Describe your Educational history.	I graduated with a B.S. from St. Mary's University in 2008 and then obtained my Medical Degree (2002) from the University of Texas Medical Branch in Galveston. I went on to complete a Pediatric Residency with the Air Force in Biloxi, MS and then completed a Fellowship in Allergy/Immunology (2008) at Wilford Hall Medical Center.
Describe your Professional History & Certification designations (Current and historical).	After completing 9 years as an Active Duty Air Force Physician, I was honorably discharged in the rank of Major and went out in the civilian sector to open my private practice (2011) in Allergy/Asthma/Immunology. I was recruited by Children's Hospital of San Antonio as Chief of Allergy, Immunology and Rheumatology where I helped build that department from 2014-2017. I have been a small business owner since 2011, opening up both an Allergy, Asthma and Immunology Private Practice (STAAMP Allergy) and a Clinical Trial Research Center (STAAMP Research). I am dual board certified by the American Academy of Pediatrics and the American College of Asthma and Immunology.

Describe your Volunteer Experience & Community Service	I volunteer my time on various community, state and national boards and commissions as detailed above. I also volunteer time at free asthma clinics on the Southside of town and offer free asthma screenings and allergy testing to under-served areas. In collaboration with Metro Health I helped develop and secure funding for a free home based asthma intervention program for high risk asthmatic children in our city and continue to work in an advisory capacity to the program.
Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	VIA serves at the only mass transit option in San Antonio and plays a key role in ensuring that our community is able to connect to all parts of our city. This has proven to be vital in the patient care that I deliver as many people in our community rely on these services to have access to medical care. Mass transit in any big city, serves as a way to support economic strength, connect communities to opportunity and improve quality of life for their citizens. As San Antonio continues to work on creating both a transit plan and climate action plan that will be feasible and sustainable, VIA will serve as a primary stakeholder and leader in these endeavors. They have already taken steps in the implementation of efforts that focus on the reduction of vehicle emissions and development of an Environmental and Sustainability Management System. Any future transit plan will need to continue to connect our community in the most environmentally friendly way and surpass any barriers that exist secondary to economic segregation. The importance and impact of these plans to the future of our city require that the board is representative of our diverse community and that we involve community members that represent these diverse voices. It would be an honor for me to be able to serve in this capacity and I feel the my background as a Latina, small business owner, veteran and physician will allow me to bring a unique and valuable perspective to the conversation. I am committed to the future of our city and as a native San Antonio and I feel that it is my duty to give back to the community that gave me the opportunities to be where I am today and to a city that I love and consider home.
