List those goals you most want to accomplish immediately after graduating High School or within the next four years.	My plans change frequently as I am still figuring out what exactly I want to study in college. One thing I am sure of is to bring awareness to social issues that have been affecting young people in my community. I wish to dedicate my time to help the progress in bettering the issues and faults in the systems.
Given the opportunity to influence a significant change in San Antonio, what youth-related issue would you address?	I would address the need for better mental health counseling and support in high schools and middle schools. Students should be supported through issues they may not have control over.

	Problem students should receive support and help from mental health professionals rather than giving up on them. Sexual assault, cyber bullying, drugs, etc should be talked about more and updated with current examples that teens and pre-teens can identify their situations with.
What approach would you take? Who would you work with? Why this particular issue?	I would like to work with as many schools willing to change and progress. Giving support to students that may be struggling with such issues can completely change their outlook on their future. With support they will be willing to give themselves a second chance. These issues can affect anyone. Everyone should be given the chance to have a bright future ahead of them.
