# Customer Experience – August 2020

- San Antonio International is first airport in the world to purchase and deploy virus and bacteria defeating Xenex LightStrike robot
- The Xenex LightStrike is the only ultraviolet (UV) room disinfection technology proven to deactivate SARS-CoV-2 – the virus that causes COVID-19.
- The LightStrike robot incorporates cutting-edge technology through bursts of intense UV light to destroy hard-to-kill viruses and bacteria found in common places and hard-to-clean spaces.
- Using environmentally-friendly pulsed xenon, the portable LightStrike can disinfect an area in less than 10-15 minutes without warm-up or cool-down time.
