Re: Atlas 14, Volume 11 – New Precipitation Data

Dear Jake:

Professional Engineers in Private Practice (PEPP) Bexar Chapter would like to state we are in agreement with the City's rollout plan for the implementation of the recently issued rainfall data (Atlas 14) by the National Oceanic and Atmospheric Administration for the City of San Antonio.

We understand the new data impacts many municipalities in the State and wish to thank the City of San Antonio for proactively recognizing the impact of the report and creating a reasonable plan to accept and implement the new data. The multiple meetings your staff held with the engineering and stakeholder groups in the City should help make the transition to the new criteria as smooth as can be expected.

Thank you for your continued efforts and cooperation with the engineering community in San Antonio.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Eric Neuner', written over a light blue horizontal line.

Eric Neuner, P.E.
PEPP Chairman
