	My education up to secondary learning was accomplished in Jamaica. I also completed flight training in the Caribbean, and obtained my Private Pilot license in 2012. I completed my Freshman year

Describe your Educational history.	<p>of college at Embry-Riddle Aeronautical University, Daytona Beach, Florida campus. I studied Aeronautical Engineering from there from August 2009 to May 2010. I joined the military after migrating to the United States in 2013, and I started my Associates in Aviation Maintenance a year after. I completed my Associate degree at Embry-Riddle Aeronautical University (Worldwide) in March 2017. I just recently completed my Bachelors in the same discipline with a Safety Specialization. In May I will begin a Masters of Business Administration with a Data Analytics concentration at St. Mary's University here in San Antonio.</p>
Describe your Professional History & Certification designations (Current and historical).	<p>My first job was in the Jamaica with a local flight school, Caribbean Aviation Training Center, where I also completed my private pilot training. In my Office Administrator role, I managed the office procedures, maintained the company website and performed accounting duties. I moved to the United States and worked in Retail for 6 months before joining the United States Navy. I served 4 years as an Aircraft Mechanic. The last 2 years of my career I had an increase in my responsibilities serving as a Collateral Duty Inspector, a Collateral Duty Quality Assurance Representative, and an Operations Manager. I worked as an Aircraft Mechanic at The Boeing Company for 18 months, and I participated in several safety meetings and provided guidance on environmental safety through bi-weekly publications. I obtained both the Aircraft Mechanic, Plumbing and Hydraulics and Airframe Mechanic Certificate of Completion of Apprenticeship through the United States Department of Labor. As mentioned before, I am also a licensed Private both, certified by both the Jamaica Civil Aviation Authority (JCAA) and the Federal Aviation Authority (FAA).</p>
	<p>Since joining the military, I have been very active in community involvement and developmental activities. I served as the Vice President of the Junior Sailors Association at HSM-40 in Mayport, Florida for several months. The Association's efforts were focused on community cleanliness and providing mentorship and development opportunities to local and at risk youth. I participated in numerous beach clean ups with my previous command in San Diego, California as well. I volunteered outside of my unit as well, devoting my time to the Northern Florida School of Special Education during their Spring Fling Carnival and Fish Fry in April, 2016. I also</p>

<p>Describe your Volunteer Experience &amp; Community Service</p>	<p>supported the National MS Society in the Jacksonville Walk for Multiple Sclerosis. In the last few months before separating from active duty, I extended my help to the Morale, Welfare, and Recreation (MWR) Naval Air Station Jacksonville Navy Flying Club performing aircraft maintenance on the club's Piper Cherokee aircraft. My volunteer efforts continued outside of my military service, as I am always seeking to assist in mentoring youth and providing assistance to the under represented. My employment with The Boeing Company provided me with the opportunity to partner with members of the Boeing Black Employee Association in mentoring youth in San Antonio. I assisted and coordinated a few events as a member of the group. I also volunteer with the Women in Aviation International, Alamo Chapter here in San Antonio. I serve in other local organizations such as the Women Veterans of San Antonio and the Mission Continues to empower and provide relief for veterans and the communities they occupy.</p>
<p>Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:</p>	<p>I am very passionate about the Aviation and Transportation Industry. My experience will highlight this fact. I want to do more for the city of San Antonio, and the best way I know how is by networking with the movers and shakers in the industry. I do believe my wealth of knowledge and experience will be of great benefit to the city. In addition, I also believe that my participation on a commission and as a board member will enhance my skills and provide an opportunity for growth in the industry. I am also eager to be apart of the growth of women in San Antonio. It is my own enthusiasm to grow and learn that inspires me to want to help others achieve the same for themselves. As an immigrant, and an African American woman I understand the struggles even more so of the underrepresented here in America, and more specifically in San Antonio.</p>

# MARSHA HENDLER

Marsha Hendler is the President and CEO of TerraFina Energy, a Texas independent oil company. It was not as much that Hendler found the oil industry; instead, it found her. As the Eagle Ford Shale boom hit Texas, Hendler was enthralled in her marketing firm and began to represent operators and service companies that were joining the boom. The more she learned the more she wanted to know and soon she found herself completely enthralled in the industry. With urging from several wildcatters and operator's she soon found herself applying for her operator's license with the Texas Railroad Commission, and TerraFina Energy was born. In addition to her role with TerraFina, Marsha also serves and the Managing Partner for SMR Energy Partners.

Through long hours...many of them under the hot Texas summer sun, Hendler learned, and continues to learn, the oil business. "People talk about the glass ceiling, and I certainly experienced it from time to time in my previous corporate life, but I've never seen it in the oil field. From day one it was clear to me there was no glass ceiling and my only limitations would be my own reluctance and nothing more. This is a great industry. I am now focused on building the largest woman owned independent oil company in Texas. "

"I've been asked a number of times if I am the first woman operator in Texas and the answer is certainly not. I do believe however, that I am the first operator - man or woman - with a Bachelor of Science in Hotel and Restaurant Management," remarked Hendler. "My first career was in the hospitality industry and I am learning every day how it has prepared me for responding to land and mineral owners. It's just like taking care of a hotel guest."

Hendler has always been an active in San Antonio serving on a number of local Board of Directors including the North San Antonio Chamber of Commerce, and the Association for the United States Army. At the request of Mayor Julian Castro Ms. Hendler serves as a member of the City of San Antonio's Airport Advisory Commission. She is an active member with the Texas Alliance of Energy Producers, the South Texas Wildcatters, and the South Texas Women's Energy Network. Hendler was inducted into the Order of the Cascaron; the highest honor given to Fiesta volunteers, and is active with the San Antonio Stock Show and Rodeo's International Committee, and a member of the Daughters of the Republic of Texas. In November 2013, Hendler was inducted into the University of Houston's College of Hotel and Restaurant Management distinguished alumni organization, Eric's Club.
