Describe your Educational history.	I graduated from Incarnate Word High School in San Antonio and went on to graduate from The University of Texas Austin with Bachelor Degrees in History and Government. I am currently considering continuing my higher education and pursuing a Master's in Business Administration.
Describe your Professional History & Certification designations (Current and historical).	For most of my professional career I was an administrative assistant, legal assistant and paralegal. Most of my jobs, in some part, involved marketing in some form and that was something that I extremely enjoyed. In October 2016, as I was set to give birth to my second child, I was contacted by a gentleman who was interested in my marketing skills. We met in December 2016 to discuss his needs and in January 2017 I began working with him. Wanting to continue to expand my clientele, I formed my company BBCre8ive in 2018 and have been working as President and Founder of BBCre8ive since then.
Describe your Volunteer Experience & Community Service	As a young adult, I volunteered with various organizations within our community, including but not limited to, Ronald McDonald House Charities, Any Baby Can and Habitat for Humanity. I admittedly took time off when I had my children and focused

	<p>on them when they were small. In 2017, I felt the need to once again get involved in my community as my children were older and less dependent on me. However, I was not sure how, exactly, to reenter and how best to offer my skills, talent, passion and knowledge. Enter the Latina Leadership Institute (LLI), a program of the San Antonio Hispanic Chamber of Commerce. Through LLI, I was able to not only gain my footing, once again, in my community but it gave me opportunities I wouldn't otherwise have. Now I serve on various Boards and Committees following my passions and truly helping the community I live in.</p>
<p>Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:</p>	<p>Although I currently serve on numerous nonprofit boards, I would like to expand my community service to city boards and help affect change within my city on a municipal level. As a longtime resident of San Antonio, I understand the importance of SAWS and will bring fresh ideas to ensure that SAWS fulfill its mission for sustainable, affordable water services. As a customer who has had some difficulties when dealing with SAWS, I would like to assist in finding a way to better relations, and communication between SAWS and the people they serve. With all the good that SAWS does in the community, it is also important to address the problems and concerns so that SAWS is truly seen as a leader in delivering responsible water services for life.</p>

Describe your Volunteer Experience & Community Service	I have served on the board of CI:Now since it's incorporation as a 501c3 non-profit and was the initial chair of the board. Prior to that I was on and served as the chair of the unincorporated CI:Now advisory committee and provided leadership to incorporate the organization. https://cinow.info/ The role of Texas State Demographer is an unpaid appointment and I have contributed many, many hours in preparation of data and consultation for the State (agencies, legislator, Governor's office), counties, cities, professional and public interest associations, profit and non-profit corporations in this role.
Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	My interest in water has been driven by concerns about population growth and associated rising demand for water (and other challenges associated with population growth). I have been conducting research on residential water consumption with a focus on San Antonio and Austin partially supported by a grant from the National Science Foundation. I have a fairly thorough understanding of residential water consumption in San Antonio but less of an understanding about commercial and industrial consumption. The foci of my understanding has been on both conservation and affordability. Currently I am working to publish a research article that examines differences in average winter and summer residential water consumption and breaks difference into irrigation and swimming pool associated consumption. If I am selected to serve on the SAWS Board, I will bring a strong data driven perspective toward understanding multiple aspects of water demand, supply, and operations. I have strong commitments to serving the public, striving for efficiency, transparent and data driven decision making, and addressing issues of inequality. I work hard and follow through on my commitments.
