Councilmember Rocha Garcia thanked Councilmember Gonzales for her filing of a Council Consideration Request (CCR) that requested a report on the status of women in San Antonio and for emphasizing the need for equal pay in employment opportunities. Assistant City Manager Coyle noted that the HB 5 associated with broadband development across the State had passed the full House, passed the Senate Committee and was effectively on the consent agenda for the Senate.

Mr. Coyle noted the following updates under the City's priority of Local Control:

Mr. Coyle stated that the following bills had passed various committee phases of the legislature:

- HB 872 – Utility customer information protection
- HB 1685 – Municipal Court Recorder

Mr. Coyle noted that preliminary census data for the State had been released but final data would be released by September 30, 2021. He stated that a special session would be required to conduct the redistricting of the State due to an increase of two seats being added to the House. He added that HB 3112 would create a number of transparency and public participation requirements around the redistricting process.

Assistant City Manager Coyle provided an update on the following bills of interest for the City:

- HB 1927 – Constitutional carry of gun
- HB 1818 – Source limits of pets for sale
- SB 29 – Transgender student participation in K-12 sports

Mr. Coyle noted that the SB 343 required information be put into a database and sent to Police departments when an individual has been issued a bond by a magistrate related to assault or carrying of a weapon. He stated that the bill had passed the full Senate and was scheduled for a floor vote in the House later that day.

Mayor Nirenberg called upon the individuals signed up to speak on Item 4.

Jack M. Finger stated opposition to the City’s hiring of lobbyists for issues not in residents’ interest and requested lobbying be stopped. He noted his concerns related to school choice vouchers funding and transgender sports participation.

Councilmember Courage asked if there was an account of Federal Relief Funds allocated to the State and of how the State had released the allocation of funds. Mr. Coyle stated that the City did not track the funding released to the State directly from the Federal government. He noted that certain programs such as the State broadband initiative were tracked, but other funds associated with school districts were not. He added that the City was working with school districts and other entities to assist or provide support for funding.

Councilmember Courage asked if it were likely that the legislature would mandate how funds would be allocated. Mr. Coyle stated that an amendment had been added to the State Budget where the

Legislature and not only the Governor would be able to direct relief funds as needed. He added that the amendment would still need to be passed by the Senate.

Councilmember Courage asked what the implications were for the City regarding the broadband development according to the proposed legislation. Mr. Coyle stated that he had been working closely with Information Technology Services Department Director Craig Hopkins related to the bill which was supported by the City. He noted that the bill would create a State Broadband Office that would address accessibility issues to broadband, education, and affordability for obtaining broadband for communities in need. Mr. Coyle added that Federal funding would fund the initiative and not the State.

Councilmember Courage asked what the implications would be if any of the Police defunding bills passed and the City reallocated funds for services outside the Police budget. Mr. Coyle stated that a large shift in services that would cause an overall reduction in the Budget could have implications to meeting requirements. He noted that the City had notified the State that it was currently evaluating Police responsibilities and the possible transfer of certain duties. He added that the Governor could review Budget adjustments on a case-by-case basis.

Councilmember Courage asked if the City's tax base would be impacted if Proposition B passed. City Manager Erik Walsh stated that there would still be a need for a Police department and did not anticipate making any major shifts because of a payment or salary issue that was provided under the Police contract. He added that he did not think that Proposition B would put the City in that position.

Councilmember Courage asked if Section 143 impacted the Budget related to Police incentives. City Attorney Andy Segovia clarified that Section 143 did not disallow incentives but provided for certain incentives to be allowed under a collective bargaining agreement. He added that it provided the ability to defend Budget cuts depending on policy standpoints.

Councilmember Gonzales asked for clarification on the release of State funds associated with school funding. Mr. Coyle stated that the American Rescue Plan had issued approximately \$18 billion for schools to assist with loss of learning that students may have experienced this past year due to COVID-19. He noted that the State released \$11.2 billion of the funding the day prior to include San Antonio area school districts. He added that the Federal funding did not offset the funding provided by the State under HB 3.

Councilmember Gonzales asked for a status on the legalization of marijuana. Mr. Coyle stated that he would provide more information once obtained.

Councilmember Pelaez asked City Attorney Segovia if the bill on pet sales would make the local lawsuit moot. Mr. Segovia stated that it would but that no lawsuits had been filed to date.

Councilmember Pelaez stated his concerns related to the State Attorney General's lawsuit claiming that the State's rights were violated by the Federal Administration's Rescue Act restrictions on funding associated with the defund the Police bill. He noted that the proposed bill would put restrictions on State funding and would hinder cities abilities to make policy or administrative changes associated with the Police Budget. Mr. Coyle noted that the item was a definition of preemptive controls which he felt would be voted on along party lines.

Councilmember Viagran asked what the City's strategy was in regard to the Police defunding bills to make sure certain items were taken out so not to be detrimental to local control of policy. Mr. Coyle stated that the City had offered language to legislators for considered amendments, and City staff had been careful to communicate that the City was not in favor of defunding the Police, but in favor of flexibility and appropriate responses to associated duties and budgets.

Councilmember Viagran asked what the next steps were for school districts in the release of Rescue Funds. Mr. Coyle stated that the City did not have direct input on the funding but would have staff reach out to the three largest school districts to determine their intents.

Councilmember Andrews-Sullivan asked for an update on HB 1877 related to affordable housing and vacant buildings and HB 782 associated with charter elections. Mr. Coyle stated that he would follow-up with the related information.

Councilmember Perry asked if the City would be reimbursed for the \$20 million that the City had allocated for internet services to local schools. City Manager Walsh stated that the City would not be reimbursed since this was part of the City's Budget allocation. Councilmember Perry asked that the City consider requesting for reimbursement. City Manager Walsh noted that the City would need to work closely with officials from Bexar County, school districts to make sure that all were trying to achieve the same thing in regard to broadband services.

Councilmember Perry asked if there were certain bills that CPS Energy or San Antonio Water System were pushing for at the legislature. Mr. Coyle stated that both utility organizations had been involved in legislature conversations and would follow up with more specifics after reaching out to them.

Councilmember Sandoval asked for a status on HB 4139 related to creating an office on health equity. Mr. Coyle stated that he thought it was moving forward to the House.

Councilmember Sandoval asked for clarification on the Federal Administration's position on the Medicaid Wavier Program and if it was going to affect funding for Texas and the ultimate vote for Medicaid. Mr. Coyle stated that it was widely thought that a special session would be needed to discuss the Medicaid expansion issue. He noted that the City had been vocal on the support of the bill but that responses had not been encouraging. He added that funding would run out in September 2021 if the bill did not pass.

Councilmember Viagran asked City Manager Erik Walsh to consider the Southside Independent School District in conversations related to broadband expansion efforts.

Councilmember Courage asked how proposed legislation regarding public facility corporations would impact the San Antonio Housing Trust. Mr. Coyle stated that the proposed legislation would separate the affordability requirements for public facility corporations to those set for private developers since keeping the same requirements could hinder the ability for viability for public development projects. He added that the proposed bills would keep the existing requirements in State law for a developer to build affordable housing. He stated that the City supported the bill as written.

Councilmember Andrews-Sullivan asked if racism had been declared a public health crisis by the State as done by the City of San Antonio and if any funding had been identified for community needs such as

healthcare. Mr. Coyle stated that the State had not declared racism as a public health crisis, but that the bill creating the Office of Health Equity may address that along with other issues of equity.
