundation.

Outside of community service associated with the organizations I have held leadership positions with, my wife and I volunteered for Habit for Humanity with our church, St. Francis of Assisi and a few years ago also organized a raffle and a billiard challenge to raise money for our friends Mom, who was battling cancer. Last year, I was a on a bowling team raising money for Big Brothers Big Sisters.

Interest narrative:

I have deep passion for San Antonio. I also have an interest in politics and local government. I believe continuing to serve on this board would be the best way to fuse my talents, experience and interest and provide an interesting way of serving my community.

It is an interesting challenge to enforce the code but be open to ideas that compliment the codes intent and building conditions. It was a great experience reviewing the new codes. As a sub-committee chairman I made sure all voices were heard in a fair and effective manner. I also had to make sure the meetings kept moving forward so we could send the amendments to council on time.

My expertise as a mechanical engineer with over 10 years of experience in design and facilities management will be an asset to the board. I have designed systems for a variety of building types, including high rises. Being in facilities management and working with our physical plant operator, utilities superintendent and Director of Operations and Maintenance gives me a perspective of seeing things not just from the design side but from an operation stand point. I also served for several years as an officer, including president, of the local Alamo chapter of ASHRAE, the American Society of Heating Refrigeration and Air conditioning Engineers. I want to continue to bring this knowledge, experience and perspective to the board. I enjoyed serving as vice chair of this new board and look forward to continuing to serve on the board in the mechanical engineering position.

Good Morning Mimi,

I am writing you to re-nominate Chris Garcia on behalf of the Alamo ASHRAE chapter. I am the chapter president, and we would like to nominate Chris to continue to serve our community in this role.

On another note, are you still looking to fill the HVAC contractor union spot? I might have a person in mind.

Thanks,

RE: Re-appointment of Robert G. Hanley, AIA to the Building Related and Fire Code Appeals and Advisory Board.

Dear Ms. Kastner:

AIA San Antonio, a chapter of The American Institute of Architects, with 615 local professional members, strongly recommends Robert G. Hanley, AIA be re-appointed as the primary member to the Building Related & Fire Code Appeals and Advisory Board.

As a former Planning Commissioner, and a current member of the Technical Advisory Committee (TAC) to the Planning Commission and a member of the PEPP/AIA/DSD Task Force; Robert has demonstrated that he has the educational and professional expertise as an architect that will allow him the deal with the complex issues brought before this Appeals Board. Robert's long history of volunteer service to the City of San Antonio qualifies him to serve the best interest of the City of San Antonio on this board.

In addition, Robert has served in the past on the Mayor's Vested Rights Task Force and the Sound Attenuation Overlay District Task Force to address concerns around Camp Bullis.

Mr. Hanley has been a licensed Architect in the State of Texas for over 30 years and currently practices as a Project (or Program) Management Consultant dealing with complex projects and issues; and thereby well-versed in the technical issues associated with the Building Related & Fire Code Appeals and Advisory Board.

Our Chapter strongly believes that the City of San Antonio will continue to be well served by having Robert Hanley, AIA on the Building Related & Fire Code Appeals and Advisory Board.

Sincerely,

A handwritten signature in black ink, reading 'Christine Viña, AIA'.

Re: Building Related & Fire Codes Appeals & Advisory Board

Ms. Vacek:

The Association Builders & Contractors-South Texas Chapter recommends and urges the appointment of the following individuals to the Commercial Building Contractor positions on the Building-Related and Fire Codes Appeals and Advisory Board:

Victor Huerta (Turner Construction) – Primary Member
Blake Larue (Joeris General Contractors) – Alternate Member

We also support the appointment of individuals supported by:

- Plumbing Heating & Cooling Contractors Association for the Master Plumber (open shop) positions,
- Independent Electrical Contractors Association for the Master Electrician (open shop) positions,
- Air Conditioning Contractors Association for the AC and Refrigeration Contractor (open shop) positions, and the
- Texas Sign Association for the Master Sign Electrician positions.

Thank you for considering our nominations and recommendations.

Re: Appointment of Michael Reise, P.E., to the Building-Related and
Fire Codes Appeals and Advisory Board

Dear Ms. Kastner:

Professional Engineers in Private Practice (PEPP), Bexar County Chapter, strongly recommends Michael Reise, P.E., to be appointed as the alternate member to the Building-Related and Fire Codes Appeals and Advisory Board.

With over nine years of industry experience, Michael has been directly involved in designing electrical systems for new and renovation work of municipal, health care, educational, military and civic facilities. His areas of electrical expertise include power distribution systems, interior and exterior lighting system design, fire alarm systems and special systems implementation.

In addition, Michael holds memberships with the Association for Learning Environments and the US Green Building Council.

Michael has demonstrated he has the educational and professional expertise as an electrical engineer, which will allow him to deal with the complex issues brought before this Appeals Board.

The Chapter strongly believes the City of San Antonio will continue to be well served by having Michael Reise, P.E., on the Building-Related and Fire Code Appeals and Advisory Board.

Sincerely,

A handwritten signature in blue ink that reads "Travis E. Wiltshire, P.E.".
