Describe your Volunteer Experience & Community Service	<p>Board of Trustees, CPS Energy, March 2009-January 2019 Appointed by then-Mayor Phil Hardberger and the San Antonio City Council as Trustee of the CPS Energy Board on March 19, 2009. Served two five-year terms. The CPS Energy Board of Trustees, in accordance with bond ordinances, governs CPS Energy, which is the nation's largest municipally owned energy company in providing both natural gas and electric service. The Board consists of four citizens representing the four geographical quadrants of the city of San Antonio and the mayor of San Antonio who serves as an ex-officio member. Represented San Antonio's southwest quadrant. Served as Chairman of the Board of Trustees in 2013 and 2014. Served on the following sub-committees: Audit and Finance Board Nominations Employee Benefits Oversight Operations Oversight Personnel (CEO search) Board of Trustees-SA Energy Acquisition Public Facility Corporation, March 2009- January 2019 Served on the board of the SA Energy Acquisition Public Facility Corporation. This entity is in charge of providing natural gas that is dedicated for use in CPS Energy's gas distribution system pursuant to a take or pay arrangement between CPS Energy and SA Energy Corporation. Undergraduate Education Advisory Committee (UEAC)-Texas Higher Education Coordinating Board, September 2017-present Appointed by the Texas Higher Education Coordinating Board to serve a three- year term (term ends August 31, 2020). The UEAC serves as a forum for problem-solving and the generation of good ideas to improve undergraduate education that reflect the goals of Texas higher education plan, 60x30TX. UEAC provides advice and recommendations to the Board regarding policy the Board and institutions should take to enhance undergraduate education in Texas. Co-Chair, Workforce and Education Council, San Antonio Chamber of Commerce, January 2019-present. The Education and Workforce Council leads the business community and educators in partnerships that impact public education, expand access to higher education, and develop a 21st century workforce to successfully compete in the global economy. The council also develops strategies and policy to secure a workforce ready to meet the needs of San Antonio area employers. Through my participation as co-chair, I am also a member of the chamber's board of directors and executive committee. Vice-President, Westover Woods Homeowners Association 2013- present</p>
Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	<p>Water is the lifeblood of San Antonio and the state. Access to plentiful water is a necessary precondition for a thriving economy and an expanding urban population. The 2012 state water plan estimated that Texas would face a shortfall of 2.7 trillion gallons of water a year by 2060. SAWS has been working on plans to meet the needs of San Antonians through the development of diverse and innovative water supplies. I would like to add to that momentum by serving on the board to ensure that the citizens and businesses of San Antonio are provided with a plentiful and an affordable water supply and to ensure that conservation methods are utilized at the same time. I have been a life-long resident of San Antonio and care deeply about my community.</p>

	<p>Having served as a trustee on the CPS Energy board for 10 years, I feel that I provided contributions that solidified CPS Energys position as a low-cost supplier of electricity, maintained CPS Energys competitive advantage, fostered our communitys economic development, and helped CPS Energy prepare for the challenges of the future. I would like to help San Antonio Water System achieve similar goals when dealing with water policy. I was a very team-oriented board member at CPS Energy and worked well alongside the four mayors that I served with on the board during my 10-year tenure. I played a role in the selection of two CEOs and six board members and supported the board in the appointment of 27 Citizens Advisory Committee members. If afforded the opportunity to serve on the San Antonio Water System board of trustees, my hope is that I can provide business guidance and leadership to continue moving SAWS in the right pathway concerning water policy.</p>

<p>Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:</p>	<p>The simple reason I am seeking this appointment is to serve the City of San Antonio in yet another capacity. Having served previously on the Steering Committee for the Climate Action and Adaptation Plan, I have become more engaged with various communities and constituencies across the City. This engagement has taught me the invaluable role of citizens and stakeholders in securing a sustainable future for our great city. San Antonio Water System (SAWS) provides an essential service to the City's residents and businesses. In my 16 years as a San Antonio resident and a SAWS customer, I have observed that the governance of SAWS, with its diverse demand and supply characteristics, requires a dedicated, holistic, and balanced approach to planning and operational decision-making. I am motivated by this challenge, and I welcome the opportunity to serve as a SAWS trustee.</p>

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	San Antonio needs multi-faceted civic leaders who bring new ideas to the table and represent San Antonians. My family has deep roots in the city, with over five generations of contributions to civic life. I would be very honored to have the opportunity to continue the tradition of public service by contributing as a member of the SAWS Board of Trustees. As a technologist, entrepreneur, and cyber engineer, I have the skills to manage fiscal, personnel, and technical challenges. As a former city councilwoman, a parent, a caretaker for my elderly parents, a homeowner, and a long-time resident San Antonio, I have the perspective to represent the southeast quadrant of the city as a Board of Trustees member. I want to serve my neighbors, friends, and community members with whom I've established many warm and lasting relationships. My years of experience as a cybersecurity professional provides me with insight into many of the infrastructure and information challenges of large organizations. I have hands-on experience with privacy and security issues and a deep understanding of how to

	maintain the integrity of confidential data. As a critical service provider for the region, SAWS must manage to the highest resiliency standards. I have led teams supporting mission-critical information systems for the Department of Defense and Intelligence Community, where I built resilient systems and managed the project's regulatory complexity and fiscal limits.

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	<p>I am seeking appointment to this board to represent and advocate for the people in my community on the south. I have lived on the south side all my life with the exceptions of when my wife and I were in college. I understand the grass root problems our community faces and I want to be a voice for them. I also understand where the future of San Antonio is going and the measures that need to take place to ensure we are ready for the growth we are expecting. With my experience being a leader in the tech industry, leading a educational non profit, ranching, and connecting our communities on the south side I know I will be a great advocate and be apart of the change. For these reasons I would like to seek appointment to this board.</p>

Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	<p>SAWS is at an interesting juncture in its development and operation as a public utility. This, due to its having to confront a range of what are oftentimes competing factors and demands, such as population growth with attendant demands for expansion of the system management of a diverse water supply adherence to and promotion of a conservation ethic operation and maintenance and system upgrades/improvements to maintain competitiveness, quality, and regulatory compliance (e.g., EPA consent decree), to name a few. And, it must deal with these issues and challenges within San Antonios context of poverty, inequality, and now the Covid-19 fall out of high un-/under-employment and economic vulnerability. How will SAWS continue to operate as a well-run and well-managed business and protect its financial viability, while on the other, as a public utility, it must strongly internalize equity and social responsibility concerns in a city where, pre-pandemic, over one-quarter of children, one-fifth of families with children, and 40 of female-headed households with children live in poverty In this context, my reasons for seeking appointment to the SAWS Board of Trustees are both professional and personal. Professionally, my 35 years of working with public investment programs in agriculture and rural development, poverty reduction and natural resources management have given me the</p>

	<p>opportunity to have hands on experience with the challenges inherent in balancing economic and financial sustainability with social and environmental imperatives as well as the needs for good, transparent governance and accountability in institutions that are tasked with a public trust in serving their community. I also have a background and long experience in other relevant aspects of SAWS mandate and responsibilities, such as water resources protection and compliance, water management and conservation planning, and financial management, procurement and budgeting. Personally, as a citizen of this wonderful city, I feel a strong desire to participate in my community and contribute where I may...and I believe the SAWS Board is a place where I could make a useful contribution. In conclusion, I believe my professional background and interests will allow me to contribute to SAWS mission and in helping to weigh and balance the occasional tensions between strictly business and the need to further conservation, equity and social responsibility concerns.</p>

Describe your Educational history.	MBA, Harvard Business School BS Mechanical Engineering, Bucknell University
Describe your Professional History & Certification designations (Current and historical).	See attached resume for more detail. For the last 8 years I have been a management consultant with Wilson Perumal and Company (WP and C), a leading consultancy helping private and public/government organizations manage complexity. In that time, I have had the opportunity to advise the CEOs and Boards of Directors of large public and private institutions in making critical, enterprise-wide decisions, driving operational transformations, and rethinking strategies and operating models. Prior to joining WP and C, I worked directly for the CEO of AGA Medical (acquired by St Jude Medical) on wide-ranging strategic and direct operational projects, ultimately leading the manufacturing organization. As a member of the executive team, I provided regular updates to the Board of Directors, especially as the investor relations representative during AGAs IPO process. During my time between undergraduate and business school I was an engineer at Ford Motor Company, participating in a rotational development program in operations and then transitioning in to a program management role overseeing the launch of vehicles.
Describe your Volunteer Experience & Community Service	In the last 7 years, I have had the privilege to work closely with the management team at Hope Credit Union (Hope is a community development organization based in Jackson, MS that operates a credit union to reach and serve the underbanked in the Mississippi River Delta region) to help advance their mission. Working across the organization, I have helped them: implement Net Promoter Scoring to assess the impact they are having on members and identify areas for improved outreach, designed and implemented improved operating procedures to improve customer service and efficiency, implemented internal project management and governance, and conducted culture measurement and trainings to help develop a culture of operational discipline throughout the organization.
Please provide a brief narrative outlining your reasons for seeking appointment to this board or commission:	As our adopted hometown since 2014, my wife and I have come to deeply love San Antoniothe people, the sense of community, the hospitality and friendliness, the vibrancy of a growing city, and all of the great things there are to do here. Now I am looking for the opportunity to help San Antonio by leveraging my background and experience advising at the c-suite level in a meaningful way for our city. SAWS touches everyone in San Antonio and will be critical to its growth, so I cant think of a better way to have more of a direct impact than through the board of trustees at SAWS. My unique

	perspective, developed through broad industry and government experience (strategic and operational), can help with the challenges SAWS has faced related to project completions and public relations.
