Proposals sent to City by facsimile or email shall be rejected.

Modified Proposals. Proposals may be modified provided such modifications are received prior to the time and date set for submission of proposals, and submitted in the same manner as original proposals. For hard copy proposals, provide a cover letter with the proposal, indicating it is a modified proposal and that the original proposal is being withdrawn. For electronic proposals, a modified proposal will automatically replace a prior proposal submission. See below for information on submitting Alternate Proposals.

City shall not be responsible for lost or misdirected proposals or modifications.

Respondents must sign the Signature Page on hard copy proposals and return the RFCSP document to City. For electronic proposals, Respondent's electronic submission, with accompanying affirmations, constitutes a binding signature for all purposes. Respondents are cautioned that they are responsible for the security of their log on ID and password, since unauthorized use could result in Respondent's being held liable for the submission.

Certified Vendor Registration Form. If Respondent has not completed City's Certified Vendor Registration (CVR) Form, Respondent is required to do so prior to the due date for submission of proposals. The CVR form may be accessed at:

<http://www.sanantonio.gov/purchasing/>. Respondents must identify the correct name of the entity that will be providing the goods and/or services under the contract. No nicknames, abbreviations (unless part of the legal title), shortened or short-hand names will be accepted in place of the full, true and correct legal name of the entity.

Correct Legal Name. Respondents who submit proposals to this RFCSP shall correctly state the true and correct name of the individual, proprietorship, corporation, and /or partnership (clearly identifying the responsible general partner and all other partners who would be associated with the contract, if any). No nicknames, abbreviations (unless part of the legal title), shortened or short-hand, or local "handles" will be accepted in lieu of the full, true and correct legal name of the entity. These names shall comport exactly with the corporate and franchise records of the Texas Secretary of State and Texas Comptroller of Public Accounts. Individuals and proprietorships, if operating under other than an individual name, shall match with exact Assumed Name filings. Corporate Respondents and limited liability company Respondents shall include the 11-digit Comptroller's Taxpayer Number on the General Information form found in this RFCSP as Attachment A, Part One. If an entity is found to have incorrectly or incompletely stated its name or failed to fully reveal its identity on the General Information form, the Director of the Finance Department shall have the discretion, at any point in the contracting process, to suspend consideration of the proposal.

Alternate Proposals. Alternate proposals may be allowed at the sole discretion of City.

Hard Copy Alternate Proposals. Alternate proposals must be submitted in separate sealed envelopes in the same manner as submission of other proposals. Alternate proposals must be marked consecutively on the envelope as Alternate Proposal No. 1, 2, etc. Failure to submit alternate proposals in separate envelopes may result in rejection of a proposal.

Electronic Alternate Proposals. All alternate proposals submitted electronically are recorded with original proposals when submitted electronically.

Catalog Pricing. (This section applies to proposals using catalog pricing.)

The proposal will be based on manufacturer's latest dated price list(s). Said price list(s) must denote the manufacturer, latest effective date and price schedule.

Respondents shall be responsible for providing one copy of the manufacturer's catalog for each manufacturer for which a proposal is submitted. Respondent shall provide said catalog at the time of submission of its proposal. Manufacturers' catalogs may be submitted in any of the following formats: paper copy or CD ROM for proposals submitted on paper, or PDF file for proposals submitted electronically.

Respondents may submit price lists other than the manufacturer's price list. Said price list(s) must denote the company name, effective date and price schedule. These price lists are subject to approval of City's Purchasing Division – Finance Department.

Specified items identified herein, if any, are for overall proposal evaluation and represent the commonly and most used items. Net prices entered for those specified items must reflect the actual price derived from quoted price list less all discounts offered.

Restrictions on Communication.

In accordance with §2-61 of the City Code, Respondents are prohibited from communicating with 1) City officials, as defined by §2-62 of the City Code of the City of San Antonio, regarding the RFCSP or proposal from the time the RFCSP has been released until the contract is posted for consideration as an agenda item during a meeting designated as an A session; and 2) City employees from the time the RFCSP has been released until the contract is awarded.

Restrictions extend to "thank you" letters, phone calls, emails and any contact that results in the direct or indirect discussion of the RFCSP and/or proposal submitted by Respondent.

Violation of this provision by Respondent and/or its agent may lead to disqualification of Respondent's proposal from consideration.

Exceptions to the restrictions on communication with City employees include:

Respondents may ask verbal questions concerning this RFCSP at the Pre-Submittal Conference.

Respondents may submit written questions, or objections to specifications, concerning this RFCSP to the Staff Contact Person listed below until 10:00 am CT, July 6, 2018. JORGE.FIGUEROA@SANANTONIO.GOV

Respondents may provide responses to questions asked of them by the Staff Contact Person after proposals are received and opened. The Staff Contact Person may request clarification to assist in evaluating Respondent's response. The information provided is not intended to change the proposal response in any fashion. Such additional information must be provided within two business days from City's request. Respondents may also respond to requests by the Staff Contact Person for best and final offers, which do allow respondents to change their proposals. Requests for best and final offers will be clearly designated as such. During interviews, if any, verbal questions and explanations will be permitted. If interviews are conducted, respondents shall not bring lobbyists. The City reserves the right to exclude any persons from interviews as it deems in its best interests.

A Respondent that has an ongoing business relationship with the City may communicate with City employees to the extent necessary to perform the Respondent's duties and obligations related to that business relationship.

Upon completion of the evaluation process, Respondents shall receive a notification letter indicating the recommended firm and anticipated City Council agenda date, and a review of the solicitation process.

City reserves the right to contact any Respondent to negotiate if such is deemed desirable by City. Such negotiations, initiated by City staff persons, shall not be considered a violation by Respondent of this section.

Pre-Submittal Conference.

If a Pre-Submittal Conference is scheduled, it will be held at the time and place noted on the Cover Page. Respondents are encouraged to prepare and submit their questions in writing in advance of the Pre-Submittal Conference in order to expedite the proceedings. City's responses to questions received by this due date may be distributed at the Pre-Submittal Conference and posted with this solicitation. Attendance at the Pre-Submittal Conference is optional, but highly encouraged. Site Tours, if any, will begin at the conclusion of the conference.

This meeting place is accessible to disabled persons. Call the Staff Contact Person for information on the location of the wheelchair accessible entrance, or to request an interpreter for the deaf. Interpreters for the deaf must be requested at least 48 hours prior to the meeting. For other assistance, call (210) 207-7245 Voice/TTY.

Any oral response given at the Pre-Submittal Conference that is not confirmed in writing and posted with this solicitation shall not be official or binding on the City.

Changes to RFCSP.

Changes to this RFCSP made prior to the due date for proposals shall be made directly to the original RFCSP. Changes are captured by creating a replacement version each time the RFCSP is changed. It is Respondent's responsibility to check for new versions until the proposal due date. City will assume that all proposals received are based on the final version of the RFCSP as it exists on the day proposals are due.

No oral statement of any person shall modify or otherwise change or affect the terms, conditions or specifications stated in the RFCSP.

Preparation of Proposals.

All information required by the RFCSP must be furnished or the proposal may be deemed non-responsive and rejected. Any ambiguity in the proposal as a result of omission, error, unintelligible or illegible wording shall be construed in the favor of City.

Proposal Format. Each proposal shall be typewritten, single spaced on 8 ½" x 11" white paper. If submitting a hard copy, place proposal inside a three ring binder or other securely bound fashion. The use of recycled paper and materials is encouraged. Unnecessarily elaborate brochures, artwork, bindings, visual aides, expensive paper or other

materials beyond that sufficient to present a complete and effective submission are not required. Font size shall be no less than 12-point type. All pages shall be numbered and in the case of hard copy submissions, printed one-sided. Margins shall be no less than 1" around the perimeter of each page. A proposal response to the RFCSP General Information Form may not exceed 10 pages in length. Websites or URLs shall not be submitted in lieu of the printed proposal or electronic submission through City's portal. **ORIGINAL and/or ELECTRONIC** proposals must include **ALL** the sections and attachments in the sequence listed in the RFCSP Section 003, Part B, Submission Requirements, and each section and attachment must be indexed and, for hard copy submissions, **ONLY REQUIRED SECTIONS AND ATTACHMENTS listed by asterisk in Section 003, Part B, Submission Requirements MUST** be divided by tabs and indexed in a Table of Contents page. For electronic submissions, whether through the portal or on a CD/USB flash drive, each separate section should be attached as a separate file and labeled with the heading indicated. Failure to meet the above conditions may result in disqualification of the proposal or may negatively affect scoring.

Correct Legal Name. If Respondent is found to have incorrectly or incompletely stated the name of the entity that will provide goods and/or services, the proposal may be rejected.

Line Item Proposals. Any proposal that is considered for award by each unit or line item must include a price for each unit or line item for which Respondent wishes to be considered. All proposals are awarded on the basis of low line item, low total line items, or in any other combination that serves the best interest of City, unless City designates this solicitation as an "all or none" proposal in the Supplemental Terms & Conditions.

All or None Bid. Any proposal that is considered for award on an "all or none" basis must include a price for all units or line items. In an "All or None" bid, a unit price left blank shall result in the proposal being deemed nonresponsive and disqualified from consideration. An "All or None" bid is one in which City will award the entire contract to one respondent only.

Delivery Dates. Proposed delivery dates must be shown in the proposal where required and shall include weekends and holidays, unless specified otherwise in this RFCSP. Proposed delivery times must be specific. Phrases such as "as required", "as soon as possible" or "prompt" may result in disqualification of the proposal. Special delivery instructions, if any, may be found in the Specifications / Scope of Services section of this document, or in the Purchase Order.

Tax Exemption. The City of San Antonio is exempt from payment of federal taxes, and State of Texas limited sales excise and use taxes. Respondents must not include such taxes in proposal prices. An exemption certificate will be signed by City where applicable upon request by Respondent after contract award.

Description of Supplies.

Any brand names, catalog or manufacturer's reference used in describing an item is merely descriptive, and not restrictive, unless otherwise noted, and is used only to indicate quality and capability desired.

Proposals submitted for comparable items must clearly identify the proposed product, model, and type, as applicable, and shall include manufacturer specification sheet(s) for each proposed item with proposal response. Product specifications shall be the most current available and be sufficiently detailed and descriptive so as to permit City to determine the item's suitability and compliance with proposal specifications. City shall be the sole judge of equality and suitability of comparable items.

Pro-rata adjustments to packaging and pricing may be allowed at the sole discretion of City.

Samples, Demonstrations and Pre-award Testing. If requested by City, Respondent shall provide product samples, demonstrations, and/or testing of items proposed to ensure compliance with specifications prior to award of the contract. Samples, demonstrations and/or testing must be provided within 7 calendar days of City's request. Failure to comply with City's request may result in rejection of a proposal. All samples (including return thereof), demonstrations, and/or testing shall be at Respondent's expense. Samples will be returned upon written request. Requests for return of samples must be made in writing at the time the samples are provided. Otherwise, samples will become property of City at no cost to City. Samples that are consumed or destroyed during demonstrations or testing will not be returned.

Estimated Quantities for Annual Contracts.

If designation as an "annual" contract is found in the contract's title on the Cover Page of this document, the quantities stated are estimates only and are in no way binding upon City. Estimated quantities are used for the purpose of evaluation. City may increase or decrease quantities as needed. Where a contract is awarded on a unit price basis, payment shall be based on the actual quantities supplied.

Respondents shall thoroughly examine the drawings, specifications, schedule(s), instructions and all other contract documents.

Respondents shall make all investigations necessary to thoroughly inform themselves regarding plant and facilities for delivery of material and equipment, or conditions and sites/locations for providing goods and services as required by this RFCSP. No plea of ignorance by Respondent will be accepted as a basis for varying the requirements of City or the compensation to Respondent.

Confidential or Proprietary Information. All proposals become the property of City upon receipt and will not be returned. Any information deemed to be confidential by Respondent should be clearly noted; however, City cannot guarantee that it will not be compelled to disclose all or part of any public record under the Texas Public Information Act, since information deemed to be confidential by Respondent may not be considered confidential under Texas law, or pursuant to a Court order.

Interlocal Participation.

City may engage in cooperative purchasing with other governmental entities or governmental cooperatives ("Entity" or "Entities") to enhance City's purchasing power. At City's sole discretion and option, City may inform other Entities that they may acquire items listed in this RFCSP. If this contract will be subject to cooperative purchasing, such fact will be indicated in the Supplemental Terms and Conditions portion of this RFCSP. Such acquisition(s) shall be at the prices stated in the proposal, and shall be subject to Respondent's acceptance. Entities desiring to acquire items listed in this RFCSP shall be listed on a rider attached hereto, if known at the time of issuance of the RFCSP. City may issue subsequent riders after contract award setting forth additional Entities desiring to utilize this proposal.

Respondent must sign and submit the rider, if attached to this RFCSP, with its proposal, indicating whether Respondent wishes to allow other Entities to use its proposal. Respondent shall sign and return any subsequently issued riders within ten calendar days of receipt. Respondent's decision on whether to allow other Entities to use the proposal shall not be a factor in awarding this RFCSP.

Costs of Proposing. Respondent shall bear any and all costs that are associated with the preparation of the Proposal, attendance at the Pre-Submittal conference, if any, or during any phase of the selection process.

Rejection of Proposals.

City may reject any and all proposals, in whole or in part, cancel the RFCSP and reissue the solicitation. City may reject a proposal if:

Respondent misstates or conceals any material fact in the proposal; or

The proposal does not strictly conform to law or the requirements of the solicitation;

The proposal is conditional; or

Any other reason that would lead City to believe that the proposal is non-responsive or Respondent is not responsible.

City, in its sole discretion, may also waive any minor informalities or irregularities in any proposal, such as failure to submit sufficient proposal copies, failure to submit literature or similar attachments, or business affiliation information.

Variances and Exceptions to Proposal Terms. In order to comply with State law, respondents must submit proposals on the same material terms and conditions. Proposals that contain material variances or exceptions to the terms and conditions, including additional terms and conditions, will be rejected.

Changes to Proposal Form. Proposals must be submitted on the forms furnished, where forms are provided. Proposals that change the format or content of City's RFCSP will be rejected.

Withdrawal of Proposals. Proposals may be withdrawn prior to the due date for submission. Written notice of withdrawal shall be provided to the City Clerk for proposals submitted in hard copy. Proposals submitted electronically may be withdrawn electronically.

Proposal Opening. Proposals will be opened publicly and the names of the respondents read aloud at 2:30 P.M. – C.T. on the day the proposals are due. Proposal openings are held at Purchasing Division, Riverview Tower, 11th floor, 111 Soledad, Suite 1100, San Antonio, Texas 78205. However, in accordance with state law, the contents will not be revealed until after the contract is awarded.

Evaluation and Award of Contract.

Per Section §252.043 of the Texas Local Government Code, the contract will be awarded to the responsible offeror whose proposal is determined to be the most advantageous to City, considering the relative importance of price and the other evaluation factors included in this RFCSP.

City reserves the right to make an award on the basis of low line item, low total line items, or in any other combination that serves the best interest of City, unless City designates this solicitation as an “all or none” proposal in the Supplemental Terms & Conditions.

A written award of acceptance (manifested by a City Ordinance) and Purchase Order furnished to Respondent results in a binding contract without further action by either party. Vendor must have the Purchase Order before making any delivery.

City reserves the right to utilize historical usage data as a basis for evaluation of proposals when future usages are unable to be determined.

City reserves the right to delete items prior to the awarding of the contract, and purchase said items by other means.

Inspection of Facilities/Equipment.

Depending on the nature of the RFCSP, Respondent's facilities and equipment may be a determining factor in making the proposal award. All respondents may be subject to inspection of their facilities and equipment.

Prospective respondents must prove beyond any doubt to the City Purchasing Administrator that they are qualified and capable of performing the contract's requirements.

Prompt Payment Discount.

Provided Respondent meets the requirements stated herein, City shall take Respondent's offered prompt payment discount into consideration. The evaluation will not be based on the discount percentage alone, but rather the net price as determined by applying the discount to the proposal price, either per line item or total proposal amount. However, City reserves the right to reject a discount if the percentage is too low to be of value to City, all things considered. City may also reject a discount if the percentage is so high as to create an overly large disparity between the price City would pay if it is able to take advantage of the discount and the price City would pay if it were unable to pay within the discount period. City may always reject the discount and pay within the 30 day period, at City's sole option.

City will not consider discounts that provide fewer than 10 days to pay in order to receive the discount.

For example, payment terms of 2% 5, Net 30 will NOT be considered in proposal evaluations or in the payment of invoices. However, payment terms of 2% 10, Net 30 will result in a two percent reduction in the proposal price during proposal evaluation, and City will take the 2% discount if the invoice is paid within the 10 day time period.

Prohibited Financial Interest.

Conflicts of Interest. Respondent acknowledges that it is informed that the Charter of the City of San Antonio and its Ethics Code prohibit a City officer or employee, as those terms are defined in the Ethics Code, from having a financial interest in any contract with City or any City agency such as City-owned utilities. An officer or employee has a “prohibited financial interest” in a contract with City or in the sale to City of land materials, supplies or service, if any of the following individual(s) or entities is a party to the contract or sale: the City officer or employee; his parent, child or spouse; a business entity in which he or his parent, child or spouse owns ten (10) percent or more of the voting stock or shares of the business entity, or ten (10) percent or more of the fair market value of the business entity; or a business entity in which any individual or entity above listed is a subcontractor on a City contract, a partner or a parent or subsidiary business entity.

Respondent is required to warrant and certify that it, its officers, employees and agents are neither officials nor employees of the City, as defined in Section 2-42 of the City's Ethics Code. (Discretionary Contracts Disclosure – form may be found online at <http://www.sanantonio.gov/Ethics/ForCompliance/Vendors-And-Conflict-of-Interest-Reports>)

Unfair Advancement of Private Interests. Pricing and discounts contained in this contract are for use by City departments conducting City business. City employees may not use their positions to obtain special treatment or prices that are not available to the general public.

State of Texas Conflict of Interest Questionnaire (Form CIQ). Chapter 176 of the Texas Local Government Code requires that persons, or their agents, who seek to contract for the sale or purchase of property, goods, or services with the City, shall file a completed Form CIQ with the City Clerk if those persons meet the requirements under §176.006(a) of the statute.

By law this questionnaire must be filed with the City Clerk not later than the 7th business day after the date the vendor becomes aware of facts that require the statement to be filed. See Section 176.006(a-1), Texas Local Government Code.

The City of San Antonio is requesting proposals to be considered for the purchase of a driving simulator system to be utilized by the Solid Waste Management Department (SWMD). The simulator will be used as part of a comprehensive driver training program for employees of SWMD, as well as an assessment tool to conduct pre-employment screenings of perspective applicants.

SWMD will be selecting a vendor based on a combination of bid price, ability to meet the specifications and requirements of the RFP, and of the department's needs.

4.1.1 General Conditions

The complete system shall include a driving simulator, an interfaced instructor console, and all required hardware, software, cables and connecting devices, shipping/handling, delivery, installation, comprehensive warranty, scheduled maintenance, service and repair, technical support, on-site operational training, and continued instructor support. The system will be safety-certified to meet or exceed UL standards, and compliant with federal electronic emissions guidelines so as to prevent interference of safe simulator operation with or by other electronic devices. The system will be of quality construction with a record of reliability as verified through accelerated life, vibration, and ambient environment test results.

4.1.2 System Manufacturer and References

The Manufacturer of the proposed system(s) must currently produce and service complete interactive driving simulator systems designed for the advanced training of Solid Waste Management Department personnel operating rear load trucks, right hand drive automated side load (ASL) trucks, tractor trailers, roll-off trucks, other collection vehicles, automobiles, light trucks and full sized, and special duty trucks.

Respondents shall provide a minimum of three references that are current users of the proposed system. These references should be municipal users, with the referenced organizations having a system delivered, installed, and accepted.

4.1.3 Complete System Requirements

The complete simulator system shall have mutually-compatible hardware and software inclusive of all system software; all audiovisual software related to the simulator curriculum, proprietary scenario-based training, and scenario-generating capabilities; and all installation materials necessary to ensure a fully-functional simulator system that supports the training goals and facilitates interactive driver training as specified in this RFP. All system components should be modular for ease of access, maintenance and repair. All hardware, conduit, etc. for the simulator must be concealed from view.

4.2 Simulator Specifications and Requirements

4.2.1 Simulator Functional Specifications

The simulator system must be able to replicate the driver's compartment, mimics actual vehicle performance, operation, and functionality of various classes of solid waste service and other municipal vehicles as specified in this RFP, with each class operating within its appropriate virtual world. To better replicate a real-world environment, the cab module/driver's compartment must include realistic controls, gauges, indicators, dashboard displays, instrument panels, auxiliary warning/communications devices, driver's seat, safety restraint, steering wheel assembly, joystick mechanism to simulate control of automated arm on ASL, pedal placement controls, and instruments that normally provide critical vehicle-status feedback to the driver and are crucial to measuring driver activity and reaction to road conditions.

4.2.2 Cab module/vehicle classes

The proposed complete simulator system must include the components necessary to simulate the listed vehicle classes, as well as the appropriate complement of virtual-world and scenario software required to effectively train operators of the following vehicle types. (Note: All listed vehicle types use automatic transmission and represent current SWMD vehicles):

- Rear Load Trucks

- RHD Automated Side Load Trucks
- Brush Tractor Trailers
- Brush Grapppler Trucks
- Sedan/Passenger Vehicles
- Light trucks
- Full size specialty trucks

4.2.3 System Frame

The frame should be balanced and shock-mounted and should include black-out panels or other shrouding devices to control the degree to which ambient light bleeds into the simulator environment.

4.2.4 Audio-Visual Components

The A/V system must be of high quality and produce true-color, real-time photo-realistic visual images. Driver simulator system displays at least 180° from the driver's vantage point. The system must provide "Geometric" vision (e.g., everything on screen must be "to scale" from the driver's perspective). The system must use new appliances with all manufacturer warranties intact. All A/V components should be shock-mounted to a stable framework in a manner and configuration that ensures easy repair or replacement of dysfunctional equipment and facilitates upgrades that reasonably offset obsolescence.

4.2.5 Video Display Resolution, Data Update, and Refresh Rate

The video display must meet or exceed a high definition resolution of 1920 x 1080. Video components must have data refresh and update rates (measured in Hz) capable of effectively mitigating image "blink" or "smear." Simulator display panels should be situated so that their frames and/or supporting cabinets closely approximate the normal placement of windshield/door posts for that cab's vehicle class. Objects that traverse display panels within the driver's field of vision must do so with a transition that is smooth and realistic within the context of the scenario in play. The adaptation of virtual reality goggles could be considered assuming the level of realism and functionality meets or exceeds traditional displays.

4.2.6 Audio System

The audio components must be of high quality and interface with the proprietary software to provide the simulator driver with near-realistic, scenario-specific sound. The audio package should appropriately replicate the ambient noise of the in-cabin and external virtual environments so as to provide the driver with meaningful auditory stimulus regarding speed, sound source proximity/direction of travel, weather conditions, road conditions, vehicle and tire performance, engine noise, tire skidding, horns, etc.

4.2.7 Operational Controls

The following controls must be included within the driving compartment and should be operational. All controls must be "hard" (i.e., not simulated on screen), and should be fully functional.

- Ignition switch
- Turn signal switch
- 4-way "hazard" signals
- Windshield wiper switch (multi-speed)
- Automatic transmission gear selector ("push-button" style)
- Parking brake
- Mirror controls
- Accelerator pedal
- Brake pedal - The simulator should emulate brake performance appropriate to the scenario being conducted and the vehicle class being simulated. CDL-class vehicles should simulate an air-brake system, and other vehicle model simulations require an Automatic Braking Systems (ABS).
- Horn on steering wheel (with audio feedback through simulator)
- Headlight switch - Must be fully functional in the virtual world. The headlights must have both low and high beam capability. The headlight switch must be placed within the cab in a location consistent with factory installation.
- Adjustable driver's seat (horizontally and vertically adjustable) - Must include shoulder-lap seatbelt and a dashboard seatbelt indicator. Driver's seat should be mounted on a motion platform in order to provide driver feedback of vehicle handling and road conditions.

- Steering wheel with steering column - Must have “tilt” feature, and be approximately the same size as a CDL-class vehicle steering wheel. Steering wheel/system must include a “force feedback” system, including realistic “resistance”, “kickback” and “centering” forces while driving, and when hitting objects on road within driving scenarios. The steering wheel should return to the center position when released, and have its torque set so that it simulates the actual force required to turn a steering wheel of a vehicle’s class under driving and environmental conditions consistent with the active simulator system scenario.
- Joystick Control Apparatus
 - Must have similar look, feel, and functionality of controls used by SWMD
 - The joystick controls all of the lift functions and has 5 push button to control the grabbers, pump and packer panel.
 - The joystick can be moved forward, backward, sideways and at angle for the different functions and should be mounted for left hand operation.
- Joystick Movements
 - Lift Raise – Pull and hold joystick to raise the lift. Release joystick stops movement of the lift
 - Lift Lower – Push and hold joystick to lower the lift. Release joystick stops the movement of the lift
 - Lift retract – Move joystick to the left and hold to retract the lift. Release joystick stops movement of the lift
 - Lift Extend – Move joystick to the right and hold to extend the lift. Release joystick stops movement of the lift
 - Dump - Pull joystick down and to the left and hold for lift to move in and up to dump the container. Release the joystick to stop movement of the lift.
 - Undump - Push joystick up and to the right and hold for lift to move out and down to place container back on the ground.
- Trigger (Dead Man) - The trigger on the joystick is used as a dead man switch only. It must be depressed and held when operating the Joystick Lift Control functions (raise, lower, in, out functions. If it is released, the joystick lift functions will not operate.
- Load ejection controls – Lift gate and blade ejection controls should mimic those found in a typical garbage truck.

The following controls must be included within the driving compartment and should be operational. Scenario-appropriate controls may be simulated on dash but not on the screen and should be realistic in nature and operation.

- Oil pressure gauge
- Speedometer
- Odometer
- Engine temperature gauge
- Fuel level gauge
- Turn signal indicators
- Parking brake indicator

4.2.8 Mirrors

Side-view and rear-view mirrors (appropriate for vehicle model simulated) should be computer-generated, and scenario-appropriate images should appear in the rear-view (if applicable), left-side, and right-side mirrors as the driver would normally view them. The mirror images must be continuous and appear in real-time, with a level of detail that matches the “regular” or forward-facing view. The size and placement of mirrors must be appropriate to the vehicle-class being simulated. A remote mirror control should be located within the driver’s compartment, allowing the driver to make real-time adjustments to the side-view and rear-view mirrors.

4.2.9 The Virtual Environment

The virtual world should realistically simulate a range of driving conditions and environments including, but not limited to:

- “Naturally” displayed horizon
- Paved, unpaved, and damaged (pot-holed) roadways
- Single, double, and multi-lane roads
- Multi-lane freeways, with on- and off-ramps
- Static and dynamic traffic control devices (signs and simulated traffic signals), road markings, caution devices, and barricades. All traffic control devices and highway markings must meet federal guidelines.

- Bridges, grades (ascending and descending), hills, valleys, shoulders, on/off ramps, etc. All roads and highways in the virtual world must be designed in accordance with federal highway specifications.
- Crosswalks, fly-overs, railroad and school crossings
- Urban, rural, suburban, commercial, residential, and industrial, freeway, and “off-road” landscapes and layouts
- Road construction work zones
- Static distractions and visual obstructions (signs, buildings, billboards, etc.)
- Dynamic elements (pedestrians, animals, other vehicles, etc.)
- Ambient traffic with variable density. Except in “scripted” scenarios, all vehicular and pedestrian traffic models should follow “unpredictable” and random logic (e.g., “autonomous” traffic, following real-world logic.). The simulator system must be able to simulate the entry into moving traffic and intersection decisions.
- Weather and lighting influences (wind, rain, sleet, snow, ice, fog, darkness, daylight, dawn/dusk, glare, haze, etc.). System must also be able to simulate activated emergency vehicle lights in all of the included weather and lighting conditions, and must accurately simulate the effects of vehicle headlights in each of the included weather and lighting conditions.
- Vehicle malfunction (blown tire, failed brakes/ABS, overheating, low fuel, etc.)
- All crash and collision conditions must be accurately detected and simulated.
- All subsystems, such as vehicle dynamics, sound effects, visual effects, and vehicle mechanical effects, must be synchronized together in real time.
- Emergency scenes, such as fires, vehicle accidents, etc. must be able to be simulated. The emergency scenes must include the ability of the driver to maneuver around obstacles and/or observe conditions that would indicate emergency actions are necessary. For instance, a scenario such as an explosion in the garbage truck body with the load catching on fire would simulate the sound and smoke creeping from behind the cab. Similarly, in a scenario where two other vehicles collide requiring evasive maneuvering, of the simulator operator, would hear and see the collision.
- The simulator software, steering system, scenario-driven road conditions, vehicle class, simulated rate of travel, payload, and vehicle maneuver should appropriately replicate vehicle responses as dictated by scientifically-accepted physical relationships between Normal Force, Vertical Displacement, Tire Pressure, and Slip.

4.2.10 Instructor / Command Console and Control Station

The system shall include a separate instructor’s console from which he/she can load vendor-built scenarios, create and load Windows-based scenarios, load vehicle type, control the action of dedicated objects, include hazards and traffic warning devices within scenarios, initiate vehicle malfunction effects for the simulator, and operate all simulator control tools. The instructor must be able to select scenarios, alter scenario vehicle behavior, assume control of scenario vehicles from the Instructor Console at any time during the simulation, replay the scenario at variable speeds, pause a scenario, and jump to any point in any given scenario. The instructor console must include the ability to provide a CGI map of the driving area on the instructor console screen. The instructor console must include a scenario development software tool for the simulator system.

The instructor’s console shall be on a PC separate from the simulator and includes the computer, keyboard, and minimum 21” LED Monitor. The system should be equipped with an optical mouse, an on-board high-speed disk burner, and be able to read and write to DVDs, Blu-Rays, USB memory sticks, and SD memory cards. The system must have Ethernet and “Wi-Fi” connectivity. To aid in performance review and critique, the system should be able to save to the hard drive (or any compatible storage media) any scenario driven in the simulator for later playback.

From the console, the instructor should be able to select and load a scenario based on specific training goals, develop new scenarios, and modify existing scenarios. Additionally, the instructor should be able to control the behavior (velocity, placement, direction of travel, etc.) of any scenario’s dynamic elements (pedestrians, animals, etc.), weather conditions, or obstructions from the instructor’s console. The instructor should be able to track student’s progress and performance. The system should allow instructor to print and export to Excel reports, scores, and results.

4.2.11 Operating System

The system’s computing platform must be PC-based. All software tools for the Command (Instructor) console and the Operator (Simulator) console must be compatible with the Microsoft Windows operating system. The Command Console monitor should be a flat screen of at least 21” on the diagonal and have a high resolution, glare-free display. Software accompanying the system should include, at a minimum:

- Driver simulator system
- “Plain language,” user-friendly scenario-building software, accessible from the Instructor/Command console.

- A diverse library of pre-built scenarios, environments, driving conditions, vehicle types, driving hazards, pedestrians, animals, road signs, buildings, etc.
- A driving skills course scenario
- Driver-reaction measure, analysis, and evaluation
- Ability to score students on independent factors within each scenario, including speed, following distances, collisions and near-collisions, curb strikes, and adherence to traffic control devices.

A description of pre-loaded scenarios for each vehicle class included in the simulator system must be included in the vendor proposal. The simulator system must also allow a “Free-play” or “Drive-anywhere” mode of operation, where a driver can operate in the system’s virtual world independent of a pre-defined scenario. The instructor’s station and scenario development tool should allow the department to reconstruct and recreate actual accident scenarios. The system should be able to record a student’s driving performance for storage to disk or hard drive. Playback of stored sessions should include, at a minimum, student’s speed, road position, use of safety/warning devices, reaction time to hazards, and braking force applied. Playback should be possible from both the driver’s vantage point and a bird’s-eye view of the scenario’s progress.

4.3 Instructor Training

The vendor shall provide on-site training (“train-the-trainer”) for at least 6 designated instructors. The training must either be provided on-site, or all travel expenses for Department personnel to attend the training must be included. Training must be conducted by an experienced driver educator, with a minimum of 5 years experience in simulator instruction. The training must include the set-up and operation of the simulator, and the use of all provided software systems, including the scenario development tool. All fees for each training session shall be included in the proposal response. Pricing for additional trainings within the first year of deployment shall be included in Attachment B, Price Schedule.

4.4 Delivery and Installation

The vendor will deliver, install, and set up the simulator for proper operation and to the satisfaction of SWMD. Then, SWMD will issue a written notice of acceptance of the system which will indicate that the installation is complete. The cost of shipping, delivery, and installation of the simulator system must be included in the proposed fee. All system documentation needed to operate the system must be included with the simulator system delivery.

The anticipated location of installation is the second floor of building two at our Northeast Service Center located at 10303 Tool Yard, 78233. The location has a freight elevator. Delivery and installation must be completed within 120 days of contract award.

4.5 Warranty and Service, Preventative Maintenance, and Software Support

4.5.1 Warranty and Service

The manufacturer should provide at a minimum a one (1) year warranty including parts (hardware and software), labor costs and on-site technical support from the date of SWMD acceptance. There should be no hidden or additional costs for service and all parts and labor must be covered. Any repairs requiring on-site service should be completed by vendor-trained service technicians within 5 business days of the initial trouble detection.

4.5.2 Preventive Maintenance and Software Support

All preventative maintenance for one year after system acceptance must be included in the one-year warranty described above. The Manufacturer must provide a complete maintenance schedule and plan for the simulator system that SWMD can follow after this initial one-year period. Upon expiration of the initial preventative maintenance period, the vendor should offer extended preventative maintenance, renewable annually at a fixed fee, for a minimum five (5) years following the expiration of the initial preventative maintenance agreement.

The vendor should also make available to SWMD at no additional cost access to any manufacturer “user forums” that include the ability to correspond with other customers of the manufacturer, and to download other user-developed scenario material.

NOTE: Genuine copies of the system manufacturer’s agreements for warranty, service, preventative maintenance, and software support must be included with the proposal submission. Proposer must also include a break-out of all warranty, maintenance, support, and service fees.

Information Required On Invoice.

All invoices must be in a form and content approved by the City. City may require modification of invoices if necessary in order to satisfy City that all billing is proper and pursuant to the terms of the contract. Invoices are required to show each City Purchase Order Number. Invoices must be legible. Items billed on invoices must be specific as to applicable stock, manufacturer, catalog or part number (if any). All invoices must show unit prices for each item being billed, the

quantity of items being billed and the total for each item, as well as the total for all items on the invoice. If prices are based on list prices basis, then the list prices, the percentage discount or percentage surcharge, net unit prices, extensions and net total prices must be shown. Prompt payment discounts offered shall be shown separately on the invoice.

Payment by City.

In accordance with the Texas Prompt Payment Act, City shall have not less than 30 days to pay for goods or services. Time for payment, including payment under discount terms, will be computed from the later of: (1) the date the City receives conforming goods under the contract; (2) the date performance of the service under the contract is completed; or (3) the date the City receives a correct and valid invoice for the goods or services. Payment is deemed to be made on the date of mailing of the check. Payment is made in US dollars only.

This provision shall not apply where there is a bona fide dispute between the City and Vendor about the goods delivered or the service performed that causes the payment to be late, or where the invoice is not mailed to the address provided herein.

The payment amount due on invoices may not be manually altered by City personnel. Once disputed items are reconciled, Vendor must submit a corrected invoice or a credit memorandum for the disputed amount. City will not make partial payments on an invoice where there is a dispute.

NECESSITY OF TIMELY INVOICE / WAIVER OF PAYMENT. NOTWITHSTANDING THE FORGOING, THE CITY CANNOT PAY FOR ANY GOODS OR SERVICES WITHOUT AN INVOICE. VENDOR MUST INVOICE CITY NO LATER THAN 90 CALENDAR DAYS FROM THE DATE GOODS ARE DELIVERED OR SERVICES RENDERED. The total price for all goods and/or services is shown on the Price Schedule. No additional fees or expenses of Vendor shall be charged by Vendor nor be payable by City. The parties hereby agree that all compensable expenses of Vendor are shown on the Price Schedule. If there is a discrepancy on the Price Schedule between the unit price for an item, and the extended price, the unit price shall govern.

Change Orders. In order to comply with Texas law governing purchases made by municipalities, the following rules shall govern all change orders made under this contract.

Any change orders that become necessary during the term of this contract as a result of changes in plans, specifications, quantity of work to be performed, materials, equipment or supplies to be furnished may be approved by the Director, provided that such change orders:

- are made in writing, signed by the Director;
- do not involve an increase or decrease in contract price of more than \$25,000; and
- sufficient funds have already been allocated by City or are available to the Director to cover any increase in contract price.

Any other change will require approval of the City Council, City of San Antonio.

Changes that do not involve an increase in contract price may, however, be made by the Director.

No oral statement of any person shall modify or otherwise change, or affect the terms, conditions or specifications stated herein.

Termination.

Termination-Breach. Should Vendor fail to fulfill in a timely and proper manner, as determined solely by the Director, its material obligations under this contract, or violate any of the material terms of this contract, the City shall have the right to immediately terminate the contract in whole or in part. Notice of termination shall be provided in writing to Vendor, effective upon the date set forth in the notice. City may, in City's sole discretion, provide an opportunity for Vendor to cure the default. If City elects to offer an opportunity to cure, City shall provide notice to Vendor specifying the matters in default and the cure period. If Vendor fails to cure the default within the cure period, City shall have the right, without further notice, to terminate the contract in whole or in part. Such termination shall not relieve Vendor of any liability to the City for damages sustained by virtue of any breach by Vendor.

Pursuant to Ordinance No. 2013-12-05-0864, effective for solicitations issued after January 15, 2014, all solicitations issued by the City are subject to tracking of Veteran Owned Small Business (VOSB) participation.

For more information on the program, refer to the Veteran-Owned Small Business Program Tracking Form attached to this solicitation as Attachment F. Respondent must complete and return the attached Veteran-Owned Small Business Program Tracking Form.

RFCSP ATTACHMENT F

City of San Antonio

Veteran-Owned Small Business Program Tracking Form

Authority. San Antonio City Code Chapter 2, Article XI describes the City's veteran-owned small business preference program.

Tracking. This solicitation is not eligible for a preference based on status as a veteran-owned small business (VOSB). Nevertheless, in order to determine whether the program can be expanded at a later date, the City tracks VOSB participation at both prime contract and subcontract levels.

Certification. The City relies on inclusion in the database of veteran-owned small businesses (VOSB) maintained by the U.S. Small Business Administration to verify VOSB status; however, veteran status may also be confirmed by certification by another public or private entity that uses similar certification procedures.

Definitions.

The program uses the federal definitions of veteran and veteran-owned small business found in 38 CFR Part 74.

- The term "veteran" means a person who served on active duty with the U.S. Army, Air Force, Navy, Marine Corps, Coast Guard, for any length of time and at any place and who was discharged or released under conditions other than dishonorable. Reservists or members of the National Guard called to federal active duty or disabled from a disease or injury incurred or aggravated in line of duty or while in training status.
- A veteran-owned small business is a business that is not less than 51 percent owned by one or more veterans, or in the case of any publicly owned business, not less than 51 percent of the stock of which is owned by one or more veterans; the management and daily business operations of which are controlled by one or more veterans and qualifies as "small" for Federal business size stand purposes.

The program uses the below definition of joint venture.

- Joint Venture means a collaboration of for-profit business entities, in response to a solicitation, which is manifested by a written agreement, between two or more independently owned and controlled business firms to form a third business entity solely for purposes of undertaking distinct roles and responsibilities in the completion of a given contract. Under this business arrangement, each joint venture partner shares in the management of the joint venture and also shares in the profits or losses of the joint venture enterprise commensurately with its contribution to the venture.

The program does not distinguish between a veteran and a service-disabled veteran-owned business and is not limited geographically.

CERTIFICATE OF INTERESTED PARTIES (Form 1295)

The Texas Government Code §2252.908, and the rules issued by the Texas Ethics Commission found in Title 1, Sections 46.1, 46.3 and 46.5 of the Texas Administrative Code, require a business entity to submit a completed Form 1295 to the City before the City may enter into a contract with that business entity.

Form 1295 must be completed online. It is available from the Texas Ethics Commission by accessing the following web address:

https://www.ethics.state.tx.us/whatsnew/elf_info_form1295.htm.

Print and sign your completed Form 1295. Submit your signed Form 1295 with your response to this solicitation. Where requested to provide the name of the public entity with whom you are contracting, insert "City of San Antonio". Where requested to provide the contract number, provide the solicitation number shown on the cover page of this solicitation (e.g. IFB 6100001234, RFO 6100001234 or RFCSP 6100001234).

The following definitions found in the statute and Texas Ethics Commission rules may be helpful in completing Form 1295.

"Business entity" includes an entity through which business is conducted with a governmental entity or state agency, regardless of whether the entity is a for-profit or nonprofit entity. The term does not include a governmental entity or state agency. (NOTE: The City of San Antonio should never be listed as the "Business entity".)

"Controlling interest" means: (1) an ownership interest or participating interest in a business entity by virtue of units, percentage, shares, stock, or otherwise that exceeds 10 percent; (2) membership on the board of directors or other governing body of a business entity of which the board or other governing body is composed of not more than 10 members; or (3) service as an officer of a business entity that has four or fewer officers, or service as one of the four officers most highly compensated by a business entity that has more than four officers. Subsection (3) of this section does not apply to an officer of a publicly held business entity or its wholly owned subsidiaries.

"Interested party" means: (1) a person who has a controlling interest in a business entity with whom a governmental entity or state agency contracts; or (2) an intermediary.

"Intermediary," for purposes of this rule, means a person who actively participates in the facilitation of the contract or negotiating the contract, including a broker, adviser, attorney, or representative of or agent for the business entity who:

- (1) receives compensation from the business entity for the person's participation;
- (2) communicates directly with the governmental entity or state agency on behalf of the business entity regarding the contract; and
- (3) is not an employee of the business entity or of an entity with a controlling interest in the business entity.

Publicly traded business entities, including their wholly owned subsidiaries, are exempt from this requirement and are not required to submit Form 1295.
