Councilmember Warrick asked if the Gun Shot Detection Program had been proven to reduce gunshot violence throughout the country. Interim Police Chief Treviño responded the feedback they have received shows that it may be helpful but did not have a correlation of why. Councilmember Warrick asked when more homicides occur. Chief Treviño replied that they occurred in the warm summer months. Councilmember Warrick asked if the Body Worn Cameras would be more impactful in the higher violence areas. Chief Treviño replied that the Body Worn Cameras were being strategically placed with those that do not have any type of video technology. Councilmember Warrick asked if the additional services being requested for Animal Care Services (ACS) were currently being provided. Ms. Kathy Davis replied that they did not have an extensive educational program and only had one person assigned to visit schools and provide education. Councilmember Warrick asked of the funding for spay and neuter services. Ms. Davis replied that they had \$515,000 allocated for spay and neuter services but only one person to provide education to the community.

Chief Treviño replied that the program was being recommended as a Pilot Program that would cover primarily District 2 but also the West Service Area which encompassed Districts 1, 5, and 7. He stated that they would be the first city in the State of

Texas to implement the technology and would detect where gunshots are coming from. He noted that the location would be conveyed to the Communications Unit and Police Officers would be deployed to the area.

Councilmember Krier stated that he would like to learn more about the Gun Shot Detection Program. He asked staff about the cost of the Police and Fire Contracts. Maria Villagomez stated that the forecast presented yesterday assumed the City's March 20, 2015 Proposal; the City would have a \$1 Million deficit for FY 2016. She stated that they would be able to maintain a 15% General Fund Ending Balance every year of the Financial Forecast and would provide a surplus in FY 2017. She added that if the City of San Antonio accepted the Union's Offer of March 17, 2015, the City Council would be provided options to reduce General Fund Services or increase revenues. Councilmember Krier asked how the City of San Antonio could have five or more years of predictable balanced budgets. City Manager Sheryl Sculley stated that there were no guarantees and that they were required to have a Balanced Budget by City Charter. She noted that securing the Collective Bargaining Agreement would help maintain a balanced budget and without that; the City would be faced with large deficits. Councilmember Krier asked if additional streets and drainage funding would be restored beyond the level that was cut earlier this year. Ms. Villagomez confirmed that they were not recommending additional funding at this time.

Councilmember Warrick asked of the amount of additional funding available. Ms. Villagomez responded that \$1 Million in General Fund Contingency was available. Councilmember Warrick asked why \$1.3 Million had been presented the previous day. Ms. Villagomez replied that the list included the total amount that would be prioritized by the City Council.

Councilmember Treviño asked if the amendment would have an effect on the budget. Ms. Villagomez replied that they would have to cut \$200,000 from another program if the amendment was approved. Councilmember Treviño asked if the Gun Shot Detection Program would improve response times for Police Officers. Chief Treviño stated that it had the potential to be a valuable tool for the Police Department. Councilmember Treviño stated that he was supportive of the Pilot Program but expressed concern with taking funds from ACS or the Body Worn Cameras.

Councilmember Gallagher thanked Councilmembers Warrick and Medina for bringing this technology forward. He stated that he would support this effort in the future but could not support the amendment. Councilmember Saldaña added that he would like the benefit of a full presentation on the Gun Shot Detection Program before allocating funds.

Councilmember Medina noted that \$400,000 had been allocated toward the Gun Shot Detection Program the previous day and asked where said funds were allocated from. Ms. Villagomez replied that the list provided at the previous day's B Session was a list of all of the requests. She noted that based on the feedback received from the City Council, they had moved that item to be considered during the FY 2016 Budget Process. Mrs. Sculley added that they had moved up funding for Body Cameras based on the discussion during the B Session.

Mayor Taylor stated that this was a difficult conversation since there was never enough funding for all of the programs that the City Council would like to implement. She spoke of the importance of Economic Development to help deter crime and create more opportunities for the residents of San Antonio.

- 23.** An Ordinance amending the 2008 City of San Antonio Tax Increment Financing Program Policy. [Peter Zanon, Deputy City Manager; John Dugan, Director, Planning and Community Development]

Councilmember Saldaña asked for additional information on the Tax Increment Financing (TIF) Program. Mr. John Dugan reported that TIF referred to the primary community development tool that the city has to help renew neighborhoods. He explained that the funds were primarily used for Housing and Infrastructure and that projects were identified as part of a Project Plan. He noted that a Financing Plan was created to determine how the projects would be paid over the life of the Tax Increment District which was usually 20 years. He added that a TIF Board was established if the TIF was City Council Initiated and they worked with Planning and Community Development Staff to manage the TIF Boundary, Project List, and Finance Plan. He reported that an Audit was conducted last year which recommended that they establish a new policy that clearly separates Administrative from Overall Policy Criteria. Additionally, the new policy addresses the fee structure to ensure that it can pay for itself since it has been operating in a deficit the past few years. He noted that they would also establish a Governance Committee to manage the adoption of new Tax Increment Reinvestment Zones (TIRZ) or amendments to existing TIRZ. He added that the new policies recommended would apply to future TIRZ and not the current 20 TIRZ. Councilmember Saldaña asked how TIRZ or TIFs could help efforts to increase affordable housing. Mr. Dugan replied that if a neighborhood did not have affordable housing, they would be a high priority for a TIRZ.

Councilmember Gallagher asked of the TIF on Infrastructure compared to select Social Programs. Mr. Dugan replied that the Social Programs that have been approved were in TIRZ 11 on the East Side and were a small percentage of the total funding. He noted that the new policy would provide flexibility and allow adjustments to be made in the future. Councilmember Nirenberg recommended that representatives from the TIRZ Boards be a part of the Comprehensive Plan Technical Committees.

Councilmember Saldaña moved to adopt the proposed ordinance. Councilmember Viagran

seconded the motion. The motion prevailed by the following vote:

Christine Drennon stated that she had served on the Task Force and had written much of the Report before it was edited in the final series. She noted that although it was a quick process, she had voted in support of the recommendations. She added that there were two contrasting processes that threatened the Housing Stock which include Preferred Maintenance and Gentrification.
