WHEREAS, the City could be awarded approximately \$35 million dollars in federal funds for implementation of the overpass project and the design could potentially include four 12-foot lanes (two in each direction) and bicycle and pedestrian amenities on each side that would go over the

UPRR tracks and allows drivers, bicyclists, and pedestrians to avoid the Zarzamora at Frio City Road intersection; and

WHEREAS, a grant award date has not been identified by USDOT, but staff will continue to monitor the updates provided by the agency and in the meantime this Project is currently being considered for the City of San Antonio's 2017-2022 Bond Program; **NOW THEREFORE**,
