This Certificate of Exemption is executed and filed with the Finance Department as follows:

1. The undersigned is authorized to approve an exemption.
2. An exemption according to Section 252.022 of the Local Government Code exists. More specifically, the following event has occurred:

The San Antonio Immunization Repository System (SAIRS) is a confidential, population-based, database that contains a record of immunization doses administered by participating providers to persons residing within the San Antonio and Bexar County Area. This system requires decommissioning because it has been replaced by an Electronic Health Records system (ezEMRx) that was implemented in February 2018 by CDP. The ezEMRx application will be the new system of record for immunizations in the areas covered by the Metropolitan Health District. CDP has analyzed and assessed the SAIRS dataset. CDP's proposed solution is to import of SAIRS data into the ezEMRx application. The ezEMRx software application is a proprietary system and the proposed solution import can only be developed and implemented by CDP. Total cost for the data migration will be \$147K. Licensing model has been augmented to accommodate true user / roles accounts for an estimated annual cost at \$180K. Additionally, Revenue Cycle Management costs estimated at \$30K. Licensing model will be evaluated for fluctuation in # of users within the system to adjust the monthly licensing costs.

3. Because the exemption stated above exists, the City of San Antonio intends to contract with

CDP

which will cost approximately \$ 1,197,000.00
