ACTION ITEM FOR STAFF BRIEFING

City Clerk Vacek read the caption for Item 4:

4. A Briefing by the San Antonio Water System (SAWS) on the Vista Ridge Project to include but not be limited to the following topics: [Robert R. Puente, President and CEO, San Antonio Water System]
 - A. Vista Ridge Project
 - B. Meter Estimation
 - C. Rate Structure
 - D. Rate Challenge Petition

Robert Puente presented a Power Point and provided an update on various SAWS Projects. With regard to the Vista Ridge Pipeline, he reported that Abengoa would be selling 80% equity interest in the project to Garney Construction. He stated that Garney Construction had a 30-Year History in San Antonio and had been designated for Project Construction in the Water Transmission and Purchase Agreement (WTPA). He noted that Abengoa would retain a silent 20% Equity Share for money invested. He mentioned that Garney Construction would build the project to SAWS' Standards and would invest \$55 Million to get to Financial Close. He added that Garney Construction would receive an \$800 Million Bank Loan at Financial Close. He outlined the conditions required to be met and the SAWS Due Diligence performed.

Mr. Puente spoke of the alternatives available noting that they could take no action on the leadership change of Vista Ridge which would leave Abengoa to continue or fail. Additionally, they could terminate the contract for convenience or default leaving SAWS to procure/build the project. Mr. Puente stated that they would conduct further analysis as well as hold public discussions. He noted that SAWS Board would consider action in late April or early May. He added that the risk profile with Garney Construction was more favorable to SAWS and that costs would likely decrease from previous projections. He presented an update of the billing process noting that they had contracted with a Third Party Meter Reading Vendor. He stated that they had made staffing changes at the Call Center and with their Meter Readers. He noted that they were incorporating continuous

improvement methodologies and added an estimation indicator to bills for transparency purposes. He indicated that they were reviewing how they read meters and allowing customers to read their own meters. He reported that 99% of meters were read in the First Quarter.

Mr. Puente spoke of the petition filed with the Public Utility Commission on March 30, 2016 to review the San Antonio Rate Ordinance approved on November 19, 2015. He stated that SAWS was reviewing the validity of signatures and affected customers outside of the City Limits. He noted that SAWS would provide a more accurate customer response to price signals in the new structure based on summer usage. He highlighted the successful transition from BexarMet to SAWS which resulted in \$17 Million in savings. He thanked the City Council for their continued support.

Mayor Taylor called upon the citizens registered to speak.

Meredith McGuire representing the Alamo Group of the Sierra Club addressed the City Council in opposition to the Vista Ridge Project. She expressed concern that ratepayers would pay for the pipeline and with the public/private partnership.

Alan Montemayor asked the City Council to terminate the contract for the Vista Ridge Project noting that there were too many associated risks.

Rachel Hanes stated that she was a student at Trinity University and opposed to the Vista Ridge Project. She expressed concern with the contributions made to the City Council by Pape Dawson.

Duane Wilson, CEO of the North San Antonio Chamber of Commerce, addressed the City Council in support of the Vista Ridge Project. He noted that an adequate water supply was necessary to ensure economic development.

Nazirite Ruben Flores Perez addressed the City Council in opposition to the Vista Ridge Project.

Jack M. Finger addressed the City Council in opposition to the Vista Ridge Project. He expressed concern with the contributions made to the City Council by Pape Dawson.

David Klar addressed the City Council and asked that SAWS “Opt Out” of the Vista Ridge Project. He stated that the project was flawed and that the water was not needed.

Mayor Taylor thanked Mr. Puente for the presentation and stated that she did not have any questions at this time.

Councilmember Gonzales asked how much of the rate increase would be used to address aging infrastructure and how much would be used for the Vista Ridge Project. Mr. Puente replied that in 2016; only a small amount would be used for the Vista Ridge Project while the majority of it would be used for infrastructure. Mr. Doug Evanson added that less than one-half of one percent would be used for the Vista Ridge Project in 2016. Councilmember Gonzales asked of the life cycle of a pipe. Mr. Steve Clouse stated that there was not one specific measure and it depended on the material used when the pipe was originally constructed. Councilmember Gonzales asked how water from the Vista Ridge Project would affect the aging infrastructure. Mr. Puente stated that part of the rate increase would be used to upgrade the infrastructure and they would know more about how Vista Ridge would affect it once they start building the pipeline.

Councilmember Gallagher thanked Mr. Puente for the information and stated that he appreciated the great amount of transparency on the project. He asked how San Antonio’s Water Rates compared to other major cities. Mr. Puente replied that even with the rate increases approved in 2015; San Antonio Water Rates were the lowest of any major city in Texas. Councilmember Gallagher stated that it was important for ratepayers to understand that most of the rate increases were being used to address aging infrastructure. He expressed concern that those criticizing the Vista Ridge Project had not brought forth alternative solutions.

Councilmember Nirenberg stated that there had been some alternatives brought forth and asked of the progress on the Consent Decree. Mr. Puente replied that they continued to meet their milestones and that they were three years into the Decree. Councilmember Nirenberg asked how SAWS would assure that there would not be continued billing issues. Mr. Puente responded that the previous issues stemmed from lack of manpower but had since hired temporary and permanent workers. Councilmember Nirenberg asked if Smart Meters were included as part of the rate increase. Mr. Puente stated that they had been studying Smart Meters but they had not been deemed to be cost effective at this time. Councilmember Nirenberg asked how much debt Garney Construction would assume. Mr. Puente replied that they would assume \$8 Million to Bank of America. Mr. Evanson added that there had been a reference to a \$120 Million Loan drawn by Abengoa Vista Ridge that was being worked through by the banks. Councilmember Nirenberg asked if Garney Construction had the expertise to manage the project. Mr. Puente stated that they were an

experienced construction company and would hire the appropriate Law Firms and Financial Advisors to get them through the project. He added that they would not change the obligations associated with financial close scheduled for May 2017. He confirmed that SAWS would only pay for water received. Councilmember Nirenberg spoke of the importance of protecting ratepayers and asked when they would have results regarding maintaining Stage 1 Water Restrictions Year-Round. Mr. Puente stated that they would have that information during the next presentation to the City Council.

Councilmember Krier thanked Mr. Puente for the update and called upon SAWS Board Chair, Berto Guerra to speak of the importance of a long-term water supply for major industrial companies. Mr. Berto Guerra stated that a long-term water supply was extremely important to companies such as Toyota and its suppliers. He noted that water was important for their business but also for their employees and families. Councilmember Krier stated that the project was in the best interest of the City of San Antonio and stated that he would continue to support it.

Councilmember Treviño thanked Mr. Puente for the many meetings that SAWS Staff have attended. He asked how the City would not be responsible if SAWS had to take over the project. Mr. Puente stated that SAWS would be responsible for building the project if they had to and that SAWS would have to utilize bonds to pay for the project. He stated that the contract was currently structured so that SAWS would pay more for the water in order to transfer the risk. He added that SAWS would be required to ask the City Council for Bond Authority and that SAWS building the project was not a likely scenario. Mayor Taylor thanked Mr. Puente for the information and stated that she looked forward to continued dialogue on this important project. No action was required for Item 4.

ABSENT: 4 - Treviño, Viagran, Saldaña and Lopez

City Clerk Vacek read the caption for Item 11:

2016-04-07-0240

- 11.** An Ordinance approving revisions to Chapter 37 of the Municipal Code which governs the acquisition, use of, and disposition of city real property, including the correction of clerical and formatting items; clarifying items; combining various sections; and amending definitions. [Peter Zanoni, Deputy City Manager; Mike Frisbie, Director, Transportation & Capital Improvements]

Councilmember Nirenberg asked of the revisions being made to Chapter 37 of the Municipal Code. Debbie Racca-Sittre provided a summary of the revisions and stated that Chapter 37 could not be used to meet requirements of the Unified Development Code (UDC) or as a short-cut for any other Code Requirement. She noted that they would streamline processes to reduce administrative time, develop a cost of service, and benchmark with other cities. She added that they would relocate the Fee Table to its own section as well as remove the exemption from fees for government.

Councilmember Nirenberg asked what changes were being made to the power of the City Council over disposition and acquisition of property. Mrs. Racca-Sittre stated that they were not changing the power of the City Council as they could always bring up any issues. She noted that the revision to remove City Council Approval for SAWS or CPS Drainage Easement Requests was to remove the double standard noting that Private Entities did not require Council Approval for the same request. Councilmember Nirenberg asked of the Federal Rule on Wireless Siting. Hugh Miller replied that they were addressing same in the UDC and would be finalizing language soon. He stated that it would cover the process for when an entity wants to place a tower on City Property or add technology devices to a Traffic Light.

Councilmember Gallagher asked of the impact of allowing the use of Bexar County

Appraisal District Assessments in lieu of hiring an Appraiser. Mrs. Racca-Sittre replied that sometimes the money spent on an Appraisal is more than the property is worth. Additionally, she noted that appraisals can take 45 to 60 days which slows down the development process. She stated that they were recommending to take the properties on either side and apply a mathematical calculation to determine a square foot value. Councilmember Gallagher expressed concern that they would be required to use the Bexar Appraisal District for larger pieces of property. Mrs. Racca-Sittre stated that they were working on an amendment that would apply parameters based on wording in the UDC. Councilmember Gallagher asked of the impact of removing the exemption for fees for governmental entities. Mrs. Racca-Sittre stated that there was confusion with the wording in the current Code in that the Fair Market Value of the property could be misconstrued as a fee. She noted that the fees assessed were based on the cost for service and should not be waived; however, the City Council could waive fees as requested.

Councilmember Nirenberg moved to adopt the proposed Ordinance for Item 11. Councilmember Warrick seconded the motion. The motion prevailed by the following vote:

AYE: 8 - Mayor Taylor, Warrick, Viagran, Gonzales, Medina, Nirenberg, Krier and Gallagher
