Annual Contract for Fire Station Alerting System (FSAS) Maintenance & Support Including Future Build-Out Upgrades and Computer Aided Dispatch System (CAD) Component Maintenance & Support for US Digital Design Products 6100012078 SC

Brief Description of Item(s) and Use: This contract will provide the Fire Department with a contractor to provide Fire Station Alerting System (FSAS) Maintenance & Support Including Future Build-Out Upgrades and Computer Aided Dispatch System (CAD) Component Maintenance & Support for US Digital Design Products.

This contract will provide the maintenance and support for the proprietary station notification equipment provided by US Digital Designs, Inc (USDD). This equipment is installed into every fire station and provides the atter tones and information for the request for service. This automated system ties directly to the CAD and Radio systems to provide the information in clear voice and text for the personnel to be clearly informed of the need and the units requested.

Historically, maintenance and support services have been provided by US Digital Designs, Inc. through the CAD system integrator. With the successful integration of this system, the City has opted to pursue maintenance and support direct from the software manufacturer / developer.

These items are being purchased as a Sole Source according to the provisions of Texas Statutes Local Government Code 252.022.07. No other source can supply the items listed nor can any comparable item fulfill the same requirements.

The maintenance and support cost for the first year of contract, October 1, 2020 – September 30, 2021 is \$175,838.76. annually. The cost for the subsequent year and renewal options is \$184,816.02 annually.
