V. SERVICE AGREEMENT

5.1 In the event the City annexes the Annexation Area pursuant to this Agreement, the Parties agree to the specific provisions under this section which shall constitute an “Agreement Regarding Services” pursuant to section 43.0672 of the Texas Local Government Code. The Parties agree that this Agreement Regarding Services shall run with the land and shall govern all municipal services to be provided to the Annexation Area and that the City shall be under no further obligation to negotiate services with any subsequent owners of any property located or developed within the Annexation Area, provided that upon annexation of the

Annexation Area, if the municipal services have changed or otherwise include additional services not referenced herein, the City will provide all municipal services to the Annexation Area that apply to other properties located within the city limits within no more than 3 years from the date of annexation. The Agreement Regarding Services shall survive termination of this Agreement only to the extent the City annexes the Annexation Area pursuant to this Agreement.

In general the Agreement Regarding Services includes three service components: **(1) Annexation Service Requirements, (2) Additional Services and (3) a Capital Improvement Program.** Providing services includes having services provided by any method or means by which the City extends municipal services to any other area of the City. This may include causing or allowing private utilities, governmental entities and other public and private non-profit service organizations to provide such services by contract in whole or in part. It may also include separate agreements with associations or similar entities. Services are provided and fees are assessed in accordance with the City's Code of Ordinances, as may be amended. Notwithstanding any provision herein to the contrary, municipal services will be provided pursuant to the requirement of the Texas Local Government Code Chapter 43.056(g).

1. Annexation Service Requirements – The following services will be provided in the Annexation Area commencing on the effective date of the annexation for full purposes, unless otherwise noted.

A. Police Protection – The San Antonio Police Department (SAPD) will provide protection and law enforcement services in the Annexation Area within the time frame established in section 5.1.

These services include:

- Routine patrols and responses;
- Handling of complaints and incident reports;
- Special units, such as traffic enforcement, criminal investigations, covert operations, K-9 Unit, Family Assistance Crisis Teams, Bomb Squad, and Special Weapons and Tactics Team (SWAT); and
- Any other services or programs provided to the citizens of San Antonio at the time of annexation.

The Annexation Area will become part of an existing patrol district based upon factors such as the size of the area, population, and the expected number of calls for service. These factors will also determine the need for hiring additional patrol officers to ensure all patrol districts are adequately staffed 24 hours a day, seven days a week, and to maintain an average response time pursuant to the requirement of the Texas Local Government Code Chapter 43.056(g). SAPD San Antonio Fear Free Environment Unit (SAFFE) officers will be available to meet as requested to discuss police issues.

Police Substations are responsible for a Patrol "Service Area," under the command of a Captain. These Service Areas are divided into Patrol Sections. The Patrol Sections, with supervisory responsibilities assigned to Sergeants, are divided into "Patrol Districts." The "Patrol Districts" are geographically defined areas established for several reasons, including but not limited to:

- Serving as a manpower distribution tool based on call volume, population, area size, and geographic variables;
- Providing a means of establishing primary responsibility to individual officers, during their tour of duty, for various activities within a specific geographic area; and
- Providing an efficient and effective means of assigning, identifying, and locating officers, within a generalized area, using currently available technology.

The Annexation Area will be served by the substation assigned to that geographic area. There is no specific number of officers that can be assigned to a patrol district. Patrol districts are staffed with at least one officer, 24 hours a day, seven days a week. Many times multiple officers are assigned to single districts.

Police services are initiated by on-sight officer activity, citizen requests, and any other means available. The most common means by which officers receive their assignments is through direct supervisory command and radio/computer transmissions by police dispatchers.

B. Fire Protection and Emergency Medical Service (EMS) – The San Antonio Fire Department (SAFD) will provide fire protection services and EMS service as provided by requirements of the Texas Local Government Code Chapter 43.056(g). Service will be provided through the use of fire engines, ladder trucks, full-time and peak period EMS ambulances, Medical Officers and Chief Officers. SAFD will be providing fire protection and EMS from the station assigned to that geographic area.

C. Solid Waste Collection Services – Solid Waste Collection services are provided and fees are assessed in accordance with Chapter 14 of the City's Code of Ordinances, as may be amended. Fees for services are assessed monthly on CPS Energy Utility bills. If private collection services are used, the City solid waste fees will not be assessed. Additionally, such services will be provided in accordance with Section 43.0661 of the Texas Local Government Code.

Commercial Solid Waste Services – The City's Commercial collection for garbage are available on a case by case basis for qualifying businesses in a manner similar to residential services. Bulky item, brush and bagged leaf collections are not provided to businesses. If the City-provided commercial service is not desired, businesses may utilize private service providers.

D. Operation and Maintenance of Water and Wastewater Facilities – San Antonio Water System (SAWS) will maintain and operate the public water and wastewater facilities that are within its certified service area. Routine standard maintenance of the facilities is

performed on a scheduled basis. Emergency maintenance and repairs receive immediate attention, and are available 24 hours a day, 7 days a week. The facilities will be maintained and operated in accordance with standard SAWS policies and procedures, and under the provisions of the SAWS Utility Service Regulations for the extension of facilities.

SAWS Monthly Rates – The SAWS rate structure is designed to provide balance between residential and business rates and to encourage conservation with rates that increase at higher levels of consumption. SAWS customers, after annexation, will pay the lower Inside City Limit rate as opposed to the Outside City Limit rate.

SAWS Water Conservation Programs and Rebates – SAWS water conservation education programs and rebates are available to SAWS customers. Currently commercial customers account for 6.0% of the customer base and 35.1% of SAWS' annual water sales, there is great potential for water savings through commercial conservation programs. Commercial customers also have access to water conservation education and incentives. There are programs to make irrigation systems more efficient and customer rebates for big projects that address operational efficiencies. Detailed information on these and other programs can be found on the SAWS website at www.saws.org.

Water service and wastewater service will be provided to the Annexation Area. Notwithstanding any provision herein to the contrary, this Agreement will not terminate, reduce, or otherwise affect any approved Equivalent Dwelling Units (“EDUs”) allocated to the Annexation Area or any Utility Service Agreement (“USA”) applicable to the Annexation Area.

E. Operation and Maintenance of Roads and Streets, including Street Lighting –

The Transportation and Capital Improvements Department (TCI) is responsible for the maintenance and repair of streets, bridges, alleys and related infrastructure within the City’s jurisdiction. Curbs, sidewalks, driveway approaches, curb ramps, and other street infrastructures are constructed in accordance with the City and the Americans with Disability Act (ADA) standards. The IMP provides the City a structured program schedule, potential for additional multiple year contract awards and improved utility coordination. During the budget process for each fiscal year of the City, the IMP is presented to City Council for approval. Amendments may occur throughout the year due to coordination with utilities or unforeseen conditions, such as inclement weather. The goal of the IMP is to provide the best possible maintenance for the City.

"Call back" service is provided 24 hours a day, 365 days a year for emergency repair of critical regulatory signs. Requests for signage should be called into the City's 311 Call Center.

Storm Water Utility – The Storm Water Utility is housed within the TCI Department. The Storm Water Utility is responsible for drainage services as well as the installation, operation, and maintenance of drainage infrastructure throughout San Antonio.

The Storm Water Utility Fee is intended to cover capital and maintenance expenses associated with drainage projects and fund operational services related to the Municipal Separate Storm Sewer System (MS4) Permit as required by Federal regulations. More information about the storm water rate plan is available at <http://www.sanantonio.gov/TCI/Projects/Storm-Water-Fee>

The storm water utility fee is billed by SAWS on behalf of the City. Services are currently provided by the SAWS, in accordance with the SAWS's approved business plan and as limited by applicable codes, laws, ordinances and special agreements. Storm Water fees will be assessed for the subject property.

Street lighting – The planning of public street lights is coordinated by the City's Development Services Department (DSD). The City assumes the cost of electricity for public street lights.
