BACKGROUND INFORMATION:

City staff annually reviews existing revenue sources and service delivery processes in order to identify both new sources of revenue and potential changes to existing revenues. The policy direction for the FY 2017 budget process regarding revenue adjustments focused on revenue changes that allow cost recovery from those who benefit from service (User Fees) as well as service areas that had not been adjusted in the recent past. The concept of cost recovery is to recover some or all of the costs associated with providing city services and programs at varying levels depending on factors such as the nature of the service provided, the population served, and the intended impact to the community.

ISSUE:

General Fund

The FY 2017 Proposed Budget includes increases to several existing fees and creates new fees and charges for service. These new and adjusted revenue items for the General Fund total \$181,688. The policy direction for the FY 2017 budget process regarding revenue enhancements focused on revenue changes that impact those who benefit from services (User Fees) as well as service areas that had not been adjusted in the recent past. Several categories of cost recovery and user fees were evaluated, including: Animal Care Services, Fire, Health, Library, and Parks & Recreation. Attached is a report that lists all the recommended fees/rate adjustments for the General Fund. Material in this report has been included in the FY 2017 Proposed Budget Document.
