Re: Reservation of Karst Mitigation Acres from the Panther Springs Karst Fauna Area Preserve for the Exclusive Use of the City of San Antonio Parks and Recreation Department

This memo will serve as documentation that the Southern Edwards Plateau Habitat Conservation Plan ("SEP HCP") agrees to reserve 90 Karst Mitigation Acres ("credits") for the exclusive use of or assignment of the City of San Antonio Parks Department from the total number of credits generated by the establishment and enrollment of a portion of Panther Springs Park in the City of San Antonio.

The City of San Antonio Parks and Recreation Department will still be required to purchase the credits for the same price as other enrollees at the price stipulated in the SEP HCP, as amended; but the assignment of the credits to individual projects will be at the sole discretion of City of San Antonio Parks and Recreation Department, subject only to the approval process for mitigation determination and enrollment of projects as stipulated in the SEP HCP.

The SEP HCP values the partnership that we have built with the San Antonio Parks and Recreation Department, and we look forward to extending that partnership further.
